We have some exciting news! We're inviting you to be a part of our story and to join us on this next chapter!

When we started Wixelene, we knew we had stumbled upon gold but we did not expect the huge response that we have received from the community.

Listening to our customers has taught us so much about a range of skin conditions and has shown us that there is a huge gap in the market for ethical, natural, sensitive skincare products that actually work. We know we can fill that gap!

We have been working very hard for the past few years and we are now ready to expand. We want you, our V.I.P customers, to be the first to join us on this exciting journey!

**INVEST NOW**

We are excited to announce that we are looking for investors to grow with us. We have been working on new products and will be increasing our marketing efforts.

Investing in our company will be a great opportunity for you to be a part of our story and help us build the next generation of products. You will be able to see your investment grow as we continue to grow!

Make sure to tell your friends about this awesome investment opportunity. Together, we can build something amazing!

waxelene

**waxelene** The removal of ocean-bound plastic is a global issue that needs to be resolved. We are proudly plastic neutral and donate 2% of all sales to the purchase of plastic offsets. This neutralizes our plastic footprint from plastic in packaging and shipping. This is a great step towards reducing the amount of plastic that ends up in the ocean. But there is still more work to be done. We are ready to take our brand and our efforts to the next level! If you want to be a part of our next chapter, follow the link in our bio and invest in the future. 🧡
