Offering Statement

Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

The Company has only a limited operating history on which investors may base their evaluation of us and there are various particular risks associated with the Company's community solar business.

Your ability to liquidate your investment is limited because of transfer restrictions, and the lack of a trading market.

We expect to have further needs for capital following this offering, which will result in further need to get new investment.

Ability to Implement and Manage Growth Strategy. Although the Company expects to experience significant growth in a relatively short period of time, and its operations may grow rapidly, the Company's revenues may not continue to grow at the same rate. Implementation of the Company's growth strategy may impose a significant strain on the Company's management, operating systems and financial resources. Failure by the Company to manage its growth, or unexpected difficulties encountered during expansion, could have a material adverse impact on the Company's results of operations or financial condition.

We could be adversely affected by changes in customer preferences and technology.

The community solar project industry is subject to rapid and significant changes in customer preferences, needs and technology. There can be no assurance as to the effect of such technological changes on the Company or that the Company will not be required to expend substantial financial resources in the development or implementation of new competitive technologies in the future. There can be no assurance that the occurrence of any of these events would not have a material adverse effect on the Company's business and the results of its operations.

There are many risks associated with our expansion.

The Company plans to initiate and then expand a distribution network, including through representative agreements and/or through licensing arrangements. Any expansion of operations the Company may undertake will entail risks since any expansion may involve specific operational activities which may negatively impact the profitability of the Company. Expansion of operations may ultimately involve expenditure of funds beyond those available to the Company and may divert management's attention and resources away form its existing operations.

There are ongoing and future risks from the COVID-19 pandemic that may impact our ability to scale. If the economic fall-out from COVID-19 worsens, there may be less community solar projects financed and built. Stay-at-home orders impact our ability to acquire new customers.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **$100,000**

Use of Proceeds: 33.5% towards expanding into new markets, 30% towards building an IT platform, 30% towards hiring senior management, and 6.5% towards the Wefunder intermediary fee.

If we raise: **$500,000**

Use of Proceeds: 33.5% towards expanding into new markets, 30% towards building an IT platform, 30% towards hiring senior management, and 6.5% towards the Wefunder intermediary fee.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

Book Entry and Use of XX Investments LLC as Transfer Agent and Custodian. Investments will be in book entry form. This means that the investor will not receive a certificate representing his or her investment. Each investment will be recorded in the books and records of our transfer agent, XX Investments LLC. XX Investments LLC will act as custodian and hold legal title to the investments for investors that enter into a Custodial and Voting Agreement with XX Investments LLC and will keep track of those investors' beneficial interests in the investments. In addition, investors' interests in the investments will be recorded in each investor's "My Investments" screen. The investor will also be emailed again the Investor Agreement and, if applicable, the Custodial and Voting Agreement. The Investor Agreement and, if applicable, the Custodial and Voting Agreement will also be available on the "My Investments" screen.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

An Investor's right to cancel. An Investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the Investor about the offering and/or the Company, the Investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the Investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the Investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the Investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the Investor will receive, and refund the Investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

In addition, we may cap at 450 the total number of investors who will be allowed to invest through the offering that are not "accredited investors," as defined in Rule 501(a) of Regulation D under the Securities Act of 1933. In the event that more than 450 non-accredited investors are initially accepted into an offering in step (2) described in Question 11, the Company may cancel investments based on the order in which payments by Investors were received, or other criteria at the discretion of the Company, before the offering deadline.

Ownership and Capital Structure

THE OFFERING

13. Describe the terms of the securities being offered.

To view a copy of the SAFE you will purchase, please see Appendix B, Investor Contracts. The main terms of the SAFEs are provided below.

The **"Valuation Cap"** is $15,000,000.

The "**Discount Rate**" is 80%.

Early Bird. Investors in the first $50,000 of the Offering will receive a discounted valuation cap of $13,500,000.

Equity Financing. If there is an Equity Financing of Standard Preferred Stock before the termination of this SAFE, the Company will automatically issue to the Investor a number of shares of CF Shadow Series Preferred Stock equal to the Purchase Amount divided by the Conversion Price. In connection with the automatic conversion of this Safe into shares of CF Shadow Series Preferred Stock, by the Company to the Investor pursuant to Section 1(a) of the attached SAFE agreement:

(i.) the Investor or the Designated Lead Investor (defined below), if any, will execute and deliver to the Company all transaction documents related to the Equity Financing; provided, that such documents (i) are the same documents to be entered into with the purchasers of Standard Preferred Stock, with appropriate variations for the CF Shadow Series Preferred Stock if applicable; and
(ii.) if the Investor is a Major Investor, the Investor and the Company will execute a Rights Agreement in favor of the Investor, unless the Investor is already included in such rights in the transaction documents related to the Equity Financing.

Liquidity Event. If there is a Liquidity Event before the expiration or termination of this Safe, the Investor will, at his/her option, either (i) receive a cash payment equal to the Purchase Amount (subject to the following paragraph) or (ii) automatically receive from the Company a number of shares of Common Stock equal to the Purchase Amount divided by the Liquidity Price, if the Investor fails to select the cash option. In connection with this Section 1(b)(i), the Purchase Amount will be due and payable by the Company to the Investor immediately prior to, or concurrent with the consummation of the Liquidity Event. If there are not enough funds to pay (i) holders of shares of Standard Preferred Stock issued by the date of this instrument or holders of shares of subsequent Standard Preferred Stock that does not trigger an Equity Financing ("Senior Preferred Holders") and (ii) the Investor and holders of other SAFES (collectively the "Cash Out Investors") in full, then the Company's available funds will be distributed (i) first to the Senior Preferred Holders and (ii) second with equal priority and pro rata among the CashOut Investors in proportion to their Purchase Amounts and the Cash-Out Investors will automatically receive the number of shares of Common Stock equal to the remaining unpaid Purchase Amount divided by the Liquidity Price. In connection with a Change of Control intended to qualify as a tax-free reorganization, the Company may reduce pro rata the Purchase Amounts payable to the Cash-Out Investors by the amount determined by the Board in the good faith to be advisable for such change of control to qualify as a tax-free reorganization for U.S. federal income tax purposes, and in such case, the Cash-Out Investors will automatically receive the number of shares of Common Stock equal to the remaining unpaid Purchase Amount divided by the Liquidity Price.

Dissolution Event. If there is a Dissolution Event before this instrument expires or terminates, the Company will pay (i) first to the Senior Preferred Holders any amounts due and payable to them in connection with a Dissolution Event under the Company's Certificate of Incorporation the (Senior Preferred Holders' Payment) and (ii) second an amount equal to the Purchase Amount due and payable to the Investor immediately prior to or concurrent with the consummation of the Dissolution Event. The Purchase Amount will be paid prior to and in preference to any distribution of the assets of the Company to holders of outstanding Common Stock by reason of their ownership thereof. If immediately prior to the consummation of the Dissolution Event and after payment of the Senior Preferred Holders' Payment, the assets of the Company legally available for distribution to the Cash-Out Investors as determined in good faith by the Board are insufficient to permit the payment to the Cash-Out Investors of their respective Purchase Amounts then the entire assets of the Company legally available for distribution will be disbursed with equal priority and pro rata among the Cash-Out
Investors in proportion to the Purchase Amounts they would otherwise be entitled to receive pursuant to this Section 1(c).

Repurchase. If the Company determines, in its sole discretion, that it is likely that within six months the securities of the Company will be held of record by a number of persons that would require the Company to register a class of its equity securities under the Securities Exchange Act of 1934. as amended, as required by Section 12(g) thereof, the Company shall have the option to repurchase this instrument from the Investor for the greater of (i) the purchase amount and (ii) the fair market value of this instrument, as determined by an independent appraiser of securities chosen by the Company (such repurchase, the "Repurchase," and such greater value, the "Repurchase Value"); provided, however, that, in the event an Equity Financing occurs within three months after the Repurchase and the Repurchase Value is less than the Aggregate Value (as defined below) of the shares of CF Shadow Series Preferred Stock the Investor would have received had the Repurchase not occurred (where such value is determined by multiplying the number of shares of CF Shadow Series
Preferred Stock by the Conversion Price and is referred to as the "Aggregate Value"), the Company shall pay to the Investor an amount equal to the difference between the Aggregate Value and the Repurchase Value promptly following the consummation of the Equity Financing. Such independent appraiser shall be regularly engaged in the valuation of securities. The foregoing repurchase option terminates upon a Change of Control or Dissolution Event.

Termination. This Safe will expire and terminate (without relieving the Company of any obligations arising from a prior breach of or non-compliance with this SAFE) upon either: (i) the issuance of CF Shadow Series Preferred Stock to the Investor pursuant Section 1(a) or Section 1(b)(ii); (ii) the payment or setting aside for payments of amounts due the Investor pursuant to Section 1(b)(i) or Section 1(c); or (iii) the payment of the Repurchase Value; provided, however, the provisions of Section 1(d) in the event an Equity Financing occurs within three months after the Repurchase;
provided further that Section 5 shall survive any such termination.

14. Do the securities offered have voting rights?

☑ Yes
☐ No

15. Are there any limitations on any voting or other rights identified above?

☐ Yes:
☑ No: Irrevocable voting proxy granted to XX Team.

16. How may the terms of the securities being offered be modified?

(i) if the Investor is not a Major Investor, any provision of this instrument (other than the Valuation Cap) may be amended, waived or modified only upon the written consent of the Company and either (a) the Designated Lead Investor or (b) the holders of a majority of the Purchase Amounts of payable to the Cash-Out Investors.

(ii) If the Investor is Major Investor, any provision of this instrument (other than the Valuation Cap) may be amended, waived or modified only upon the written consent of the Company and the holders of a majority of the Purchase Amounts payable to the Cash-Out Investors who are Major Investors, and

(iii) regardless of whether the Investor is or is not a Major Investor, the Valuation Cap may be amended, waived, or modified only (a) upon the written consent of the Company and the holders of a majority of the Purchase Amounts payable to the Cash-Out Investors or (b) as contemplated in the definition of Valuation Cap.

Restrictions on Transfer of the Securities Being Offered

The securities being offered may not be transferred by any purchaser of such securities during the one-year period beginning when the securities were issued, unless such securities are transferred:

(1) to the issuer;

(2) to an accredited investor;

(3) as part of an offering registered with the U.S. Securities and Exchange Commission; or

(4) to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse

RESTRICTIONS ON TRANSFER OF THE SECURITIES BEING OFFERED:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

1. to the issuer;
2. to an accredited investor;
3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

DESCRIPTION OF ISSUER'S SECURITIES

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Securities (or Amount) Authorized	Securities (or Amount) Outstanding	Voting Rights
Common Stock	10,000,000	1,367,903	Yes ▾
Preferred Stock	175,979	105,588	Yes ▾

Class of Security	Securities Reserved for Issuance upon Exercise or Conversion
Warrants:	65,900
Options:	

Describe any other rights:

Preferred Stock has liquidation preferences over Common Stock. Common Stock has voting rights. Investors in this Offering will be receiving Shadow Series Preferred Stock, (if and when the SAFE converts) a class of Preferred Stock. Shadow Series Preferred shares liquidation preferences with the class of Preferred Stockholders it shadows but does not have voting rights.

The Company's Certificate of Incorporation was amended and restated on March 2, 2020 which reflects the total authorized shares stated in the cap table of this Form C.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

Because the Investor holds no voting rights, the holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering).These changes could result in further limitations on the voting rights the Investor will have as an owner of equity in the Company, for example by diluting those rights or limiting them to certain types of events or consents. To the extent applicable, in cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional equity, an Investor's interest will typically also be diluted. Based on the risk that an Investor's rights could be limited, diluted or otherwise qualified, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

The Company's Certificate of Incorporation fully defines the rights of each class of security.

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, **the shareholders** may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, **the shareholders** may change the terms of the articles of incorporation for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. **The shareholders** may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

The shareholders have the right to redeem their securities at any time. **Shareholders** could decide to force the Company to redeem their **securities** at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability.

In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional stock, an Investor's interest will typically also be diluted.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

Before making an investment decision, you should carefully consider the $15,000,000 evaluated valuation and the factors used to reach such valuation. Such valuation may not be accurate and you are encouraged to determine your own independent value of the Company prior to investing.

As discussed in "Dilution" below, the valuation will determine the amount by which the investor's stake is diluted immediately upon investment. An early-stage company typically sells its shares (or grants options over its shares) to its founders and early employees at a very low cash cost, because they are, in effect, putting their "sweat equity" into the Company.

When the Company seeks cash investments from outside investors, like you, the new investors typically pay a much larger sum for their shares than the founders or earlier investors, which means that the cash value of your stake is immediately diluted because each share of the same type is worth the same amount, and you paid more for your shares (or the notes convertible into shares) than earlier investors did for theirs.

There are several ways to value a company. None of them is perfect and all of them involve a certain amount of guesswork. The same method can produce a different valuation if used by a different person.

Liquidation Value-The amount for which the assets of the Company can be sold, minus the liabilities owed, e.g., the assets of a bakery include the cake mixers, ingredients, baking tins, etc. The liabilities of a bakery include the cost of rent or mortgage on the bakery. However, this value does not reflect the potential value of a business, e.g. the value of the secret recipe. The value for most startups lies in their potential, as many early stage companies do not have many assets (they probably need to raise funds through a securities offering in order to purchase some equipment).

Book Value-This is based on analysis of the Company's financial statements, usually looking at the Company's balance sheet as prepared by its accountants. However, the balance sheet only looks at costs (i.e. what was paid for the asset), and does not consider whether the asset has increased in value over time. In addition, some intangible assets, such as patents, trademarks or trade names, are very valuable but are not usually represented at their market value on the balance sheet.

Earnings Approach-This is based on what the investor will pay (the present value) for what the investor expects to obtain in the future (the future return), taking into account inflation, the lost opportunity to participate in other investments, the risk of not receiving the return. However, predictions of the future are uncertain and valuation of future returns is a best guess.

Different methods of valuation produce a different answer as to what your investment is worth. Typically liquidation value and book value will produce a lower valuation than the earnings approach. However, the earnings approach is also most likely to be risky as it is based on many assumptions about the future, while the liquidation value and book value are much more conservative.

Future investors (including people seeking to acquire the Company) may value the Company differently. They may use a different valuation method, or different assumptions about the Company's business and its market. Different valuations may mean that the value assigned to your investment changes. It frequently happens that when a large institutional investor such as a venture capitalist makes an investment in a company, it values the Company at a lower price than the initial investors did. If this happens, the value of the investment will go down.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Board Of Directors, and the Investor will have no independent right to name or remove an officer or member of the Board Of Directors of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company and the Board of Directors of the Company. If the Board Of Directors of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

Neighborhood Sun is a platform that provides customer acquisition and management to connect thousands of residents to community shared solar projects in their area.We are a community solar company dedicated to empowering all individuals to choose solar power. We put our customers first to make sure that clean energy is accessible to everyone, especially those who are the most vulnerable in the face of climate change.

We want to be the top community solar platform in the country, helping fight climate change and save people money through the benefits of shared community solar. Since the start of community solar (less than two years ago), we've acquired more than 1/3 of the market and have helped our state prevent the extraction and combustion of 3.8 million pounds of coal each year.

Milestones

Neighborhood Sun Benefit Corp was incorporated in the State of Maryland in November 2016.

Since then, we have:

- Proven track record of success already - in 2019 alone we completed and fully subscribed 4 major community solar projects with more than 2,000 households.
- A mission-focused company with a B Corp score that leads the entire community solar industry!
- Fastest growing part of the solar market. Community Solar is growing at more than twice the rate of all other solar combined - 53% 5 year growth versus 25
- Built an industry-leading software platform that will help us achieve scale more quickly.
- Market leaders in Maryland - went from 24% of Maryland market share to 36% in less than a year and are growing.
- Featured in Business Insider, NPR, NBC, Solar Power World, and more!
- 2019 revenue grew by more than 100% while operating expenses grew by 27%.

Historical Results of Operations

Our company was organized in November 2016 and has limited operations upon which prospective investors may base an evaluation of its performance.

- *Revenues & Gross Margin*. For the period ended December 31, 2019, the Company had revenues of $727,696 compared to the year ended December 31, 2018, when the Company had revenues of $416,906. Our gross margin was 91.79% in fiscal year 2019, compared to 100.0% in 2018.
- *Assets*. As of December 31, 2019, the Company had total assets of $39,863, including $16,533 in cash. As of December 31, 2018, the Company had $128,604 in total assets, including $53,079 in cash.
- *Net Loss*. The Company has had net losses of $211,339 and net losses of $349,978 for the fiscal years ended December 31, 2019 and December 31, 2018, respectively.
- *Liabilities*. The Company's liabilities totaled $161,876 for the fiscal year ended December 31, 2019 and $134,684 for the fiscal year ended December 31, 2018.

Related Party Transaction

Refer to Question 26 of this Form C for disclosure of all related party transactions.

Liquidity & Capital Resources

To-date, the company has been financed with $153,000 in debt and $1,250,000 in equity.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 18 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 12 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

Neighborhood Sun Benefit Corp cash in hand is $300,000, as of June 2020. Over the last three months, revenues have averaged $90,000/month, cost of goods sold has averaged $70,000/month, and operational expenses have averaged $115,000/month, for an average burn rate of $95,000 per month. Our intent is to be profitable in 18 months.

We have enlarged our pipeline of projects substantially, which will lead to an increase in revenue. Further, we completed work on our software platform, so going forward our costs will be lower and our profit higher. Continuing to scale while holding new expenses down will allow us to reach profitability.

In six months, our revenue should increase to an average of $149,000 per month and our expenses should decrease to an average of $143,000, although this cannot be guaranteed.

If we run into a cash shortfall, we have the ability to get a loan from several sources.

FINANCIAL INFORMATION

29. Include financial statements covering the two most recently completed fiscal years or the period(s) since inception, if shorter:

If you would have answered "Yes" to any of these questions had the conviction, order, judgment, decree, suspension, expulsion or bar occurred or been issued after May 16, 2016, then you are NOT eligible to rely on this exemption under Section 4(a)(6) of the Securities Act.

OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in this Form, include:

- (1) any other material information presented to investors; and
- (2) such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

The Company is using the services of XX as part of its offering. XX is comprised of XX Investments, LLC, XX Team LLC, and the Lead Investors who provide services on behalf of XX Team LLC. The services of XX are available to companies that offer securities through Wefunder Portal LLC and to investors who invest in such companies through Wefunder Portal, but XX is not affiliated with Wefunder Portal or its affiliates.

XX Investments is the Company's transfer agent and also acts as custodian, paying agent, and proxy agent on behalf of all investors that enter into the Custodial and Voting Agreement with XX Investments through the Wefunder Portal website ("Investors"). XX Investments holds legal title to the securities the Company issues through Wefunder Portal (which are uncertificated) on behalf of Investors. Investors, in turn, hold the beneficial interests in the Company's securities. XX Investments keeps track of each Investor's beneficial ownership interest and makes any distributions to the Investors (or other parties, as directed by the Investors).

In addition to the above services, at the direction of XX Team, XX Investments votes the securities and take any other actions in connection with such voting on behalf of the Investors. XX Investments acts at the direction of XX Team, because XX Team holds a power of attorney from each Investor that has entered into the Investor Agreement to make voting decisions on behalf of that Investor. XX Investments will not charge Investors for its services. XX Investments does charge the Company $1,000/year for services; however, those fees may be paid by Wefunder Inc. on behalf of the Company.

As noted, XX Team holds a power of attorney from each Investor that has entered into the Investor Agreement to make voting decisions on behalf of that Investor. Pursuant to the power of attorney, XX Team will make voting decisions and then direct XX Investments to vote and take any other actions in connection with the voting on Investors' behalf. XX Team will act, with respect to the Company, through our Lead Investor, who is a representative of XX Team. As compensation for its voting services, each Investor authorizes XX Investments to distribute to XX Team 10% of any distributions the Investor would otherwise receive from the Company. XX Team will share its compensation with our Lead Investor. XX Team, through our Lead Investor, may also provide consulting services to the Company and may be compensated for these services by the Company; although, fees owed by the Company may be paid by Wefunder Inc. XX Team will share its consulting compensation with our Lead Investor.

The Lead Investor is an experienced investor that we choose to act in the role of Lead Investor, both on behalf of the Company and on behalf of Investors. As noted, the Lead Investor will be a representative of XX Team and will share in compensation that XX Team receives from the Company (or Wefunder Inc. on the Company behalf) or from Investors. The Lead Investor will be chosen by the Company and approved by Wefunder Inc., and the identify of the Lead Investor must be disclosed to Investors before Investors make a final investment decision to purchase the Company's securities. Investors will receive disclosure regarding all fees that may be received by the Lead Investor. In addition to the fees described above, the Lead Investor may receive compensation if, in the future, Wefunder Advisors LLC forms a special purpose vehicle ("SPV") for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such a circumstance, the Lead Investor may act as a portfolio manager for that SPV (and as a supervised person of Wefunder Advisors) and may be compensated through that role. Although the Lead Investor may act in multiple roles and be compensated from multiple parties, the Lead Investor's goal is to maximize the value of the Company and therefore maximize the value of the Company's securities. As a result, the Lead Investor's interests should always be aligned with those of the Investors.

Investors that wish to purchase the Company's securities through Wefunder Portal must agree to (1) hire XX Investments to serve as custodian, paying agent, and proxy agent with respect to the Company's securities; (2) give a power of attorney to XX Team to make all voting decisions with respect to the Company's securities; and (3) direct XX Investments to share 10% of the Investor's distribution from the Company with XX Team. The Company may waive these requirements for certain investors with whom the Company has a pre-existing relationship.

The XX arrangement described above is intended to benefit the Company by allowing the Company to reflect one investor of its capitalization table (XX Investments) and by simplifying the voting process with respect to the Company's securities by having one entity (XX Team), through one person (the Lead Investor), make all voting decisions and having one entity (XX Investments) carry out XX Team's voting instruments and any take any related actions. The XX arrangement also is intended to benefit Investors by providing the services of an experienced Lead Investor (acting on behalf of XX Team) who is expected to make value-maximizing decisions regarding Investors' securities. XX Team (acting through the Lead Investor) may further benefit both the Company and Investors by providing consulting services to the Company that are intended to maximize both the value of the Company's business and also the value of its securities.

ONGOING REPORTING

32. The issuer will file a report electronically with the Securities & Exchange Commission annually and post the report on its website, no later than:

120 days after the end of each fiscal year covered by the report.

33. Once posted, the annual report may be found on the issuer's website at:

http://neighborhoodsun.solar/invest

The issuer must continue to comply with the ongoing reporting requirements until:

1. the issuer is required to file reports under Exchange Act Sections 13(a) or 15(d);
2. the issuer has filed at least one annual report and has fewer than 300 holders of record;
3. the issuer has filed at least three annual reports and has total assets that do not exceed $10 million;
4. the issuer or another party purchases or repurchases all of the securities issued pursuant to Section 4(a)(6), including any payment in full of debt securities or any complete redemption of redeemable securities; or the issuer liquidates or dissolves in accordance with state law.
