Soilytics: Replacing Chemistry with Physics in Soil
Nutrient Testing - CropLife
CropLife

Hyperspectral technology allows for quick and easy
soil organic matter testing at a cost-effective rate.

Experience

COO

Persistence Data Mining Inc. · Self-employed

Jun 2014 – Present · 6 yrs 9 mos

La Jolla, CA

PDMI is setting the standard in Soil Health with the introduction of the Soilytics™ solution, our hyperspectral soil nutrient mapping technology. Imaging allows us to take many more samples more quickly and efficiently. The importance of soil health is a global concern. It is important to essential services like food production, climate change, prevention of land degradation, water quality and the nutritional quality of our food.
