Co-Founder and CTO of LiquidPiston, Inc. Venture Capital backed internal combustion engine startup , LiquidPiston, Inc. is an MIT incubated R&D company poised to transform ten years of breakthrough thermodynamics research into the world's most efficient rotary engine. With a fundamental design that scales from lawnmowers, to locomotives, LiquidPiston has the potential to add fifty years to the life of the internal combustion engine industry in a resource-constrained world. Additional information is available at www.liquidpiston.com.

**Program Manager**

Gen3 Partners

Apr 2001 – Oct 2006 • 5 yrs 7 mos

Program Manager, G3: Innovation Discipline (G3: ID) – managed projects that include everything from technical benchmarking and technology landscape analysis, to concept generation, to verification projects where prototypes are created per substantiated concepts developed in a course of projects.

As PM, lead the company's analysis and market research teams located in Russia and Israel, as well as communicated with subject matter experts worldwide, ensured that all deliverables meet the client's needs, as well as specific project goals and requirements and GEN3's quality standards – on time and on budget delivery.

Competitive Intelligence

Lead at Wright Brothers

Institute

July 1, 2008, Larisa worked with Nikolay in the same group

Larisa is smart, reliable and highly professional. Probably, one of the best project managers I have ever dealt with. Very highly recommended.
