KinectAir

The future of flying. The on-demand flight network.

Jonathan Ennis | CEO, KINECTAIR, INFINITIES VENTURES

We want to move people. Not just in space and time, but emotionally. KinectAir provides joyful and accessible on-demand experiences to everyone that needs to fly. We are building a network of aircraft and airports to move airfields using our intelligent, elegantly designed software.

Jonathan Ennis *CEO - Chief Executive Officer @ KinectAir*

Why you may want to support us...

- TEAM: We are a global team of aviation entrepreneurs led by Jonathan Ennis, an serial tech CEO
- TIMING: Planning passenger demand for direct air travel is essential to thriving aviation
- ON-DEMAND: Our flight-on-demand aircraft around hubs and access this more affordable, through a simple App
- SOFTWARE: We scale with AI-driven routing, demand generation, and ticketing
- CLEANER: We explore the most exciting hybrid & electric aircraft for clean air travel
- JOYFUL: Join us to be meaningful, helping us to fly and see a share in the future of aviation

Why Investors ❤️ us

Investors will be interested in this because...

KinetAir has charted its vision for democratization of aviation when we start to look at Beyond. I thought it was revolutionary then, and believe now, post COVID, there is a more impactful

Finally, someone is going to launch flights together, exploring all the underused local airfields.

As a pilot, and former founder and owner of Elite Flight Center in Minot, I know the value of relationship, service and an enthusiasm of all of origin, is big combat.

Jody Alone *CFO (Retired Cost efficient with remorse)*
