

How does investing with Slice Capital work?

When you complete your investment on Slice Capital, your money will be transferred to an escrow account where an independent escrow agent will watch over your investment until it is accepted by the Company. Once the Company accepts your investment, and certain regulatory procedures are completed, your money will be transferred from the escrow account to the Company in exchange for your convertible note. At that point, you will be an investor in the Company.

Slice Capital Regulation CF rules regarding the investment process:

Investors may cancel an investment commitment until 48 hours prior to the deadline identified in the issuer's Offering materials; The intermediary will notify investors when the target offering amount has been met;

If an issuer reaches a target offering amount and the closing amount prior to the deadline identified in its offering materials, it may close the Offering early if it provides notice about the new Offering deadline at least five business days prior to such new Offering deadline;

If there is a material change and an investor does not reconfirm his or her investment commitment, the investor's investment commitment will be cancelled, and the committed funds will be returned;

If an issuer does not reach both the target offering amount and the closing offering amount prior to the deadline identified in its offering materials, no Securities will be sold in the Offering, investment commitments will be cancelled and committed funds will be returned; and

If an investor does not cancel an investment commitment before the 48-hour period prior to the Offering deadline, the funds will be released to the issuer upon closing of the Offering and the investor will receive Securities in exchange for his or her investment.

What will I need to complete my investment?

To make an investment you will need the following information readily available:

1. Personal information such as your current address and phone number
2. Employment and employer information
3. Net worth and income information
4. Social Security Number or government-issued identification
5. ABA bank routing number and checking account number

What is the difference between preferred equity and a convertible note?

Preferred equity is usually issued to outside investors and carries rights and conditions that are different from that of common stock. For example, preferred equity may include rights that prevent or minimize the effects of dilution or grants special privileges in situations when the Company is sold. ²³ A convertible note is a unique form of debt that converts into equity, usually in conjunction with a future financing round. The investor
