Our Leadership with Startup Experience

Jeffrey C Bermant CEO & Co-Founder

With over 12 years' experience in software privacy, security, and VPN development, Jeff is building on a successful career in tech and real estate and investment with many successful exits and a combined investment of \$700M.

With the belief in free speech and individual liberty for all, we are on a mission to protect a free and open internet, starting with a web browser, news feed and search.

David Amaral Chief Technical Officer

David is acting product manager and with over 20 years in tech, has worked with Fortune 500 companies and launched a successful software development company.

Kevin B Chief Digital Officer

With more than 14 years of experience in direct online marketing, Kevin excels in providing KPI insights for Advertiser, Publisher, Agency, and Networks.

Larry Speck Director of Marketing

For over 26 years, Larry has a record of successful marketing campaigns, sales strategies, and brand development, with 12 years in global markets (China) and a startup background with a successful exit.
