Me and two partners are currently getting the project off the ground. It will be a investor backed craft distillery opening in the summer of 2016. We have secured a 10 year lease with first right of refusal on the space neighboring at the end of year 2. We are about to start demolition on the building with equipment having already been ordered. We are also still accepting investors if anyone is interested feel free to message me to hear more. It has been a really exciting project thus far and we cannot wait until it opens!
