

## Youngry, LLC – Republic Video Transcript

It's 5:00 am. Sunday. Time to wake up. The alarm clock goes off. Our friends are in bed, but we've already hit the awake button.

**Youngry is a media company celebrating entrepreneurship.**

We are in the business of promoting the young and hungry-minded entrepreneur generation that's shaping our world. We are interested in the authentic self, making profit, hustling, and making the world be a better place.

We follow the ideas, the struggles, what it takes to make it through. You see, entrepreneurs grind in silence, and like you, there's a community of people with their **heads down, mouths shut, hands fast at work**. What we want to do is tell some untold stories. Put a camera, a mic, any device, any medium, and share. And we'll tell you about the pitfalls that we've seen many encounter, and triumphant successes that will one day sound like tall tales.

**We're going to be your business news universe.**

We know that a day is just a series of opportunities to quit, and we are above that because nothing great comes easy. What Microsoft and Apple have in common is that they started in a garage. We're not discouraged by humble beginnings, just hungry for prosperous endings.

YOUNGRY™ is a celebration of every aspect within the infamous entrepreneurial lifestyle told through the eyes of those—hidden amongst us—living the dream. Come by, communicate, collaborate, create—consider us a support group for those of you that are truly YOUNGRY.

(President Obama Clip)

"Where America can share our experiences as a society that empowers the inventor and the innovator...taking an idea that starts around a kitchen table, or in a garage, and turning it into a new business, and even new industries, that can change the world."
