### Team Leader

75th Ranger Regiment, U.S. Army  
 Dec 2003 – Jul 2008 · 4 yrs 8 mos  
 Fort Benning, Georgia, United States

## Education

### William & Mary

Master of Business Administration (MBA)

William & Mary has been called the Alma Mater of the Nation because of its close ties to America's

founding fathers. A 17-year-old George Washington received his surveyor's license through W&M and would return as its first American chancellor. Thomas Jefferson received his undergraduate education here, as did presidents John Tyler and James Monroe. Beyond a traditional business curriculum, I was taught to think like a renaissance manager & to become a revolutionary leader.

Core courses:  
Renaissance Manager (Design Thinking)  
Financial and Managerial Accounting  
Organizational Behavior  
Business Analytics  
Operations  
Global Managerial Economics  
Finance  
Marketing  
Integrated Technology  
Leadership for the 21st Century  
Strategy

#### Stanford University Graduate School of Business

Stanford Ignite: Innovation and Entrepreneurship

Taught by the same renowned faculty that teaches in Stanford's MBA Program, instruction takes place through a combination of lectures, case evaluations, small group discussions, workshops, panels, and team projects. Guest speakers from leading companies are invited to the program and often become mentors and valuable resources for participants.

In addition to instruction, the program requires approximately 100 to 150 additional hours of preparation for class sessions and teamwork on the venture projects.

Stanford Ignite for Post-9/11 Veterans

#### University of Colorado Boulder

Candidate, Master of Science - MS, Business Analytics  
2020 – 2021

Courses Completed in the Summer of 2020:

Survey of Business Analytics - Designed as an introduction to Business Analytics, which considers the extensive use of data, methods, and fact-based management to support and improve decision making. The class was built on heavy hands-on coding; it introduced and subsequently involved extensive use of SQL in Google Big Query + Python Via Anaconda & Jupyter Notebooks.

Fundamentals of Data Analytics - The class is focused on the use of Base R to perform statistical and predictive analytics using large datasets. I have since developed a deep appreciation for R studio.
