THE HEMC FILTER

■ In-bound, grease laden & collected grease

fig. 2 The complete HEMC filter system

■ scrubbed air entering the mists exhaust apparatus

The HEMC filter collects 95% of all airborne mist particulates of .3 microns and larger in single stage mode. (As a reference to size, a human hair is 40-50 microns.) The collected cooking grease is directed into a reservoir and added to the used oil destined for use in biofuel and other by products.

The HEMC FILTER is self-draining (gravity) and can be easily separated into two sections for inspection and deeper cleaning if and when required.

Andreas has over 30 years of experience in corporate management and business development and has extensive knowledge of capital markets. His experience includes early stage growth and M&A funding, planning, implementation, operations, and business development. Andreas has a large international business network in the clean-tech sector. Andreas previously held CEO, COO positions, and also acted as consultant to high level management. Andreas has helped elevate two other small regional businesses to national and cross border status.

Andreas also has over 10 years' experience in the present target sector acting as a consultant to a company that operated in this space for over a decade primarily in Canada. During that time Andreas developed the Retrofit business model with the exception that the clients directly benefited 100% from the large-scale savings due from the Preventive Maintenance instead. Among the some other notable accomplishments this particular one is the head of the of the Spar Aerospace Team that developed the CanadArm and oversaw its flawless maiden voyage into space, asked Andreas if he could give his tel no to the people at Cape Canaveral in case they had trouble launching the Space Shuttle on time. This was due to Andreas' timely and flawless delivery of a very complicated task. (more details avail. on request)

RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

(1) Our business prospects are difficult to evaluate because we are a development stage company and dependent upon profitable future investments.

Ecoventz Inc. was organized on May 3, 2016. Ecoventz should be considered by investors to be an early stage company. As an early stage company, Ecoventz is subject to all of the risks that are attendant to any recently formed business and should be considered as a startup business with significant risk. Because of Ecoventz short operating history, it is more difficult to accurately assess growth rate and earnings potential. It is possible that Ecoventz will face many difficulties typical for development stage companies. These may include, among others: relatively limited financial resources; developing new investment opportunities; delays in reaching its goals; unanticipated start-up costs; potential competition from larger, more established companies; and difficulty recruiting and retaining qualified employees for management and other positions. The Company may face these and other difficulties in the future, some of which may be beyond its control. If Ecoventz is unable to successfully address these difficulties as they arise, the Company's future growth and earnings will be negatively affected. The Company cannot give assurance to prospective investors that the Ecoventz business model and plans will be successful or that Ecoventz will successfully address any problems that may arise. There is substantial doubt about the ability of development stage companies such as Ecoventz to continue as a going concern. The factors considered in this assessment include our lack of operating history and lack of current revenues, and our need to attract significant working capital and investment funding in order to meet our business objectives. These substantial risks could impair our reputation, damage the brand, and negatively impact operating revenues.

(2) The Company has limited working capital and requires significant additional financing, which may or may not be available at all or on a timely basis.

The Company has limited working capital and there may not be sufficient financial resources available to carry out planned Ecoventz operations. We depend upon timely availability of adequate working and investment capital in order to meet the objectives of our business strategy and business plans. There can be no assurance that positive cash flow will ever occur. There can be no assurance that the Company will sell the maximum number of Units offered in this private placement, or that our capital needs and operations will not require additional capital greater than or sooner than currently anticipated. If Ecoventz is unable to obtain additional capital if needed, in the amount and at the time needed, this may restrict planned or future investments, development or rate of growth; limit Ecoventz' ability to take advantage of future opportunities; negatively affect its ability to implement its business and investment strategies and meet its goals; and possibly limit its ability to continue operations. The Company's working capital requirements may significantly vary from those currently anticipated.

(3) Ecoventz may incur significant losses and there can be no assurance that Ecoventz will ever become a profitable business.

It is anticipated that Ecoventz will initially sustain operating losses. Its ability to become profitable depends on success in marketing our products and making profits and generating cash flow from operations. There can be no assurance that this will occur. Unanticipated problems and expenses often encountered in the investment of capital and resources may impact whether the Company is successful. Furthermore, Ecoventz may encounter substantial delays and unexpected expenses related to development, technological changes, marketing, regulatory requirements and changes to such requirements or other unforeseen difficulties. There can be no assurance that Ecoventz will ever become profitable. If Ecoventz sustains losses over an extended period of time, it may be unable to continue in business.

(4) We are subject to government regulations.

Aspects of our business and our products will be regulated at the local, state, and federal levels. Our products may be subject to state, local and Federal environmental laws and regulations, including those relating to the handling and storage of hazardous materials. We and our products will also be subject to significant governmental regulation relating to labor conditions, safety in the workplace, healthcare and other human resource issues. The nature and scope of future legislation, regulations and programs cannot be predicted. While we anticipate that we and our products will be in compliance with all applicable governmental regulations, there still may be risks that such laws and regulations may change with respect to present or future operations. Such additional costs would increase the cost of investments and operations and decrease the demand for products and services. We and our products will be ultimately responsible for compliance with such regulations and for obtaining and maintaining all required permits and licenses. Such compliance may be time consuming and costly, and such expenses may materially affect our future ability to break even or generate profits.

(5) Our future revenue and operating results are unpredictable and may fluctuate significantly.

It is difficult to accurately forecast Ecoventz revenues and operating results and they could fluctuate in the future due to a number of factors. These factors may include: Ecoventz' ability to develop and make profitable products; generate cash flow from consulting services; the amount and timing of operating costs; competition from other market participants that may reduce market share and create pricing pressure; and adverse changes in general economic, industry and regulatory conditions and requirements. Ecoventz' operating results may fluctuate from year to year due to the factors listed above and others not listed. At times, these fluctuations may be significant.

(6) The nature of the Company's business strategy is high-risk.

Investment in the Company requires a long-term commitment with no certainty of return. The Company is in an industry that could experience financial difficulties that may never be overcome. Since the Company's business involves a high degree of risk, poor performance could severely and adversely affect total returns.

(7) The Company may encounter great difficulty or even a complete inability to develop and make suitable products.

An investor must rely upon the ability of management to make future decisions consistent with the Company's investment objectives and policies. Although the principals have had some success in the past, they may be unable to invest the Company's committed capital in a profitable manner or meet its business objectives. Shareholders will not have the opportunity to evaluate personally the relevant economic, financial, and other information that will be utilized by management in the deployment of capital.

(8) Ecoventz may not be able to create and maintain a competitive advantage.

The Company's success could depend on the ability of management to respond to changing situations, standards and technologies on a timely and cost-effective basis. In addition, any failure by such management to anticipate or respond adequately to changes in technology and customer preferences and demand could have a material adverse effect on Ecoventz' financial condition, operating results and cash flow.

(9) Our aggressive growth strategy may not be achievable.

For the foreseeable future, we intend to pursue an aggressive growth strategy for the expansion of our business, and our future operating results will depend largely upon our ability to adequately capitalize our company and develop successful products, find suitable investments and acquisitions, develop our business, build key relationships and successfully develop and manage our business. Our ability to grow will depend upon many factors, including our ability to identify and invest in businesses that have products and services that are in demand, to identify and enter new markets, and to obtain adequate capital resources on acceptable terms. Any limitations on our ability to accomplish any of these and other goals will have a material adverse effect on our business, results of operations, and financial objectives. There is no assurance that our operations will be successful or achieve anticipated or any operating results.

(10) Ecoventz may be unable to attract and retain qualified employees or key personnel.

Ecoventz' future success depends on the continued services and performances of key management, consultants and advisors, and it currently does not carry key person life insurance. However, Ecoventz plans to secure key person life insurance when such coverage is deemed financially prudent. Also, Ecoventz' future success may further depend on Ecoventz' ability to attract and retain additional key personnel and third-party contractual relationships. If Ecoventz is unable to attract and retain key personnel and third-party contractors, this could adversely affect our business, financial condition, and operating results.

(11) Ecoventz does not plan to pay dividends to its shareholders in the near future and there is no guarantee it will ever receive any profit from its operations so as to be able to declare and pay dividends to its shareholders.

The principal investment objective of the Company is to make business profits that present opportunities for significant appreciation to the Company. It is anticipated that certain product research and development will be leveraged and will not provide the Company with any significant cash distributions until new products are sold. Accordingly, the Company may not be able to pay dividends. There can be no assurance with respect to the amount and timing of dividends to the Company's shareholders, or that they will ever be made. The Company initially intends to retain cash from its operations to fund the development and growth of its business.

(12) We will have broad discretion on how the net proceeds of this private placement are utilized.

The Company has broad discretion on how to allocate the proceeds received as a result of this private placement and may use the proceeds in ways that differ from the proposed uses discussed in this Offering Statement. If the Company fails to spend the proceeds effectively, our business and financial condition could be harmed and there may be the need to seek additional financing sooner than expected.

(13) We anticipate substantial competition.

We are aware of companies that are well established within our industry.

(14) We will present only unaudited financial statements, which may not be reliable.

In addition to the unaudited financial statement presented with this Offering Statement, we expect to prepare financial statements on a periodic basis. The financial data presented with this Offering Statement has not been audited, certified, or reviewed.

(15) Our pro forma financial statements rely on assumptions that may not prove accurate.

Certain pro forma financial information may be provided to prospective investors for illustrative and informational purposes only. In preparing the pro forma financial statements, we have made certain assumptions concerning our business and the market, which may not be accurate.

(16) Investors may suffer potential loss on dissolution and termination.

In the event of a dissolution or termination of the Company, the proceeds realized from the liquidation of assets, if any, will be distributed in the priority established by applicable law, but only after the satisfaction of claims of creditors. Accordingly, the

ability of an investor to recover all or any portion of its investment under such circumstances will depend on the amount of funds realized and claims to be satisfied therefrom.

(17) Actual results may vary from any projection we present.

We may provide certain projected results of operations to prospective investors in connection with this offering. Projections are hypothetical and based upon present factors thought by management to influence our operations. Projections do not, and cannot, take into account such factors as market fluctuations, unforeseeable events such as natural disasters, the terms and conditions of any possible financing, and other possible occurrences that are beyond our ability to control or even to predict. While management believes that the projections reflect the possible outcome of our operation and performance, results depicted in the projections cannot be guaranteed.

(18) Our operating costs are unpredictable.

In addition to general economic conditions and market fluctuations, significant operating cost increases could adversely affect us due to numerous factors, many of which are beyond our control. Increases in operating costs for Ecoventz or any of our products would likely negatively impact our operating income and could result in substantially decreased earnings or a loss from operations.

(19) We may not be able to protect our intellectual property.

We intend to explore options for protection of certain intellectual property, primarily in the form of trademarks and trade secrets but have not made any filings to date. We anticipate developing certain trade secrets and may handle trade secrets that are the property of others. We regard the legal protection of our intellectual property (and the intellectual property of others) as important to future success and will rely on a combination of trade secret laws, copyright, and trademark laws, confidentiality procedures and contractual restrictions to establish and protect our proprietary rights in products and services. There can be no assurance that the steps we take to protect our proprietary rights will prove sufficient to prevent misappropriation of such proprietary rights, even if we have a Patent Pending in US and Canada.

(20) Incidents of hacking, identity theft or cyberterrorism may adversely impact our operations.

Our business operations are and will continue to be dependent upon digital technologies, including information systems, infrastructure and cloud applications. The maintenance of our financial and other records is also dependent upon such technologies. The U.S. government has issued public warnings that indicate that such business information technology might be specific products of cyber security threats, including hacking, identity theft and acts of cyberterrorism. Our critical systems or the systems of our products may be vulnerable to damage or interruption from earthquakes, storms, terrorist attacks, floods, fires, power loss, telecommunications failures, computer viruses, computer denial of service attacks, or other attempts to harm the systems. Many of these systems will not be fully redundant, and disaster recovery planning cannot account for all eventualities. Deliberate attacks on, or unintentional events affecting, our systems or infrastructure, the systems or infrastructure of third parties or the cloud could lead to corruption or loss of our proprietary data and potentially sensitive data, delays in our operations, difficulty in completing and settling transactions, challenges in maintaining our books and records, environmental damage, communication interruptions, other operational disruptions and third party liability. Further, as cyber incidents continue to evolve, we may be required to expend additional resources to continue to modify or enhance our protective measures or to investigate and remediate any vulnerability to cyber incidents or natural disasters.

(21) We may not have adequate insurance.

Adequate insurance to cover product liability claims and other risks related to our business may not be available, or available only at an unacceptable cost. There can be no assurance that we will be able to obtain adequate insurance coverage or that it can be obtained at reasonable cost. As protection against such risks, we plan to secure and maintain insurance coverage against some, but not all, potential losses. Even if our insurance is adequate and customary for our industry, losses could occur for uninsurable or uninsured risks or in amounts in excess of existing insurance coverage.

(22) Management may have significant conflicts of interest.

Management and certain affiliates will devote as much of their time to the business of the Company as they believe, in their sole judgment, is reasonably required. Accordingly, there may be conflicts of interest between investments made by the Company and other investments or business ventures in which management or affiliates are participants. Any agreement between the Company and the management and affiliates shall contain terms at least as favorable to the Company as the fair market terms offered by other similar companies to third-party providers of comparable services.

(23) There is significant risk associated with the Company's indemnification of affiliated parties.

Our Directors and executive officers will be relieved of liability to the Company or our Shareholders for monetary damages for conduct as Directors and executive officers to the maximum extent permitted by Wyoming law. Further, our certificate of incorporation and bylaws permit us to indemnify, to the fullest extent provided or allowed by law, our Directors and executive officers against damages that we or our shareholders incur in connection with our business. We may also enter into indemnity agreements with our Directors and executive officers. The exculpation provisions contained therein may have the effect of preventing shareholders from recovering damages against our Directors and executive officers caused by poor judgment or other circumstances. The indemnification provisions may require us to use our assets to defend our Directors and executive officers against claims, including claims arising out of negligence, poor judgment, or other circumstances. Our Directors and executive officers may not be liable to the Company or shareholders for any act or omission performed or omitted by them in good faith on our behalf and in a manner reasonably believed by them to be within the scope of their authority and in our best interests. The Company will be required to indemnify the officers of the Company and certain persons affiliated therewith for losses, costs, liabilities and expenses incurred by such parties in connection with the business of the Company and investment decisions made on its behalf, except for actions taken in bad faith or which constitute gross negligence or willful misconduct. Such liabilities may be material and may have an adverse impact on the returns to the shareholders unless insurance proceeds are available. The indemnification obligations of the Company will be payable from the assets of the Company.

(24) Certain future relationships have not been established.

The Company has established and will establish certain relationships with others. We will need to maintain such relationships and, in some cases, establish new ones or replace existing ones. There will be several agreements and documents that remain to be negotiated, executed, and implemented with respect to certain aspects of our planned operations. In some cases, the parties with whom we would need to establish a relationship may not yet be identified. If we are unable to enter into these agreements or relationships on satisfactory terms, our operations could be delayed or curtailed, expenses could be increased, and profitability and the likelihood of returns to Shareholders could be adversely affected.

(25) Key Employees do not have Employment Agreements.

As of the date of this Offering Statement, none of the executive management are under employment contracts. It is anticipated that upon completion of this offering key personnel will enter into employment contracts with the Company. Members of the executive management team will take draws, from time to time, and executives will become salaried once the Company has raised sufficient capital.

(26) The purchase price of the Units has been arbitrarily determined and may not reflect their actual value.

The purchase price of the Units has been arbitrarily determined and is not the result of arm's length negotiations. It has been determined primarily by our perceived working and investment capital needs and bears no relationship to any established criteria of value such as book value or earnings per share, or any combination thereof. Further, the price is not based on past earnings of the Company, nor does the price necessarily reflect the current market value of the Company. No valuation or appraisal of the Company's potential business has been prepared.

(27) This private placement of Units is being made in reliance on an exemption from registration requirements and there is no guarantee that we will comply with the regulatory requirements for such exemption.

<i>Target Offering</i>	200	\$10,000	\$9,000
<i>Maximum Amount</i>	214,000	\$1,070,000	\$963,000

This offering has not been registered under applicable Federal or state securities law in reliance on certain exemptions from registration requirements that we believe are available to us for this offering. The Units are being offered in reliance on an exemption from the registration provisions of the Securities Act and state securities laws applicable to offers and sales to investors meeting the investor suitability requirements set forth in this Offering Statement. However, there is no assurance that this offering will qualify for any such exemptions due to, among other things, the adequacy of disclosure and the manner of distribution, or the existence of similar offerings we have conducted in the past or may conduct in the future. If the availability of these exemptions is challenged, our capital could be adversely affected. If the Company should fail to comply with the requirements of any such exemption, investors may have the right to rescind their purchases of Units. This might also occur under the applicable state securities or "Blue Sky" laws and regulations in states where the Units will be offered without registration or qualification pursuant to a private offering or other exemption. If a sufficient number of investors were successful in seeking rescission, the Company would face severe financial demands that would adversely affect the Company as a whole and also the investment in the Units by the remaining investors.

(28) There is no public market for the Units and you will have to hold your Units indefinitely, subject only to a private sale to a qualified counterparty that is exempt from registration, or a registration of your Units, or a sale of the business.

Currently, there is no public or other trading market for the Units, and there can be no assurance that Ecoventz will be able to facilitate a private sale of your Units or that any other market will develop. Thus, there can be no assurance that you will be able to liquidate your investment in case of an emergency or if you otherwise desire to do so. Investment in the Units is of a long-term nature. Accordingly, purchasers of Units will bear the economic risk of investment for an indefinite period of time.

(29) The Units are unlikely to be able to be pledged as collateral.

The Units will not usually be acceptable as collateral for loans. The Shareholders may not receive cash or other liquid consideration sufficient to pay taxes resulting from such a disposition. Furthermore, absent a public market, Units generally cannot be sold for an amount based on their economic value as determined by the fair market value of the underlying property. The Units have not been registered under federal or state securities laws, and we do not plan on, and are under no obligation to provide for, a registration of the Units in the future. In addition, any transfer of the Units or an interest therein must satisfy the requirements set forth in various Company agreements with shareholders that restrict the ability to transfer Units.

(30) You will not have the benefit of review of this Offering Statement by the SEC or any other agency.

Since this offering is an exempt offering of securities and, as such, is not registered under federal or state securities laws, you will not have the benefit of review of this Offering Statement by the SEC or any state securities commission. The terms and conditions of this Offering may not comply with the guidelines and regulations established for offerings that are registered and qualified with those agencies.

(31) Management has broad discretion as to the use of proceeds.

The net proceeds from this Securities Offering will be used for the purposes described under "USE OF PROCEEDS." The Company reserves the right to use the funds obtained from this Offering for other similar purposes not presently contemplated, which it deems to be in the best interests of the Company in order to address changed circumstances or opportunities. This poses a risk to an investor should they be relying on current use of proceeds forecasts for the investment as business conditions may require a change of the use of these funds.

(32) Public health epidemics or outbreaks could adversely impact our business.

In December 2019, a novel strain of coronavirus (COVID-19) emerged in Wuhan, Hubei Province, China. While initially the outbreak was largely concentrated in China and caused significant disruptions to its economy, it has now spread to several other countries and infections have been reported globally. The extent to which the coronavirus impacts our operations will depend on future developments, which are highly uncertain and cannot be predicted with confidence, including the duration of the outbreak, new information which may emerge concerning the severity of the coronavirus and the actions to contain the coronavirus or treat

its impact, among others. In particular, the continued spread of the coronavirus globally could adversely impact our operations, and could have an adverse impact on our business and our financial results.

(33) If we make mistakes or have unforeseen things happen to us, our suppliers, partners, vendors, etc. or the world, we can make little or no profit and can be driven out of business.

THE BOTTOM LINE:

Investment in the securities of smaller companies can involve greater risk than is generally associated with investment in larger, more established companies. All investments can result in significant or total loss of your loan and/or investment. If we do well, the stock should do well also, yet life offers no guarantees and neither can we. If we make mistakes or have unforeseen things happen to us, our suppliers or the world, we can make little or no profit and can be driven out of business. We cannot guarantee success, return on investment, or repayment of loans.

Please only invest what you can afford to lose.

16. How may the terms of the securities being offered be modified?

Restrictions on Transfer of the Securities Being Offered

The securities being offered may not be transferred by any purchaser of such securities during the one-year period beginning when the securities were issued, unless such securities are transferred:

- (1) to the issuer;
- (2) to an accredited investor;
- (3) as part of an offering registered with the U.S. Securities and Exchange Commission; or
- (4) to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term “accredited investor” means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term “member of the family of the purchaser or the equivalent” includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term “spousal equivalent” means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Maximum Amount	214,000	\$1,070,000	\$963,000

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

The securities being offered cannot be changed. However, the existing shareholders identified on #Q6 will decide when or if the SAFE will get converted into equity.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The price of the security is independent from the valuation of the company. The price per security was arbitrarily set at \$50 per unit. The company has calculated a pre-money valuation of \$25.7 million for the company.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

The right to demand current distributions from an operating business is limited. A majority owner, if she is committed to avoiding any distributions to a minority owner, can usually avoid making any distributions of profits. By establishing generous reserves for future expenses, paying a salary to herself or her relatives at the high range of what is reasonable, pre-paying expenses, investing in new business or new equipment, leasing expensive cars, etc., a majority owner can spend enough that there are rarely any profits to be distributed. So long as the expenses are not grossly unreasonable, the investor, probably, won't be able to force the company to allow you to share in any of the current income of the company.

No right to participate in any management decisions of the company. The majority owner may make a decision that the investor think is bad and puts your interest in the company at risk. The investor may see the majority owner running the company into the ground. The investor can try to convince him that it is the wrong decision, but he doesn't have to take your calls.

The investor has limited rights, if any, to have your interest bought out. You may want to cash out your interest and do other things with the money. State law may give you the right to force the company to buy you out, but these rights are limited.

While the investor would be entitled to a share of any profits on sale of the entire business, a sale can be structured in a way to avoid any payout to minority owners, such as a sale of assets over time with the proceeds reinvested in another business.

23. What are the risks to purchasers associated with corporate actions including:

- **Additional issuances of securities:**

Following the investor's investment in the Company, the Company may sell interest to additional investors, which will dilute the percentage interest of the investor in the Company. The Investor might have the opportunity to increase its investment in the Company in such transaction, but such opportunity cannot be assured. The amount of additional capital needed by the Company, if any, will depend upon the maturity and the objectives of the Company.

- **Issuer repurchases of securities:**

The company may have the authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the investor to sell its securities to the Company concurrently.

- **A sale of the issuer or of assets of the issuer:**

As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders.

- **Transactions with related parties:**

Independent Accountant's Review Report

The Board of Directors
Ecoventz Inc.

I have reviewed the accompanying financial statements of Ecoventz Inc., which comprise the balance sheets as of December 31, 2017 and 2016, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My responsibility is to conduct the review engagements in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the American Institute of Certified Public Accountants. Those standards require me to perform procedures to obtain limited assurance as a basis for reporting whether I am aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I believe that the results of my procedures provide a reasonable basis for our report.

Accountant's Conclusion

Based on my reviews, I am not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

The “Discount Rate” is N/A

See Section 2 for certain additional defined terms.

1. Events

(a) **Equity Financing.** If there is an Equity Financing before the expiration or termination of this instrument, the Company will automatically issue to the Investor a number of shares of SAFE Preferred Stock equal to the Purchase Amount divided by the Conversion Price.

In connection with the issuance of SAFE Preferred Stock by the Company to the Investor pursuant to this Section 1(a):

(i) The Investor will execute and deliver to the Company all transaction documents related to the Equity Financing; *provided*, that such documents are the same documents to be entered into with the purchasers of Standard Preferred Stock, with appropriate variations for the SAFE Preferred Stock if applicable, and *provided further*, that such documents have customary exceptions to any drag-along applicable to the Investor, including, without limitation, limited representations and warranties and limited liability and indemnification obligations on the part of the Investor; and

(ii) The Investor and the Company will execute a Pro Rata Rights Agreement, unless the Investor is already included in such rights in the transaction documents related to the Equity Financing.

(b) **Liquidity Event.** If there is a Liquidity Event before the expiration or termination of this instrument, the Investor will, at its option, either (i) receive a cash payment equal to the Purchase Amount (subject to the following paragraph) or (ii) automatically receive from the Company a number of shares of Common Stock equal to the Purchase Amount divided by the Liquidity Price, if the Investor fails to select the cash option.

In connection with Section (b)(i), the Purchase Amount will be due and payable by the Company to the Investor immediately prior to, or concurrent with, the consummation of the Liquidity Event. If there are not enough funds to pay the Investor and holders of other SAFEs (collectively, the “Cash-Out Investors”) in full, then all of the Company’s available funds will be

distributed with equal priority and *pro rata* among the Cash-Out Investors in proportion to their Purchase Amounts, and the Cash-Out Investors will automatically receive the number of shares of Common Stock equal to the remaining unpaid Purchase Amount divided by the Liquidity Price. In connection with a Change of Control intended to qualify as a tax-free reorganization, the Company may reduce, *pro rata*, the Purchase Amounts payable to the Cash-Out Investors by the amount determined by its board of directors in good faith to be advisable for such Change of Control to qualify as a tax-free reorganization for U.S. federal income tax purposes, and in such case, the Cash-Out Investors will automatically receive the number of shares of Common Stock equal to the remaining unpaid Purchase Amount divided by the Liquidity Price.

(c) **Dissolution Event.** If there is a Dissolution Event before this instrument expires or terminates, the Company will pay an amount equal to the Purchase Amount, due and payable to the Investor immediately prior to, or concurrent with, the consummation of the Dissolution Event. The Purchase Amount will be paid prior and in preference to any Distribution of any of the assets of the Company to holders of outstanding Capital Stock by reason of their ownership thereof. If immediately prior to the consummation of the Dissolution Event, the assets of the Company legally available for distribution to the Investor and all holders of all other SAFEs (the “**Dissolving Investors**”), as determined in good faith by the Company’s board of directors, are insufficient to permit the payment to the Dissolving Investors of their respective Purchase Amounts, then the entire assets of the Company legally available for distribution will be distributed with equal priority and *pro rata* among the Dissolving Investors in proportion to the Purchase Amounts they would otherwise be entitled to receive pursuant to this Section 1(c).

(d) **Termination.** This instrument will expire and terminate (without relieving the Company of any obligations arising from a prior breach of or non-compliance with this instrument) upon either (i) the issuance of stock to the Investor pursuant to Section 1(a) or Section 1(b)(ii); or (ii) the payment, or setting aside for payment, of amounts due the Investor pursuant to Section 1(b)(i) or Section 1(c).
