Co-Founder and CTO of LiquidPiston, Inc. Venture Capital backed internal combustion engine startup, LiquidPiston, Inc. is an MIT incubated R&D company poised to transform ten years of breakthrough thermodynamics research into the world's most efficient rotary engine. With a fundamental design that scales from lawnmowers, to locomotives, LiquidPiston has the potential to add fifty years to the life of the internal combustion engine industry in a resource-constrained world. Additional information is available at www.liquidpiston.com.

Program Manager

Gen3 Partners

Apr 2001 – Oct 2006 • 5 yrs 7 mos

Program Manager, G3: Innovation Discipline (G3: ID) – managed projects that include everything from technical benchmarking and technology landscape analysis, to concept generation, to verification projects where prototypes are created per substantiated concepts developed in a course of projects.

As PM, lead the company's analysis and market research teams located in Russia and Israel, as well as communicated with subject matter experts worldwide, ensured that all deliverables meet the client's needs, as well as specific project goals and requirements and GEN3's quality standards – on time and on budget delivery.

Project Manager

Invention Machine

1996 – 2001 • 5 yrs

Education

 **The University of Connecticut**
University Ph.D., Physics, General Relativity
of 1977 – 1983

 **Kiev Politech Institute**
Politech Bachelor of Science (BSc), Thermodynamics
Institute 1971 – 1975

 **Larisa Dmitrienko**
Competitive Intelligence
Lead at Wright Brothers
Institute
July 1, 2008, Larisa worked with
Nikolay in the same group

Larisa is smart, reliable and highly professional. Probably, one of the best project managers I have ever dealt with. Very highly recommended.
