4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. (Please ensure that these descriptions are updated on the Company's Profile on www.otcmarkets.com).

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

The Company's focus is consumer based natural botanicals that elevate life's experiences. The flagship brand, Suncliff, is a leader in the sleep and wellness space and has successfully leveraged our innovations to establish multiple strategic partnerships. The Company continues to be focused on the core services, while developing new innovations for broader applications of cannabis and hemp-derived products. Greenlink/Suncliff are expanding rapidly into new jurisdictions and industries throughout the United States, Canada, and Europe. The Company is actively manufacturing products, with sales and distribution in sleep & wellness.

B. List any subsidiaries, parent company, or affiliated companies.

In May 2018, The Company approved a full stock swap merger acquisition of AGHWA, LLC. On May 2, 2018, the Company completed a preliminary Asset Purchase Agreement (AGHWA APA) with AGHWA, LLC. to acquire certain assets, brands, other intellectual I.P., equipment, real estate contracts and technology for service to legal licensed Cannabis operators within the state of Washington. AGHWA, now Roilty, currently licenses its CBD and other non-cannabis related IP to the Company.

C. Describe the issuers' principal products or services.

The Company's primary products are related to the Suncliff® family of experience products. Suncliff® is a premium lifestyle and experience brand focused on developing innovative products utilizing natural botanicals and hemp derived compounds. Suncliff® is a beautifully developed flagship brand, which has been featured in social media with millions of views and has quickly become the go to brand for innovation and customer education. In markets where legal cannabis is allowed GreenLink has successfully licensed its family of brands, formulas and Standard Operating Procedures ("SOPs"), one of the most tightly regulated sectors in the United States. Authorized Licensing agreements provide for the Company to act as a full-service resource for all non-cannabis ingredients, supplies or materials.

5) Issuer's Facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer, give the location of the principal plants and other property of the issuer and describe the condition of the properties. If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

Since June 1, 2018 through the date of this filing, our corporate offices have been located at 711 Court A, Suite #204, Tacoma, WA 98402 and are provided to us by Schmidtke & Associates at \$1,200.00 cost to us.

Since January 1, 2018, through the date of this filing, the Company has leased commercial agriculture land and facilities at cost \$6,000 per month through 1/31/2019 and reducing to \$5,833.00 beginning 2/1/19.

Since March 1, 2022 through the date of this filing, the Company leases 625 sf of flex warehouse space at 4786 1st Ave. S. in Seattle, WA. at a cost to us of \$2,000/mo.

6) Officers, Directors, and Control Persons

Using the table below, please provide information, as of the period end date of this report, regarding any officers, or directors of the company, individuals or entities controlling more than 5% of any class of the issuers securities, or any person that performs a similar function, regardless of the number of shares they own. **If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity in the note section.**

Include Company Insiders who own any outstanding units or shares of any class of any equity security of the issuer.

The goal of this section is to provide an investor with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial shareholders.

Greenlink International Inc.

Notes to Unaudited Financial Statements

For the Years Ended December 31, 2022 and 2021

NOTE 1 – ORGANIZATION AND DESCRIPTION OF BUSINESS

Greenlink International Inc. (the “Company”) was incorporated on July 21, 1998 under the laws of the State of Colorado as Newslink Networks TDS, Inc. On April 23, 1999, the Company changed its name to Westsphere Asset Corporation, Inc. On April 2, 2010, the Corporation changed its name to E-Debit Global Corporation. On July 25, 2018, the Company changed its name to Greenlink International Inc.

In March 2017 the Company shifted focus towards providing services and real estate to the licensed U.S. Cannabis sector. In 2018 the Company completed a comprehensive asset purchase acquiring the cannabis and THC related intellectual property, licensing agreements, real estate leases and land purchase rights of AGHWA, LLC. The result of this transaction allowed the company to establish a direct connection to the legal cannabis/hemp market in the United States.

The activities of the Company continue to be focused on developing new innovations for broader applications of cannabis and hemp derived products, building brands, and expanding our business model to build a dynamic opportunity in a tightly regulated industry. The Company is expanding rapidly into other jurisdictions and industries throughout the United States, Canada, and Europe. The Company is actively releasing products and other innovations in sleep & wellness during 2022

The Company’s accounting year end is December 31.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The consolidated financial statements of the Company have been prepared in accordance with GAAP. This basis of accounting involves the application of accrual accounting and consequently, revenues and gains are recognized when earned, and expenses and losses are recognized when incurred. The financial statements include the accounts of the Company.

Going Concern

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern, which contemplates realization of assets and the satisfaction of liabilities in the normal course of business for the twelve-month period following the date of these financial statements. On a consolidated basis, the Company has incurred significant operating losses since inception. As of December 31, 2022, the Company had an accumulated deficit of \$14,170,612.

Because the Company does not expect that existing operational cash flow will be sufficient to fund presently anticipated operations, this raises substantial doubt about the Company’s ability to continue as a going concern. Therefore, the Company will need to raise additional funds and is currently exploring alternative sources of financing. Historically, the Company has raised capital through private placements, as an interim measure to finance working capital needs and may continue to raise additional capital through the sale of common stock or other securities and obtaining some short-term loans. The Company will be required to continue to do so until its consolidated operations become profitable. Also, the Company has, in the past, paid for consulting services with its common stock to maximize working capital, and intends to continue this practice where feasible.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The most significant estimates relate to revenue recognition, valuation of accounts receivable and the allowance for doubtful accounts, purchase price allocation of acquired businesses, long-lived assets and goodwill, valuation of financial instruments, income taxes, and contingencies. The Company bases its estimates on historical experience, known or expected trends and various other assumptions that are believed to be reasonable given the quality of information available as of the date of these financial statements. The results of these assumptions provide the basis for making estimates about the carrying amounts of assets and liabilities that are not readily apparent from other sources. Actual results could differ from these estimates.

Goodwill

Goodwill and indefinite-lived assets are not amortized but are subject to annual impairment testing unless circumstances dictate more frequent assessments. We perform an annual impairment assessment for goodwill and indefinite-lived assets during the fourth quarter of each year and more frequently whenever events or changes in circumstances indicate that the fair value of the asset may be less than the carrying amount.

Goodwill impairment testing is a two-step process performed at the reporting unit level. Step one compares the fair value of the reporting unit

to its carrying amount. The fair value of the reporting unit is determined by considering both the income approach and market approaches. The fair values calculated under the income approach and market approaches are weighted based on circumstances surrounding the reporting unit. Under the income approach, we determine fair value based on estimated future cash flows of the reporting unit, which are discounted to the present value using discount factors that consider the timing and risk of cash flows. For the discount rate, we rely on the capital asset pricing model approach, which includes an assessment of the risk-free interest rate, the rate of return from publicly traded stocks, our risk relative to the overall market, our size and industry and other Company-specific risks.

Other significant assumptions used in the income approach include the terminal value, growth rates, future capital expenditures and changes in future working capital requirements. The market approaches use key multiples from guideline businesses that are comparable and are traded on a public market. If the fair value of the reporting unit is greater than its carrying amount, there is no impairment. If the reporting unit's carrying amount exceeds its fair value, then the second step must be completed to measure the amount of impairment, if any. Step two calculates the implied fair value of goodwill by deducting the fair value of all tangible and intangible net assets of the reporting unit from the fair value of the reporting unit as calculated in step one. In this step, the fair value of the reporting unit is allocated to all of the reporting unit's assets and liabilities in a hypothetical purchase price allocation as if the reporting unit had been acquired on that date. If the carrying amount of goodwill exceeds the implied fair value of goodwill, an impairment loss is recognized in an amount equal to the excess.

Based on the analysis we performed as of December 31, 2021 we determined that our goodwill was fully impaired. As a result we wrote down all of our goodwill to a zero balance and recorded a goodwill impairment on our Statement of Operation of \$2,925,000.

Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivables are recorded at the net value of face amount less any allowance for doubtful accounts. The allowance for doubtful accounts is the Company's best estimate of the amount of probable credit losses in our existing accounts receivable. The Company reviews the allowance for doubtful accounts on a regular basis, and all past due balances are reviewed individually for collectability. Account balances are charged against the allowance when placed for collection. Recoveries of receivables previously written off are recorded when received. Interest is not charged on past due accounts.

As of December 31, 2022 and December 31, 2021, our trade receivables, net of allowance for doubtful accounts amounted to \$759,676 and \$490,438 respectively. During the year ended December 31, 2021 the Company recorded an allowance for doubtful accounts of \$928,737 and recorded bad debt expense of the same amount on its Statement of Operations. Although the reserve has been established the company has started receiving payments on the reserved accounts and ultimately believes it will fully collect the reserved receivable balances in the future.

Revenue Recognition

Sales, as presented in the Company's consolidated statement of earnings, are comprised of software and payment systems to state-approved cannabis cultivators and dispensary facilities.

On January 1, 2018, the Company adopted Accounting Standards Codification ("ASC") Topic 606, Revenue from Contracts with Customers ("ASC 606"), using the modified retrospective method applied to those contracts which were not completed as of January 1, 2018. Results for reporting periods beginning after January 1, 2018 are presented under ASC 606, while prior period amounts are not adjusted and continue to be reported in accordance with the Company's historic accounting under ASC 605. As of and for the periods ended December 31, 2022 and December 31, 2021, respectively, the consolidated financial statements were not materially impacted as a result of the application of Topic 606 compared to Topic 605.

Cash and Cash Equivalents

The Company considers all highly liquid temporary cash investments with an original maturity of three months or less to be cash equivalents. On December 31, 2022 and December 31, 2021, the Company cash equivalents totaled \$9,042 and \$0- respectively.

Property and equipment

Property and equipment are stated at cost or fair value. Depreciation is computed by the straight-line method and is charged to operations over the estimated useful lives of the assets. Maintenance and repairs are charged to expense as incurred. The carrying amount and accumulated depreciation of assets sold or retired are removed from the accounts in the year of disposal and any resulting gain or loss is included in results of operations. The estimated useful lives of property and equipment are as follows:

Computers, software, and office equipment	1 – 6 years
Machinery and equipment	3 – 5 years
Leasehold improvements	Lesser of lease term or estimated useful life

Income taxes

The Company accounts for income taxes under FASB ASC 740, “*Accounting for Income Taxes*”. Under FASB ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under FASB ASC 740, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. FASB ASC 740-10-05, “*Accounting for Uncertainty in Income Taxes*” prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities.

The amount recognized is measured as the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement. The Company assesses the validity of its conclusions regarding uncertain tax positions on a quarterly basis to determine if facts or circumstances have arisen that might cause it to change its judgment regarding the likelihood of a tax position’s sustainability under audit.

Stock-based Compensation

The Company accounts for stock-based compensation using the fair value method following the guidance set forth in Section 718-10 of the FASB Accounting Standards Codification for disclosure about Stock-Based Compensation. This section requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award (with limited exceptions). That cost will be recognized over the period during which an employee is required to provide service in exchange for the award—the requisite service period (usually the vesting period). No compensation cost is recognized for equity instruments for which employees do not render the requisite service.

Leases

The Company currently follows the guidance in ASC 840 “*Leases*,” which requires us to evaluate the lease agreements the Company enters into to determine whether they represent operating or capital leases at the inception of the lease.

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*, which establishes a new lease accounting model for lessees. The updated guidance requires an entity to recognize assets and liabilities arising from financing and operating leases, along with additional qualitative and quantitative disclosures. The amended guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2018, with early adoption permitted. In March 2019, the FASB issued ASU 2019-01, *Codification Improvements*, which clarifies certain aspects of the new lease standard. The FASB issued ASU 2018-10, *Codification Improvements to Topic 842, Leases* in July 2018. Also in 2018, the FASB issued ASU 2018-11, *Leases (Topic 842) Targeted Improvements*, which provides an optional transition method whereby the new lease standard is applied at the adoption date and recognized as an adjustment to retained earnings. The amendments have the same effective date and transition requirements as the new lease standard. On November 15, 2019, the FASB has issued ASU 2019-10, which amends the effective dates for three major accounting standards. The ASU defers the effective dates for the credit losses, derivatives, and leases standards for certain companies. Since the Company is classified as a small reporting company and has a calendar-year end companies the Company eligible for deferring the adoption of ASC 842 to December 15, 2022.

ASC 842 will be effective for the Company beginning on December 15, 2022. While we continue to evaluate the impact of the new standard, we expect the adoption of this guidance will not have any impact on our financial statements.

Net Loss per Share

Net loss per common share is computed by dividing net loss by the weighted average common shares outstanding during the period as defined by Financial Accounting Standards, ASC Topic 260, “Earnings per Share.” Basic earnings per common share (“EPS”) calculations are determined by dividing net income by the weighted average number of shares of common stock outstanding during the year. Diluted earnings per common share calculations are determined by dividing net income by the weighted average number of common shares and dilutive common share equivalents outstanding.
