Zach Fay

Founder & CEO of Lightgliders | Virtual Worlds, Digital Games, Mobile Apps, Metaverse, SaaS, Kids Ministry, and Startups
St Louis, Missouri, United States

Summary

Hi, I'm Zach. I am the founder and president of Kingdom Scene Endeavors LLC (d/b/a LIGHTGLIDERS) and the creator of its flagship product, a virtual world of Christian faith, games, and community called Lightgliders. I am a former management consultant and church youth director, who sought to encourage more meaningful conversations about faith and values among kids during the critical preteen years. This search took me on an entrepreneurial journey to design, finance, develop, launch, market, and iterate a kids product for a specific target audience. Lightgliders is the first of a multi-phase strategy to positively impact young people worldwide through virtual connectivity and metaverse applications. You can check it out by visiting www.lightgliders.com or by downloading the Lightgliders app in the iOS, GooglePlay, or AmazonApp stores. I live in St. Louis, MO, with my wife Margaret, a mental health therapist, my sons, Charlie and Jordan, and my daughter, Lois.
