RISK FACTORS

Risks Related to the Company's Business and Industry

We plan to implement new lines of business or offer new products and services within existing lines of business.

There are substantial risks and uncertainties associated with these efforts, particularly in instances where the markets are not fully developed. In developing and marketing new lines of business and/or new products and services, we may invest significant time and resources. Initial timetables for the introduction and development of new lines of business and/or new products or services may not be achieved and price and profitability targets may not prove feasible. We may not be successful in introducing new products and services in response to industry trends or developments in technology, or those new products may not achieve market acceptance. As a result, we could lose business, be forced to price products and services on less advantageous terms to retain or attract clients or be subject to cost increases. As a result, our business, financial condition or results of operations may be adversely affected.

The Company's success depends on the experience and skill of the board of directors, its executive officers and key employees.

In particular, the Company is dependent on Jamie Migdal, who is Founder and CEO. The loss of Jamie Migdal could harm the Company's business, financial condition, cash flow and results of operations.

Although dependent on certain key personnel, the Company does not have any key man life insurance policies on any such people.

The Company is dependent on Jamie Migdal in order to conduct its operations and execute its business plan, however, the Company has not purchased any insurance policies with respect to

those individuals in the event of their death or disability. Therefore, if Jamie Migdal dies or becomes disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and its operations.

We are dependent on new product development.

Our industry is characterized frequent new product introductions and enhancements, continually evolving business expectations and moderately paced changes. To compete effectively in such markets, we must continually improve and enhance its products and services and develop new technologies and services that incorporate technological advances, satisfy increasing customer expectations and compete effectively on the basis of performance and price. Our success will also depend substantially upon our ability to anticipate, and to adapt our products and services to our collaborative partner's preferences. There can be no assurance that technological developments will not render some of our products and services obsolete, or that we will be able to respond with improved or new products, services, and technology that satisfy evolving customers' expectations. Failure to acquire, develop or introduce new products, services, and enhancements in a timely manner could have an adverse effect on our business and results of operations. Also, to the extent one or more of our competitors introduces products and services that better address a customer's needs, our business would be adversely affected.

In order for the Company to compete and grow, it must attract, recruit, retain and develop the necessary personnel who have the needed experience.

Recruiting and retaining highly qualified personnel is critical to our success. These demands may require us to hire additional personnel and will require our existing management personnel to develop additional expertise. The failure to attract and retain personnel or to develop such expertise could delay or halt the development and commercialization of our product candidates. If we experience difficulties in hiring and retaining personnel in key positions, we could suffer from delays in product development, loss of customers and sales and diversion of management resources, which could adversely affect operating results. Our consultants and advisors may be employed by third parties and may have commitments under consulting or advisory contracts with third parties that may limit their availability to us.

If we fail to attract and retain enough sufficiently trained customer service associates and other personnel to support our operations, our business and results of operations will be seriously harmed.

We rely on customer service associates, and our success depends to a significant extent on our ability to attract, hire, train and retain qualified customer service associates. A significant increase in the attrition rate among our customer service associates could decrease our operating efficiency and productivity. Our failure to attract, train and retain customer service associates with the qualifications necessary to fulfill the needs of our existing and future clients would seriously harm our business and results of operations.

Changes in employment laws or regulation could harm our performance.

Various federal and state labor laws govern our relationship with our employees and affect operating costs. These laws include minimum wage requirements, overtime pay, healthcare reform and the implementation of the Patient Protection and Affordable Care Act, unemployment tax rates, workers' compensation rates, citizenship requirements, union membership and sales taxes. A number of factors could adversely affect our operating results, including additional government-imposed increases in minimum wages, overtime pay, paid leaves of absence and mandated health benefits, mandated training for employees, increased tax reporting and tax payment, changing

regulations from the National Labor Relations Board and increased employee litigation including claims relating to the Fair Labor Standards Act.

Our ability to sell our products and services is dependent on the quality of our technical support services, and our failure to offer high quality technical support services would have a material adverse effect on our sales and results of operations.

Once our products are deployed within our end-customers' operations, end-customers depend on our technical support services to resolve any issues relating to these products. If we do not effectively assist our customers in deploying these products, succeed in helping our customers quickly resolve post-deployment issues, and provide effective ongoing support, our ability to sell additional products and services to existing customers would be adversely affected and our reputation with potential customers could be damaged. As a result, our failure to maintain high quality support services would have an adverse effect on our business and results of operations.

Failure to obtain new clients or renew client contracts on favorable terms could adversely affect results of operations.

We may face pricing pressure in obtaining and retaining our clients. On some occasions, this pricing pressure results in lower revenue from a client than we had anticipated based on our previous agreement with that client. This reduction in revenue could result in an adverse effect on our business and results of operations.

Further, failure to renew client contracts on favorable terms could have an adverse effect on our business. If we are not successful in achieving a high rate of contract renewals, our business and results of operations could be adversely affected.

We may rely on subcontractors and partners to provide customers with a single-source solution or we may serve as a subcontractor to a third party prime contractor.

From time to time, we may engage subcontractors, teaming partners or other third parties to provide our customers with a solution for a broader range of service needs. Similarly, we are and may in the future be engaged as a subcontractor to a third party prime contractor. Subcontracting arrangements pose unique risks to us because we do not have control over the customer relationship, and our ability to generate revenue under the subcontract is dependent on the prime contractor, its performance and relationship with the customer and its relationship with us. While we believe that we perform appropriate due diligence on our prime contractors, subcontractors and teaming partners and that we take adequate measures to ensure that they comply with the appropriate laws and regulations, we cannot guarantee that those parties will comply with the terms set forth in their agreements with us (or in the case of a prime contractor, their agreement with the customer), or that they will be reasonable in construing their contractual rights and obligations, always act appropriately in dealing with us or customers, provide adequate service, or remain in compliance with the relevant laws, rules or regulations. We may have disputes with our prime contractors, subcontractors, teaming partners or other third parties arising from the quality and timeliness of work being performed, customer concerns, contractual interpretations or other matters. We may be exposed to liability if we lose or terminate a subcontractor or teaming partner due to a dispute, and subsequently have difficulty engaging an appropriate replacement or otherwise performing their functions in-house, such that we fail to fulfill our contractual obligations to our customer. In the event a prime contract, under which we serve as a subcontractor, is terminated, whether for non-performance by the prime contractor or otherwise, then our subcontract will similarly terminate and we could face contractual liability and the resulting contract loss could adversely affect our business and results of operations.

We rely on various intellectual property rights, including trademarks, in order to operate our business.

Such intellectual property rights, however, may not be sufficiently broad or otherwise may not provide us a significant competitive advantage. In addition, any steps that we have taken to maintain and protect our intellectual property may not prevent it from being challenged, invalidated, or circumvented. In some circumstances, enforcement may not be available to us because an infringer has a dominant intellectual property position or for other business reasons, or countries may require compulsory licensing of our intellectual property. Our failure to obtain or maintain intellectual property rights that convey competitive advantage, adequately protect our intellectual property or detect or prevent circumvention or unauthorized use of such property, could adversely impact our competitive position and results of operations. We also many rely on nondisclosure and noncompetition agreements with employees, consultants and other parties to protect, in part, trade secrets and other proprietary rights. There can be no assurance that any such agreements will adequately protect our trade secrets and other proprietary rights and will not be breached, that we will have adequate remedies for any breach, that others will not independently develop substantially equivalent proprietary information or that third parties will not otherwise gain access to our trade secrets or other proprietary rights.

As we expand our business, protecting our intellectual property will become increasingly important. Any protective steps we take may be inadequate to deter our competitors from using our proprietary information. In order to protect or enforce our patent rights, we may be required to initiate litigation against third parties, such as infringement lawsuits. Also, these third parties may assert claims against us with or without provocation. These lawsuits could be expensive, take significant time and could divert management's attention from other business concerns. The law relating to the scope and validity of claims in the technology field in which we operate is still evolving and, consequently, intellectual property positions in our industry are generally uncertain. We cannot assure you that we will prevail in any of these potential suits or that the damages or other remedies awarded, if any, would be commercially valuable.

We are subject to income taxes as well as non-income based taxes, such as payroll, sales, use, value-added, net worth, property and goods and services taxes

Significant judgment is required in determining our provision for income taxes and other tax liabilities. In the ordinary course of our business, there are many transactions and calculations where the ultimate tax determination is uncertain. Although we believe that our tax estimates are reasonable: (i) there is no assurance that the final determination of tax audits or tax disputes will not be different from what is reflected in our income tax provisions, expense amounts for non-income based taxes and accruals and (ii) any material differences could have an adverse effect on our financial position and results of operations in the period or periods for which determination is made.

We are not subject to Sarbanes-Oxley regulations and lack the financial controls and safeguards required of public companies.

We do not have the internal infrastructure necessary, and are not required, to complete an attestation about our financial controls that would be required under Section 404 of the Sarbanes-Oxley Act of 2002. There can be no assurance that there are no significant deficiencies or material weaknesses in the quality of our financial controls. We expect to incur additional expenses and diversion of management's time if and when it becomes necessary to perform the system and process evaluation, testing and remediation required in order to comply with the management certification and auditor attestation requirements.

Risks Related to the Securities

The Units of SAFE (Simple Agreement for Future Equity) will not be freely tradable until one year from the initial purchase date. Although the Units of SAFE (Simple Agreement for Future Equity) may be tradable under federal securities law, state securities regulations may apply and each Purchaser should consult with his or her attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for the Units of SAFE (Simple Agreement for Future Equity). Because the Units of SAFE (Simple Agreement for Future Equity) have not been registered under the Securities Act or under the securities laws of any state or non-United States jurisdiction, the Units of SAFE (Simple Agreement for Future Equity) have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Units of SAFE (Simple Agreement for Future Equity) may also adversely affect the price that you might be able to obtain for the Units of SAFE (Simple Agreement for Future Equity) in a private sale. Purchasers should be aware of the long-term nature of their investment in the Company. Each Purchaser in this Offering will be required to represent that it is purchasing the Securities for its own account, for investment purposes and not with a view to resale or distribution thereof.

Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulation applicable to the Company.

No governmental agency has reviewed or passed upon this Offering, the Company or any Securities of the Company. The Company also has relied on exemptions from securities registration requirements under applicable state securities laws. Investors in the Company, therefore, will not receive any of the benefits that such registration would otherwise provide. Prospective investors must therefore assess the adequacy of disclosure and the fairness of the terms of this offering on their own or in conjunction with their personal advisors.

No Guarantee of Return on Investment

There is no assurance that a Purchaser will realize a return on its investment or that it will not lose its entire investment. For this reason, each Purchaser should read the Form C and all Exhibits carefully and should consult with its own attorney and business advisor prior to making any investment decision.

A portion of the proceeds from the Offering will be used to pay accrued and unpaid wages.

These proceeds will not be available for the ongoing operations of the Company but will instead be paid to these insiders as unpaid compensation for prior service to the Company.

A portion of the proceeds from the Offering will be used to pay the accrued and unpaid expenses.

These proceeds will not be available for the ongoing operations of the Company but will instead be paid to these insiders as repayment for expenses incurred prior to the Offering and owed to them by the Company.

A portion of the proceeds from the Offering will be used to repay obligations of the Company currently in arrears.

These proceeds will not be available for the ongoing operations of the Company but will instead be paid to creditors for amounts which are currently overdue.

A majority of the Company is owned by a small number of owners.

Prior to the offering the Company's current owners of 20% or more beneficially own up to 84.2% of the Company. Subject to any fiduciary duties owed to our other owners or investors under Illinois law, these owners may be able to exercise significant influence over matters requiring owner approval, including the election of directors or managers and approval of significant Company transactions, and will have significant control over the Company's management and policies. Some of these persons may have interests that are different from yours. For example, these owners may support proposals and actions with which you may disagree. The concentration of ownership could delay or prevent a change in control of the Company or otherwise discourage a potential acquirer from attempting to obtain control of the Company, which in turn could reduce the price potential investors are willing to pay for the Company. In addition, these owners could use their voting influence to maintain the Company's existing management, delay or prevent changes in control of the Company, or support or reject other management and board proposals that are subject to owner approval.

The Company has the right to extend the Offering deadline.

The Company may extend the Offering deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Minimum Amount even after the Offering deadline stated herein is reached. Your investment will not be accruing interest during this time and will simply be held until such time as the new Offering deadline is reached without the Company receiving the Minimum Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Minimum Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after release of such funds to the Company, the Securities will be issued and distributed to you.

There is no present market for the Securities and we have arbitrarily set the price.

We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our net worth or prior earnings. We cannot assure you that the Securities could be resold by you at the Offering price or at any other price.

Purchasers will not become equity holders until the company decides to convert the Securities into CF Shadow Securities or until an IPO or sale of the Company.

Purchasers will not have an ownership claim to the Company or to any of its assets or revenues for an indefinite amount of time, and depending on when and how the Securities are converted, the Purchasers may never become equity holders of the Company. Purchasers will not become equity holders of the Company unless the Company receives a future round of financing great enough to trigger a conversion and the Company elects to convert the Securities. The Company is under no obligation to convert the Securities into CF Shadow Securities (the type of equity securities Purchasers are entitled to receive upon such conversion). In certain instances, such as a sale of the Company, an IPO or a dissolution or bankruptcy, the Purchasers may only have a right to receive cash, to the extent available, rather than equity in the Company.

Purchasers will not have voting rights, even upon conversion of the Securities into CF Shadow Securities.

Purchasers will not have the right to vote upon matters of the Company even if and when their Securities are converted into CF Shadow Securities. Upon such conversion, CF Shadow Securities will have no voting rights and even in circumstances where a statutory right to vote is provided by

state law, the CF Shadow Security holders are required to vote with the majority of the security holders in the new round of equity financing upon which the Securities were converted. For example, if the Securities are converted upon a round offering Series B Preferred Shares, the Series B-CF Shadow Security holders will be required to vote the same way as a majority of the Series B Preferred Share holders vote. Thus, Purchasers will never be able to freely vote upon any director or other matters of the Company.

Purchasers will not be entitled to any inspection or information rights other than those required by Regulation CF.

Purchasers will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by Regulation CF. Other security holders may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information. This lack of information could put Purchasers at a disadvantage in general and with respect to other security holders.

In a dissolution or bankruptcy of the Company, Purchasers will be treated the same as common equity holders.

In a dissolution or bankruptcy of the Company, Purchasers of Securities which have not been converted will be entitled to distributions as if they were common stock holders. This means that such Purchasers will be at the lowest level of priority and will only receive distributions once all creditors as well as holders of more senior securities, including any preferred stock holders, have been paid in full. If the Securities have been converted into CF Shadow Securities, the Purchasers will have the same rights and preferences (other than the ability to vote) as the holders of the securities issued in the equity financing upon which the Securities were converted.

Purchasers will be unable to declare the Security in “default” and demand repayment.

Unlike convertible notes and some other securities, the Securities do not have any “default” provisions upon which the Purchasers will be able to demand repayment of their investment. The Company has ultimate discretion as to whether or not to convert the Securities upon a future equity financing and Purchasers have no right to demand such conversion. Only in limited circumstances, such as a liquidity event, may the Purchasers demand payment and even then, such payments will be limited to the amount of cash available to the Company.

The Company may never elect to convert the Securities or undergo a liquidity event.

The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company’s assets or profits and have no voting rights or ability to direct the Company or its actions.

In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether the Company will successfully effectuate the Company’s current business plan. Each prospective Purchaser is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other, the Risk Factors discussed above.

THE SECURITIES OFFERED INVOLVE A HIGH DEGREE OF RISK AND MAY RESULT IN THE LOSS OF YOUR ENTIRE INVESTMENT. ANY PERSON CONSIDERING THE PURCHASE OF THESE SECURITIES SHOULD BE AWARE OF THESE AND OTHER FACTORS SET FORTH IN THIS FORM C AND SHOULD CONSULT WITH HIS OR HER LEGAL, TAX AND FINANCIAL ADVISORS PRIOR TO MAKING AN INVESTMENT IN THE SECURITIES. THE SECURITIES SHOULD ONLY BE PURCHASED BY PERSONS WHO CAN AFFORD TO LOSE ALL OF THEIR INVESTMENT.

History of the Business

FetchFind was founded in 2014 by CEO Jamie Migdal to address the industry-wide need for a more professional pet care service work force.

The Company's Products and/or Services

Product / Service	Description	Current Market
FetchFind Monthly Pro	Pet care service staff training via online learning management system, featuring an expansive library of content covering animal	The entire U.S./global (English-speaking) pet care service industry.

	behavior, training, and handling; industry best practices; and customer service/business toolkits.	
FetchFind Academy	Primarily an in-person program that trains people to become dog trainers; secondarily, FetchFind Academy is a product development lab to test and proof future content for FetchFind Monthly Pro.	Chicago/local
Brand Marketing and Support	Brands pay for access to our users; FetchFind supports cross-platform brand marketing and awareness.	The entire U.S./global (English-speaking) pet care service industry.
Consumer Marketplace	Through the acquisition of PawedIn (Nov 2016), FetchFind will expand its marketing reach and potential by connecting pet parents, professionals, and brands.	The entire U.S./global (English-speaking) pet care service industry.

We are constantly researching, developing, and producing new content and offerings, both in response to client needs and to keep up to date with current industry standards and best practices. In the short term (6 months) we will be launching our job board v 2.0 (which will be a core lead-and revenue-generating function of our platform), developing additional subscription types and levels for FetchFind Monthly Pro, and integrating the consumer-facing platform (which will be the “Yelp of the Pet Industry”).

FetchFind sells its products in most of its major markets directly to small and medium-sized businesses through professional networks, strategic partnerships, online advertising, content marketing, WOM advertising, local media advertising, telemarketing, and email marketing. FetchFind also employs a variety of indirect distribution channels, such as value-added resellers and affiliate programs and partnerships.

Competition

The Company’s primary competitors are Pet Store Pro, Outstanding Pet Care Learning Center, Udemy, YouTube, DIY/in-house.

In very general terms, organizations like Udemy or Coursera provide access to education and certification; however, very few pet industry companies (including those listed above) offer the opportunity to professionalize – and indeed create – the pet care service work force in the way that FetchFind does. That, combined with our passion for reducing risk and elevating educated professionals, makes FetchFind the premier option for the pet industry.

Supply Chain and Customer Base

Our most important asset is our people. We are proud to employ top talent with both specialized skills and the ability to take over other areas of the company as needed - as a startup, it's important to hire people who can roll up their sleeves and get the job(s) done. Note - every employee in the organization came up through the ranks of FetchFind Academy and was known to the CEO through previous employment and Academy classwork, which accounts for the high quality, dedication, and longevity of the FetchFind staff.

Our customers span the range from boutique, hyper-local shops to national, multi-outlet pet care businesses, all of whom need to hire, train, and educate staff (therefore providing the best value and customer service) in the rapidly growing, largely recession-proof pet industry (\$68B in 2016.) A category of customers - typically larger brands who want access to our users - pay FetchFind for sponsorship opportunities within our platform.

The Company does not expect to achieve profitability in the next 12 months and intends to focus on the following goals: (1) increasing sales, (2) expanding content offerings/improving product, and (3) launching the marketplace.

The Company currently requires \$25,000.00 a month to sustain operations.

Liquidity and Capital Resources

The proceeds of the offering are essential to our operations. We plan to use the proceeds as set forth above under “use of proceeds”, which is an indispensable element of our business strategy. The offering proceeds will have a beneficial effect on our liquidity, as we currently have \$25,000 in cash on hand which will be augmented by the offering proceeds and used to execute our business strategy.

THE OFFERING AND THE SECURITIES

The Offering

The Company is offering up to 750,000 of Units of SAFE (Simple Agreement for Future Equity) for up to \$750,000.00. The Company is attempting to raise a minimum amount of \$50,000.00 in this Offering (the “Minimum Amount”). The Company must receive commitments from investors in an amount totaling the Minimum Amount by July 15, 2017 (the “Offering Deadline”) in order to receive any funds. If the sum of the investment commitments does not equal or exceed the Minimum Amount by the Offering Deadline, no Securities will be sold in the Offering, investment commitments will be cancelled and committed funds will be returned to potential investors without interest or deductions. The Company has the right to extend the Offering Deadline at its discretion. The Company will accept investments in excess of the Minimum Amount up to \$750,000.00 (the “Maximum Amount”) and the additional Securities will be allocated on a First-come, first-served basis.

The price of the Securities does not necessarily bear any relationship to the Company’s asset value, net worth, revenues or other established criteria of value, and should not be considered indicative of the actual value of the Securities. A third-party valuation or appraisal has not been prepared for the business.

In order to purchase the Securities you must make a commitment to purchase by completing the Subscription Agreement. Purchaser funds will be held in escrow with PrimeTrust, LLC until the Minimum Amount of investments is reached. Purchasers may cancel an investment commitment until 48 hours prior to the Offering Deadline or the Closing, whichever comes first using the

cancellation mechanism provided by the Intermediary. The Company will notify Purchasers when the Minimum Amount has been reached. If the Company reaches the Minimum Amount prior to the Offering Deadline, it may close the Offering at least five (5) days after reaching the Minimum Amount and providing notice to the Purchasers. If any material change (other than reaching the Minimum Amount) occurs related to the Offering prior to the Offering Deadline, the Company will provide notice to Purchasers and receive reconfirmations from Purchasers who have already made commitments. If a Purchaser does not reconfirm his or her investment commitment after a material change is made to the terms of the Offering, the Purchaser's investment commitment will be cancelled and the committed funds will be returned without interest or deductions. If a Purchaser does not cancel an investment commitment before the Minimum Amount is reached, the funds will be released to the Company upon closing of the Offering and the Purchaser will receive the Securities in exchange for his or her investment. Any Purchaser funds received after the initial closing will be released to the Company upon a subsequent closing and the Purchaser will receive Securities via Electronic Certificate/PDF in exchange for his or her investment as soon as practicable thereafter.

Subscription Agreements are not binding on the Company until accepted by the Company, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any subscription. If the Company rejects all or a portion of any subscription, the applicable prospective Purchaser's funds will be returned without interest or deduction.

The price of the Securities was determined arbitrarily. The minimum amount that a Purchaser may invest in the Offering is \$50.00.

The Securities do not entitle the Purchasers to any dividends.

Conversion

Upon each future equity financing of greater than \$1,000,000.00 (an “Equity Financing”), the Securities are convertible at the option of the Company, into CF Shadow Series securities, which are securities identical to those issued in such future Equity Financing except (1) they do not have the right to vote on any matters except as required by law, (2) they must vote in accordance with the majority of the investors in such future Equity Financing with respect to any such required vote and (3) they are not entitled to any inspection or information rights (other than those contemplated by Regulation CF). The Company has no obligation to convert the Securities in any future financing.

Conversion Upon the First Equity Financing

If the Company elects to convert the Securities upon the first Equity Financing following the issuance of the Securities, the Purchaser will receive the number of CF Shadow Series securities equal to the greater of the quotient obtained by dividing the amount the Purchaser paid for the Securities (the “Purchase Amount”) by:

(a) the quotient of \$2,400,000.00 divided by the aggregate number of issued and outstanding shares of capital stock, assuming full conversion or exercise of all convertible and exercisable securities then outstanding, including shares of convertible preferred stock and all outstanding vested or unvested options or warrants to purchase capital stock, but excluding (i) the issuance of all shares of capital stock reserved and available for future issuance under any of the Company’s existing equity incentive plans, (ii) convertible promissory notes issued by the Company, (iii) any Simple Agreements for Future Equity, including the Securities (collectively, “Safes”), and (iv) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or Safes,

OR

(b) the lowest price per share of the securities sold in such Equity Financing multiplied by 80.00%.

The price (either (a) or (b)) determined immediately above shall be deemed the “First Financing Price” and may be used to establish the conversion price of the Securities at a later date, even if the Company does not choose to convert the Securities upon the first Equity Financing following the issuance of the Securities.

Conversion After the First Equity Financing

If the Company elects to convert the Securities upon an Equity Financing after the first Equity Financing following the issuance of the Securities, the Purchaser will receive the number of CF Shadow Series securities equal to the quotient obtained by dividing (a) the Purchase Amount by (b) the First Financing Price.

Conversion Upon a Liquidity Event Prior to an Equity Financing

In the case of an initial public offering of the Company (“IPO”) or Change of Control (see below) (either of these events, a “Liquidity Event”) of the Company prior to any Equity Financing, the Purchaser will receive, at the option of the Purchaser, either (i) a cash payment equal to the Purchase Amount (subject to the following paragraph) or (ii) a number of shares of common stock of the Company equal to the Purchase Amount divided by the quotient of (a) \$2,400,000.00 divided by (b) the number, as of immediately prior to the Liquidity Event, of shares of the Company’s

capital stock (on an as-converted basis) outstanding, assuming exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding: (i) shares of common stock reserved and available for future grant under any equity incentive or similar plan; (ii) any Safes; and (iii) convertible promissory notes.

In connection with a cash payment described in the preceding paragraph, the Purchase Amount will be due and payable by the Company to the Purchaser immediately prior to, or concurrent with, the consummation of the Liquidity Event. If there are not enough funds to pay the Purchasers and holders of other Safes (collectively, the “Cash-Out Investors”) in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts.

“Change of Control” as used above and throughout this section, means (i) a transaction or transactions in which any person or group becomes the beneficial owner of more than 50% of the outstanding voting securities entitled to elect the Company’s board of directors, (ii) any reorganization, merger or consolidation of the Company, in which the outstanding voting security holders of the Company fail to retain at least a majority of such voting securities following such transaction(s) or (iii) a sale, lease or other disposition of all or substantially all of the assets of the Company.

Conversion Upon a Liquidity Event Following an Equity Financing

In the case of a Liquidity Event following any Equity Financing, the Purchaser will receive, at the option of the Purchaser, either (i) a cash payment equal to the Purchase Amount (as described above) or (ii) a number of shares of the most recently issued preferred stock equal to the Purchase Amount divided by the First Financing Price. Shares of preferred stock granted in connection therewith shall have the same liquidation rights and preferences as the shares of preferred stock issued in connection with the Company’s most recent Equity Financing.

Dissolution

If there is a Dissolution Event (see below) before the Securities terminate, the Company will distribute, subject to the preferences applicable to any series of preferred stock then outstanding, all of its assets legally available for distribution with equal priority among the Purchasers, all holders of other Safes (on an as converted basis based on a valuation of common stock as determined in good faith by the Company’s board of directors at the time of the Dissolution Event) and all holders of common stock.

A “Dissolution Event” means (i) a voluntary termination of operations by the Company, (ii) a general assignment for the benefit of the Company’s creditors or (iii) any other liquidation, dissolution or winding up of the Company (excluding a Liquidity Event), whether voluntary or involuntary.

Termination

The Securities terminate upon (without relieving the Company of any obligations arising from a prior breach of or non-compliance with the Securities) upon the earlier to occur: (i) the issuance of shares in the CF Shadow Series to the Purchaser pursuant to the conversion provisions or (ii) the payment, or setting aside for payment, of amounts due to the Purchaser pursuant to a Liquidity Event or a Dissolution Event.

Voting and Control

The Securities have no voting rights at present or when converted.

The following table sets forth who has the authority to make the certain Company appointments:

Appointment of the Managers of the Company	Members
Appointment of the Officers of the Company	Managers

The Company does not have any voting agreements in place.

The Company does not have any shareholder/equity holder agreements in place.

Anti-Dilution Rights

The Securities do not have anti-dilution rights, which means that future equity financings will dilute the ownership percentage that the Purchaser may eventually have in the Company.

Restrictions on Transfer

Any securities sold pursuant to Regulation CF being offered may not be transferred by any Purchaser of such Securities during the one-year holding period beginning when the Securities were issued, unless such Securities are transferred: 1) to the Company, 2) to an accredited investor, as defined by Rule 501(d) of Regulation D promulgated under the Securities Act, 3) as part of an IPO or 4) to a member of the family of the Purchaser or the equivalent, to a trust controlled by the Purchaser, to a trust created for the benefit of a member of the family of the Purchaser or the equivalent, or in connection with the death or divorce of the Purchaser or other similar circumstances. “Member of the family” as used herein means a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother/father/daughter/son/sister/brother-in-law, and includes adoptive relationships. Remember that although you may legally be able to transfer the Securities, you may not be able to find another party willing to purchase them.

In addition to the foregoing restrictions, prior to making any transfer of the Securities or any securities into which they are convertible, such transferring Purchaser must either make such transfer pursuant to an effective registration statement filed with the SEC or provide the Company with an opinion of counsel stating that a registration statement is not necessary to effect such transfer.

In addition, the Purchaser may not transfer the Securities or any securities into which they are convertible to any of the Company’s competitors, as determined by the Company in good faith.

Furthermore, upon the event of an IPO, the capital stock into which the Securities are converted will be subject to a lock-up period and may not be sold for up to 180 days following such IPO.

Other Material Terms

- The Company does not have the right to repurchase the Securities.
- The Securities do not have a stated return or liquidation preference.

- The Company cannot determine if it currently has enough capital stock authorized to issue upon the conversion of the Securities, because the amount of capital stock to be issued is based on the occurrence of future events.

Independent Accountant's Review Report

To the Managing Member
FetchFind, LLC
Chicago, Illinois

I have reviewed the accompanying balance sheets of FetchFind, LLC as of December 31, 2016 and 2015, the related statements of operations, changes in partners' capital, and cash flows for the years then ended and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I do not express such an opinion.

Management Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My responsibility is to conduct the review in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. Those standards require me to perform procedures to obtain limited assurance as a basis for reporting whether I am aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I believe that the results of my procedures provide a reasonable basis for my conclusion.

Limited Assurance

Based on my review, I am not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

Going Concern

As discussed in Note 1 and Note 11, certain conditions indicate that FetchFind, LLC may be unable to continue as a going concern. The accompanying financial statements do not include any adjustments that might be necessary should FetchFind, LLC be unable to continue as a going concern. My conclusion is not modified with respect to this matter.

FetchFind, LLC
NOTES TO FINANCIAL STATEMENTS
(unaudited)

NOTE 1 - NATURE OF OPERATIONS

FetchFind, LLC. (the "Company") was incorporated on September 10, 2013 ("Inception") in the state of Delaware. The Company is headquartered in Chicago, Illinois. The Company is an integrated eLearning marketplace for the pet industry.

Since Inception, the Company has relied on securing loans to fund its operations. As of December 31, 2016 and 2015, the Company had negative working capital and will likely incur additional losses prior to generating positive working capital. These matters raise substantial concern about the Company's ability to continue as a going concern. During the next 12 months, the Company intends to fund its operations with funding from a crowdfunding campaign (see Note 11) and funds from revenue producing activities, if and when such can be realized. If the Company cannot secure additional short-term capital, it may cease operations. These financial statements and related notes thereto do not include any adjustments that might result from these uncertainties.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America ("GAAP"). The accompanying unaudited financial statements do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of management, all adjustments considered necessary for the fair presentation of the unaudited financial statements for the years presented have been included.

Use of Estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the footnotes thereto. Actual results could differ from those estimates.

Risks and Uncertainties

The Company has a limited operating history. The Company's business and operations are sensitive to general business and economic conditions in the United States. A host of factors beyond the Company's control could cause fluctuations in these conditions. Adverse conditions may include: recession, downturn or otherwise, local competition or changes in consumer taste. These adverse conditions could affect the Company's financial condition and the results of its operations. As of December 31, 2016 and 2015, the Company is operating as a going concern. See Note 1 and Note 11 for additional information.

Cash and Cash Equivalents

The Company considers short-term, highly liquid investments with original maturities of three months or less at the time of purchase to be cash equivalents. Cash consists of funds held in the Company's checking account. The Company maintains its cash with a major financial institution located in the United States of America, which it believes to be credit worthy. The Federal Deposit Insurance Corporation insures balances up to \$250,000. At times, the Company may maintain balances in excess of the federally insured limits. As of December 31, 2016 and 2015, the Company had \$2,534 and \$0 of cash on hand, respectively.

Receivables and Credit Policy

Trade receivables from customers are uncollateralized customer obligations due under normal trade terms, primarily requiring payment before services are rendered. Trade receivables are stated at the amount billed to the customer. Payments of trade receivables are allocated to the specific invoices identified on the customer's remittance advice or, if unspecified, are applied to the earliest unpaid invoice. The Company, by policy, routinely assesses the financial strength of its customers. As a result, the Company believes that its accounts receivable credit risk exposure is limited and it has not experienced significant write-downs in its accounts receivable balances. As of December 31, 2016 and 2015, the Company did not have any outstanding accounts receivable.

Property and Equipment

Property and equipment are recorded at cost. Expenditures for renewals and improvements that significantly add to the productive capacity or extend the useful life of an asset are capitalized. Expenditures for maintenance and repairs are expensed as incurred. When equipment is retired or sold, the cost and related accumulated depreciation are eliminated from the balance sheet accounts and the resultant gain or loss is reflected in income.

Depreciation is provided using the straight-line method, based on useful lives of the assets which range from three to five years.

The Company reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, the manner in which the property is used, and the effects of obsolescence, demand, competition, and other economic factors. Based on this assessment, no impairment was recorded for the years ended December 31, 2016 and 2015.

Goodwill

Goodwill represents costs in excess of purchase price over the fair value of the assets of businesses acquired, including other identifiable intangible assets.

As of January 1, 2016, the Company adopted Financial Accounting Standards Board's ("FASB") Accounting Standards Update ("ASU") No. 2014-02, Intangibles- Goodwill and Other: Accounting for Goodwill. This accounting alternative allows management to elect to amortize goodwill over a 10-year life. In accordance with the adoption of this accounting alternative for goodwill, the Company has also elected to test goodwill for impairment, upon the occurrence of one or more triggering events, at the company level. The Company has adopted this standard as management believes the amortization of goodwill more accurately reflects financial statement information significant to the users of the financial statements. The adoption of ASU 2014-02 did not have any effect on the financial statements of the Company.

Effective January 1, 2016, goodwill is amortized on the straight-line method over a period of 10 years. Goodwill will be tested for impairment upon the occurrence of an event that would indicate that the fair value of the Company is below its carrying value. Prior to January 1, 2016, the Company had no recorded goodwill. As of December 31, 2016, the carrying value of the Company's goodwill was not considered impaired.

Income Taxes

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes related primarily to differences between the basis of receivables, inventory, property and equipment, intangible assets, and accrued expenses for financial and income tax reporting. The deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

There is no income tax provision for the Company for the period from Inception through December 31, 2016 as the Company incurred a taxable loss. In addition, there is a 100% valuation allowance against the net operating loss generated by the Company as of December 31, 2016. The Company is taxed as a "C" Corporation.

The Company evaluates its tax positions that have been taken or are expected to be taken on income tax returns to determine if an accrual is necessary for uncertain tax positions. As of December 31, 2016, the unrecognized tax benefits accrual was zero.

Revenue Recognition

The Company recognizes revenue when persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, the fee for the arrangement is fixed or determinable and collectability is reasonably assured.

Sales and Marketing Expenses

The Company expenses advertising costs as they are incurred.

Recent Accounting Pronouncements

In May 2014, FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers." ASU No. 2014-09 contains a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. Under this guidance, revenue is recognized when promised goods or services are transferred to customers in an amount that reflects the consideration expected to be received for those goods or services. The updated standard permits the use of either the retrospective or cumulative effect transition method. Early adoption is permitted for reporting periods beginning after December 15, 2016. The updated standard for nonpublic entities will be effective after December 15, 2018, and interim periods within annual periods beginning after December 15, 2019. The Company is currently evaluating the effect that the updated standard will have on its financial statements and related disclosures.

In February 2016, FASB issued ASU No. 2016-02, "Leases (Topic 842)," that requires organizations that lease assets, referred to as "lessees," to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases with lease terms of more than 12 months. ASU 2016-02 will also require disclosures to help investors and other financial statement users better understand the amount, timing, and uncertainty of cash flows arising from leases and will include qualitative and quantitative requirements. The new standard for nonpublic entities will be effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020, and early application is permitted. The Company is currently evaluating the effect that the updated standard will have on its financial statements and related disclosures.

In August 2016, FASB issued ASU No. 2016-15, "Statement of Cash Flows (Topic 230)." ASU 2016-15 provides classification guidance for certain cash receipts and cash payments including payment of debt extinguishment costs, settlement of zero-coupon debt instruments, insurance claim payments and distributions from equity method investees. The standard is effective on January 1, 2018, with early adoption permitted. The Company is currently in the process of evaluating the impact the adoption will have on its financial statements and related disclosures.

The FASB issues ASUs to amend the authoritative literature in ASC. There have been a number of ASUs to date, including those above, that amend the original text of ASC. Management believes that those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, (iii) are not applicable to the Company, or (iv) are not expected to have a material impact the Company's financial statements.

	<u>\$ 2,488</u>	<u>\$ 3,090</u>

NOTE 4 – ACQUISITION AND GOODWILL

In November 2016, the Company acquired the assets of PawedIn, LLC. The purchase price was \$35,000, of which \$22,000 was paid in 2016 and the remaining \$13,000 was paid during the first quarter of 2017. In connection with this acquisition, the Company recorded goodwill.

Goodwill as of December 31, 2016 and 2015 is detailed in the following table:

If your pet could leave reviews, would they choose a different dog walker, groomer or veterinarian? How do you know your pet is getting the best pet care that they deserve?

With more than 150,000 pet care businesses in the US, choosing the right pet care provider is very hard. Usual sources like Yelp don't specialize in pet care and are full of irrelevant or inaccurate information.

I'm a single guy with 3 dogs and I am constantly need help caring for them. Boarding, grooming, walking, you name it. I need to know that the businesses I hire are educating their staff to provide the best possible care to my dogs.

There's no 3rd party resource to verify what they are saying is true. Training from professionals that were trustworthy and there was some level of accountability to gain a certification there, I'd be much more inclined to hire them.

At this time pet owners really do not have a way of accessing information regarding the pet care industry. So whether they are veterinarians, or pet sitters or trainers, they don't have a way of looking at their educational background or their experience.

Hi I'm Jamie Migdal and I am the CEO and founder of FetchFind, I love animals and I love people and I've been very fortunate to spend the last 25 years working alongside of them.

I've noticed that sometimes animals don't get the highest level of care and owners sometimes don't know how to select the highest quality of care from pet care providers. And that's why we created FetchFind

On FetchFind you can easily find nearby pet care providers and filter by your pet's breed, specific provider qualifications, reviews, and other important features of the business. Our 'FetchFind Approved' status will tell you that this is a trusted and expert reviewed pet care service.

To ensure pets that are getting exceptional care, FetchFind works directly with pet business owners and their employees to provide online staff training.

Our programs include everything from dog behavior, to grooming and first aid, to nutrition. All designed by real pet industry experts.

Our happy customers include small and medium family owned businesses, along with industry giants like Petco and Petsmart.

Animals give us so much unconditional love and joy, and the least we can do in return is making sure they're cared for. By people who value them as much as we do. By becoming an investor in FetchFind you are part of the team helping to build the next generation of tools for our pets. Because they deserve it, and although they don't speak human, their voices absolutely count.
