# David Colleen

| CEO at SapienX | We're building the next generation of AI voice assistants using conversational characters to reinforce brands |  
Santa Cruz, California, United States

## Summary

David Colleen (CEO & Co-founder) is a serial AI and VR entrepreneur, architect and software designer. In 1995 he became one of the founders of VR on the Internet leading to his forming Planet 9 Studios. In 2007, David and his team began building what is now the SapienX conversational AI platform. SapienX is a third generation conversational AI platform made to be embedded in consumer products.
