RISK FACTORS

In order for the Company to compete and grow, it must attract, recruit, retain and develop the necessary personnel who have the needed experience.

Recruiting and retaining highly qualified personnel is critical to our success. These demands may require us to hire additional personnel and will require our existing management personnel to develop additional expertise. We face intense competition for personnel. The failure to attract and retain personnel or to develop such expertise could delay or halt the development and commercialization of our product candidates. If we experience difficulties in hiring and retaining personnel in key positions, we could suffer from delays in product development, loss of customers and sales and diversion of management resources, which could adversely affect operating results. Our consultants and advisors may be employed by third parties and may have commitments under consulting or advisory contracts with third parties that may limit their availability to us.

The Company's success depends on the experience and skill of the board of directors, its executive officers and key employees.

In particular, the Company is dependent on William Fitzmaurice (President), Edward McMahon (Chief Executive Officer, Chief Financial Officer), Nancy Bell (Director), and Christinia Marc (Treasurer, Secretary). The Company intends to enter into employment agreements with William Fitzmaurice and Edward McMahon although there can be no assurance that it will do so or that they will continue to be employed by the Company for a particular period of time. The loss of William Fitzmaurice, Edward McMahon or any member of the board of directors or executive officer could harm the Company's business, financial condition, cash flow and results of operations.

We rely on various intellectual property rights, including patents and trademarks in order to operate our business.

Such intellectual property rights, however, may not be sufficiently broad or otherwise may not provide us a significant competitive advantage. In addition, the steps that we have taken to maintain and protect our intellectual property may not prevent it from being challenged, invalidated, circumvented or designed-around, particularly in countries where intellectual

property rights are not highly developed or protected. In some circumstances, enforcement may not be available to us because an infringer has a dominant intellectual property position or for other business reasons, or countries may require compulsory licensing of our intellectual property. Our failure to obtain or maintain intellectual property rights that convey competitive advantage, adequately protect our intellectual property or detect or prevent circumvention or unauthorized use of such property, could adversely impact our competitive position and results of operations. We also rely on nondisclosure and noncompetition agreements with employees, consultants and other parties to protect, in part, trade secrets and other proprietary rights. There can be no assurance that these agreements will adequately protect our trade secrets and other proprietary rights and will not be breached, that we will have adequate remedies for any breach, that others will not independently develop substantially equivalent proprietary information or that third parties will not otherwise gain access to our trade secrets or other proprietary rights.

As we expand our business, protecting our intellectual property will become increasingly important. The protective steps we have taken may be inadequate to deter our competitors from using our proprietary information. In order to protect or enforce our patent rights, we may be required to initiate litigation against third parties, such as infringement lawsuits. Also, these third parties may assert claims against us with or without provocation. These lawsuits could be expensive, take significant time and could divert management's attention from other business concerns. The law relating to the scope and validity of claims in the technology field in which we operate is still evolving and, consequently, intellectual property positions in our industry are generally uncertain. We cannot assure you that we will prevail in any of these potential suits or that the damages or other remedies awarded, if any, would be commercially valuable.

From time to time, third parties may claim that one or more of our products or services infringe their intellectual property rights.

Any dispute or litigation regarding patents or other intellectual property could be costly and time-consuming due to the uncertainty of intellectual property litigation and could divert our management and key personnel from our business operations. A claim of intellectual property infringement could force us to enter into a costly or restrictive license agreement, which might not be available under acceptable terms or at all, could require us to redesign our products, which would be costly and time-consuming, and/or could subject us to an injunction against development and sale of certain of our products or services. We may have to pay substantial damages, including damages for past infringement if it is ultimately determined that our product candidates infringe a third party's proprietary rights. Even if these claims are without merit, defending a lawsuit takes significant time, may be expensive and may divert management's attention from other business concerns. Any public announcements related to litigation or interference proceedings initiated or threatened against us could cause our business to be harmed. Our intellectual property portfolio may not be useful in asserting a counterclaim, or negotiating a license, in response to a claim of intellectual property infringement. In certain of our businesses we rely on third party intellectual property licenses and we cannot ensure that these licenses will be available to us in the future on favorable terms or at all.

Although dependent on certain key personnel, the Company does not have any key man life insurance policies on any such people.

The Company is dependent on William Fitzmaurice, Edward McMahan, and Nancy Bell in order to conduct its operations and execute its business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if William Fitzmaurice, Edward McMahan, or Nancy Bell die or become disabled, the

Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and its operations.

We are subject to income taxes as well as non-income based taxes, such as payroll, sales, use, value-added, net worth, property and goods and services taxes, in both the U.S.

Significant judgment is required in determining our provision for income taxes and other tax liabilities. In the ordinary course of our business, there are many transactions and calculations where the ultimate tax determination is uncertain. Although we believe that our tax estimates are reasonable: (i) there is no assurance that the final determination of tax audits or tax disputes will not be different from what is reflected in our income tax provisions, expense amounts for non-income based taxes and accruals and (ii) any material differences could have an adverse effect on our financial position and results of operations in the period or periods for which determination is made.

We are not subject to Sarbanes-Oxley regulations and lack the financial controls and safeguards required of public companies.

We do not have the internal infrastructure necessary, and are not required, to complete an attestation about our financial controls that would be required under Section 404 of the Sarbanes-Oxley Act of 2002. There can be no assurance that there are no significant deficiencies or material weaknesses in the quality of our financial controls. We expect to incur additional expenses and diversion of management's time if and when it becomes necessary to perform the system and process evaluation, testing and remediation required in order to comply with the management certification and auditor attestation requirements.

Fluctuations in the mix of customer demand for our various types of solution offerings could impact our financial performance and ability to forecast performance.

Due to fluctuations in customer needs, changes in customer industries, and general economic conditions, customer demand for the range of our offerings varies from time to time and is not predictable. In addition, our gross margins vary by customer and by segment and the mix of services provided to our customers could impact our results of operations as certain of our customers and segments have different gross margin profiles. Generally, the profitability of an account increases over time. As a result, the mix of solutions we provide to our customers varies at any given time, both within a quarter and from quarter-to-quarter. These variations in service mix impact gross margins and the predictability of gross margins for any period. You should not rely on the results of any one quarter as an indication of our future performance.

Our operating results may fluctuate due to factors that are difficult to forecast and not within our control.

Our past operating results may not be accurate indicators of future performance, and you should not rely on such results to predict our future performance. Our operating results have fluctuated significantly in the past, and could fluctuate in the future. Factors that may contribute to fluctuations include:

- * changes in aggregate capital spending, cyclicalities and other economic conditions, or domestic and international demand in the industries we serve;
- * our ability to effectively manage our working capital;
- * our ability to satisfy consumer demands in a timely and cost-effective manner;
- * pricing and availability of labor and materials;
- * our inability to adjust certain fixed costs and expenses for changes in demand;
- * shifts in geographic concentration of customers, supplies and labor pools; and
- * seasonal fluctuations in demand and our revenue.

Our ability to sell our products and services is dependent on the quality of our technical support services, and our failure to offer high quality technical support services would have a material adverse effect on our sales and results of operations.

Once our products are deployed within our end-customers' operations, end-customers depend on our technical support services to resolve any issues relating to these products. If we do not effectively assist our customers in deploying these products, succeed in helping our customers quickly resolve post-deployment issues, and provide effective ongoing support, our ability to sell additional products and services to existing customers would be adversely affected and our reputation with potential customers could be damaged. As a result, our failure to maintain high quality support services would have an adverse effect on our business and results of operations.

We are subject to rapid technological change and dependence on new product development.

Our industry is characterized by rapid and significant technological developments, frequent new product introductions and enhancements, continually evolving business expectations and swift changes. To compete effectively in such markets, we must continually improve and enhance our products and services and develop new technologies and services that incorporate technological advances, satisfy increasing customer expectations and compete effectively on the basis of performance and price. Our success will also depend substantially upon our ability to anticipate, and to adapt our products and services to our collaborative partner's preferences. There can be no assurance that technological developments will not render some of our products and services obsolete, or that we will be able to respond with improved or new products, services, and technology that satisfy evolving customers' expectations. Failure to acquire, develop or introduce new products, services, and enhancements in a timely manner could have an adverse effect on our business and results of operations. Also, to the extent one or more of our competitors introduces products and services that better address a customer's needs, our business would be adversely affected.

Failure to obtain new clients or renew client contracts on favorable terms could adversely affect results of operations.

We may face pricing pressure in obtaining and retaining our clients. Our clients may be able to seek price reductions from us when they renew a contract, when a contract is extended, or when the client's business has significant volume changes. They may also reduce services if they decide to move services in-house. On some occasions, this pricing pressure results in lower revenue from a client than we had anticipated based on our previous agreement with that client. This reduction in revenue could result in an adverse effect on our business and results of operations.

Further, failure to renew client contracts on favorable terms could have an adverse effect on our business. Our contracts with clients generally run for several years and include liquidated damage provisions that provide for early termination fees. Terms are generally renegotiated prior to the end of a contract's term. If we are not successful in achieving a high rate of contract renewals on favorable terms, our business and results of operations could be adversely affected.

We may rely on subcontractors and partners to provide customers with a single-source solution or we may serve as a subcontractor to a third party prime contractor.

From time to time, we may engage subcontractors, teaming partners or other third parties to provide our customers with a single-source solution for a broader range of service needs. Similarly, we are and may in the future be engaged as a subcontractor to a third party prime contractor. Subcontracting arrangements pose unique risks to us because we do not have control

over the customer relationship, and our ability to generate revenue under the subcontract is dependent on the prime contractor, its performance and relationship with the customer and its relationship with us. While we believe that we perform appropriate due diligence on our prime contractors, subcontractors, and teaming partners, and that we take adequate measures to ensure that they comply with the appropriate laws and regulations, we cannot guarantee that those parties will comply with the terms set forth in their agreements with us (or in the case of a prime contractor, their agreement with the customer), or that they will be reasonable in construing their contractual rights and obligations, always act appropriately in dealing with us or customers, provide adequate service, or remain in compliance with the relevant laws, rules or regulations. We may have disputes with our prime contractors, subcontractors, teaming partners or other third parties arising from the quality and timeliness of work being performed, customer concerns, contractual interpretations or other matters. We may be exposed to liability if we lose or terminate a subcontractor or teaming partner due to a dispute, and subsequently have difficulty engaging an appropriate replacement or otherwise performing their functions in-house, such that we fail to fulfill our contractual obligations to our customer. In the event a prime contract, under which we serve as a subcontractor, is terminated, whether for non-performance by the prime contractor or otherwise, then our subcontract will similarly terminate and we could face contractual liability and the resulting contract loss could adversely affect our business and results of operations.

Security breaches and other disruptions could compromise our information and expose us to liability, which would cause our business and reputation to suffer.

We collect and store sensitive data, including intellectual property, our proprietary business information and that of our customers, and personally identifiable information of our customers and their employees and constituents, in our data centers and on our networks. The secure processing, maintenance and transmission of this information is critical to our operations and business strategy. Despite our security measures, our information technology and infrastructure may be vulnerable to attacks by hackers or breached due to employee error, malfeasance or other disruptions. Any such breach could compromise our networks and the information stored there could be accessed, publicly disclosed, lost or stolen. Any such access, disclosure or other loss of information could result in legal claims or proceedings, liability under laws that protect the privacy of personal information, and regulatory penalties, disrupt our operations and the services we provide to customers, damage our reputation, and cause a loss of confidence in our products and services, which could adversely affect our business, revenues and competitive position.

Our business and financial condition may be impacted by military actions, global terrorism, natural disasters and political unrest.

Additionally, hurricanes or other unanticipated catastrophes, both in the U.S. and globally, could disrupt our operations and negatively impact our business as well as disrupt our clients' businesses, which may result in a further adverse impact on our business. You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for the Crowd Notes. Because the Crowd Notes have not been registered

under the Securities Act or under the securities laws of any state or non-United States jurisdiction, the Crowd Notes have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Crowd Notes may also adversely affect the price that you might be able to obtain for the Crowd Notes in a private sale. Purchasers should be aware of the long-term nature of their investment in the Company. Each Purchaser in this Offering will be required to represent that it is purchasing the Securities for its own account, for investment purposes and not with a view to resale or distribution thereof.

Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulation applicable to the Company.

No governmental agency has reviewed or passed upon this Offering, the Company or any Securities of the Company. The Company also has relied on exemptions from securities registration requirements under applicable state securities laws. Investors in the Company, therefore, will not receive any of the benefits that such registration would otherwise provide. Prospective investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering on their own or in conjunction with their personal advisors.

No Guarantee of Return on Investment

There is no assurance that a Purchaser will realize a return on its investment or that it will not lose its entire investment. For this reason, each Purchaser should read the Form C and all Exhibits carefully and should consult with its own attorney and business advisor prior to making any investment decision.

There is no present market for the Securities and we have arbitrarily set the price.

We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our net worth or prior earnings. We cannot assure you that the Securities could be resold by you at the Offering price or at any other price.

In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether the Company will successfully effectuate the Company's current business plan. Each prospective Purchaser is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other, the Risk Factors discussed above.

BUSINESS

Description of the Business

Primo Wind, Inc., is a renewable energy company. We develop micro wind turbines, and our primary products are powered by a hybrid wind, solar, and battery technology. Our proprietary and patented products range from distributed power generation for commercial structures to self-sustaining nano-grids that provide USB charging, lighting, WiFi, and security cameras. Our products address a broad spectrum of customers and markets including cities, parks, schools, and universities. Our products are particularly unique in that they can also provide for off-grid energy needs, such as military expeditionary energy, as well as energy needs in places where there is no grid or the grid has been damaged due to natural disaster.

Business Plan

Our company's primary product, the EnergiPlant, is a free-standing nanogrid combining wind, solar, and batteries to provide security, WiFi, lighting, and charging for phones and tablets. EnergiPlant is fully self-charging, does not require any electrical connection, and can be installed anywhere. The product also includes benches, which contain data sensors for collection of community data, such as person counting, air quality, and weather data.

Other products, such as EnergiTree, which is a similar product for smaller homes or villages and particularly suited to tropical climates, have evolved out of the EnergiPlant concept. We continue to adapt our hybrid technology to meet the needs of a wide range of markets.

We plan to sell directly to select customers, through distributor channels, and Prime General Services Administration (GSA) contractors. Our proprietary and patented products address a broad spectrum of customers and markets. We may choose to license our technology to industry leaders that are established in markets we wish to penetrate. This will help Primo Wind gain broad market share more quickly and efficiently and help maintain healthy margins.

History of the Business

Primo Wind was incorporated as a California Corporation in December 2012. After incorporation, Primo Wind spent 24 months conducting research and development, field testing, and filing patents and trademarks for the company. Field research findings were presented at different events and prototypes were built and deployed. We modified prototypes based on feedback and began testing on Navy property in San Diego and at the end of 2015 we were contracted by the Navy to provide renewable energy units. The first unit was delivered in 2016 and was taken to the Arctic to partially power the Navy's Arctic Submarine Laboratory. After returning a few months later with positive results, we entered a broader market conducting both grid-tied and off-grid installations. Our off-grid designs began to include solar as we believed a hybrid of wind, solar and battery power was the best solution. Through this work, the EnergiPlant was developed and is the main focus of our efforts. The EnergiPlant runs off-grid by using renewables and makes possible the use of lighting, security systems, and more where there is no need or ability to hard-wire in the traditional manner. We are also working on other projects that use the same patented wind turbine, solar, and battery setup.

The Company's Products and/or Services

Product / Service	Description	Current Market
EnergiPlant	Hybrid wind/solar powered battery charging station. Includes USB ports, LED lights, WiFi, security cameras, and sitting benches which house all electronics including batteries.	Parks, schools, transit stops, city parks, universities.

We received a patent for the ReWind design and plan to license this product rather than building and selling it ourselves. The patent covers a design for a standalone hybrid wind/solar data platform that includes USB parts, LED lights, WiFi, security cameras, and sitting benches which house all electronics.

Competition

The Company's primary competitors are Strawberry Energy, EnGo Planet, Fortis Wind Energy, and Bergey Windpower. Unlike our competition, we provide a comprehensive solution that combines both wind and solar power. Our EnergiPlant offers a wide range of feature including LED lighting, WiFi, USB charging, extra seating, and security cameras. No other company is using wind energy for security and data device the same way that we are.

Strawberry Energy: Founded in 2011, Strawberry Energy develops solar urban furniture. It has several products, including the Strawberry Tree and Strawberry Smart Bench. The Strawberry Tree is a permanently installed solar urban device and a smart city platform, which provides free mobile phone charging, Wi-Fi internet, and LED lighting. The Strawberry Smart Bench offers charging for mobile devices, environmental sensing, free emergency calls, and local info in public spaces. Its installations are in 30 cities and 17 countries.¹

EnGo Planet: Founded in 2016, EnGo Planet was started after Hurricane Sandy left New York City without lights for seven days. The company focuses on smart solar street lighting and produces two products: Smart Solar Street Lights and Smart Solar Benches. It produces lighting solutions for highways, pedestrian areas, universities, schools, security, and industrial areas. Additional features for both applications include smart cameras, sensors for collecting outdoor data, and a charging station for mobile phones.

Fortis Wind Energy: Founded in 1997, Fortis Wind Energy is a Dutch small wind turbine manufacturer. It produces and installs hybrid wind and solar on-grid or off-grid (micro-grid) solutions. It currently has three lines of turbines – the Passaat, Montana, and Alizé – that generate power in ranges of 1.4 to 10 kilowatts and come equipped with an integrated storage battery bank system.²

Bergey Windpower: Founded in 1970, Bergey Windpower manufactures off-grid and on-grid connected wind turbines. The Bergey XL.1 is suited for small off-grid homes or cabins and is designed with high-efficiency blades to operate in low-wind areas. In 2017, Bergey Wind was awarded a federal grant of about \$250,000 by the U.S. Department of Energy. The company said the funds will be used to develop a tower design that will allow customers to install home wind systems without the need for a concrete base.³

We primarily target universities, departments of the U.S. Military, and local parks.

Governmental/Regulatory Approval and Compliance

In large volumes there is potential for tax credits, investment tax credits and battery rebates that could benefit the sales of our products. In addition, with additional states having renewable energy mandates we also fall within that category.

The Company must receive commitments from investors in an amount totaling the Minimum Amount by July 16, 2018 (the "Offering Deadline") in order to receive any funds. If the sum of the investment commitments does not equal or exceed the Minimum Amount by the Offering Deadline, no Securities will be sold in the Offering, investment commitments will be cancelled and committed funds will be returned to potential investors without interest or deductions. If a Purchaser does not reconfirm his or her investment commitment after a material change is made to the terms of the Offering, the Purchaser's investment commitment will be cancelled and the committed funds will be returned without interest or deductions. If a Purchaser does not cancel an investment commitment before the Minimum Amount is reached, the funds will be released to the Company upon closing of the Offering and the Purchaser will receive the Securities in exchange for his or her investment. Any Purchaser funds received after the initial closing will be released to the Company upon a subsequent closing and the Purchaser will receive Securities via Electronic Certificate/PDF in exchange for his or her investment as soon as practicable thereafter.

Subscription Agreements are not binding on the Company until accepted by the Company, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any subscription. PRIMO WIND, INC
NOTES TO FINANCIAL STATEMENTS (UNAUDITED)
DECEMBER 31, 2017 AND 2016

NOTE A- ORGANIZATION AND NATURE OF ACTIVITIES

Primo Wind, Inc. (“the Company”) is a corporation organized under the laws of the State of California. The Company specializes in renewable energy. The Company designs and manufactures hybrid wind/solar solutions for a variety of applications.

The Company will conduct an equity crowdfund offering during calendar year 2018 for the purpose of raising operating capital. The Company’s ability to continue as a going concern or to achieve management’s objectives may be dependent on the outcome of the offering or management’s other efforts to raise operating capital.

NOTE B- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”).

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include all cash balances, and highly liquid investments with maturities of three months or less when purchased.

Inventory

Inventory consists of materials and supplies surrounding wind turbines at cost. Management’s experience suggests that losses due to spoliation or obsolescence of inventory are likely to be rare, thus no amount has been recognized as a reserve for worthless inventory.

Fixed Assets

The Company capitalizes assets with a useful life of greater than one year, and an original purchase price of \$500 or more. Depreciation is calculated using the straight-line method over management’s estimate of each asset’s useful life. Fixed assets consist of computers, furniture, software, and wind turbines.

Revenue

The Company earns revenue primarily from the sale of its products to the public. The Company recognizes revenue when persuasive evidence of an arrangement exists, delivery has occurred, or services

PRIMO WIND, INC.
NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

have been rendered, the fee for the arrangement is fixed or determinable and collectability is reasonably assured.

Rent

The Company occupies office space under a non-cancellable operating lease (the Lease”). A \$8,787 security deposit was placed on the property and the base rent is \$2,685 per month for the remainder of the term.

Research and Development

The company treats research expenses as a current item of expense until production feasibility has been established. Costs and investment in product development will be capitalized when the associated product is ready for commercial use. Costs thereafter are expensed as incurred, except for upgrades and enhancements which add functionality, which are capitalized. The capitalized costs will be amortized on a straight-line basis over the expected useful life of the product.

Advertising

The Company records advertising expenses in the year incurred.

Income Taxes

The Company applies ASC 740 Income Taxes (“ASC 740”). Deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial statement reported amounts at each period end, based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. The provision for income taxes represents the tax expense for the period, if any and the change during the period in deferred tax assets and liabilities. ASC 740 also provides criteria for the recognition, measurement, presentation and disclosure of uncertain tax positions. A tax benefit from an uncertain position is recognized only if it is “more likely than not” that the position is sustainable upon examination by the relevant taxing authority based on its technical merit.

The Company is subject to tax filing requirements as a corporation in the federal jurisdiction of the United States. The Company sustained net operating losses during fiscal years 2016 and 2017. Net operating losses will be carried forward to reduce taxable income in future years. Due to management’s uncertainty as to the timing and valuation of any benefits associated with the net operating loss carryforwards, the Company has elected not to recognize an allowance to account for them in the financial statements. Net operating losses expire if unused after twenty tax years. The Company’s federal tax filings for 2015, 2016, and 2017, will remain subject to review by the Internal Revenue Service until 2019, 2020, and 2021, respectively.

The Company is subject to franchise and income tax filing requirements in the State of California. The Company’s tax filings in the State of California for 2015, 2016, and 2017 remain subject to review by that State until 2019, 2020, and 2021, respectively.

PRIMO WIND, INC.
NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

NOTE C- DEBT

In 2017, the Company borrowed money under a Convertible Promissory Note (“the Note”). Simple interest shall accrue on the principal balance of the Note at the rate of five percent annually from the date of April 4, 2018. The maturity date is February 16, 2019. The lender has the option to convert debt into common stock at any time at a pre-determined discount.

NOTE D- CONCENTRATIONS OF RISK

Financial instruments that potentially subject the Company to credit risk consist of cash and cash equivalents. The Company places its cash and cash equivalents with a limited number of high quality financial institutions and at times may exceed the amount of insurance provided on such deposits.

NOTE E- SUBSEQUENT EVENTS

Management considered events subsequent to the end of the period but before May 1, 2018, the date that the financial statements were available to be issued.

EXHIBIT B
Company Summary

Company: Primo Wind™

Market: Renewable energy systems

Product: Micro wind energy systems for commercial and off-grid residential use

Company Highlights

- Patented blade technology and rotor design that delivers power at common wind speeds of 5 to 15 miles per hour
- Its most powerful system, the EnergiTree, was designed to withstand Category 2 hurricanes and can easily be lowered in the event of more severe weather
- The Wind Energy Foundation estimates small, off-grid turbines generally cost \$4,000 to \$9,000,ⁱ Primo Wind's solutions will be priced at about \$5,995

COMPANY SUMMARY

Opportunity

Renewable energy's share of overall U.S. energy consumption has doubled since 2008, with 18% of all electricity in the U.S. produced by renewable sources in 2017 – up from 15% in 2016. This growth has been driven by new solar and wind projects, which accounted for roughly 62% of new power construction in 2017.ⁱⁱ Beyond the U.S., the decreasing costs of installation as well as advancements in technology have contributed to the rapid expansion of wind and solar projects worldwide.ⁱⁱⁱ

Founded in 2012, Primo Wind designs and manufactures micro wind systems and hybrid wind and solar designs for off-grid power. Its systems provide power for areas with limited access to traditional power sources, or areas without electricity at all such as: off-grid housing, remote villages, remote research stations, and disaster relief areas. Primo Wind is dedicated to changing how the world uses wind energy, so it has designed products that are aesthetically pleasing but still produce the maximum amount of energy with the smallest environmental footprint possible.

Most small wind devices use lift blades and need fairly high winds to produce power. Lift blades may begin to turn at lower wind speeds but don't generate power. Primo Wind's system is different. Its patented technology utilizes a high-torque drag system that operates in very light wind speeds (5 to 15 mph) and can generate power through its custom generators as soon as they begin to spin.

Product

Primo Wind's Force Micro Turbines make up all of its wind systems. The turbines are well suited as stand-alone systems for both off-grid installations and micro-grid solutions. The Primo Wind turbine creates accelerated wind flow and is designed to provide power directly to the structure on which it is mounted. The rotor design is patented along with a proprietary generator and a pole that telescopes for compactness. The design is set to maximize ease of assembly and can also be lowered in the case of severe weather.

EnergiPlant

The EnergiPlant is a free-standing nano-grid power unit that combines wind, solar, and batteries. It can provide security, lighting, and more for schools, parks, transit ways, and other public areas. The flower-shaped wind turbine is equipped with bench seating, solar panels, lighting, and USB ports for charging phones or tablets. The self-charging EnergiPlant does not require electrical connections and can be installed anywhere. It also provides on-site security with an installed camera and dynamic streaming for up to a 50-foot radius. The three benches offer an opportunity for advertising along the bottom similar to benches at bus stops.

EnergiTree

The EnergiTree is a more powerful system than the Energiplant. It uses a 1,650-watt proprietary generator and Primo Wind's patented blade and rotor design. The solar unit is upgraded to 500 watts and includes additional battery storage.

The EnergiTree was designed to withstand Category 2 hurricanes and can easily be lowered in the event of more severe weather. It uses T-7071 aircraft aluminum, stainless steel powder-coated materials, and generators made to IP 66 and IP 67 standards, which means they are moisture proof and dustproof with a projected lifespan of 20 years. The blades are composed of a biomimetic thermoplastic for durability and efficiency.

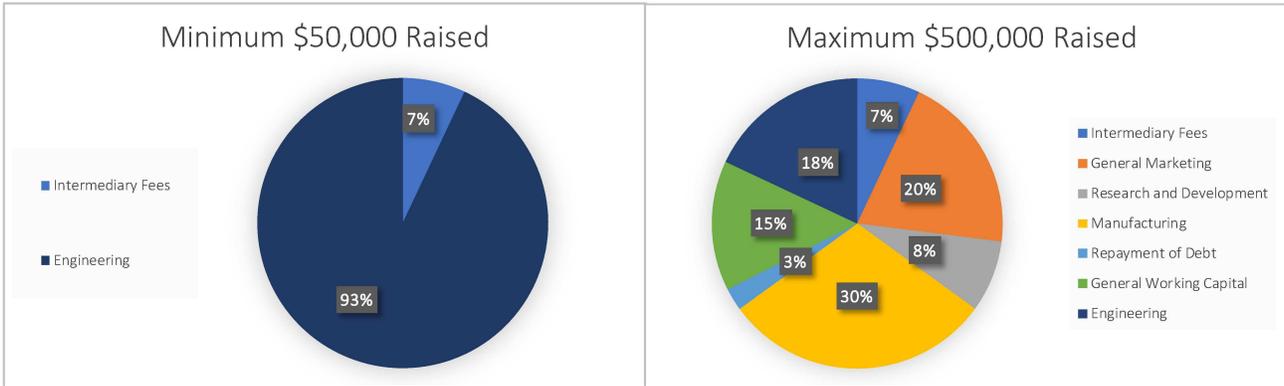

Intellectual Property

Primo Wind currently has three patents for power-generating devices: a variable-wing venturi generator, a high-torque wind turbine system, and the rooftop exhaust collector power generator. Primo Wind also has patents pending for variations of the EnergiPlant design and patents in European countries.

Use of Proceeds and Product Roadmap

If Primo Wind raises the maximum amount of \$500,000, it estimates using the proceeds primarily for manufacturing (\$150,000), marketing (\$100,000), engineering (\$90,000), and general working capital (\$72,500). At the minimum raise of \$50,000, most of the proceeds will go towards engineering costs (\$46,500).

Business Model

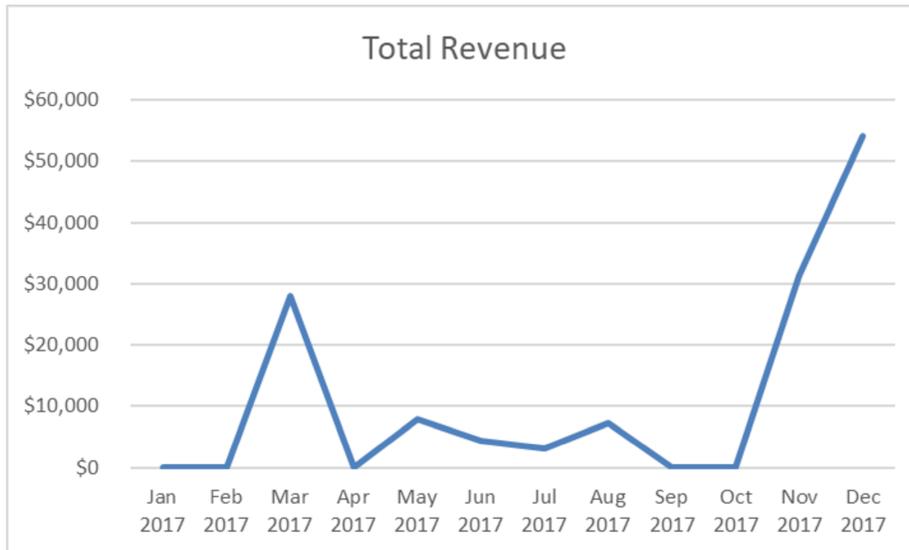

Primo Wind will sell direct to customers through distributor channels and U.S. Government General Service Administration (GSA) contractors. Vendor agreements are in place with 3fficient and ADS, a GSA government contractor, to market to areas recently impacted by natural disasters and the military. Primo Wind may also license its technology to established industry leaders. Lastly, Primo Wind will continue to work with cities, universities, and parks where it already has market traction.

USER TRACTION

Primo Wind began selling units in 2017. Customers range from the U.S. Navy and Marines to cities and universities.

Primo Wind launched its product in 2017. In 2017, it generated \$114,405 in revenue, with its largest sales coming in Q4. In 2016, the company generated \$7,400 from a pilot installation for the City of Pittsburgh and the purchase of an installation kit by Creighton University.

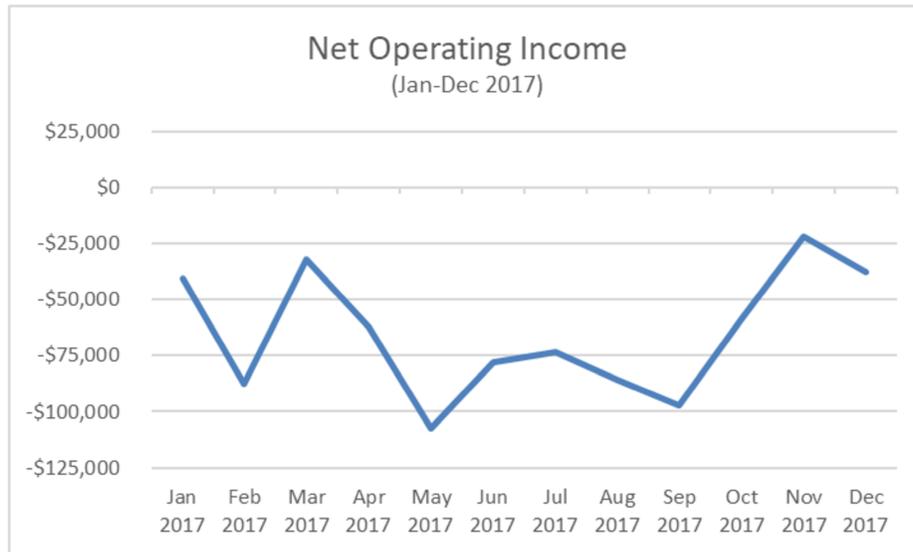

Note: Monthly financials have not been audited or subject to financial review

In 2017, total expenses including costs of goods sold increased by 49% year over year to \$958,078. Costs of goods sold totaled \$181,370, and operating expenses totaled \$776,708. Payroll was the largest cost, totaling \$250,781, followed by professional fees (general attorney and patent attorney fees), which totaled \$191,766.

Note: Monthly financials have not been audited or subject to financial review

In 2017, Primo Wind had a net operating loss of \$843,673, versus a net operating loss of \$636,157 in 2016.

INDUSTRY AND MARKET ANALYSIS

According to Grand View Research, the global small wind market is projected to reach USD 1.79 billion by 2025, a growth of 14.3%. Market factors propelling this growth in renewables include increased awareness, government regulations, pressure to reduce carbon footprints, increasing global population, and a rising energy deficit.^{iv} Also, advancements in technology and cheaper installation costs are reducing the per kilowatt price of wind turbines and increasing their demand.

The market for wind turbines is segmented by horizontal-axis or vertical-axis turbines. Both generate power via the wind but are suitable for different applications, such as urban or rural locations. Horizontal-axis wind turbines are the preferred axis type in the global small wind market. However, the vertical-axis wind turbine is fast gaining consumers' attention and is expected to grow at a higher rate. In terms of revenue, vertical-axis wind turbines are expected to grow at a compound annual growth rate (CAGR) of 18.7% between 2017 and 2025.^v

The off-grid segment of the market is expected to account for 59.58% of the global market share in 2025. The demand for off-grid wind turbines can be attributed to customers seeking energy alternatives to power their homes; however, this segment is predicted to decline due to government initiatives for grid connectivity. These initiatives will boost the on-grid segment of the market over the forecast period.^{vi}

The undersigned acknowledges that the Securities will be subject to restrictions on transfer as set forth in this subscription agreement (the "Subscription Agreement").

2. Acceptance of Subscription and Issuance of Securities. It is understood and agreed that the Company shall have the sole right, at its complete discretion, to accept or reject this subscription, in whole or in part, for any reason and that the same shall be deemed to be accepted by the Company only when it is signed by a duly authorized officer of the Company and delivered to the undersigned at the Closing referred to in Section 3 hereof. Subscriptions need not be accepted in the order received, and the Securities may be allocated among subscribers.

3. The Closing. The closing of the purchase and sale of the Securities (the "Closing") shall take place at 11:59 p.m. pacific standard time on July 16, 2018, or at such other time and place as the Company may designate by notice to the undersigned.

4. Payment for Securities. Payment for the Securities shall be received by Boston Private Bank and Trust Co. (the "Escrow Agent") from the undersigned of immediately available funds or other means approved by the Company at least two days prior to the Closing, in the amount as set forth on the signature page hereto. Upon the Closing, the Escrow Agent shall release such funds to the Company. The undersigned shall receive notice and evidence of the entry of the number of the Securities owned by undersigned reflected on the books and records of the Company, which shall bear a notation that the Securities were sold in reliance upon an exemption from registration under the Securities Act.

5. Representations and Warranties of the Company. As of the Closing, the Company represents and warrants that:

- d) Assuming the accuracy of the undersigned's representations and warranties set forth in Section 6 hereof, no order, license, consent, authorization or approval of, or exemption by, or action by or in respect of, or notice to, or filing or registration with, any governmental body, agency or official is required by or with respect to the Company in connection with the execution, delivery and performance by the Company of this Subscription Agreement except (i) for such filings as may be required under Regulation CF promulgated under the Securities Act, or under any applicable State Securities Laws, (ii) for such other filings and approvals as have been made or obtained, or (iii) where the failure to obtain any such order, license, consent, authorization, approval or exemption or give any such notice or make any filing or registration would not have a material adverse effect on the ability of the Company to perform its obligations hereunder.

6. Representations and Warranties of the Undersigned. The undersigned hereby represents and warrants to and covenants with the Company that:

a) General.

- i. The undersigned has all requisite authority (and in the case of an individual, the capacity) to purchase the Securities, enter into this Subscription Agreement and to perform all the obligations required to be performed by the undersigned hereunder, and such purchase will not contravene any law, rule or regulation binding on the undersigned or any investment guideline or restriction applicable to the undersigned.

- iv. Including the amount set forth on the signature page hereto, in the past twelve (12) month period, the undersigned has not exceeded the investment limit as set forth in Rule 100(a)(2) of Regulation CF.

b) Information Concerning the Company.

- i. The undersigned has received a copy of the Form C. With respect to information provided by the Company, the undersigned has relied solely on the information contained in the Form C to make the decision to purchase the Securities.
- ii. The undersigned understands and accepts that the purchase of the Securities involves various risks, including the risks outlined in the Form C and in this Subscription Agreement. The undersigned represents that it is able to bear any and all loss associated with an investment in the Securities.

iii. The undersigned confirms that it is not relying and will not rely on any communication (written or oral) of the Company, First Democracy VC, or any of their respective affiliates, as investment advice or as a recommendation to purchase the Securities. It is understood that information and explanations related to the terms and conditions of the Securities provided in the Form C or otherwise by the Company, First Democracy VC or any of their respective affiliates shall not be considered investment advice or a recommendation to purchase the Securities, and that neither the Company, First Democracy VC nor any of their respective affiliates is acting or has acted as an advisor to the undersigned in deciding to invest in the Securities. The undersigned acknowledges that neither the Company, First Democracy VC nor any of their respective affiliates have made any representation regarding the proper characterization of the Securities for purposes of determining the undersigned's authority or suitability to invest in the Securities.

iv. The undersigned is familiar with the business and financial condition and operations of the Company, all as generally described in the Form C. The undersigned has had access to such information concerning the Company and the Securities as it deems necessary to enable it to make an informed investment decision concerning the purchase of the Securities.

v. The undersigned understands that, unless the undersigned notifies the Company in writing to the contrary at or before the Closing, each of the undersigned's representations and warranties contained in this Subscription Agreement will be deemed to have been reaffirmed and confirmed as of the Closing, taking into account all information received by the undersigned.

vi. The undersigned acknowledges that the Company has the right in its sole and absolute discretion to abandon this Offering at any time prior to the completion of the Offering. This Subscription Agreement shall thereafter have no force or effect and the Company shall return any previously paid subscription price of the Securities, without interest thereon, to the undersigned.

vii. The undersigned understands that no federal or state agency has passed upon the merits or risks of an investment in the Securities or made any finding or determination concerning the fairness or advisability of this investment.

c) No Guaranty.

The undersigned confirms that the Company has not (A) given any guarantee or representation as to the potential success, return, effect or benefit (either legal, regulatory, tax, financial, accounting or otherwise) of an investment in the Securities or (B) made any representation to the undersigned regarding the legality of an investment in the Securities under applicable legal investment or similar laws or regulations. In deciding to purchase the Securities, the undersigned is not relying on the advice or recommendations of the Company and the undersigned has made its own independent decision that the investment in the Securities is suitable and appropriate for the undersigned.

d) Status of Undersigned.

The undersigned has such knowledge, skill and experience in business, financial and investment matters that the undersigned is capable of evaluating the merits and risks of an investment in the Securities. The undersigned has considered the suitability of the Securities as an investment in light of its own circumstances and financial condition and the undersigned is able to bear the risks associated with an investment in the Securities and its authority to invest in the Securities.

e) Restrictions on Transfer or Sale of Securities.

i. The undersigned is acquiring the Securities solely for the undersigned's own beneficial account, for investment purposes, and not with a view to, or for resale in connection with, any distribution of the Securities. The undersigned understands that the Securities have not been registered under the Securities Act or any State Securities Laws by reason of specific exemptions under the provisions thereof which depend in part upon the investment intent of the undersigned and of the other representations made by the undersigned in this Subscription Agreement. The undersigned understands that the Company is relying upon the representations and agreements contained in this Subscription Agreement (and any supplemental

information) for the purpose of determining whether this transaction meets the requirements for such exemptions.

ii. The undersigned understands that the Securities are restricted from transfer for a period of time under applicable federal securities laws and that the Securities Act and the rules of the U.S. Securities and Exchange Commission (the "Commission") provide in substance that the undersigned may dispose of the Securities only pursuant to an effective registration statement under the Securities Act, an exemption therefrom or as further described in Rule 501 of Regulation CF, after which certain state restrictions may apply. The undersigned understands that the Company has no obligation or intention to register any of the Securities, or to take action so as to permit sales pursuant to the Securities Act. Even when the Securities become freely transferrable, a secondary market in the Securities may not develop. Consequently, the undersigned understands that the undersigned must bear the economic risks of the investment in the Securities for an indefinite period of time.

iii. The undersigned agrees: (A) that the undersigned will not sell, assign, pledge, give, transfer or otherwise dispose of the Securities or any interest therein, or make any offer or attempt to do any of the foregoing, except pursuant to Rule 501 of Regulation CF.

13. Submission to Jurisdiction. With respect to any suit, action or proceeding relating to any offers, purchases or sales of the Securities by the undersigned ("Proceedings"), the undersigned irrevocably submits to the jurisdiction of the federal or state courts located in California, which submission shall be exclusive unless none of such courts has lawful jurisdiction over such Proceedings.

6. **Financing Agreements.** The Investor understands and agrees that the conversion of the Crowd Note into Conversion Shares may require the Investor's execution of certain agreements relating to the purchase and sale of such securities as well as registration, co sale, rights of first refusal, rights of first offer and voting rights, if any, relating to such securities. The Investor agrees to execute all such agreements in connection with the conversion so long as the issuance of Conversion Shares issued pursuant to the conversion of this Crowd Note are subject to the same terms and conditions applicable to the Preferred Stock sold in the Qualified Equity Financing (or the Shadow Series).
7. **Severability.** If one or more provisions of this Crowd Note are held to be unenforceable under applicable law, such provision shall be excluded from this Crowd Note and the balance of the Crowd Note shall be interpreted as if such provision were so excluded and shall be enforceable in accordance with its terms.
8. **Transfer of a Crowd Note.** Subject to compliance with applicable federal and state securities laws (including the restrictions described in the legends to this Crowd Note), this Crowd Note and all rights hereunder are transferable in whole or in part by the Investor to any person or entity upon written notice to the Company.
9. **Escrow Procedures.** No investor funds shall be released from escrow until either the Target CF Minimum. The Target CF Minimum must be met on or before the Offering Date for funds to be released from escrow.
10. **Entire Agreement; Amendments and Waivers.** This Crowd Note constitutes the full and entire understanding and agreement between the parties with regard to the subjects hereof. The Company's agreements with each Investor are separate agreements, and the sales of the Crowd Notes to each Investor are separate sales.

6. Dispute Resolution.

1. **General Rule.** Any dispute under this Crowd Note will be resolved through arbitration, not through the court system. All arbitration will be conducted in San Diego, California unless both parties agree otherwise in writing in a specific case. All arbitration will be conducted before a single arbitrator in following the rules of the American Arbitration Association. Except as required by law, neither a party nor the arbitrator may disclose the existence, content or results of any arbitration without the prior written consent of the other parties.

2. **Appeal of Award.** Within thirty days of a final award by the single arbitrator, either party may appeal the award for reconsideration by a three-arbitrator panel. If there is an appeal, the other party may cross-appeal within thirty days after notice of the appeal. The panel will reconsider all aspects of the initial award that are appealed, including related findings of fact.
3. **Effect of Award.** Any award by the individual arbitrator that is not subject to appeal, and any panel award on appeal, shall be final and binding, except for any appeal right under the Federal Arbitration Act, and may be entered as a judgment in any court of competent jurisdiction.
4. **No Class Action Claims.** NO ARBITRATION SHALL PROCEED ON A CLASS, REPRESENTATIVE, OR COLLECTIVE BASIS. No party may join, consolidate, or otherwise bring claims for or on behalf of two or more individuals or unrelated corporate entities in the same arbitration unless those persons are parties to a single transaction. An award in arbitration shall determine the rights and obligations of the named parties only, and only with respect to the claims in arbitration, and shall not (i) determine the rights, obligations, or interests of anyone other than a named party, or resolve any claim of anyone other than a named party, or (ii) make an award for the benefit of, or against, anyone other than a named party. No administrator or arbitrator shall have the power or authority to waive, modify, or fail to enforce this paragraph, and any attempt to do so, whether by rule, policy, and arbitration decision or otherwise, shall be invalid and unenforceable. Any challenge to the validity of this paragraph shall be determined exclusively by a court and not by the administrator or any arbitrator. If this paragraph shall be deemed unenforceable, then any proceeding in the nature of a class action shall be handled in court, not in arbitration.

Approval. The Company hereby represents that its Board of Directors, in the exercise of its fiduciary duty, has approved the Company's execution of this Crowd Note based upon a reasonable belief that the Purchase Price provided hereunder is appropriate for the Company after reasonable inquiry concerning the Company's financing objectives and financial situation. In addition, the Company hereby represents that it intends to use the proceeds primarily for the operations of its business, and not for any personal, family or household purpose.

7. **Subscription Procedure.** Each Investor, by providing his or her name, and subscription amount, confirms such investment through the Platform and has signed this Crowd Note electronically. All Major Investors will be processed via Regulation D, all other investors will be processed via Regulation CF.
