The 10% Bonus for StartEngine Shareholders

Locking Line Barriers Corporation will offer 10% additional bonus shares for all investments that are committed by StartEngine Crowdfunding Inc. shareholders (with \geq \$1,000 invested in the StartEngine Reg A+ campaign) within 24 hours of this offering going live.

StartEngine shareholders who have invested \$1,000+ in the StartEngine Reg A+ campaign will receive a 10% bonus on this offering within a 24-hour window of their campaign launch date. This means you will receive a bonus for any shares you purchase. For example, if you buy 50 shares of Class B Non-Voting Common Shares at \$5 / share, you will receive 5 Class B Non-Voting Common bonus shares, meaning you'll own 55 shares for \$100. Fractional shares will not be distributed and share bonuses will be determined by rounding down to the nearest whole share.

This 10% Bonus is only valid for one year from the time StartEngine Crowdfunding Inc. investors receive their countersigned StartEngine Crowdfunding Inc. subscription agreement.

Multiple Closings

If we reach the target offering amount prior to the offering deadline, we may conduct the first of multiple closings of the offering early, if we provide notice about the new offering deadline at least five business days prior (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

THE COMPANY AND ITS BUSINESS

The company's business

Description of Business

Locking Line Barriers Corporation (LLB) is a Colorado Corporation formed October 10, 2015 for the purpose of accepting a twenty (20) year exclusive license (**the License**) and related rights to globally exploit, market, sub-license and distribute the product(s) now known as the trademarked name “**WaterBlocks**”, their accouterments and related services as developed. The License was issued to LLB by Great American Holdings, Inc. a Colorado Corporation, created in March 2009, for the purpose of holding and providing a safe harbor for the ownership and related rights to the intellectual property created by its shareholders.

Our steel reinforced polyethylene products Link and Lock together utilizing magnetic vinyl seals to create a plastic wall of protection while preventing liquid penetration at the joints to provide a dry side of protection and re-direction of drainage fluids and flood waters.

The initial “Flood Control Design” has been modified numerous times during the past three years to accommodate improvements and new innovations to expand the versatility and usage applications of the products and thereby expand the potential market for the product. The most notable design changes include:

Specialized 2-way doors: To permit barrier filling water to be added both by mechanical means and by the rising flood waters automatically. This design permits the barrier to be emptied quickly and provide access to utilize mechanical lifting of the barriers.

The inclusion: Of an opening in the center of the male joint to accept the insertion of a standard steel fence pole in the joint. The water filled barriers provide a suitable foundation to permit the addition of multiple types of fencing (walls) of suitable height, added as needed.

Double Stacking Capability: Design changes permit (1) cube of (2) barriers to lock a third barrier on top of the cube and thereby increase the height of the stack to 8 Feet, final dimensions for such a stack would be 4' L x 4' W x 8' H. When water filled: the stack would increase the stack weight from approximately 150 lbs. empty to 5,250 lbs.

Permanent Markings: Permanently molded into the plastic for the life of the product with custom colors on the barriers on the Billboard Style front area which allows for custom artwork, logos and notifications to be emblazoned permanently into the product.

New Polyethylene Resins: Guaranteed to extend product life to a minimum of 18 to 20 years.

Block Wall Unitization: We have designed, developed and filed for patent protection as to the means and methodology to unitize and lock together a double stacked wall of

Locking Line Barriers in such a fashion as to be able to stop a rubber tired vehicle, such as a semi-trailer truck with a 40,000 lb. load of cargo, traveling at 50mph dead in its tracks. We estimate no more than about 20' of wall movement resulting from such an impact as the wall collapses around the vehicle, minimizing any exploding shrapnel as it is absorbed by the water in the barriers.

The Block Wall Logic: To block a standard 29' wide street, unitizing a 28' long wall of double stacked barriers 8' tall and 4' of width, unitized as a single blockade. Creating a wall of water providing an impact force barricade of approximately 36,000 lbs. of dead weight stopping power. Each of the 21 separate blocks have an impact resistance of approximately 5,000 lbs. or 100,000 lbs. combined. We believe the impact force required to penetrate the wall of water would result in the complete destruction of any known rubber tired vehicle in existence today.

LLB intends to seek Grant(s) of \$1-\$2M from either or both Home Land Security and the Department of Defense to fund an actual physical test of this feature.

Today our product line has evolved from just a flood control system to a multi-use product line with the versatility and unique features capable of providing solutions in multiple markets.

Tomorrow we will build a Barrier Sharing Network (BSN), a web based cost sharing system for organizations to go online and RENT the barriers by ordering the Barriers needed in real time, for delivery on our mobile warehouses (53' TruckTrailers). This system makes the barriers AFFORDABLE to every organization.

Sales and Supply Chain

LLB initial sales efforts are focused on six key target markets:

1. Product Sales to government agencies and municipalities
2. Product Sales to major corporations in the Construction and Petroleum industries

Government agencies, municipalities and major corporations - informing and educating the largest group of ultimate users about the product and determining their potential needs and enrolling them as members in BSN. This segment includes building a BSN Labeled truck trailer with a full load of barriers, to take to trade shows and other related events around the country.

Eventually, we intend to obtain a GSA Contract, permitting Procurement Officers throughout the Federal Government, including FEMA to readily purchase the product line on a pre-established price list without a bidding process requirement.

3. Distributorship Development and Expansion domestically and globally

We have received one licensing inquiry from Mexico, some interest from Holland and anticipate formulating a worldwide licensing program upon completion of the utility patent process.

4. Sponsorship sales to major Corporate Social Responsibility (CSR) departments for BSN inventory

Directed at CSR (Corporate Social Responsibility) departments of the Fortune 2000 companies. This product provides for a high impact long-term return on the message/advertisement chosen, be that either the corporate identity i.e., “Verizon” and/or a specific product i.e., “This Bud’s For You!”

5. Crowdfunding Revenue Sharing Agreement Investments in BSN inventory expansion

6. Revenue Sharing Agreement Investment Sales and Grants from Charitable 501c3 organizations for BSN inventory expansion based on the following:

Foundations – 501c3 organizations – sponsorship grants to provide our product to those in need while providing the organization with recognition of their contributions to help protect lives and property.

We recently entered into an agreement with a related, newly formed 501c3 charitable organization, the Disaster Support Foundation (DSF), for grants and donations to acquire and provide our Barriers for the Barrier Sharing Network. This arrangement provides Sponsors with the opportunity to utilize the charitable tax advantages versus advertising expense deductions when participating in the Barrier Sharing Network.

There is over \$1 Trillion held by over 80,000 “501-c3’s” looking for Social Impact investments in the US. DSF intends to offer these organizations investment opportunities through a ‘Revenue Sharing Agreement’ to participate in BSN.

Competition

The Fluvial barriers have been sold in Europe for a number of years and recently introduced to the US. The issues that this product has include the handling and shipping configurations which are cumbersome and not cost effective. The product comes with two holes on the wet-side of the barrier to allow water to enter and exit unfettered. Consequently, to provide the necessary ballast to hold them in place requires a 65lb. key used to join two units together made of plastic filled with concrete. This is another shipping and handling issue as well. However, it’s similarity and success does prove the viability and marketability of such a product as ours.

Both product lines (WaterBlocks and Fluvials) are made of similar polyethylene material and manufacturing process.

Liabilities and Litigation

None

We are ready to GO TO MARKET!

The team

Officers and directors

Joe Daniluk	CEO & Director
Steve Tannenbaum	Director Finance
Ambassador Sam Zakhem	Director Government Relations
Will Hunziker	Director Patent & Licensing
Scott Saxman	Product Development & Global Expansion Director

Joe Daniluk

A Denver native, Joseph is a service disabled combat veteran, married with two children. Joe's favorite pastimes include skiing, flying and financial market analysis. He brings more than 30 years of business development experience for directing and managing new project development with an emphasis in finance, automation and marketing. He is also a licensed Colorado Real Estate Broker and Private Pilot. A graduate of the University of Denver with a dual degree in Finance and Real Estate and a minor in Mass Communications and TV Production. He has an extensive computer background with training in the US Navy Tactical Data Systems military computer systems and later migrating to PC's, designing and building computers, LAN's, Enterprise systems and WEB hosting networks. During the savings and loan crisis, he was the Assistant Specialist in Charge (ASIC) of the Denver FDIC office managing 330 employees and managing and liquidating \$2.5 billion of assets recovered from closed banks and S&L's. From 1999-2014 Joseph managed SuperLoads, Inc. as CEO, a specialized freight company, moving the big, the bad and the ugly freight (150,000 to 1,000,000 lbs.) throughout North America. He obtained the only authority issued by Lloyd's of London to insure spot rail freight, which gave him a \$5 million underwriting authority. Clients included moves for NASA, SpaceX, GM, Ford Berkshire Hathaway, CH Robinson, CAT, Hyundai Heavy Industries, Fairbanks Power and Light, Pennsylvania Power and Light, Siemens and many others. Since 2006, he has been CEO of, Manufacturing Contractors, Inc., a plastic manufacturing operation providing Nuclear Waste liners for the Department of Energy and other plastic products to the USDA. LLB's product line is manufactured in the same manner and process as Manufacturing Contractors' Nuclear Waste Liners. Mr. Daniluk, is presently and for at least the past three years, the owner and operator (Director and CEO) of the following businesses: CEO and Director of Locking Line Barriers. Approximately spends 30 hours weekly and is his Primary job. 2015 to present. CEO and Director of Great American Holdings, Inc. (Asset Holding and Management) 2015 to present. CEO and Director of Strategic Solutions Team, Inc. (General Business Consulting) 2015 to present. CEO and Director of Manufacturing Contractors, Inc. (Plastic and Steel manufacturer) 2015 to present. Executive Director of Disaster Support Foundation (Charitable Organization) 2015 to present.

Steve Tannenbaum

President of Tannenbaum Consulting LLC, Steve has a diverse background with over 30 years of experience in tax, auditing and accounting services. He has testified as an expert witness in Federal, District and County Courts as well as evaluated commercial enterprises and actively participated in negotiations relative to business acquisition

and reorganization, restructuring, and dissolution. Steve brings to the table extensive history and experience working with businesses engaged in manufacturing, wholesale and retail sales, construction, mortgage banking, professional practices, and commercial and residential real estate. Steve received a B.S. in Accounting from the University of Colorado in 1975 and a B.A. in Psychology from the University of Colorado in 1973. He is a Certified Public Accountant in the State of Colorado and a member of both the American Institute of Certified Public Accountants and the Colorado Society of Certified Public Accountants. Mr. Tannenbaum is the former President of Tannenbaum & Suber, P.C. and former tax partner at Deloitte & Touche. From: 2015 To: Present Is an Officer and Director of Tannenbaum & Company, P.C. (CPA Consulting and Tax Services)

Ambassador Sam Zakhem

Sam was appointed US Ambassador to Bahrain by President Ronald Regan to serve the Middle East in 1986 and served with distinction during very volatile times. Sam also served his country as a White House Advisor, a member of the US Small Business Administration, and Chaplain in the US Navy. Sam has also been involved in the legislature of his home State, Colorado as a State Senator, and two term State Representative. In business, Sam has held various positions including CEO and Vice President of companies including Ford Motor Co., Denver University, The Heritage Foundation and others. Fluent in multiple languages, Sam has numerous degrees from various Universities both here and abroad, has served on their advisory boards as well as taught from time to time. Senator Jesse Helms heralded Ambassador Zakhem as follows: "You have the courage of your convictions and the moral and spiritual principles to guide you in rendering distinguished service to our country. You stood up to America's enemies in your courageous service as U.S. Ambassador to Bahrain. Not once have you compromised your willingness to fight to preserve the freedoms of the American people." From: 2015 To: Present Is a Business Advisor & Public Speaker Self Employed (Consulting)

Will Hunziker

Will is a registered practicing patent attorney in Denver and Boulder, specializing in patent, trade secret, trademark, copyright searching, licensing, registration, prosecution, and litigation. As LLB's primary patent counsel, he will manage outside law firms retained to pursue the protection of the company's intellectual property and licenses. Graduating from University of Colorado with a Bachelor's Degree in Molecular, Cellular & Developmental Biology that included studies in genetic engineering, chemistry, biology, physics, and mathematics, Will also received a Bachelor's Degrees in both English and Philosophy: Law and Society. Will earned his Juris Doctor from Seattle University School of Law. Will is active in several organizations as a member of the Federal District of Colorado, and Boulder Bar Associations, Better Business Bureau, Boulder Chamber of Commerce, Boulder / Front Range Mensa, and various business and technology Meetup Groups. From: 2015 To: Present Is an Officer and Director of Hunziker Legal Services, PLLC (Attorney at Law)

Scott Saxman

Scott is currently the Corporate Business Development Director and former Senior

Vice President of Sales & Marketing at Mold In Graphic Systems, where he's spent 25 years providing products and services to the worldwide rotational molding industry. Previously, he served for six years as Director of Marketing & Sales at Flexible Flyer Toys focused on the ongoing development of new lines of plastic toys. Prior to that he served as Marketing & Product Development Manager at Hedstrom Plastics Corporation, a leading rotational molding plastic manufacturer. Educated at Indiana University with a Bachelor's in Business and Economics, his extensive international and domestic business and product development skills as well as his 37+ years of broad experience in the field of rotational plastic molding and manufacturing have been invaluable to LLB. From: 2015 To: Present Is a Business Development Director of Mold In Graphic Systems (Graphic Provider for Plastics)

Number of Employees: 1

Related party transactions

Since the Company's inception and through December 29, 2017, the Company has been held in operational abeyance pending this offering. By its incorporators, financial supporters and related parties, including; Great American Holdings Inc., Manufacturing Contractors Inc., Strategic Solutions Team Inc., all of which are controlled by Joseph Daniluk, CEO of the Company, Locking Line Barriers Corporation, its controlling stockholder, along with approximately, two dozen other parties, now related parties, in order to develop and prepare the Company to become transactional and begin conducting business. Transactions by and between the Company and the related parties will be ongoing for the foreseeable future in support of the company and its ongoing business. The estimated cash value of the investment(s) realized to date "founders contributions" including, but not limited to; deferred compensation, credit facilities provided, services rendered, and other effective contributions for the entire "WaterBlocks Project" is estimated at \$4 million, with an undefined portion thereof for the benefit of the Company. These "founders' contributions" benefiting the Company have been fully compensated for through the issuance of the Company capital stock. Thereby resulting in a debt-free Corporation, consisting of two Assets: a.) The Global Distribution License and b.) \$100 cash to open the business checking account, with No Liabilities. Further, the intellectual property, related patents (see Risk Factors), of the WaterBlocks product line, is held by Great American Holdings, Inc., and divided into two categories; manufacturing and marketing, distribution. The exclusive 20 year manufacturing license has been granted to Manufacturing Contractors, Inc. and the exclusive 20 year marketing and distribution license has been granted to the Company, Locking Line Barriers Corporation, both of which are related parties.

RISK FACTORS

These are the principal risks that related to the company and its business:

- **Risk Disclosures** The SEC requires the Company to identify risks that are specific to its business and its financial condition. The Company is still subject to all the

same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments. Additionally, early-stage companies are inherently more risky than more developed companies. You should consider general risks as well as specific risks when deciding whether to invest. These are the principal risks that relate to the Company and its business:

- **Competitive Risks** Once the product is in use, we anticipate many ‘copycats’ may try to redesign the basic concepts and attempt to compete with this product. Patent infringement and development costs may deter such attempts. LLB believes, once the Barrier Sharing Network is operational, this network service will negatively impact the ‘copycat profitability equation’, as an investment in a costly competitive product that is readily available through the Network at minimal cost may thwart copycats.
- **Marketing and Sales Risks** There has been no similar product or related advertising scheme on the market in the US prior to 2016. Consequently, there is no data upon which to formulate metrics for company valuations, marketing, sales and profitability, analysis or other common types of investment due diligence. All projections and forward-looking statements contained herein are simply estimates the company believes to be reasonable. Standalone sales of the product, without advertising, will take place primarily with government agencies, where ownership and control of the product is more important than the cost factor. This may also be true for some large corporations. We anticipate less than 40% of our revenue will come from this source of sales during the first three years of operations, due to the lag time normally encountered with such organizations to execute such a purchase. Our target market is other municipalities, agencies and other business enterprises which have an interest in a cost sharing methodology for the acquisition of disaster support equipment. We will be relying on need versus cost for the successful marketing of our Products and Network memberships. Membership fees and nominal equipment rental charges are anticipated to provide only an estimated 10-15% of our revenue during our first three years of operations. All sales of the WaterBlocks product line must, contractually, come through LLB. We anticipate the bulk of our sales and revenues to be generated from our marketing efforts and the marketing efforts of our affiliates and future distributors. This would include the sale of “Barrier Sharing Network Revenue Sharing Agreements” by and through LLB and its affiliates. There having been no such sales or efforts to sell revenue sharing agreements to date, LLB is unable to provide any reliable forecast or expectation regarding the viability of such sales. Advertising Sales to sponsors and donors is estimated to generate 10-15% of the company’s revenue. It is possible the company could completely fail in this marketing endeavor. The company has no previous experience in selling or marketing advertising. There are no competitive similarities to this advertising medium, or any other known facts to formulate standard advertising industry sales metrics as to impressions or cost per impression. Such advertising sales will remain conceptual, for the most part, until such time as the barriers are shown working and controlling floodwaters on national news. The only factor making such sales conceivable is

the low advertising cost/rate when amortized over the life of the product and the advertisement thereon.

- **Ordinary, normal and common startup company Risks** This company is a Start-Up. It is a high risk venture, an unknown undertaking, that will be subject to all the risks experienced by any new startup company. There are no known management personnel available with previous experience in this specific endeavor. There are no known competitors to provide related comparisons. The one and only known factor available to the Company is the "Demand for such a product and rental service", which is enormous. The challenge is the Company's ability to bring the product and service to market successfully.
- **The company depends on one primary product line and related services to start. Others will be developed and added as the opportunities to do so permit.** The company's primary product is the WaterBlocks Product Line. Although it is developing other products, the company's survival in the near term depends upon being able to sell or rent the WaterBlocks in sufficient quantities to make a profit.
- **The delivery of the Company's product line is dependent upon third-party manufacturers.** The company's primary product is manufactured by third parties. The Company, by Contract is required to purchase the product from the licensed exclusive Manufacturer and must rely on the manufacturer for the products and related warranties. Difficulties encountered by the manufacturer may result in the inability to deliver product or in a timely manner, the Company may be impacted.
- **If the company is unable to raise sufficient funding. It will not succeed.** There can be no assurance that the company will meet our projections, goals and/or objectives. There can be no assurance that there will be sufficient acceptance of product to succeed.
- **The company is controlled by its CEO** LLB's CEO also controls the owner of the intellectual property rights, Great American Holdings, Inc., and Manufacturing Contractors, Inc., the exclusive manufacturer of the WaterBlocks product line.
- **Patent / Intellectual Property License Risks:** Locking Line Barriers Corporation, LLB's, only intellectual property rights are those rights conveyed in the Global Distribution and Licensing Agreement. LLB has no other rights to or in the intellectual property related to the "WaterBlocks" project. LLB has a legal obligation under its license agreement to pay all related costs and expenses to develop, expand and protect the existing intellectual property rights in consideration of having the control of the expansion of the intellectual property rights and the exploitation thereof globally. The related Product License(s) we rely on for various underlying intellectual property rights in order to minimize competitive impact on the operation our business including pending patents, may not be sufficiently broad or otherwise may not result in a significant competitive advantage. In addition, the steps that we are required to take to maintain and protect the intellectual property rights may not prevent our rights from being challenged, invalidated, circumvented or designed-around, particularly in countries where intellectual property rights are not highly developed or protected. In some circumstances, enforcement may not be

available to us because an infringer has a dominant intellectual property position or for other business reasons. Any failure by the Company to obtain or maintain intellectual property rights that convey competitive advantage, adequately protect the intellectual property or detect or prevent circumvention or unauthorized use of such property, could adversely impact our competitive position and results of operations. We also rely on nondisclosure and noncompetition agreements with vendors, consultants and other parties to protect, in part, trade secrets and other proprietary rights. There can be no assurance that these agreements will adequately protect our trade secrets and other proprietary rights and will not be breached, that we will have adequate remedies for any breach, that others will not independently develop substantially equivalent proprietary information or that third parties will not otherwise gain access to our trade secrets or other proprietary rights. As we expand our business, protecting the intellectual property rights will become increasingly important. The protective steps we have taken may be inadequate to deter competitors from using the proprietary information. In order to protect or enforce our intellectual property rights, we may be required to initiate litigation against third parties, such as infringement lawsuit(s). Further, these third parties may assert claims against us with or without provocation. Such lawsuits could be expensive, take significant time and could divert management's attention from other business concerns. The law relating to the scope and validity of claims in the technology field in which we operate is still evolving and, consequently, intellectual property positions in our industry are generally uncertain. We cannot assure you that we will prevail in any of these potential suits or that the damages or other remedies awarded, if any, would be commercially valuable. Patent, processes, maintenance and infringement enforcement costs could be significant as the product is expanded to other countries. Many of the patent pending accouterments claimed could be rejected by the examiners, which won't be known for some time.

- **General Start Up Business Risks** Locking Line Barriers Corporation, LLB, is a StartUp, it has no transactional history. It only possess a License to develop and market a new idea, which has no comparable to rely upon for data or guidance on how to proceed. Certain other RISKS may exist and remain unknown or unforeseen and thereby not specified in this offering. Therefore, there are no guarantees of any kind that the business can succeed and prosper. The Company and its Team can only put forth its Best Efforts to proceed in accordance with this offering and representations.

OWNERSHIP AND CAPITAL STRUCTURE; RIGHTS OF THE SECURITIES

Ownership

- Joseph Daniluk, 13.33% ownership, Class A and Class B
- Great American Holdings, Inc., 38.89% ownership, Class A and Class B

Classes of securities

- Class B Non-Voting Common Stock: 1,500,000

Voting Rights *(of this security)* NONE

The holders of shares of the Company's Class B Non-Voting Common Stock, no par value per share are not entitled to vote individually and/or cumulatively on any matters submitted to a vote of the shareholders except as required under applicable law.

Dividend Rights *(include if applicable)*

Subject to preferences that may be granted to any then outstanding preferred stock, holders of shares of Common Stock, by Class, are entitled to receive ratably such dividends as may be declared by the Board out of funds legally available therefore as well as any distribution to the shareholders. The payment of dividends on the Common Stock will be a business decision to be made by the Board from time based upon the results of our operations and our financial condition and any other factors that our board of directors considers relevant. Payment of dividends on the Common Stock may be restricted by law and by loan agreements, indentures and other transactions entered into by us from time to time. The Company has never paid a dividend and does not intend to pay dividends in the foreseeable future, which means that shareholders may not receive any return on their investment from dividends.

Rights to Receive Liquidation Distributions

Liquidation Rights. In the event of our liquidation, dissolution, or winding up, holders of Common Stock are entitled to share ratably in all of our assets remaining after payment of liabilities and the liquidation preference of any then outstanding preferred stock or other legal obligations.

The rights, preferences and privileges of the holders of the company's Class B Common Shares are subject to and may be adversely affected by, the rights of the holders of shares of any series of our Class A Common Shares, Preferred Shares and any additional classes of preferred stock that we may designate in the future.

- Class A Voting Common Stock: 7,500,000

Voting Rights *(of this security)*

The holders of shares of the Company's Class A Voting Common Stock, no par value per share ("Voting Common Stock") are entitled to one vote for each share held of record on all matters submitted to a vote of the shareholders. The holders of Non-voting Common Stock are not entitled to vote on any matter except as required under applicable law.

Dividend Rights (*include if applicable*)

Subject to preferences that may be granted to any then outstanding preferred stock, holders of shares of Common Stock are entitled to receive ratably such dividends as may be declared by the Board out of funds legally available therefore as well as any distribution to the shareholders. The payment of dividends on the Common Stock will be a business decision to be made by the Board from time based upon the results of our operations and our financial condition and any other factors that our board of directors considers relevant. Payment of dividends on the Common Stock may be restricted by law and by loan agreements, indentures and other transactions entered into by us from time to time. The Company has never paid a dividend and does not intend to pay dividends in the foreseeable future, which means that shareholders may not receive any return on their investment from dividends.

Rights to Receive Liquidation Distributions

Liquidation Rights. In the event of our liquidation, dissolution, or winding up, holders of Common Stock are entitled to share ratably in all of our assets remaining after payment of liabilities and the liquidation preference of any then outstanding preferred stock or other legal obligations.

Rights and Preferences

The rights, preferences and privileges of the holders of the company's Class A Common Shares are subject to and may be adversely affected by, the rights of the holders of shares of any series of our Class B Common Shares, Preferred Shares and any additional classes of preferred stock that we may designate in the future.

- **Preferred Stock: 0**

Authority is vested in the board of directors of the corporation to prescribe, in a resolution providing for the issuance of such shares, the classes, series, the number of each class or series of stock to be issued and the voting powers or no voting powers, designations, preferences, limitations, restrictions and relative rights of each class or series of stock. The corporation shall have one or more classes of shares that together have unlimited voting rights and one or more classes that together are entitled to receive the corporation's net assets upon dissolution

There are currently no rights designated for preferred stock, and there is no plan or intent to issue any Preferred of any type or class at this time.

What it means to be a Minority Holder

The only stock being offered by Locking Line Barriers Corporation is it's Class B NON-voting common shares held in treasury, please be advised:

In our Company, the classes and voting structure of our stock has the effect of

concentrating voting control with a few people, specifically the founders along with a small number of shareholders. As a result, these few people collectively have the ability to make all major decisions regarding the Company.

As a minority holder of Locking Line Barriers Corporation's Class B NON-Voting common shares, you will have limited ability, if any at all, to influence company policies or any other corporate matter(s), including the election of directors, changes to the Company's governance documents, additional issuances of securities, company repurchases of securities, a sale of the Company or of assets of the Company, or transactions with related parties.

Dilution

Investors should understand the potential for dilution. Each Investor's stake in the Company, could be diluted due to the Company issuing additional shares. In other words, when the Company issues more shares, the percentage of the Company that you own will increase, even though the value of the Company may increase. You will own a smaller piece of a larger company. This increase in number of shares outstanding could result from a stock offering (such as an initial public offering, another crowdfunding round, a venture capital round or angel investment), employees exercising stock options, or by conversion of certain instruments (e.g., convertible notes, preferred shares or warrants) into stock.

If the company decides to issue more shares, an Investor could experience value dilution, with each share being worth less than before. There may also be earnings dilution, with a reduction in the amount earned per share (although this typically occurs only if we offer dividends, and most early stage companies are unlikely to offer dividends, preferring to invest any earnings into the Company).

The type of dilution that hurts early-stage investors mostly occurs when the company sells more shares in a "down round," meaning at a lower valuation than in earlier offerings.

If you are making an investment expecting to own a certain percentage of the Company or expecting each share to hold a certain amount of value, it is important to realize how the value of those shares can decrease by actions taken by the Company. Dilution can make drastic changes to the value of each share, ownership percentage, voting control, and earnings per share.

PLEASE ensure you review other investment risks disclosed in our RISK DISCLOSURE Section, herein.

Transferability of securities

For a year, the securities can only be resold:

- In an IPO;
- To the company;

- To an accredited investor; and
- To a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

FINANCIAL STATEMENTS AND FINANCIAL CONDITION; MATERIAL INDEBTEDNESS

Financial Statements

Our financial statements can be found attached to this document. The financial review covers the period ending in 2019-12-31.

Financial Condition

Results of Operation

The circumstances which shape WaterBlocks' past and current performance rest solely on the success of our crowdfunding, and other capital fundraising efforts. As a pre-revenue company pursuit of capital is critical to our success and remains our primary focus.

In the year 2019 we had successes which include consolidating our IP protections, building our product prototypes, and we laid the foundation for future marketing. We set the stage to announce our products globally in 2020 by filming a television show highlighting WaterBlocks and by preparing for our product launch at Con-Expo. The resources used in 2019 positioned us for a successful 2020. These efforts relied heavily on the investment support secured by WaterBlocks. All of these successes were pure cost-functions, as reflected in the financials.

In the event the Company is successful in completing this funding, the funds will be utilized in accordance with the "Use Of Proceeds" described in this offering.

Financial Milestones

The Company is investing in growth of the brand and inventory for sales and networking rental inventory resulting in net income losses as a result.

Liquidity and Capital Resources

The Company is dependent upon its capital funding efforts and resulting resources to

begin and pursue its operations. These capital resources will come from the Company's CF Regulated funding efforts through one or more venues and/or sources.

In Addition:

We have a robust Capital Funding Plan and will likely seek to continue to raise capital in the form of equity, debt and/or revenue sharing agreements, or any other method available to the Company.

The Company being a Start-Up business with no assets, cash flow or transactional history is unable to establish conventional "commercial credit". The Company has developed and will expand what it refers to as "Private Credit Facility (PCF)" defined for accounting and operational purposes as "PCF Debit and Credit Transactions" received from or payable to; vendors, investors, organizations, related parties, and others, who may provide effectively credit and/or funds in kind to the Company, as need from time to time, requiring repayment in relatively short time periods of cash. debt instruments and/or equity.

Further, our liquidity will receive a positive impact by and through potential sales of the WaterBlocks product line and related services, as well as the sale of Distributor Sub-License Agreements.

Indebtedness

The Company has no debt or material terms of indebtedness.

None

Valuation

\$18,000,000.00

The Pre-Money Valuation has been formulated as follows: (Total Shares Issued X Offering Price) = Valuation (9,000,000 X \$2.00) = \$18,000,000 and further; We have not undertaken any efforts to produce a valuation of the Company. The Board of Directors determined that a Price of \$2.00 per share was a reasonable sale price of the outstanding Shares held in Treasury for this offering. Valuation Discussion: The price of the shares merely reflects the opinion of the Company as to what could be the fair market value. When incorporating "Blue Sky" value of the Intangible Assets, including, but not limited to; three years of R&D, licenses and related trademark rights, web site and marketing tools and copyrights, and revenue potential. The actual value can only be determined when a willing purchaser pays and the seller accepts the price offered. Financial Statement correlation; the CEO elected to value the Company's Intangible Assets at \$0.00 as no reasonable valuation formulation could be determined. The single most important intangible asset of the company is its 20 year Global Marketing License for the WaterBlocks product line and at the time financial statement were

prepared no comparative valuation could be found. The Company believes that this license will result in a minimum average CTOE (cash throw off to equity) of \$2m annually over the first 20 years of the license. Our mathematical analysis, for a Discounted Future Value of the CTOE; using the 20 Year Life of the Global Distribution License, a forecast of an average \$2M annually in CTOE, discounted at 10%, results in a Present Value of \$23.8M; Source; Motley Fool – xcalc. Conclusion: In considering the value of the Company’s unrestricted Global Distribution License we included the only similar comparable we have found. The recent article disclosing Nestle’s purchase of the restricted by market segment, Global Distribution Rights from Starbucks. Insufficient data precludes a comparative analysis, but the transaction does shed some light on the value of Global Distribution Rights. Article Source "The Denver Post, May 8, 2018, page 15 by AP" NESTLE TAKES OVER SALES OF STARBUCKS IN GROCERY AISLES Seattle: Nestle is paying more than \$7 billion to buy the rights to sell Starbucks coffee and tea in supermarkets and other stores outside its coffee shops. The deal comes with a huge price tag for Nestle. but it could pay off big for the- Swiss company. Its Nescafe and Nespresso don't carry anywhere near the heft in America that the Starbucks brand does, with its \$2 billion in annual sales. Nestle will also put Starbucks in grocery stores outside the U.S. and Canada. The deal gives Nestle the rights to market, sell and distribute bags of Starbucks coffee beans, as well as its instant coffee. Nestle will also sell other brands owned by Starbucks, such as Seattle's Best Coffee, Teavana tea and Torrefazione Italia coffee, and will be allowed to put the Starbucks brand on Nestle single-serve capsules for coffee machines.

USE OF PROCEEDS

	Offering Amount Sold	Offering Amount Sold
Total Proceeds:	\$10,000	\$1,070,000
Less: Offering Expenses	\$5,000	\$150,000
StartEngine Fees (6% total fee)	\$600	\$64,200
Net Proceeds	\$4,400	\$855,800
Use of Net Proceeds*:		
Inventory Purchases	\$0	\$500,000
Marketing Development	\$0	\$25,000
Product Marketing	\$0	\$90,000

Capital Marketing	\$0	\$90,000
Social Media Ads	\$1,000	\$50,000
PR - Services	\$1,500	\$20,000
Social Media Mgmt.	0	\$10,000
New Offering / Amendment	0	\$10,800
Working Capital	\$1,900	\$60,000
Total Use of Proceeds	\$10,000	\$1,070,000

***Use of Net Proceeds** may be affected by category, as the Company has a robust plan for raising additional Capital from sources other than this Offering. In such an event, as determined by the Board, such additional funds may be allocated to fund part or entirely, one or more of the categories reflected above prior to the receipt of funds from this Offering. In such an event, the funds received from this Offering will be reallocated as directed by the Board, should all categories be funded by other sources, any remainder from this Offering shall be applied to the "Working Capital" category.

We are seeking to raise a minimum of \$10,000 (target amount) and up to \$1,070,000 (overallotment amount) in this offering through Regulation Crowdfunding. If we manage to raise our overallotment amount of \$1,070,000, we believe the amount will last us 3 months and plan to use the net proceeds of approximately \$80,500 as described, and incorporate an Offering Amendment to increase the offering and over the course of time attempt to reach a total raise of \$1,070,000 within the 12 month window allowed.

Irregular Use of Proceeds

The Company will incur Irregular Use of Proceeds that may include but are not limited to the following over \$1,000: Vendor payments and salary made to one's self, a friend or relative; Any expense labeled "Administration Expenses" that is not strictly for administrative purposes; Any expense labeled "Travel and Entertainment"; Any expense that is for the purposes of inter-company – "related party" debt, back or current payments. Further, the Company being a Start-Up business with no assets, cash flow or transactional history is unable to establish conventional credit. The Company has developed and will expand what it refers to as "Private Credit Facility (PCF)" defined for accounting and operational purposes as "PCF Debit and Credit Transactions" received from or payable to; vendors, investors, organizations, related parties, and others, who may provide effectively credit and/or funds in kind to the Company, as need from time to time, requiring repayment in relatively short time periods. Depending on timing such repayments may come from and become part of

the use of proceeds.

REGULATORY INFORMATION

Disqualification

No disqualifying event have been recorded in respect to the company or its officers or directors.

Compliance failure

The company has not previously failed to comply with Regulation CF.

Annual Report

The company will make annual reports available at www.LLLBusa.com/Public Documents/ in the section labeled Accounting. The company will make annual reports available on its website and be available within 120 days of the end of the issuer's most recent fiscal year.

INDEPENDENT ACCOUNTANT'S REVIEW REPORT

We have reviewed the accompanying financial statements of Locking Line Barriers Corporation (the "Company"), which comprise the balance sheets as of December 31, 2019 and 2018, and the related statements of operations, changes in stockholders' equity, and cash flows for the years then ended and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

Going Concern

As discussed in Note 3, certain conditions indicate that the Company may be unable to continue as a going concern. The accompanying financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

LOCKING LINE BARRIERS CORPORATION
NOTES TO FINANCIAL STATEMENTS (UNAUDITED)
As of December 31, 2019 and 2018 and for the years then ended

NOTE 1: NATURE OF OPERATIONS

Locking Line Barriers Corporation (the “Company”) is a corporation organized on October 10, 2015 under the laws of Colorado under the name of Locking Line Barriers and does business under the trade name WaterBlocks. The Company changed its name from Locking Line Barriers to Locking Line Barriers Corporation on February 12, 2018. The Company was formed to market and distribute the WaterBlocks product line.

As of December 31, 2019, the Company has not commenced planned principal operations nor generated revenue. The Company’s activities since inception have consisted of formation activities and preparations to raise capital. Once the Company commences its planned principal operations, it will incur significant additional expenses. The Company is dependent upon additional capital resources for the commencement of its planned principal operations and is subject to significant risks and uncertainties; including failing to secure funding to operationalize the Company’s planned operations or failing to profitably operate the business.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America (GAAP).

The Company adopted the calendar year as its basis of reporting.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash Equivalents

For the purpose of the statement of cash flows, cash equivalents include time deposits, certificate of deposits, and all highly liquid debt instruments with original maturities of three months or less.

Stock Subscription Receivable

The Company records stock issuances at the effective date. If the subscription is not funded upon issuance, the Company records a stock subscription receivable as an asset on the balance sheet. When stock subscription receivables are not received prior to the issuance of financial statements at a reporting date in satisfaction of the requirements under FASB ASC 505-10-45-2, the stock subscription receivable is reclassified as a contra account to stockholders’ equity on the balance sheet.

See accompanying Independent Accountant’s Review Report

LOCKING LINE BARRIERS CORPORATION
NOTES TO FINANCIAL STATEMENTS (UNAUDITED)
As of December 31, 2019 and 2018 and for the years then ended

Intangible Assets

The Company capitalizes costs related to maintaining and filing patents, copyrights, and trademark applications and commences amortization over a patent's estimated useful life, typically 17 years, when a patent is successfully filed. During 2019 and 2018, the Company capitalized \$5,000 in each year in patent, copyright, and trademark related costs, resulting in intangible assets of \$10,000 and \$5,000 as of December 31, 2019 and 2018, respectively. Amortization expense for the year was not recorded as the patent is pending as of the date the financial statements were available to be issued.

Fair Value of Financial Instruments

Financial Accounting Standards Board ("FASB") guidance specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect market assumptions. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy are as follows:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 1 primarily consists of financial instruments whose value is based on quoted market prices such as exchange-traded instruments and listed equities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly (e.g., quoted prices of similar assets or liabilities in active markets, or quoted prices for identical or similar assets or liabilities in markets that are not active).

Level 3 - Unobservable inputs for the asset or liability. Financial instruments are considered Level 3 when their fair values are determined using pricing models, discounted cash flows or similar techniques and at least one significant model assumption or input is unobservable.

The carrying amounts reported in the balance sheets approximate their fair value.

Deferred Offering Costs

The Company complies with the requirement of FASB ASC 340-10-S99-1. Prior to the completion of the offering these costs are capitalized as deferred offering costs on the balance sheet. The deferred offering costs are charged to stockholders' equity upon the completion of the offering.

Income Taxes

The Company uses the liability method of accounting for income taxes as set forth in ASC 740, *Income Taxes*. Under the liability method, deferred taxes are determined based on the temporary differences between the financial statement and tax basis of assets and liabilities using tax rates expected to be in effect during the years in which the basis differences reverse. A valuation allowance is recorded when it is unlikely that the deferred tax assets will be realized.

See accompanying Independent Accountant's Review Report

LOCKING LINE BARRIERS CORPORATION
NOTES TO FINANCIAL STATEMENTS (UNAUDITED)
As of December 31, 2019 and 2018 and for the years then ended

The Company assesses its income tax positions and records tax benefits for all years subject to examination based upon its evaluation of the facts, circumstances and information available at the reporting date. In accordance with ASC 740-10, for those tax positions where there is a greater than 50% likelihood that a tax benefit will be sustained, our policy is to record the largest amount of tax benefit that is more likely than not to be realized upon ultimate settlement with a taxing authority that has full knowledge of all relevant information. For those income tax positions where there is less than 50% likelihood that a tax benefit will be sustained, no tax benefit will be recognized in the financial statements. The Company has determined that there are no material uncertain tax positions.

The Company accounts for income taxes with the recognition of estimated income taxes payable or refundable on income tax returns for the current period and for the estimated future tax effect attributable to temporary differences and carryforwards. Measurement of deferred income items is based on enacted tax laws including tax rates, with the measurement of deferred income tax assets being reduced by available tax benefits not expected to be realized in the immediate future. The Company estimates it will have net operating loss carryforwards of \$194,950 and \$58,767 as of December 31, 2019 and 2018, respectively. The Company pays federal and Colorado income taxes at a combined effective rate of approximately 25% and has used this effective rate to derive net deferred tax assets of \$48,070 and \$14,491 as of December 31, 2019 and 2018, respectively, resulting from its net operating loss carryforward. Due to uncertainty as to the Company's ability to generate sufficient taxable income in the future to utilize the net operating loss carryforwards before they begin to expire in 2038, the Company has recorded a full valuation allowance to reduce the net deferred tax asset to zero.

Since inception, no tax returns have been filed until they are legally required. All tax periods since inception remain open to examination by the taxing jurisdictions to which the Company is subject.

NOTE 3: GOING CONCERN

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company is a business that has not yet generated revenue or profits, has sustained net losses of \$136,183 and \$58,767 during the years ended December 31, 2019 and 2018, respectively, has negative cash flows from operations, has an accumulated deficit of \$194,950 as of December 31, 2019.

The Company's ability to continue as a going concern in the next twelve months is dependent upon its ability to obtain capital financing from investors sufficient to meet current and future obligations and deploy such capital to produce profitable operating results. No assurance can be given that the Company will be successful in these efforts. These factors, among others, raise substantial doubt about the ability of the Company to continue as a going concern for a reasonable period of time. The balance sheet does not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

See accompanying Independent Accountant's Review Report

LOCKING LINE BARRIERS CORPORATION
NOTES TO FINANCIAL STATEMENTS (UNAUDITED)
As of December 31, 2019 and 2018 and for the years then ended

NOTE 4: STOCKHOLDERS' EQUITY

On September 5, 2018, the Company amended and restated its Articles of Incorporation authorizing 20,000,000 shares of Common Stock, designating 8,500,000 shares of common stock as Class A Unrestricted Voting Common Stock and 2,500,000 shares of common stock as Class B Restricted Non-Voting Common Stock, and 9,000,000 shares of undesignated common stock. All shares have no par value. The Company has also authorized 20,000,000 shares of Preferred Stock with no par value. Class A and Class B common stockholders have identical rights, with the exception of voting rights, to which Class B stockholders have no voting rights. Preferred stockholders voting rights are determined by the Board prior to offering and stated/confirmed at the time of issue, the Preferred Stock the Company is issuing has no voting rights. Preferred stock has liquidation preferences in the case of a liquidation of the Company under the terms of the articles of incorporation.

As of both December 31, 2019 and 2018, 7,500,000 shares of Class A Voting Common Stock were issued and outstanding. As of December 31, 2019 and 2018, 1,683,851 and 1,574,143 shares of Class B Non-Voting Common Stock were issued and outstanding, respectively. No shares of preferred stock are issued and outstanding as of December 31, 2019 and 2018. The Company issued itself shares of common stock as treasury stock. Share issuances in 2019 and 2018 were out of the treasury stock balances. As of December 31, 2019 and 2018, 1,816,149 (1,000,000 shares of Class A common stock and 816,149 shares of Class B common stock) and 1,925,857 (1,000,000 shares of Class A common stock and 925,857 shares of Class B common stock) were held as treasury stock, respectively.

In 2019, the Company issued 42,500 shares of Class B Non-Voting Common Stock at \$1.00 per share resulting in gross proceeds of \$42,500 and 500 shares were issued at \$1.00 per share in exchange for services totaling \$500. In 2018, the Company issued 20,000 shares of Class B Non-Voting Common Stock at \$0.00 per share resulting in proceeds of \$0. As of December 31, 2019 and 2018, there was \$700 and \$0 of subscription receivables, respectively, related to this issuance.

In 2019, the Company has raised \$133,416 through issuance of its Class B Non-Voting Common Stock pursuant to an offering under Regulation Crowdfunding, where 66,708 shares were issued at \$2.00 per share. In 2018, the Company has raised \$85,836 through issuance of its Class B Non-Voting Common Stock pursuant to an offering under Regulation Crowdfunding, where 44,143 shares were issued at \$2.00 per share. As of December 31, 2019 and 2018, there was \$23,550 and \$13,980 of subscription receivables, respectively, related to this issuance.

NOTE 5: RELATED PARTY TRANSACTIONS

Related Party Management Fees

The Company has a management agreement with Strategic Solutions Team, Inc. ("SST"), which has not been formalized or memorialized, SST is wholly owned by the CEO of the Company. The agreement is for SST to manage and facilitate all corporate and business needs and activities of the Company until such time the Company has the resources and begins operations on its own. For the years ended December 31, 2019 and 2018 the Company paid SST \$131,100 and \$54,600, respectively.

LOCKING LINE BARRIERS CORPORATION
NOTES TO FINANCIAL STATEMENTS (UNAUDITED)
As of December 31, 2019 and 2018 and for the years then ended

Related Party Global Distribution Agreement

On October 27, 2017, a global distribution agreement was entered into between the Company and Great American Holdings, Inc., in which the CEO of the Company, is the controlling shareholder. Great American Holdings, Inc. holds all intellectual property, manufacturing, sales and distribution rights to the WaterBlocks products. The Company agrees to pay Great American Holdings, Inc. 3% of the product sales price (as defined in the agreement) and 3% of product rental revenue. The agreement has a term of 20 years, commenced on October 27, 2017, and renews automatically for a like period in perpetuity, absent any objection by either party, upon 30 days written notice from the objecting party to the other.

NOTE 6: RECENT ACCOUNTING PRONOUNCEMENTS

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers* (Topic 606). This ASU supersedes the previous revenue recognition requirements in ASC Topic 605—Revenue Recognition and most industry-specific guidance throughout the ASC. The core principle within this ASU is to recognize revenues when promised goods or services are transferred to customers in an amount that reflects the consideration expected to be received for those goods or services. In August 2015, the FASB issued ASU 2015-14, *Revenue from Contracts with Customers*, which deferred the effective date for ASU 2014-09 by one year to fiscal years beginning after December 15, 2017, while providing the option to early adopt for fiscal years beginning after December 15, 2016. Transition methods under ASU 2014-09 must be through either (i) retrospective application to each prior reporting period presented, or (ii) retrospective application with a cumulative effect adjustment at the date of initial application. We are continuing to evaluate the impact of this new standard on our financial reporting and disclosures, including but not limited to a review of accounting policies, internal controls and processes. The Company adopted this new standard effective January 1, 2018.

In February 2016, the FASB issued ASU 2016-02, *Leases* (Topic 842). This ASU requires a lessee to recognize a right-of-use asset and a lease liability under most operating leases in its balance sheet. The ASU is effective for annual and interim periods beginning after December 15, 2019, including interim periods within those fiscal years. Early adoption is permitted. We are continuing to evaluate the impact of this new standard on our financial reporting and disclosures.

Management does not believe that any recently issued, but not yet effective, accounting standards could have a material effect on the accompanying consolidated balance sheet. As new accounting pronouncements are issued, the Company will adopt those that are applicable under the circumstances.

NOTE 7: CONTINGENCIES

The Company may be subject to pending legal proceedings and regulatory actions in the ordinary course of business. The results of such proceedings cannot be predicted with certainty, but the Company does not anticipate that the final outcome, if any, arising out of any such matter will have a material adverse effect on its business, financial condition or results of operations.

Reinventing Flood Barrier Systems Through Superior Design & Rapid Deployment

Invest in **WaterBlocks™**

WaterBlocks™ is a registered TradeMark and dba (alternate corporate identity) of Locking Line Barriers Corporation.

Locking Line Barriers is proud to introduce a revolutionary product line that's primed to set a new bar in large-scale flood protection, **WaterBlocks™**, along with our new **Digital Barrier Sharing Network**.

Flooding affects more and more Americans every year - and yet, we **continue to rely on inadequate systems** for managing, redirecting and stopping the onslaught of flood waters.

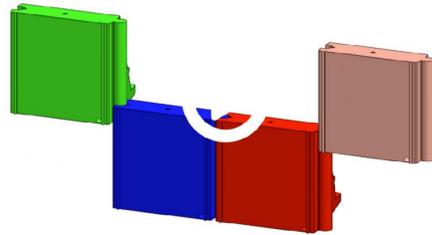

WaterBlocks™ are **steel-reinforced, interconnecting plastic units** that **link together to create a watertight wall of protection**. What makes **WaterBlocks™** so special is their **unique design**, which allows them to be both **rapidly-deployed** and **efficiently-assembled** and **removed**.

WaterBlocks™ have many useful applications including **crowd - traffic safety and control, construction site protection, natural resource conservation** and more.

Looking ahead, Locking Line Barriers has also developed an integrated business model for **long-term success and growth** in our new **Barrier Sharing Network**, a forward-thinking solution that **enables communities to have timely access to WaterBlocks™** on a **cost-effective, as-needed basis**.

Flooding strikes with little notice, but **WaterBlocks™** empowers **municipalities, governmental agencies** and **NGO's** to be better equipped with a new **Tool** to protect lives, communities and our environment.

Invest in **WaterBlocks™ dba Locking Line Barriers Corporation** with **confidence** as we prepare to go to market with our revolutionary **WaterBlocks™ product line and related services**. Funds from this crowdfunding raise will be used to support **inventory expansion, marketing, promotions, and product line sales** at trade shows as well as **promotional events** with municipalities across the country.

The Offering

Investment

\$2/share | Class B Non-voting Shares

When you invest you are anticipating the company's future equity value will exceed \$19.0 million.

Perks Packages List

\$200+ Investment - a **Digital Certificate of Ownership Replica** - (bragging rights)

Every Investor receives a Digital Certificate.

Investors over \$500 receive the one applicable perk listed below:

\$500+ Investment - **Lunch On Us**

(\$25 Outback Steakhouse Gift Card)

\$1,000+ Investment - **Dinner On Us**

(\$60 Outback Steakhouse Gift Card)

\$5,000+ Investment - a **Las Vegas Getaway***

(Hotel for 2 people for 3-days/2-nights)

\$10,000+ Investment - a **Grand Las Vegas Getaway***

(Hotel for 2 people for up to 4-days/3-nights -

plus 2 Show Tickets & Dinner with LLB CEO)

\$15,000+ Investment - a **Reno VIP Getaway***

(Hotel for 2 people for 4-days/3-nights, show tickets and Dinner with LLB CEO)

* Airfare not included

\$20,000+ Investment - a **Grand Reno VIP Getaway**

(Hotel for 2 people for 5-days/4-nights, Domestic Airfare, show tickets and a Golf/Ski Day, plus Dinner with LLB CEO)

\$30,000+ Investment - a **Colorado Concierge Vacation**

(Hotel for 2 people for **4-days/3-nights**, plus Domestic Airfare, Ground Transportation, Dinner with LLB CEO,

and a **Custom Entertainment Package** including either sporting event, skiing or touring with **Concierge Assistance** throughout your stay)

\$50,000+ Investment - a **Grand Weeklong Colorado Concierge Vacation**

(Hotel for 2 people for **7-days/6-nights**, plus Domestic Airfare, Ground Transportation, Dinner with LLB CEO

and a **Custom Entertainment Package** including your choice of sporting event, skiing or touring with **Concierge Assistance** throughout your stay)

See More Details at www.WaterBlocks.net/perks

Please also note:

You may elect to **donate the monetary equivalent** of your perk to the **Disaster Support Foundation** or any other charity of your choosing.

***All perks occur after the offering is completed.**

*"Locking Line Barriers was founded with the mission to provide a superior flood protection system to **help save lives, our communities, and our environment.**"*

What We've Accomplished So Far

Locking Line Barriers has secured the exclusive license to the Global Rights to Market, License and Distribute the WaterBlocks™ product line and related services. Which included the right to utilize the WaterBlocks™ trademark as an alternate corporate identity during the term of the license.

With over 100 years of combined experience in **industrial manufacturing, construction, disaster response, damage control** and **logistical operations**, we are poised to capitalize on the market viability of our **superior flood barrier protection system**.

In preparation to go to market, we've already gone to great lengths to execute an **in-depth market research study** as well as create a **comprehensive WaterBlocks marketing and sales system** for the Distribution, Sales & Sub-Licensing of WaterBlocks™ products and services.

We've also developed a **forward-thinking community-driven 'Barrier Sharing Network'** to provide for the efficient rental and rapid deployment of **WaterBlocks™** systems - more on that below.

Looking ahead, our next major steps are as follows:

- **Provide everyday investors with an opportunity to participate in LLB equity ownership and future profits regardless of networth**
- **Create Revenue Sharing (investment pools) for Barrier Sharing Network inventory expansion**
- **Establish financing options for potential clients**
- **Build Locking Line Barriers Corporation dba WaterBlocks™ into a profitable global organization for the benefit of its shareholders and to help the communities it serves save lives, property and our environment**

With your help, we'll be able to get there quicker, and WaterBlocks™ will too. Please read on to see how we're inventively using new technology to

with your help, we'll be able to get there quicker than WaterBlocks will too. Please read on to see how we're inventively using new technology to solve a major topical problem that affects us all.

The Problem: How Do You Stop a Flood?

You Don't! All you can do is divert the flood waters elsewhere.

So what can stand between a **community** and a **flood**?

Flooding is a **growing concern for millions of people and municipalities nationwide**. Despite that, there haven't been any major enhancements to flood protection over the years, leaving us relegated to **these basic tools**:

concrete walls

jersey barriers

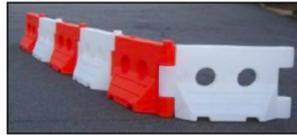

sandbags

anything else handy at the time

Fact is - once it starts raining, it's already too late. Communities need a **faster, more reliable solution** to this looming threat. Most all **flood control tools currently** available in the US are **heavy, not easily moveable or deployable** and typically **permanent** once constructed.

There are, of course, a number of existing plastic barriers on the market - however being designed for traffic safety and control, their uses are **limited**, rendering them **useless** for flood control or liquid overflow management.

Over the past three years we have had extensive discussions with **municipalities** and various **governmental agencies** reflecting a common theme professed by all: **an additional source of flood barrier supply and support is needed**. Our communities' needs can't just rely on FEMA, NGO's and the occasional local vendor.

The **incredible demand** and **outstanding need** for new and improved flood protection systems is evidenced by the **US Army Corps of Engineers' recent inquiry to Locking Line Barriers** which read as follows:

The U.S. Army Corps of Engineers is seeking System for Award Management (SAM) Database registered businesses that can provide temporary perimeter flood barriers in the event of a flood emergency... **Particularly:**

"the purpose of this NOTICE is to gain knowledge of potential sources that have the ability to provide temporary perimeter flood barriers that meet the following requirements:

1. Product **designed specifically to facilitate flood risk reduction measures** and is meant to be **rapidly installed** just prior to a flood event, and **disassembled after** flood waters recede.
2. Product **installation can be performed manually** and/or with mechanized equipment.
3. May be **reusable or disposable**.
4. May be for **rental or purchase**.
5. Vendor **technical advisor(s) may be available to train** on proper setup, utilization, and teardown/repackaging before, during or after the event."

End Notice.

The WaterBlocks™ Solution

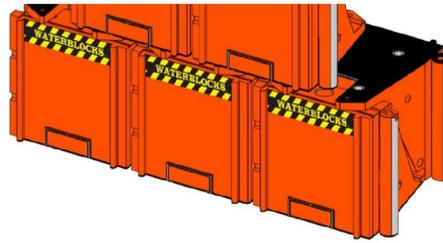

In response to the unresolved need for new and improved flood protection systems, **Locking Line Barriers** proudly introduces **WaterBlocks™** to the Army Corps of Engineers - and the world at large.

WaterBlocks™ are our proprietary line of steel reinforced plastic

WaterBlocks™ are our proprietary line of **steel-reinforced plastic polyethylene blocks which link and lock together** using magnetic vinyl seals to create a **rapidly-deployable plastic wall of watertight protection** that prevents liquid penetration at the joints, provides a dry side of protection and diverts the flow of flood water and other fluids.

Since disaster response calls for fast action, we've also ingeniously designed our lightweight blocks to **fit together both when deployed and during shipping** - so that an entire fleet of WaterBlocks™ may be **rapidly-deployed via semi-trailer trucks**.

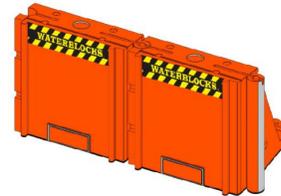

WaterBlocks™ Design

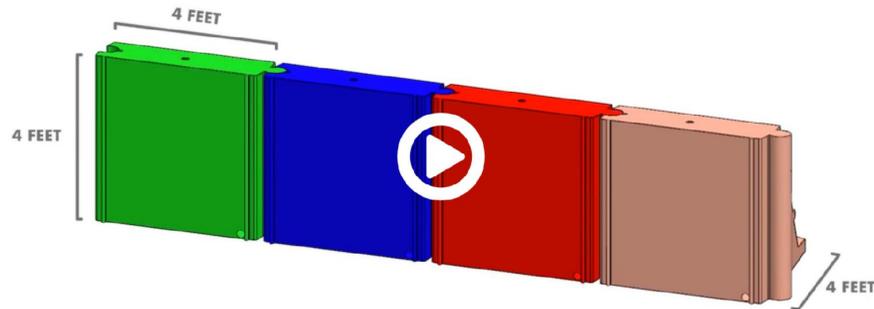

Main Unit

Shipping Set

Deployed

A detailed product explanation video.

WaterBlocks™ have been strategically designed in modular fashion for efficient shipping and minimizing storage space when not in use.

Interlocking and able to be configured any number of ways, each of LLB's WaterBlocks™ has a footprint of **less than 4'x4'** and the **ability to flex up to 15-degrees** in either direction at the joints to provide a wall that curves based on natural changes to the landscape.

Individual WaterBlocks™ weigh approximately **50 pounds when empty**, so units may be easily carried, placed and configured by a single person. On the other hand, **once automatically filled with flood water, the weight of each WaterBlocks™ swells to a mighty 1,766 pounds** - making it a formidable barrier between what's wet and what's dry.

Just look at what can fit inside a single semi-trailer truck:

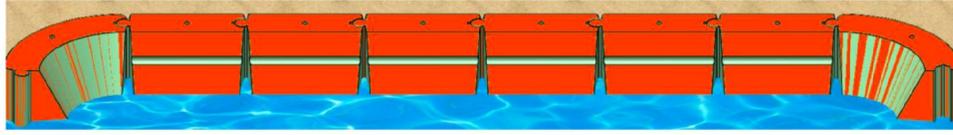

- **96 WaterBlocks™ Main Units**
- **8 WaterBlocks™ Corner Turning Units**

That's 416 linear feet of heavy-duty, customizable protection packed in a 53' trailer! And while that's a standard configuration, any grouping of barriers may be accommodated as the need arises.

WaterBlocks™ Key Features:

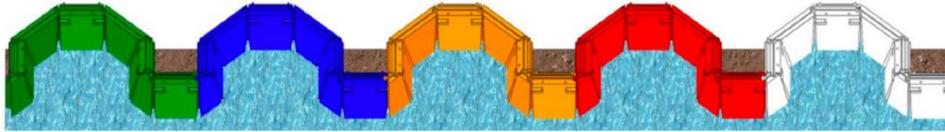

- **VERSATILE**
 - *Change Wall Assembly Direction as required*
 - *Control Flooding, Traffic, Crowds & Hazardous Waste*
- **CUSTOMIZABLE**
 - *Efficiently Lock & Seal Barriers into any configuration*
 - *Stackable*
 - *Self filling in flood use*
- **RAPIDLY-DEPLOYABLE**
 - *Easily lifted & moved: 2 men, 4 hours installation or removal per truckload*
 - *Transportation & Storage-Friendly - 416 Linear feet per 53' Trailer*
 - *Quick Release Device to eliminate lifting and permit rapid breakdown of assembled units*
- **DURABLE & COST-EFFECTIVE**
 - *REUSABLE and Recyclable*
 - *20 Year Life guaranteed by the manufacturer and an expected life of probably 40 years*
 - *Steel-Reinforced Recycled Polyethylene Plastic*

WaterBlocks™ Applications

Containment Walls

For keeping flood water out

Diversionary Walls

For re-directing flood water as needed

WaterBlocks™ have been designed to provide a **rapidly-deployable, watertight line of protection against rising flood water**. During the past three years of **WaterBlocks™** research and development, the product has been modified and enhanced several times to expand its uses and overall value.

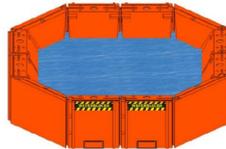

The team at LLB is always striving to provide the very best product and marketable solution. **We've already incorporated numerous design enhancements and improvements to expand the versatility, function and range of applications for WaterBlocks™.** And while the main focus of WaterBlocks™ is and will continue to be to provide superior flood protection, our ingenious line of products may also be utilized for a wide range of other uses.

Today, Locking Line Barriers offers a multi-use product line with the versatility and features capable of providing unique solutions in multiple markets.

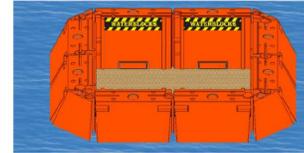

Construction & Drilling Site Safety

Insertable fence posts for additional height & security

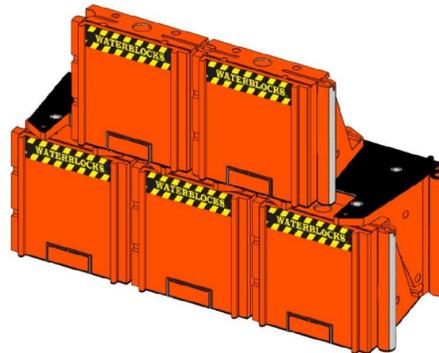

Pools & Ponds

For protection & conservation of water and/or other natural resources

Islands of Safety

Strong, mobile protection from flood water & other threats

"TruckCrusher! Walls"

The standard width of a street in the USA is 29' curb to curb.

Double-stacked 4' wide x 8' tall x 28' long (21 barriers) = approximately 34,700 lbs. of protective stopping power!

In addition to fine-tuning a range of extended applications for **WaterBlocks™**, the Locking Line Barriers team has also designed, developed and filed for patent-protection for a **new function of WaterBlocks™ as Truck Blockade Walls, we call it the TruckCrusher! configuration.**

When double-stacked together, **WaterBlocks™** can be configured to **stop a rubber-tired vehicle in its tracks**. For example, a direct hit from a semi-trailer truck with 20-tons worth of cargo will result in **less than ~20-feet of wall movement with the wall of water-filled blocks collapsing around the vehicle** and mitigating the force of any exploding shrapnel in the event of a weaponized vehicle terrorist attack.

Such applications make WaterBlocks™ particularly marketable to municipalities, public organizations and private companies executing large-scale events with large crowd attendance.

To barricade a standard 29' wide street, **21 WaterBlocks™** can be double-stacked to create a wall that's 28-feet long, 8-feet high and 4-feet wide.

When filled, **each WaterBlock™** has an estimated impact resistance of 5,000 pounds, giving the double-stacked wall a **combined estimated 100,000-pound impact resistance**. There isn't a rubber-tired vehicle in existence able to penetrate a WaterBlocks™ **TruckCrusher!**

Locking Line Barriers is currently seeking grants from both the Homeland Security Department and the Department of Defense to fund a **physical test of this new added feature**.

WaterBlocks™ Asset Management & Barrier Sharing Network

Flooding is a unique disaster in terms of how quickly it strikes - with little notice for preparation. Thousands of Americans across the country have felt the devastating effects of floods and the pain they cause.

Communities under the threat of floods are **begging to be better prepared with adequate barrier protection**. With our rigorous background in industrial manufacturing, construction and logistical operations, we've gone ahead and envisioned an **innovative, forward-thinking solution - the Barrier Sharing Network** (*think Uber like*).

The Barrier Sharing Network is a system whereby **WaterBlocks™** can be **rapidly transported on short notice as a cost-effective response to pending flood threats - anywhere in the US**. Because when it comes to mitigating flood damage and destruction, large quantities of **barriers that can be delivered on short notice is key**.

We anticipate that our primary stage objectives around the sale of **WaterBlocks™** themselves will **generate the revenue necessary to support our continued future growth**.

The establishment of the Barrier Sharing Network offers WaterBlocks a **sustainable, long-term (20+ years) source of revenue** and **ever-expanding rental and licensing opportunities**.

The **Barrier Sharing Network is an intangible asset consisting of the software platform (not yet built) - which may ultimately be patentable in its own right - and management thereof**.

Since each WaterBlock™ is equipped with an **RFID Chip** for easy inventory tracking and every LLB Trailer is **GPS-enabled**, the Barrier Sharing Network presents a **nationwide network of readily-available WaterBlocks™ inventory** that can be rapidly-deployed to communities in need when flooding strikes.

Locking Line Barriers will **seek to secure sponsorship from major corporations, governmental bodies, private foundations and non-profit organizations** to underwrite the initial manufacturing and acquisition costs of large numbers of truckloads. **This initial inventory base will provide thousands of linear feet of WaterBlocks™ Barriers that can be instantly assigned, transported and deployed to participating municipalities, counties and states in need of flood protection or any other WaterBlocks™ application.**

WaterBlocks™ Sponsorship & Branding Opportunities

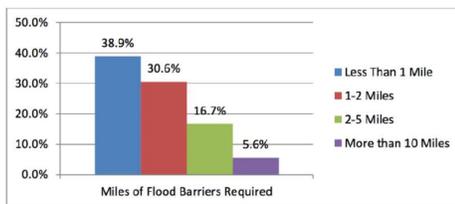

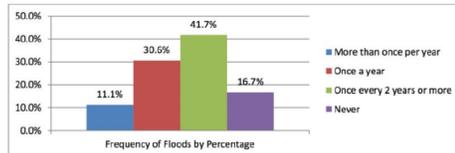

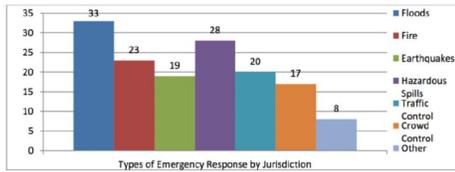

Knowing the importance of branding when it comes to securing major sponsorships, is why **Locking Line Barriers has built-in a way for sponsor corporations, organizations and agencies to be recognized for their support of the Barrier Sharing Network**.

LLB incentivizes sponsorship by offering sponsors the opportunity to brand WaterBlocks™ within the Barrier Sharing Network by permanently molding the brand's logo and messaging into the front-facing plastic wall of each unit they purchase or donate.

"For every \$1 spent on Disaster Mitigation, \$7 are saved in Disaster Recovery Costs."

The Market & Industry

To examine the current market viability of **WaterBlocks™**, Locking Line Barriers commissioned a detailed study looking at the **market acceptance, need and overall demand for rapidly-deployable flood protection and multi-use barrier systems**. Additional focus was spent on **means of access** including whether the assets are rented through a web-based asset and cost-sharing network rather than outright purchased per standard convention.

Since the **WaterBlocks™** target market is the **emergency authorities and responders of municipalities, government agencies and NGO's**, research consisted of a nationwide sampling of 36 randomly-selected jurisdictions.

Our research resulted in these key findings:

- **Market need & demand for flood barriers far exceeds the current availability of a sufficient supply**
- **Until WaterBlocks™ are brought to market, the need & demand will remain unfulfilled for the foreseeable future**

It would take **more than 800** Truckloads of WaterBlocks™ (**806 to be exact, with 63.5 miles of barriers**) to fulfill the demand for flood barrier systems - and that's just for the 36 respondents surveyed.

At the currently-discounted MSRP cost of \$130,000/truckload, LLB sales would be **\$104,780,000** for the 36 respondents polled so far.

Since the market will quickly absorb at least 100 truckloads of **WaterBlocks™** in the pilot phase, our research indicates that every effort should be made to grow the inventory of the **Barrier Sharing Network**.

With our extensive background in construction, **the market viability of the WaterBlocks™ product line in this industry is undeniable.**

Regulations require every construction site have a safety and security fence bordering the location. Most are weakly-constructed out of chain-link fence, plywood and sometimes plastic, ultimately to be destroyed upon completion of the job. **WaterBlocks™** may be used as a **cost-effective alternative that can be assembled, removed and reused quickly and efficiently while providing an enhanced level of protection, safety and security.**

In addition, drillers in the petroleum industry have also communicated a unique need for **WaterBlocks™ as a means of water handling and storage**. Since fracking uses water that must be transported in and out of the site on a daily basis, the **WaterBlocks™** product line can **reduce related costs while providing numerous other solutions** to the process by enabling the mobile handling and storage of water virtually anywhere.

We believe the petroleum industry to be a major market for Locking Line Barriers.

Marketing & Sales Focus

We intend to formulate a **worldwide licensing program that enables WaterBlocks™ - or a variant thereof - to be sold and distributed overseas**. In fact, we have already received licensing inquiries from Mexico and Holland, however our primary objectives at this time are product sales and the **establishment of the Barrier Sharing Network (BSN) in the United States.**

LLB initial sales efforts are focused on six key target markets:

1. Product Sales to government agencies and municipalities
2. Product Sales to major corporations in the Construction and Petroleum industries
3. Distributorship Development and Expansion domestically and globally
4. Sponsorship sales to major Corporate Social Responsibility (CSR) departments for BSN inventory expansion
5. Crowdfunding Revenue Sharing Agreement Investments in BSN inventory expansion
6. Revenue Sharing Agreement Investment Sales and Grants from Charitable 501c3 organizations for BSN inventory expansion based on the following:

Notes:
 * Includes organizations that filed financial information on Form 990, 990-EZ or 990-PF within 24 months of the BMF release date, as reported in NCCS Core Files and IRS Business Master Files (excludes 990-N ePostcard filers).
 ** Includes organizations that reported zero (\$0) revenue and zero assets on a Form 990, 990-EZ, 990-PF and, since 2008, 990-N ePostcard within 24 months of the BMF release date, as reported in NCCS Core Files and IRS Business Master Files.
 *** Includes all organizations that filed a Form 990, 990-EZ, 990-PF and, since 2008, 990-N ePostcard within 24 months of the BMF release date, as reported in NCCS Core Files and IRS Business Master Files.

We estimate that \$1 trillion is held by the more than 80,000 non-profit organizations that fall under 501c3 status in the US. NOTE: this is our estimate of the potential participants from the global group as reported in the chart.

With this in mind, we have also established an agreement with the Disaster Support Foundation (DSF), a 501c3 non-profit who will seek grants and donations to acquire and provide WaterBlocks™ for the Barrier Sharing Network for a share of the revenue. This relationship provides potential charitable sponsors with the opportunity to leverage tax-deductible donations for positive social impact affecting countless communities nationwide.

What Else Makes LLB Special

As a Service-Disabled US Veteran-Owned Business, making Locking Line Barriers Corporation eligible for 'Contract Set-a-Sides' for our products and services with federal government agencies.

The Army Corps of Engineers recently put out a Request For Proposals; inquiring as to the availability of 'rapidly-deployable flood control barriers.'

A proposal in this regard has already submitted and put us in a unique position to capitalize on the opportunity once the first line of WaterBlocks™ demo units have been manufactured.

We wish to sincerely Thank our SPONSORS for their part in providing the Perks for this offering.

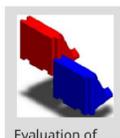

Invest in WaterBlocks™ Today!

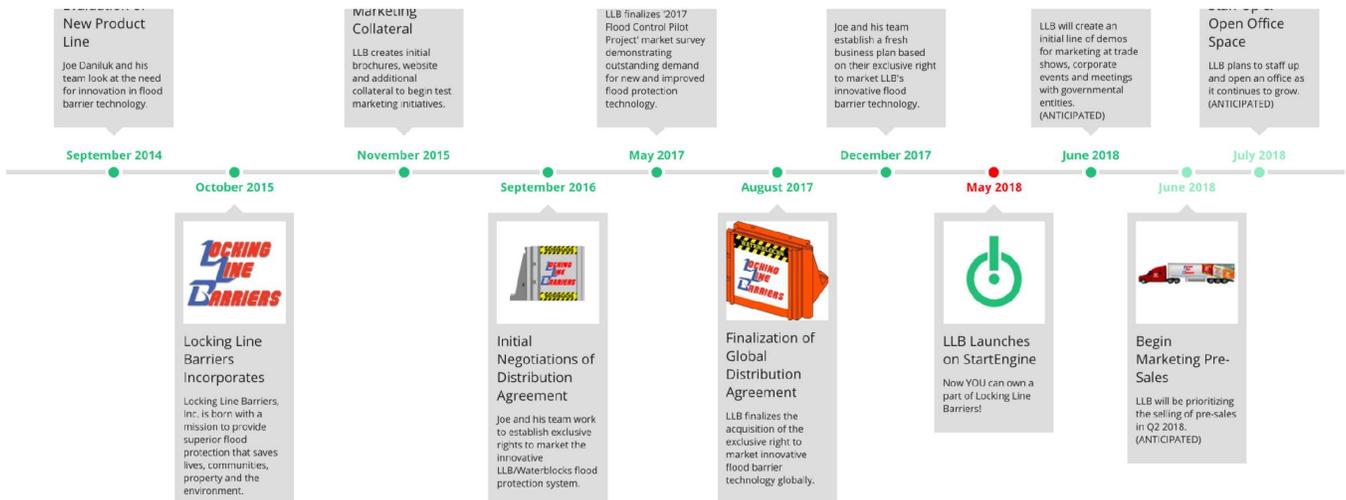

Locking Line Barriers has the power to market a revolutionary new product with incredible demand and virtually no competition that not only generates revenue and profits, but also saves lives, communities and our environment.

Your investment as a Founding Investor in WaterBlocks™ today will help create an incredible social impact across our country for a long time to come. Join our founders' investment team so we can bring this program and benefits to market sooner than later.

Your investment not only helps us launch - it also makes you a part of the ownership investor team sharing in the profits and growth of the Company.

With your help, Locking Line Barriers can establish and grow the next level of flood protection for communities nationwide. Thank you!

Meet Our Team

Joe Daniluk

CEO & Director

A Denver native, Joseph is a service disabled combat veteran, married with two children. Joe's favorite pastimes include skiing, flying and financial market analysis. He brings more than 30 years of business development experience for directing and managing new project development with an emphasis in finance, automation and marketing. He is also a licensed Colorado Real Estate Broker and Private Pilot. A graduate of the University of Denver with a dual degree in Finance and Real Estate and a minor in Mass Communications and TV Production. He has an extensive computer background with training in the US Navy Tactical Data Systems military computer systems and later migrating to PC's, designing and building computers, LAN's, Enterprise systems and WEB hosting networks. During the savings and loan crisis, he was the Assistant Specialist in Charge (ASIC) of the Denver FDIC office managing 330 employees and managing and liquidating \$2.5 billion of assets recovered from closed banks and S&L's. From 1999-2014 Joseph managed SuperLoads, Inc. as CEO, a specialized freight company, moving the big, the bad and the ugly freight (150,000 to 1,000,000 lbs.) throughout North America. He obtained the only authority issued by Lloyd's of London to insure spot rail freight, which gave him a \$5 million underwriting authority. Clients included moves for NASA, SpaceX, GM, Ford Berkshire Hathaway, CH Robinson, CAT, Hyundai Heavy Industries, Fairbanks Power and Light, Pennsylvania Power and Light, Siemens and many others. Since 2006, he has been CEO of, Manufacturing Contractors, Inc., a plastic manufacturing operation providing Nuclear Waste liners for the Department of

energy and other plastic products to the USA. LLB's product line is manufactured in the same manner and process as Manufacturing Contractors' Nuclear Waste Liners. Mr. Daniluk, is presently and for at least the past three years, the owner and operator (Director and CEO) of the following businesses: CEO and Director of Locking Line Barriers. Approximately spends 30 hours weekly and is his Primary job. 2015 to present. CEO and Director of Great American Holdings, Inc. (Asset Holding and Management) 2015 to present. CEO and Director of Strategic Solutions Team, Inc. (General Business Consulting) 2015 to present. CEO and Director of Manufacturing Contractors, Inc. (Plastic and Steel manufacturer) 2015 to present. Executive Director of Disaster Support Foundation (Charitable Organization) 2015 to present.

Steve Tannenbaum
Director Finance

President of Tannenbaum Consulting LLC, Steve has a diverse background with over 30 years of experience in tax, auditing and accounting services. He has testified as an expert witness in Federal, District and County Courts as well as evaluated commercial enterprises and actively participated in negotiations relative to business acquisition and reorganization, restructuring, and dissolution. Steve brings to the table extensive history and experience working with businesses engaged in manufacturing, wholesale and retail sales, construction, mortgage banking, professional practices, and commercial and residential real estate. Steve received a B.S. in Accounting from the University of Colorado in 1975 and a B.A. in Psychology from the University of Colorado in 1973. He is a Certified Public Accountant in the State of Colorado and a member of both the American Institute of Certified Public Accountants and the Colorado Society of Certified Public Accountants. Mr. Tannenbaum is the former President of Tannenbaum & Suber, P.C. and former tax partner at Deloitte & Touche. From: 2015 To: Present Is an Officer and Director of Tannenbaum & Company, P.C. (CPA Consulting and Tax Services)

Ambassador Sam Zakhem

Director Government Relations
Sam was appointed US Ambassador to Bahrain by President Ronald Regan to serve the Middle East in 1986 and served with distinction during very volatile times. Sam also served his country as a White House Advisor, a member of the US Small Business Administration, and Chaplain in the US Navy. Sam has also been involved in the legislature of his home State, Colorado as a State Senator, and two term State Representative. In business, Sam has held various positions including CEO and Vice President of companies including Ford Motor Co., Denver University, The Heritage Foundation and others. Fluent in multiple languages, Sam has numerous degrees from various Universities both here and abroad, has served on their advisory boards as well as taught from time to time. Senator Jesse Helms heralded Ambassador Zakhem as follows: "You have the courage of your convictions and the moral and spiritual principles to guide you in rendering distinguished service to our country. You stood up to America's enemies in your courageous service as U.S. Ambassador to Bahrain. Not once have you compromised your willingness to fight to preserve the freedoms of the American people." From: 2015 To: Present Is a Business Advisor & Public Speaker Self Employed (Consulting)

Will Hunziker

The 10% Bonus for StartEngine Shareholders

Locking Line Barriers Corporation will offer 10% additional bonus shares for all investments that are committed by StartEngine Crowdfunding Inc. shareholders (with ≥ \$1,000 invested in the StartEngine Reg A+ campaign) within 24 hours of this offering going live.

StartEngine shareholders who have invested \$1,000+ in the StartEngine Reg A+ campaign will receive a 10% bonus on this offering within a 24-hour window of their campaign launch date. This means you will receive a bonus for any shares you purchase. For example, if you buy 50 shares of Class B Non-Voting Common Shares at \$5 / share, you will receive 5 Class B Non-Voting Common bonus shares, meaning you'll own 55 shares for \$100. Fractional shares will not be distributed and share bonuses will be determined by rounding down to the nearest whole share.

This 10% Bonus is only valid for one year from the time StartEngine Crowdfunding Inc. investors receive their countersigned StartEngine Crowdfunding Inc. subscription agreement.

Irregular Use of Proceeds

The Company will incur Irregular Use of Proceeds that may include but are not limited to the following over \$1,000: Vendor payments and salary made to one's self, a friend or relative; Any expense labeled "Administration Expenses" that is not strictly for administrative purposes; Any expense labeled "Travel and Entertainment"; Any expense that is for the purposes of inter-company - "related party" debt, back or current payments. Further, the Company being a Start-Up business with no assets, cash flow or transactional history is unable to establish conventional credit. The Company has developed and will expand what it refers to as "Private Credit Facility (PCF)" defined for accounting and operational purposes as "PCF Debit and Credit Transactions" received from or payable to; vendors, investors, organizations, related parties, and others, who may provide effectively credit and/or funds in kind to the Company, as need from time to time, requiring repayment in relatively short time periods. Depending on timing such repayments may come from and become part of the use of proceeds.

Special Email Announcement

23 days ago

On March 19, 2019 we sent out a 'Special Announcement' our first email to all our StartEngine Shareholders of record as of March 15, 2019. Part of the purpose was to confirm each shareholders email address which occurred by simply opening the email.

Only about 50% of the addressees opened the email. Leaving us to believe we have a large number of incorrect email addresses.

Because all shares purchased are electronic certificates, it is imperative that we have a valid and correct email address to communicate with our shareholders, when needed or as maybe legally required.

Consequently, tonight we will repeat the email process and send it out again. Please, in the next few days, just open it so we can confirm we have your correct email address. And please check your junk mail folder and if there, unblock us so you receive email from us in the future.

If you do not receive the email PLEASE let us know via email to:

info@WaterBlocks.net

Thank you for your help and assistance.

Best Regards,

Joe Daniluk, CEO

WaterBlocks

Congratulations!!

23 days ago

We are \$90.00 from reaching our Initial Goal of \$107,000!

We want to Thank each and every one of You - for you investment and your support!!

As a result, we are going to amend our Offering and increase it. To comply with SEC regulations we must have our financials reviewed prior to amending and we are in that process now. This review requires us to maintain a quiet period until the review is completed which is why there have been no recent Updates posted.

Everything is progressing well and we are moving forward.

More News Coming Soon!

Annual ShareHolder Meeting Announcement

3 months ago

Announcement

Locking Line Barriers Corporation *dba* WaterBlocks™

Annual Shareholder Meeting

NOTICE IS HEREBY GIVEN THAT the Annual Shareholder Meeting (the "Meeting") of Shareholders of record as of January 30, 2018, of **Locking Line Barriers, Corporation dba WaterBlocks™** (the "Corporation") will be held on:

Date: Thursday, January 31, 2019

Location: 4155 E Jewell Avenue Denver, CO 80222

Rio Grande meeting room

Time: 2:00 p.m. (MST)

For the following purposes:

1. To elect the Board of Directors;
2. To transact such further and other business as may properly come before the Meeting and adjournment thereafter.

The Corporations By-Laws state the following:

Section 1.5. Quorum and Adjournment: At any meeting of the shareholders, the presence, in person or by proxy, of the holders of a majority of the shares outstanding and entitled to vote at such meeting shall constitute a quorum. In the absence of a quorum, the meeting may be adjourned for a period not to exceed thirty days, without further notice, by any officer entitled to preside at or act as Secretary of such meeting, or by a majority in interest of those shareholders present in person or by proxy. The withdrawal of enough shareholders to leave less than a quorum shall not prevent the remaining shareholders from continuing to transact business until adjournment.

Section 1.6. Voting. At each meeting of the shareholders, those shareholders entitled to vote may vote in person or by proxy. The record date for the determination of the shareholders shall be the date upon which notice of the meeting was sent to the shareholders, unless a different date therefore was fixed by the Board of Directors. A proxy, to be valid, must be executed in writing by the shareholder or by a duly authorized attorney-in-fact. No proxy shall be valid after eleven months from the date of its execution unless otherwise provided in the proxy, subject to applicable Colorado law. At all meetings of the shareholders at which a quorum is present, all matters shall be decided by a simple majority vote of all then eligible shares for which votes are cast on the matter, except as otherwise provided by statute or by the Articles of Incorporation. The vote on any matter need not be by ballot unless required by statute or requested by a shareholder, in person or by proxy, who is entitled to vote at the meeting.

Section 1.7. Proxies. At any meeting of the shareholders, a shareholder may vote by proxy executed in writing by the shareholder or a duly authorized attorney-in-fact. Such proxy shall be filed with the Secretary of the Corporation before or at the time of the meeting. No proxy shall be valid after eleven months from the date of its execution, unless otherwise provided in the proxy, subject to the requirements of Colorado law.

Section 1.8. Conduct of Meetings. Each meeting of the shareholders shall be presided over by the Chairman of the Board of Directors, or if absent, by the President, or if absent, by any Vice President. If the Chairman of the Board, President, and Vice Presidents are all absent, a Chairman of the meeting shall be chosen by a majority in voting interest of those shareholders entitled to vote who are present or represented by proxy. The Secretary of the Corporation shall act as Secretary of each meeting of the shareholders. If the Secretary is absent, the Chairman of the meeting shall appoint a Secretary for the meeting.

Common Class A Voting shareholders of record at the close of business on Jan 30, 2019, will be eligible to vote at the Meeting. Class B Non-Voting Shareholders are invited to attend and observe, however will not participate in any votes taken.

RSVP, please email info@WaterBlocks.net if you are considering attending to insure adequate seating, thank you.

NEWS: Just In; WaterBlocks Wins a finalist position in the RMV pitch competition

5 months ago

WaterBlocks News Update:

In September we applied to participate in the:

Rocky Mountain Veterans Pitch Competition

This event is for veteran/veteran spouse-owned businesses competing for a \$25,000 grand prize. The spirit of this event is to support veteran/veteran spouse-owned businesses in the State of Colorado. Therefore, we would be grateful for your presence on Veterans Day to support our most innovative entrepreneurs who have also answered the call to service.

The 2018 Pitch Competition is an initiative of The Commons on Champa led by Jacqui Dietrich and powered by The Downtown Denver Partnership with support from the Kauffman Foundation and JPMorgan Chase Foundation. We hope that you will be able to join us for an event that supports military service and commitment to business development in Colorado.

After competing through the semi-finals, we have been selected as a Finalist!

Where we will have the opportunity to launch and pitch our new SEC 506c \$2m Preferred Equity Offering

We wish to invite everyone;

Our **investors, management team, followers and friends** to see the competition and enjoy the festivities!

Date and Time:

Mon, November 12, 2018 5:00 PM – 9:00 PM MST

(Pitch event starts at 6:00PM)

Location:

Galvanize Golden Triangle

1653 Broadway St, Denver, CO 80202

1062 Delaware St Denver, CO 80204

Please Join us! IT'S Free! But please RSVP to insure adequate refreshments are available at:

[Register](#)

Also Rocky Mountain Veterans is seeking sponsors at any level, so if you know someone or an organization that would consider becoming a co-sponsor please email vetpitch@thecommons.co

Wish us Luck with a Comment - Thank you so much for your continued support!

Announcing: Great News!

6 months ago

Our thanks to our investors, followers and team members for all your patience and support, we have been hard at work the last three months on a number of projects which are finally coming to fruition as we continue to progress. We are finally in a position to share the news and begin providing public updates, as we have to be cautious with our updates to insure we are in compliance with SEC rules. Our most important news:

- We are extremely excited to announce that in mid-July, the company was notified by the manufacturer that they had been approached to consider a new sealing device for the main joint between two barriers. This new technology was developed for the medical industry, to control operating room fluids during surgery. An evaluation was undertaken, and a new barrier seal engineered successfully. This new sealing device will reduce the overall barrier manufacturing cost by an estimated \$25 per unit, which is significant. We will no longer be required to utilize a three-part; steel, vinyl and magnetic device, to seal the barrier joints. The engineering and design changes have been completed and final drawings will be sent to the mold makers so we can proceed to begin the manufacturing process.
- And, we also want to reveal that since August 1, we have been preparing and have just completed our new SEC Reg D 506c \$2m Preferred Equity Offering for Accredited Investors. We are in negotiations with a 30 year old stock brokerage firm to underwrite and conduct this Private Placement and will launch the offering November 12, as well. Watch for more updates as we progress.

ANSWERS to the three most frequently asked questions!

9 months ago

During the last 40 days, we have received numerous questions from various sources. So we decided to create a video to answer the three most frequently asked questions. Please take a moment to see the answers to the following questions:

1. Why did you choose equity crowdfunding to raise capital?
2. Why are there no videos of the product in action?
3. What about floodwaters 9 feet or higher?

Link:

<https://vimeo.com/279378050/95bb0fd17e>

Thank you so much for your participation, time and consideration.

Manufacturing will be starting soon!

10 months ago

WaterBlocks spent last week on the road meeting with our manufacturers and are making progress as we proceed to production. There are a number of steel reinforcing components to include in the plastics production process with tight tolerances requiring production precision that are working out as planned. We are on track to submit our first purchase order at the end of the month!

Please remember to share your adventures with us with your friends and followers!

Thank you for your support.

Joe

Good News ... More to Come!

10 months ago

To - All our New Owners and Potential Owners:

What a RIDE, the last 12 days have been incredible and hard to keep up with, raising 18% of our goal in the first 2 hours, and now at 38%!!

We have been receiving inquiries from all over, like Kuwait City, Kuwait to Sydney, AU.

So we want to thank you for your investment, support and help sharing the news of our offering, from all of us at WaterBlocks, THANK YOU!

This week we will be participating in the organizational meetings in MN with the Manufacturer, vendors and suppliers to finalize processes and procedures to accommodate our first WaterBlocks Purchase Order. Check back soon as we intend to provide more updates with excitement for us all. We are deeply involved in our staffing plan and preparing to begin staffing up by Labor Day.

We still have a ways to go, so we hope for your continued support in getting our Offering more exposure, tell your friends and followers, it really helps.

With my gratitude,
Joe Daniluk, CEO

Joe Daniluk [WaterBlocks - Issuer](#) 10 days ago

Aaryaman, thanks for your comment, and thank you for being a part of our investor team. We appreciate your support and participation. We did so well in December and January the Board decided to amend our offering and increase our raise to the maximum of \$1.07 million and extended accordingly. In order to accomplish this SEC rules required a company review, which goes beyond verifying financials as all aspects of the company's activities are looked at. This required a quiet period to accommodate the review. We are pleased to announce the completed review was filed and approved last week.

Once we can complete the amendment process, we will once again provide periodic updates as news happens. We will keep you posted.

My regards, Joe Daniluk

Aaryaman Singhal [WaterBlocks - Potential Investor](#) 12 days ago

Hi Joe,

Can you provide any update on what has been happening at WaterBlocks in the past many months in terms of new sales leads, R&D, etc.?

Joe Daniluk [WaterBlocks - Issuer](#) 2 months ago

I wanted to insure everyone received this information - so I'm including it in the comments for everyone: Locking Line Barriers Corporation dba WaterBlocks held and completed our 2018 Stock Holders Meeting January 31, 2018 in accordance with its By-Laws.

2018 Annual Stock Holder Meeting:

We are pleased to announce our Annual Stockholders meeting was held on Jan 31, 2019 and we wish thank all in attendance for their participation.

The agenda was successfully completed, approving the old and new business items reviewed, and the actions of the Board and Officers during the year of 2018 were approved by the shareholders. The shareholders also elected the current Board of Directors to a new annual term, to wit:

Joe Daniluk, Chairman
Steve Tannenbaum, Director of Finance
Sam Zakhem, Director of Governmental Relations
Will Hunziker, Director of Patent and Licensing
Scott Saxman, Director of Product Development and Global Expansion

And the meeting then adjourned.

Antoine Tardif 3 months ago

The product looks interesting but the prizes are nuts. a: They do not apply to international investors b: I have serious concerns about spending this type of raised capital on such prizes.

Joe Daniluk [WaterBlocks - Issuer](#) 3 months ago

Hi Antoine,

Thank you for your interest in our product!

We appreciate your perspective as an international investor (we assume), but as a new company to the Crowdfunding scene our perks are based on the advice we received from many outside advisors, and are in line with our capital raise, because most of the perks are in fact funded by sponsors of the company, not paid for by the company itself.

Our sponsors include companies precluded from making an investment in the company for one reason or another, but felt our mission; to help save lives, communities and our environment with our products and network was important and worthy of helping us create ongoing Social Impact, globally.

It is true that most of the perks are for the most part unusable to foreign investors, but the perk has little or no impact on the long term value of an investment itself. Thank you for bring this to our attention.

We will try to come up with a program for investors outside the US for our next offering.

Wishing you the very best,
Joe

Grace szwarc [WaterBlocks - Potential Investor](#) 3 months ago
Cannot make the meeting, Joe. Wish I could, but tied up here.

Joe Daniluk [WaterBlocks - Issuer](#) 3 months ago
Sorry, you can't make it, Grace, but your always welcome to stop by next time you are in Denver.

My regards,
Joe

John Fox 3 months ago
Thanks, Joe! I'll be there. Can we bring a guest?

John Fox 3 months ago
Joe, haven't heard, yet When's the annual shareholder meeting?

Joe Daniluk [WaterBlocks - Issuer](#) 3 months ago
Hello John,

Your timing is excellent! We are announcing today and we would love to have you in attendance.

FYI - the Announcement:

Announcement
Locking Line Barriers Corporation dba WaterBlocks™
Annual Shareholder Meeting

NOTICE IS HEREBY GIVEN THAT the Annual Shareholder Meeting (the "Meeting") of Shareholders of record as of January 30, 2018, of Locking Line Barriers, Corporation dba WaterBlocks™ (the "Corporation") will be held on:

Date: Thursday, January 31, 2019
Location: 4155 E Jewell Avenue Denver, CO 80222
Rio Grande meeting room
Time: 2:00 p.m. (MST)

For the following purposes:

1. To elect the Board of Directors;
2. To transact such further and other business as may properly come before the Meeting and adjournment thereafter.

The Corporations By-Laws state the following:

Section 1.5. Quorum and Adjournment. At any meeting of the shareholders, the presence, in person or by proxy, of the holders of a majority of the shares outstanding and entitled to vote at such meeting shall constitute a quorum. In the absence of a quorum, the meeting may be adjourned for a period not to exceed thirty days, without further notice, by any officer entitled to preside at or act as Secretary of such meeting, or by a majority in interest of those shareholders present in person or by proxy. The withdrawal of enough shareholders to leave less than a quorum shall not prevent the remaining shareholders from continuing to transact business until adjournment.

Section 1.6. Voting. At each meeting of the shareholders, those shareholders entitled to vote may vote in person or by proxy. The record date for the determination of the shareholders shall be the date upon which notice of the meeting was sent to the shareholders, unless a different date therefore was fixed by the Board of Directors. A proxy, to be valid, must be executed in writing by the shareholder or by a duly authorized attorney-in-fact. No proxy shall be valid after eleven months from the date of its execution unless otherwise provided in the proxy, subject to applicable Colorado law. At all meetings of the shareholders at which a quorum is present, all matters shall be decided by a simple majority vote of all then eligible shares for which votes are cast on the matter, except as otherwise provided by statute or by the Articles of Incorporation. The vote on any matter need not be by ballot unless required by statute or requested by a shareholder, in person or by proxy, who is entitled to vote at the meeting.

Section 1.7. Proxies. At any meeting of the shareholders, a shareholder may vote by proxy executed in writing by the shareholder or a duly authorized attorney-in-fact. Such proxy shall be filed with the Secretary of the Corporation before or at the time of the meeting. No proxy shall be valid after eleven months from the date of its execution, unless otherwise provided in the proxy, subject to the requirements of Colorado law.

Section 1.8. Conduct of Meetings. Each meeting of the shareholders shall be presided over by the Chairman of the Board of Directors, or if absent, by the President, or if absent, by any Vice President. If the Chairman of the Board, President, and Vice Presidents are all absent, a Chairman of the meeting shall be chosen by a majority in voting interest of those shareholders entitled to vote who are present or represented by proxy. The Secretary of the Corporation shall act as Secretary of each meeting of the shareholders. If the Secretary is absent, the Chairman of the meeting shall appoint a Secretary for the meeting.

Common Class A Voting shareholders of record at the close of business on Jan 30, 2019, will be eligible to vote at the Meeting. Class B Non-Voting Shareholders are invited to attend and observe, however will not participate in any votes taken.

RSVP, please email info@WaterBlocks.net if you are considering attending to insure adequate seating, thank you.

Potential investors are strongly advised to consult their legal, tax and financial advisors before investing. The securities offered on this site are not offered in jurisdictions where public solicitation of offerings is not permitted; it is solely your responsibility to comply with the laws and regulations of your country of residence.

VIDEO TRANSCRIPT (Exhibit D)

WaterBlocks Intro-Video Transcript

We have the technology to forecast storms 7 to 14 days in advance.

Within that 10 to 14 day timeframe we don't have the technology to respond to mitigate the damage this caused by these storms. Until now.

My name is Joe Daniluk. I'm president of the Locking Line Barrier Corporation. Allow me to introduce you to a brand new technology. Rapid deployable flood control barrier system that we've trademark under the name of WaterBlocks.

It's a 4 foot cube that when divided in half in a very unique fashion it becomes

two separate pieces, when put together for flood protection, creates a 4-foot wall 8 foot wide and 4-foot tall. It's rapidly deployable. It's easily handled. There is no other product in the market

that does exactly that.

The current tools that are used by municipalities across the country and around the world consists of sandbag walls jersey barriers and then anything else that might be handy.

We decided to commission a market survey. The demand for our product is so large just in this country alone, there is not enough manufacturing facilities in existence to make enough barriers

to meet the entirety of the demand.

Take for example a hospital that sits on a quarter acre square that needs flood control protection to create an island of safety for the building. That's 1 mile of barriers that's needed. And we need ten truck-loads which costs 1.5 million dollars.

That 1.5 million dollar investment can be reused for at least the next 20 years to protect that 1.5 billion dollar hospital complex.

If we did that for just one hospital, what we would need to do for the entire county. And then think about hurricanes, have impacted our coastlines all around our country.

The demand exists without question for our product. We're ready to go to market with the solution to the problem. But what we need is your help. Join with us on our investor team.

So that we can go out and help save communities, lives, property and our environment.

WaterBlocks Product Demo Video Transcript

I'll tell you a little bit about our product how it functions and what it does.

This is a one-ninth scale model. In real life a four foot cube it's four foot by four foot by four foot it weighs in this shape about a hundred pounds now the way we turn it into an eight foot wall.

Originally it was designed to function like this. But we decided that lifting this four feet in the air and then having to drop it down that slot might be troublesome. So we built this quick-release mechanism. It has its own grab handles and you set it out of the way and pull them apart you don't have to lift them there's no lifting involved.

You can now access the door let the water out, put the lifting mechanism back in place, put them back together and reload them in the truck.

We use a special resin that will give us a 20 year warranty life from the resin manufacturer themselves.

The question that everyone's had is how do we seal the joint between the two and that's because of a magnetic seal. In the female joint right in that notch and that's what seals the joint so the water doesn't come flowing through between the barriers.

The unique features of this include water doors this is a gravity door when the water comes and it starts to rise it fills the barrier which only weighed fifty pounds it now weighs 1,750 pounds.

If you want to fill it before the flood comes you can use this four inch hole and stick your fire hose in there and let the pumper truck pump the water in and fill it up.

For ease of emptying a sliding door that you can open and let all the water out then fold it back up and put it together. Load them back in the truck and send them on their way they're gone.

And that's all there is to it.

STARTENGINE SUBSCRIPTION PROCESS (Exhibit E)

Platform Compensation

- As compensation for the services provided by StartEngine Capital, the issuer is required to pay to StartEngine Capital a fee consisting of a 6-8% (six to eight percent) commission based on the dollar amount of securities sold in the Offering and paid upon disbursement of funds from escrow at the time of a closing. The commission is paid in cash and in securities of the Issuer identical to those offered to the public in the Offering at the sole discretion of StartEngine Capital. Additionally, the issuer must reimburse certain expenses related to the Offering. The securities issued to StartEngine Capital, if any, will be of the same class and have the same terms, conditions and rights as the securities being offered and sold by the issuer on StartEngine Capital's website.

Information Regarding Length of Time of Offering

- Investment Cancellations: Investors will have up to 48 hours prior to the end of the offering period to change their minds and cancel their investment commitments for any reason. Once within 48 hours of ending, investors will not be able to cancel for any reason, even if they make a commitment during this period.
- Material Changes: Material changes to an offering include but are not limited to: A change in minimum offering amount, change in security price, change in management, material change to financial information, etc. If an issuer makes a material change to the offering terms or other information disclosed, including a change to the offering deadline, investors will be given five business days to reconfirm their investment commitment. If investors do not reconfirm, their investment will be cancelled and the funds will be returned.

Hitting The Target Goal Early & Oversubscriptions

- StartEngine Capital will notify investors by email when the target offering amount has hit 25%, 50% and 100% of the funding goal. If the issuer hits its goal early, and the minimum offering period of 21 days has been met, the issuer can create a new target deadline at least 5 business days out. Investors will be notified of the new target deadline via email and will then have the opportunity to cancel up to 48 hours before new deadline.
- Oversubscriptions: We require all issuers to accept oversubscriptions. This may not be possible if: 1) it vaults an issuer into a different category for financial statement requirements (and they do not have the requisite financial statements); or 2) they reach \$1.07M in investments. In the event of an oversubscription, shares will be allocated at the discretion of the issuer.
- If the sum of the investment commitments does not equal or exceed the target offering amount at the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.
- If a StartEngine issuer reaches its target offering amount prior to the deadline, it may conduct an initial closing of the offering early if they provide notice of the new offering deadline at least five business days prior to the new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). StartEngine will notify investors when the issuer meets its

target offering amount. Thereafter, the issuer may conduct additional closings until the offering deadline.

Minimum and Maximum Investment Amounts

- In order to invest, to commit to an investment or to communicate on our platform, users must open an account on StartEngine Capital and provide certain personal and non-personal information including information related to income, net worth, and other investments.
- Investor Limitations: Investors are limited in how much they can invest on all crowdfunding offerings during any 12-month period. The limitation on how much they can invest depends on their net worth (excluding the value of their primary residence) and annual income. If either their annual income or net worth is less than \$107,000, then during any 12-month period, they can invest up to the greater of either \$2,200 or 5% of the lesser of their annual income or net worth. If both their annual income and net worth are equal to or more than \$107,000, then during any 12-month period, they can invest up to 10% of annual income or net worth, whichever is less, but their investments cannot exceed \$107,000.

EXHIBIT F TO FORM C

ADDITIONAL CORPORATE DOCUMENTS

ARTICLES OF INCORPORATION

OF

**Locking Line Barriers
dba
LLB Corporation**

KNOW ALL MEN BY THESE PRESENTS: That the undersigned, being a natural person of eighteen years or more, proposes to form a corporation in accordance with the laws of the State of Colorado pursuant to the Colorado Business Corporation Act, and to that end does hereby sign, adopt and deliver to the Secretary of State of Colorado these Articles of Incorporation:

ARTICLE I

Name

The name of the corporation shall be:

**LOCKING LINE BARRIERS
dba
LLB Corporation**

ARTICLE II

Period of Duration

This corporation shall exist in perpetuity, from and after the date of filing these Articles of Incorporation with the Secretary of State of Colorado unless dissolved according to law.

ARTICLE III

Registered Office and Registered Agent

The address of the initial registered office of the corporation is 4155 E. Jewell Ave. Suite 610 Denver, Colorado 80222 and the name of the initial registered agent at such address is Joseph Daniluk. Either the registered office or the registered agent may be changed in the manner permitted by law.

ARTICLE IV

Objects and Purposes

The objects and purposes for which the said corporation is organized and the nature of the business to be carried on by it is to engage in any lawful act or activity for which a corporation may be organized under the Colorado Revised Statutes, as amended.

The clauses setforth herein shall be construed as objects, purposes and powers and the matters

expressed in each clause shall be in no way limited by reference or inference from the terms of any other clause, but shall be regarded as independent objects, purposes and powers; the enumeration of specific objects, purposes and powers shall not be construed to limit or restrict in any manner the general powers and rights of the corporation as provided by law, or shall the expression of one object, purpose or power be determined to exclude another, although it be of like nature but not expressed. Further, the purpose shall include the restatement of the original articles of incorporation and reorganization under Colorado Law, as directed by the Board of Directors and approved by the Shareholders.

ARTICLE V

Capital

The aggregate number of shares Capital Stock which this corporation shall have authority to issue is 20,000,000 shares of no par value each, which shares shall be designated "Common Stock," in one or more classes or series, having no par value each, and 20,000,000 shares designated "Preferred Stock," in one or more classes or series, each having no par value or a par value as determined by the Board of Directors.

Authority is vested in the board of directors of the corporation to prescribe, in a resolution providing for the issuance of such shares, the classes, series, the number of each class or series of stock to be issued and the voting powers or no voting powers, designations, preferences, limitations, restrictions and relative rights of each class or series of stock. The corporation shall have one or more classes of shares that together have unlimited voting rights and one or more classes that together are entitled to receive the corporation's net assets upon dissolution.

1. **Voting Rights, Cumulative voting.** Each outstanding share of the classes and series shall be entitled to such voting powers, full or limited, or no voting powers as shall be stated and expressed in the resolution providing for the issue of such stock adopted by the corporation's board of directors. Cumulative voting shall not be allowed in any election by the shareholders of the corporation.

2. **Pre-emptive Rights.** Any holder of shares of the corporation, whether now or hereafter authorized, shall not have the pre-emptive or preferential right to acquire any shares or securities of the corporation, including shares or securities held in the treasury of the corporation. The corporation's board of directors may create and issue warrants, rights or options to purchase any shares of stock of any class, classes or series, whether or not in connection with the issue and sale of any shares of stock or other securities. Shares may be issued with terms which include the option for such stock to be redeemable, convertible, or exchangeable for shares of another class or series of stock of the corporation, at the option of the corporation, the stockholder or another person, or upon the occurrence of a designated event, at such price or rate as shall be stated and expressed in the resolution providing for the issue of such shares.

3. **Dividends.** Dividends in cash, property or shares of the corporation may be paid upon the outstanding Capital Stock, excluding any treasury stock held by the corporation, as and when declared by the board of directors, out of funds of the corporation to the extent and in the manner

permitted by law.

4. Distribution in Liquidation. Upon any liquidation, dissolution or winding up of the corporation, and after paying or adequately providing for the payment of all its obligations, the remainder of the assets of the corporation shall be distributed, either in cash or in kind, pro-rata to the holders; first to the preferred shareholders, and any remainder then to the common shareholders. The board of directors may, from time to time, distribute to the shareholders in partial liquidation, a portion of its assets, in cash or property, in the manner permitted and upon compliance with limitations imposed by law.

ARTICLE VI

Initial Board of Directors

The number of directors of the corporation and the classifications as to the term of office shall be provided for in the bylaws of the corporation. The initial number of directors shall be one. The name and address of the initial member is Joseph Daniluk 4155 E. Jewell Ave. Suite 610 Denver, Colorado 80222.

ARTICLE VII

Bylaws of the Corporation

The Bylaws may contain any provisions for the regulation and management of the affairs of the corporation not inconsistent with applicable law or these Articles of Incorporation. The initial Bylaws of the corporation shall be adopted by the board of directors. Subject to bylaws, if any, that may be adopted by the stockholders entitled to vote thereon, the power to adopt, alter, amend, or repeal the bylaws or to adopt new bylaws is vested in the board of directors of the corporation.

ARTICLE VIII

Right of Directors to Contract with the Corporation

No contract or other transaction between the corporation and one or more of its directors or any other corporation, firm association, or entity in which one or more of its directors are directors or officers or are financially interested shall be either void or voidable solely because of such relationship or interest or solely because such directors are present at the meeting of the board of directors or a committee thereof which authorizes, approves, or ratifies such contract or transaction.

ARTICLE IX

Corporate Opportunity

The officers, directors and other members of management of this corporation shall be subject to

the doctrine of "corporate opportunities" only insofar as it applies to business opportunities in which this corporation has expressed an interest as determined from time to time by this corporation's board of directors as evidenced by resolutions appearing in the corporation's minutes. Once such areas of interest are delineated, all such business opportunities within such areas of interest which come to the attention of the officers, directors, and other members of management of this corporation shall be disclosed promptly to this corporation and made available to it. The board of directors may reject any business opportunity presented to it and thereafter any officer, director or member of management may avail himself of such opportunity. Until such time as this corporation, through its board of directors, has designated an area of interest, the officers, directors and other members of management of this corporation shall be free to engage in such areas of interest on their own and this doctrine shall not limit the rights of any officer, director or other member of management of this corporation to continue a business existing prior to the time that such area of interest is designated by the corporation. This provision shall not be construed to release any employee of this corporation (other than an officer, director or member of management) from any duties which he may have to this corporation.

ARTICLE X

Eliminating Personal Liability

Officers and directors shall have no personal liability to the corporation or its shareholders for damages for breach of fiduciary duty as an officer or director. This provision does not eliminate or limit the liability of an officer or director for acts or omissions involving intentional misconduct, fraud, a knowing violation of law, or the payment of dividends in violation of any applicable statute.

ARTICLE XI

Indemnification of Officers, Directors and Others

The corporation may indemnify any person, his heirs, executors and administrators entitled to indemnification as provided for in the Colorado Statutes, as revised, who was or is a party or is threatened to be made a party to any threatened, pending, or completed action, suit, or proceeding, whether civil, criminal, administrative, or investigative to the maximum extent permitted by the law including but not limited to making other financial arrangements for indemnification regardless of whether or not the corporation would have the power to indemnify a person against such liability. The termination of any action, suit, or proceeding by judgment, order, settlement, conviction or upon a plea of nolo contendere or its equivalent shall not of itself create a presumption that the person did not act either in good faith, in a manner which he reasonably believed to be in the best interests of the corporation or that he did not have reasonable cause to believe that his conduct was lawful. Such determinations shall be made by the board of directors by a majority of a quorum consisting of directors who were not parties to such action, suit, or proceedings, or if such a quorum is not obtainable or even if obtainable a quorum of disinterested directors so directs, by independent legal counsel in a written opinion, or by the shareholders entitled to vote thereon. The indemnification or advancement of costs and

expenses provided for by the corporation shall not be deemed exclusive of any other rights to which those indemnified may be entitled under the articles of incorporation, any bylaw, agreement, vote of shareholders or disinterested directors, or otherwise.

ARTICLE XII

Amendment of Articles of Incorporation

Unless otherwise provided for in these articles, the articles of incorporation of the corporation may be amended from time to time by a majority vote of all shareholders entitled to vote thereon, by written ballot in person or by proxy held at any general or special meeting of shareholders upon lawful notice.

ARTICLE XIII

Incorporator

The name and address of the incorporator is Joseph Daniluk, 4155 E. Jewell Ave. Suite 610 Denver, CO 80222.

IN WITNESS WHEREOF, the undersigned, Joseph Daniluk, for the purpose of forming a corporation under the laws of the State of Colorado, does make, file and record these articles of incorporation and certifies that the facts herein stated are true; and I have hereunto set my hand this 09 day of October, 2015.

INCORPORATOR:

Joseph Daniluk

**CERTIFICATE OF ACCEPTANCE
OF APPOINTMENT BY REGISTERED AGENT**

Joseph Daniluk hereby certifies his acceptance of appointment as Registered Agent for the above named corporation on this the 09 day of October, 2015.

Joseph Daniluk

LOCKING LINE BARRIERS CORPORATION dba LLB CORPORATION

MINUTES OF SPECIAL MEETING OF THE BOARD OF DIRECTORS

NOVEMBER 26, 2015

A special meeting of the board of Directors of Locking Line Barriers dba LLB Corporation was called on November 26, 2015. All Directors were present and waived notice of the meeting.

It was reported and moved that the Board of Directors approve and authorize the issuance of 11,000,000 shares of the 20,000,000 common shares authorized of the Capital Stock of the Corporation in accordance with the Corporate Resolution dated November 21, 2015 as follow:

8,500,000 Class A; unrestricted voting common shares,

And further;

2,500,000 Class B; restricted non-voting common shares,

A Total of 11,000,000 Capital Common Shares of the Corporation.

For the purposes of capitalizing the company and which the CEO shall be authorized to issue as necessary from time to time.

The motion was approved and resolved and thereby effective this date.

There being no further business the meeting was adjourned.

/s/ Joseph P. Daniluk

Joseph P. Daniluk,

Director and Secretary
