While many of you know that I've spent the last five years helping found and develop a software company, most of you probably don't know what it is that Givsum does. It's a platform that helps charitable organizations increase their productivity and raise more money, all at a cost that provides our customers with the greatest value. To learn more about and/or invest in Givsum, click the link below. If you have any questions, send me a DM or give me a call. I'd love to hear from you.
