

WORLD TREE

This Earth Day, Invest in our Planet

By  Dove Wilson on Apr 22

2022

In celebration of Earth Day we are excited to be launching our 2022 tree-planting program on WeFunder.

Participating in crowdfounding is a powerful way to drive positive change in the world by using our individual dollars to expand tree-planting, involving some of the planet's biggest challenges.

Are those looking for a way to mark their contribution to our planet on this global day of action, check out our guide on how to participate in this year's Earth Day program offering.

What is Earth Day?

The official Earth Day theme for this year is "Invest in our planet". People around the world are increasingly looking for ways to invest their money in companies that provide green solutions to the climate crisis AND can yield financial returns.

While other economic revolutions, investors, innovators, businesses, and leaders are also making significant changes, it is easier for these to progress "step by step". Earth Day is not.

The 2022 tree-planting program is an invitation to all impact-focused investors to earn returns while benefiting the soil, the climate and helping to protect our natural resources.

Early Bird Pricing

In the last 8 years, over 12,000 people have participated in our WeFunder crowdfounding offerings, our community has made possible to plant literally thousands of acres of regreen trees, inspiring over 200,000+ others. This is good.

Today, as Earth Day is approaching, both our community and we help to make it bigger, the first few days of our launch are especially important as it's when we get to share the world with as possible. And I give you the confidence to follow in our footsteps.

Join us, and let's show the world it can be done.

PTW

We are inviting the market to gauge preliminary interest to our crowdfunder under Regulation Crowdfounding. No money or other consideration is being solicited. If sent, it will not be accepted. No offer to buy securities will be negotiated. No part of the purchase price will be received until a Form U is filed with the SEC and only through WeFunder's platform. Any indication of interest does not constitute an obligation or commitment of any kind.

More recently, we have shown how the model can be used to predict the effect of a new one-time medical intervention on the outcome of a randomised trial. An example is discussed in the lead.

Our community is the best in the country, but sometimes we do have to go outside our borders. As we grow we will travel together and our early ambassadair and travelers were the ones who founded our first international journey to the outside world. Furthermore, you will always be the first to know about something exciting, a happening in there and an opportunity to go there.

As provided in the lead 0 days (lead 0 day 0), we are utilizing our *in silico* screening process and opportunity framework (ASU 2009-1).

Finally, the *atmosphere* or *communicative setting* must be open to the *participants*, who must be *invited* to use the *language* available.

We can make a difference if we change the world. In fact, it is the only way to do it.

The Empress Splendor tree

Fast growing Eco-Timber that Restores the Earth

The Empress Splendor (genus name *Swartzia*) is an extremely fast growing, hardwood tree. Reaching maturity in around 10 years, the Empress is one of the fastest growing trees in the world.

Swartzia is native to rainforests from Brazil to Central Africa. The Empress tree grows very fast after maturity, and its growth is linear (it adds new thickness) to 100 ft. It also eats massive amounts of carbon using a root system full of phosphorus.

- ✓ Grows 19-20 feet per year
- ✓ Reaches maturity in 10 years

We are World Tree

WorldTree is a group of investors, farmers, scientists and activists who are committed to a new kind of forestry. We believe that you don't have to sell your soul or sell out on the planet to make a sound investment. Our investors are here to help solve some of the world's toughest problems.

WorldTree programs are based on one of the fastest growing trees in the world: The Empress Splendor (genus name *Swartzia*).

When you invest in WorldTree, you are investing in over 100,000 farms across North and Latin America. You are supporting farmers and protecting our forests. And you get to share in any profits from the sale of the lumber.
