The company's business

Description of Business

The primary objective of the Monetran project has been to develop a stable token which can be used in everyday commerce, including for micropayments of \$5 or less. The token has been designed not only to maintain its value, but with the goal of steadily increasing in value over time. It will be backed by a portfolio of tangible assets and be redeemable for a portion of the account that reflects the number of tokens in circulation. In the future, it will entitle discounts for use on services provided by the Monetran system. Future plans call for the establishment of a funds transfer network with a primary emphasis on remittances, which are at this point in time a [market worth nearly \\$600 billion and growing](#).

Sales, Supply Chain, & Customer Base

Internet commerce is a [multi-billion dollar](#) enterprise. Our customer base will be anyone who buys goods and services and makes payment over the Internet. Our business model will yield transaction fees each time that Moneda, our native currency, is used in commerce.

Due to the nature of blockchain and cryptocurrencies, the entire "supply chain" network will be virtual. That is, Monetran will have no physical product requiring reliance on 3rd-party actors and can be supported entirely through internet-based platforms.

Competition

One of our competitors in the space is DGX. DGX offers tokens which are backed by 1 gram of gold each. The tokens are redeemable from the company for gold. The central difference between DGX and Monetran is that our tokens will be backed by financial instruments such as government bonds and U.S. treasuries. Gold, because it is traded on the open market, is susceptible to considerable swings in value. Therefore, DGX tokens will suffer the same swings in value, we believe disqualifying it as an everyday currency. Moneda will be stabilized by the assets which back it which we believe will suffer less fluctuation than other asset-backed tokens.

TrueUSD is another competitor in the asset-backed token arena. We believe TrueUSD's tokens are backed on a 1-1 basis with the US dollar, and are redeemable for one USD per token. This will provide a degree of stability, however any investor who holds one of their tokens will be subject to a loss of principal due to inflation. The USD, as a result of monetary inflation, [has lost 95% of its purchasing power](#) in a little more than a century. Moneda is designed not only to be stable, but to actually gain value over time, negating the effects of inflation. Because Moneda will be backed by U.S. denominated interest bearing instruments, inflation is not expected to erode its value at all. This will enable Moneda to serve not only as a stable currency, but also to

deliver as a store of value.

Liabilities and Litigation

Monetran is currently under the obligation of one (1) liability: an accounts payable for \$1,500 for services rendered in marketing/advertising/website development. This account is due in full only after the Company has raised sufficient funds through its Regulation Crowdfunding offering, and may be paid after Company's initial rolling close.

There are no litigation or legal actions against Monetran.

RISK FACTORS

These are the principal risks that related to the company and its business:

- **Our patents and other intellectual property might be unenforceable or ineffective.** One of the Company's most valuable assets is its intellectual property. The Company intends to file patent applications in the future and build its intellectual property portfolio as we discover new technologies related to electronic payment systems. We currently hold one provisional patent, as well as two Internet domain names and various trade secrets. The Company intends to continue to file additional patent applications and build its intellectual property portfolio as we discover new technologies related to blockchain technology. However, there is no guarantee any Company related patents will be issued from any existing or future applications. The scope of any patent protections may not be sufficient to provide competitive advantages, and any patents the Company obtains may not be held valid if subsequently challenged. Engaging in patent litigation (either prosecution or defense) may be costly and time consuming even if the outcome is favorable to the Company. An adverse outcome could subject the Company to significant liabilities to third parties, require disputed rights to be licensed from third parties, or require the Company to cease offering its token.
- **There are several competitors who may be better positioned than we are to take the majority of the market.** Blockchain is a fast-moving technology with many new participants entering the space on a continual basis. We will compete with larger, established cryptocurrency companies who currently have products on the markets and/or product development programs. These competitors may have much stronger financial conditions than us as well as established names in the industry. They may succeed in developing and marketing competing equivalent products earlier than us, or superior products than those developed by us. There can be no assurance that competitors will not render our technology or products obsolete or that the cryptocurrency developed by us will be preferred to any existing or subsequently developed technologies. It should further be assumed that that competition in the cryptocurrency and blockchain space will intensify.
- **This is a brand new company.** It has no history, no customers, and no revenues. If you are investing in this company, it's because you think the cryptocurrency model is a good idea, that we can price it right and attract enough customers so that the company will succeed. Further, we have never turned a profit and there is no assurance that we will ever be profitable. Financial systems and services is a very competitive field and the possibility exists that as a new company, Monetran, LLC may be at a serious disadvantage compared to others who have been operating for a long period of time with success.
- **Even if we raise the maximum sought in this offering, we may need to raise additional funds in order to continue operations.** We estimate that we will require at least \$1 million to commence commercial production of the Monetran network. If we are unable to meet our funding goals with this offering, we may

need to raise additional money from bank loans, future sales of securities or some combination thereof. Failure to raise the minimum required amount could either adversely affect the time frame for the company to complete its development of the network or cause the project to fail completely.

- **You can't easily resell these securities.** Your ability to trade or resell these Units is limited to comply with federal regulations. These restrictions include at least a one-year lock-up period during which transferability is not allowed. These securities are not public and may not be traded on an open market. You must be prepared to bear the risk of your investment for a significant period. These securities are not public and may not be traded on an open market.
- **Our financial review includes a going concern note.** Our ability to continue as a going concern for the next twelve months is dependent upon our ability to generate sufficient cash flows from operations to meet our obligations, and/or to obtain additional capital financing from our members and/or third parties. No assurance can be given that we will be successful in these efforts. These factors, among others, raise substantial doubt about our ability to continue as a going concern for a reasonable period of time.
- **Any valuation at this pre-revenue stage is highly speculative.** At this point in time, it is very difficult to assign a specific value to Monetran, LLC. Much of the company's value lies in intangibles such as intellectual properties, its proposed business model and target markets, and the future acceptance of its products by a significant portion of the populace. As a result, the company's valuation has been arbitrarily determined without independent valuation and involves a good-faith estimate as to what the company could be worth, largely based on those intangibles. The offering price bears no relationship to our assets, earnings, book value, or any other objective standard of value. Consequently, the Units may have a value significantly less than the offering price and may never obtain a value equal to or greater than the offering price. As an investor you must make the decision whether the company presents enough potential for success that you would be willing to make a monetary investment in such potential.
- **Our business projections are only estimates and are subject to many external factors.** There can be no assurance that the company will meet any of its projections. The company may experience higher than expected costs. The company may find insufficient demand for the product, due to alternatives offered by competitors or the pricing strategy we implement for our products. Pricing pressure from competitors may negatively impact our profitability, even if demand for our product exists.
- **Items planned for development may not be completed.** The Company currently does not have a functional distributed ledger based business model nor a blockchain based token and there is no guarantee that such will be developed in the future. Some of the technology we will need to make our project successful may not currently exist and may have to be developed by our technology department. There is a possibility that we may not be successful in developing such needed technology and the project could experience failure because of it.
- **The terms you receive for your investment may be inferior to terms other investors receive.** Even if we are successful in our fundraising efforts during this

offering, given the complexities of the project we are undertaking, raising additional funds may be necessary. In that case, we may offer terms to later investors that are superior to the terms of your Class B Units, including with respect to the prices paid and valuations, transfer restrictions, distribution, or voting rights.

- **Dependence on Stellar Platform.** The Monetran token will be developed and operate on an open-source platform called Stellar Blockchain. Due to Stellar's open-source nature, it may be difficult for us to ensure the continued functionality of the Platform, thereby jeopardizing our token's development. Any negative impact to the Platform due to denial of service attacks, malicious programs, lack of needed maintenance, or other infrastructure issues could result in our having reduced or no access to the Platform. Such a result could hinder our ability to develop the token and negatively impact our value.
- **The regulatory environment for blockchain technologies, cryptocurrencies, tokens and token offerings is uncertain.** Tokens, cryptocurrencies, and other blockchain technologies are subject to an underdeveloped and rapidly evolving regulatory scheme. Due to the relative newness of the technologies, regulation of these fields is currently being addressed by a wide range of legislative and executive bodies throughout the US and worldwide. Inconsistencies among these rules may cause confusion and uncertainty for the company. Failure to follow applicable laws or regulations, including those not currently in existence, might result in penalties, fines, or other adverse legal proceedings against us, and jeopardize the completion and operation of our project.
- **We may never successfully develop or launch our token, and investors may never receive tokens.** The Moneda token has not been developed, and will require significant time, energy, and expertise in order to successfully launch. There is no guarantee that the Monetran team will be able to develop the token to the point it is ready for widespread release. Unforeseen difficulties or malfunctions in the development process, or necessary modifications to the software underpinning the token could delay or prevent an operational Moneda token. In the event we are unable to complete and maintain our project, investors may not receive any tokens and may lose all of their investment.

Dilution

Investors should understand the potential for dilution. Each Investor's stake in the Company could be diluted due to the Company issuing additional units. In other words, when the Company issues more units, the percentage of the Company that you own will decrease, even if the value of the Company increases. In such case, you would own a smaller portion of a larger company.

If we decide to issue more units, an Investor could experience value dilution, with each unit being worth less than before, and control dilution, with the total percentage an investor owns being less than before. There may also be earnings dilution, with a reduction in the amount earned per unit.

The type of dilution that hurts early-stage investors mostly occurs when the company sells more units in a "down round," meaning at a lower valuation than in earlier offerings.

If you are making an investment expecting to own a certain percentage of the Company or expecting unit share to hold a certain amount of value, it is important to realize how the value of those units can decrease by actions taken by the Company. Dilution can make drastic changes to the value of each unit, ownership percentage, voting control, and earnings per unit.

Transferability of securities

For a year, the securities can only be resold:

- In an IPO;
- To the company;

- To an accredited investor; and
- To a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

FINANCIAL STATEMENTS AND FINANCIAL CONDITION; MATERIAL INDEBTEDNESS

Financial Statements

Our financial statements can be found attached to this document. The financial review covers the period ending in 2018-06-30.

Financial Condition

Results of Operation

We have not yet generated any revenues and do not anticipate doing so until we have completed the building and delivery of the Monetran app, which we do not anticipate occurring until November, 2018. Based on our forecast, with the liquidity of the anticipated full raise amount, we anticipate that we can operate the business for six (6) months without revenue generation. This includes application/token development and testing, marketing and education campaigns, team salaries, and working capital.

Regardless of the success of this campaign, it is likely that the Company may need additional funds in order to achieve its ultimate goals of successfully entering the e-commerce and remittance markets. As such, Company may elect to extend this Offering (if applicable) and/or raise capital under a different equity issuance.

Company will also actively seek opportunities to enter the e-commerce market; however, due to the nature of commerce and the current banking relationship with cryptocurrencies and blockchain, the Company understands the difficulty in entering this market. As such, initial focus will be on capturing a small percent (0.2 - 1%) of the remittance market between the U.S. and Mexico (and/or other large U.S. remittance partners). Even one quarter of a percent of this market could allow for annual revenues exceeding \$1.25 million. This is a company target within its first 2 years.

The company's success in partially capturing the remittance and/or e-commerce markets are key to its continued growth and ability to maintain liquidity without additional funding avenues. No success in either market can be guaranteed, regardless of company goals and targets.

Financial Milestones

The company is investing for growth and development and as such is generating net

losses. Early stages of the company will pose the greatest challenges in terms of operational and liquidity issues, due to the increased costs associated with application and token development. Once the Company raises sufficient funds and completes its development and testing stage, continued operations will be easier to maintain.

Company will set aside a select amount of cash, as dictated by the CEO, as working capital and will plan to maintain its working capital account at all times. This will help ensure that, even during initial stages when company expects to burn cash quickly, the Company will maintain liquidity should an unexpected cost arise.

Future Company milestones include the following:

1) Raise \$40,000 in this offering. At this point the Company would have sufficient funds to fully develop and test its application and utility token.

2) Raise \$100,000 in this offering. At this point the Company would look to extend its offering and raise the maximum amount in order to continue raising funds to ensure it can market and grow accordingly.

3) Raise \$350,000 in this offering. At this point the Company would greatly increase its marketing/educational campaigns and begin directly targeting select remittance and commerce markets to begin integrating its proprietary application and corresponding Moneda token into daily money transfers and online/mobile commerce transactions.

Liquidity and Capital Resources

The company is in early Startup phases and thus has minimal operating history. It is currently generating operating losses and requires the continued infusion of new capital to continue business operations and application development.

If the company is successful in this offering, we will likely seek to continue to raise capital under crowdfunding offerings, equity or debt issuances, or any other method available to the company. A successful raise now should provide necessary funds to develop the company's application and token, but additional funding round(s) may be required for Company's continued growth and expansion.

Through the end of calendar year 2018, the Company expects to burn through its cash relatively quickly in order to develop and test its application and utility token as well as to market and educate consumers about the new services being offered. Assuming the company achieves a raise amount of \$107,000, it will have approximately \$70,000 left (after fees and after developing its Monetran application). This capital will primarily be used for marketing purposes and salaries to ensure all team members can focus on Company development and is expected to last at least six (6) months. By that time, company will likely require additional capital.

The company may seek additional funding campaigns in order to infuse additional capital into the company and its application.

Additional Capital Resources: although the Company does not hope to use debt instruments beyond what is necessary, it may have at its disposal additional resourced to inject capital into the company, should cash and other liquid assets be running low. These resources may include a traditional bank loan secured by Company Class A Members as well as a business line of credit.

Indebtedness

The Company has not had any material terms of indebtedness beyond its aforementioned Accounts Payable balance of \$1,500 - due after sufficient funds have been raised through Regulation Crowdfunding.

NOTE 1 – NATURE OF OPERATIONS

Monetran LLC was formed on March 26, 2018 (“Inception”) in the State of Delaware. The financial statements of Monetran LLC (which may be referred to as the “Company”, “we,” “us,” or “our”) are prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The Company’s headquarters are located in Hockessin, DE.

Monetran LLC is a technology-based startup operating in the crypto-currency market. The company will be designing and deploying a block-chain based financial transaction application to help remedy existing problems in both crypto- and fiat-based transaction networks. The application will make use of Moneda (soon-to-be developed stable token), an asset-based token on the Stellar network. The Stellar platform combined with Monetran’s application will allow users to transfer money, even micro-payments, in a matter of seconds for a nominal fee. Additionally, the use of the Byzantine Consensus Algorithm will allow for a vast amount of transactions with minimal energy usage compared to traditional mining procedures for existing block-chain networks and tokens. The company plans to establish this digital currency for everyday use in internet commerce and remittance.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities, and the reported amount of expenses during the reporting periods. Actual results could materially differ from these estimates. It is reasonably possible that changes in estimates will occur in the near term.

Fair Value of Financial Instruments

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants as of the measurement date. Applicable accounting guidance provides an established hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in valuing the asset or liability and are developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company’s assumptions about the factors that market participants would use in valuing the asset or liability. There are three levels of inputs that may be used to measure fair value:

Level 1 - Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 - Include other inputs that are directly or indirectly observable in the marketplace.

Level 3 - Unobservable inputs which are supported by little or no market activity.

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

Fair-value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of December 31, 2017 and 2016. The respective carrying value of certain on-

balance-sheet financial instruments approximated their fair values.

Cash and Cash Equivalents

For purpose of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents.

Revenue Recognition

Application downloads of the Monetran app are free, and the Company does not anticipate a future need of charging a fee for app downloads or account maintenance. However, use of the application for the purpose of transferring funds shall come with transaction fees as follows:

- 1) For domestic transactions – 1% of the total transaction amount (in U.S. Dollars) with the following exceptions: Company will charge a minimum of \$0.10 per transaction and a maximum of \$10.00 per transaction (not including any additional fees).
- 2) For international transactions – 2% of the total transaction amount (in U.S. Dollars) with the following exceptions: Company will charge a minimum of \$2.00 per international transfer and a maximum of \$20.00 international transfer (not including any additional fees).

The Company will recognize revenues from when (a) persuasive evidence that an agreement exists; (b) the service has been performed; (c) the prices are fixed and determinable and not subject to refund or adjustment; and (d) collection of the amounts due is reasonably assured.

Income Taxes

Although a Limited Liability Company (LLC), the Company is taxed as a Partnership, the pass-through option for a multimember LLC. Under these provisions, the Company does not pay federal corporate income taxes on its taxable income. Instead, the shareholders are liable for individual federal and state income taxes on their respective shares of the Company's taxable income. The Company has not yet filed a tax return and therefore is not yet subject to tax examination by the Internal Revenue Service or state tax authorities.

Concentration of Credit Risk

The Company maintains its cash with a major financial institution located in the United States of America which it believes to be creditworthy. Balances are insured by the Federal Deposit Insurance Corporation up to \$250,000. At times, the Company may maintain balances in excess of the federally insured limits.

NOTE 3 – DEBT

The Company is not currently under any debt obligations. It's only outstanding liability is as represented in Company's Accounts Payable.

NOTE 4 – COMMITMENTS AND CONTINGENCIES

We are currently not involved with or know of any pending or threatening litigation against the Company or any of its officers.

NOTE 5 – MEMBERS' EQUITY

LLC Units

Pursuant to the Company's Second Amended and Restated Operating Agreement dated September 27, 2018, Monetran LLC has authorized the issuance of two (2) classes of LLC Units, Class A and Class B, with the following characteristics:

- **Class A Units**
 - **Voting.** Class A Units are granted one (1) vote per Unit. Any Class A Member may call for a meeting of the Members and, if approved by holders of a majority of Class A Units, such meeting shall be granted and held within a reasonable time. Only Class A Members may attend these meetings and will be allowed to vote on such matters of Company's management, strategy, and key business decisions.
 - **Economics.** Holders of Class A Units will participate in distributions of Available Cash on a pro rata basis in accordance with the number of Units held, with Class A and Class B Units treated as a single class.
- **Class B Units**
 - **Voting.** Class B Units are not entitled to any voting rights.
 - **Economics.** Holders of Class B Units will participate in distributions of Available Cash on a pro rata basis in accordance with the number of Units held, with Class A and Class B Units treated as a single class.

As of the date of this financial review, the Company has issued a total of 1,000,000 Class A Units, with 100% of them being held by Don Bielak. The company has authorized, but not yet issued, Class B Units as outlined in its Regulation Crowdfunding offering.

The Company may, at any point with the approval of holders of a majority of Class A Units, issue additional LLC Units, whether Class A or Class B or a new class altogether, subject to applicable law.

NOTE 6 – RELATED PARTY TRANSACTIONS

Company has not engaged in any related-party transactions.

NOTE 7 – SUBSEQUENT EVENTS

The Company has evaluated subsequent events that occurred after September 30, 2018. There have been no other events or transactions during this time that would have a material effect on the balance sheet.

Moneda: The token that can do it all!

Invest in MONETRAN

AT LAST, A CRYPTOCURRENCY THAT CAN DO WHAT THE OTHERS CANT

It seems that only a handful of cryptocurrencies get all the hype and attention - we all know who they are. But do they really deserve it? For the most part we believe they're slow, overpriced, unstable, and incapable of providing the features that are needed to serve as an everyday medium of exchange. **Moneda is different.** To be built on the Stellar network, it's been designed to reward investors and to enable fast, economical transactions of any amount - big or small - even those under \$1.

The original of peer-to-peer, secure, real-time, and decentralized, peer-to-peer electronic cash system. Unfortunately, many unforeseen problems arose from Bitcoin's use and popularity. Among these problems are speed, economy, stability, and scalability, which were all compromised with the expanded use of the coin. In addition, virtually all other cryptocurrencies suffer from at least one, and usually more than one, of these deficiencies.

We believe that only a cryptocurrency which is stable and can provide the necessary speed, scalability, and cost effectiveness elements will prove suitable for use as an everyday currency.

The primary objective of the Monetran project has been to develop a stable token which can be used in everyday commerce, including for micropayments of \$1 or less. The token will be designed not only to maintain its value, but to steadily increase in value over time. It will be backed by a portfolio of tangible assets and be redeemable for a portion of the account that reflects the number of tokens in circulation.

In short, we believe this token - called Moneda - will deliver all of the features a cryptocurrency would need in order to be considered as the favored medium of exchange for internet transactions.

To be built on the [incredibly fast Stellar network](#), Moneda will [enjoy all of the benefits that platform has to offer](#), including [swift and secure transactions](#), [economical transfers](#), and [conversions from one currency to another](#).

The parameters of the Moneda token have been established, however the token has not yet been created because the Stellar Network requires that tokens created through their protocols must be immediately listed on their market, the Stellar Decentralized Index, or SDEX.

Future plans call for the establishment of a funds transfer network with a primary emphasis on remittances, which are at this point in time [a global market worth nearly \\$600 billion and growing](#).

Moneda Token

Description: Moneda Tokens will be built on the Stellar Blockchain platform and function as the primary medium of exchange usable within our own proprietary Monetran application. Through the Monetran network, Moneda Tokens may be used for money transfers and commerce payments as a medium of exchange between any individual(s) and firm(s) which accept such a payment method. The Monetran application will be used to transfer Moneda between users as well as convert Moneda Tokens to applicable fiat currency.

The right to tokens is contingent upon the successful development of such Tokens and to the extent applicable, the blockchain upon which they function. There is no guarantee that successful development will ever occur.

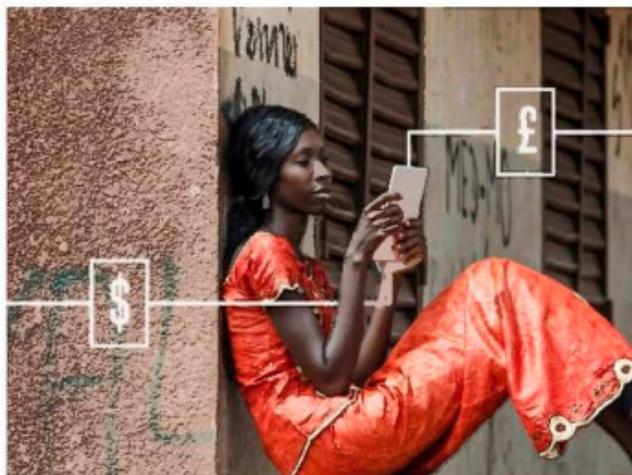

Our mission is to establish a digital currency for everyday use in Internet commerce. We intend to ensure that the currency has tangible value and that people everywhere will find it desirable for transactions. We believe that, ultimately, our efforts will result in a cheaper, faster, more flexible method of transferring funds, bringing benefit to people the world over. Moreover, we believe that the mining portion of blockchain technology is a wasteful process which can be replaced by eliminating that procedure in favor of the Byzantine Consensus Algorithm model, which was refined by the Stellar network and adopted by Monetran.

Social & Environmental Responsibility

Millions of people in the world lack access to financial systems

Although Monetran expects its native token, Moneda, to gain universal acceptance in the first world, it also intends to make its system available to those in the developing and third world countries. Many inhabitants of those areas lack access to financial systems which many of us take for granted. **We believe the Monetran system, taking advantage of the many features of the Stellar Network, will make swift, economical transactions available to millions of people** who previously had to deal with slow and expensive transfers of funds, which is part and parcel of most existing processors.

According to statistics supplied by the World Bank, **the average \$200 remittance** in these areas is subject to approximately 7% in fees, or almost \$14. The Monetran system, enabled by the Stellar network, expects to be able to transfer \$200 nearly anywhere in the world in a matter of seconds at a cost that is 70% less.

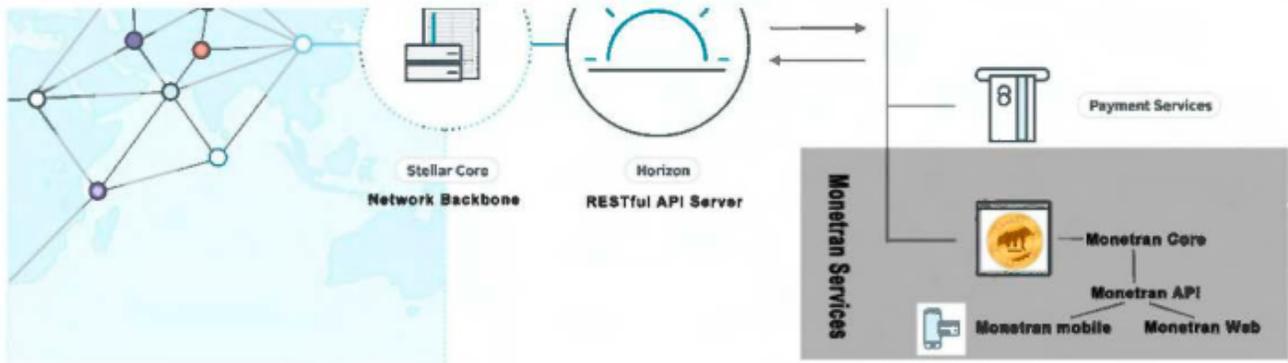

Cryptocurrency mining wastes valuable resources

Typical blockchains require a vast amount of energy to verify or "mine" transactions. **It is estimated that by February 2020, mining the leading cryptocurrency alone will use as much electricity as the entire world does today.** When all other cryptocurrencies that require mining are factored in, the electrical drain is absolutely mind boggling.

The Monetran system will be built on the Stellar Network, which utilizes a Federated Byzantine Agreement to reach consensus, thereby eliminating the need for mining. No matter how popular Moneda gets, we believe it will not waste a single watt of one of the world's most precious resources.

The Monetran App

Intended for an easy user experience, the Monetran App will allow users to send money internationally or domestically using federation ID's. **Forwarding money will be as simple as entering an email address.**

The Stellar Network enables lightning fast transfers and transactions - in excess of 1,000 per second. Sending funds from one federation ID to another only takes approximately 2-5 seconds. No more standing in lines or waiting for hours to receive your funds.

The Monetran App will charge a fee that is up to 70% less than the competition when you send money domestically. This translates into huge savings on Internet payments. **Also, the majority of the fees will be deposited into the asset account backing Moneda, yet another benefit to the holders of Moneda tokens.**

The Monetran App will be modeled after RocRemit's funds transfer app called ToNaira. **ToNaira was developed by Gbolahan Onadeko, who won an award from Stellar for his creation.** Onadeko will lead the development of Monetran's App as a true expert on the Stellar protocols.

Federation IDs will make sending money as easy as sending an email

The Stellar network will enable many of Monetran's finest features

The many advantages of Monetran / Moneda

- The Stellar network will enable transactions in 2-5 seconds
- Moneda will be backed by a portfolio of financial instruments
- Will provide very economical transaction fees
- The price of Moneda will be enhanced by regular token burns
- Will enable micropayments - even those less than \$1.
- Will provide token stability benefiting customers and merchants
- Moneda will function as a store of value and increase gradually
- Will enable P2P international transfers including conversions
- Trading of Moneda will be available on Stellar's Sdex exchange
- Will not require mining which wastes valuable resources

How Moneda Stacks Up Against Top Cryptocurrencies

The top three cryptocurrencies in existence today have a combined market cap of more than \$200 billion - yes, billion with a "B." However, they all share several alarming features. **All of them are very expensive to use, none of them can enable micropayments, and not a single one of them are backed by anything of value.** In addition, none of the leading tokens are redeemable, which is a big reason why they suffer from destabilizing swings in price. If all that isn't enough, none can serve as a real store of value.

Moneda comes up big in every one of the categories that are necessary to make a cryptocurrency a solid investment.

	MONEDA Monetran	Bitcoin	ETHER Ethereum	XRP Ripple

Stable	✓	NO	NO	✓
Low Fees	✓	NO	NO	✓

Monetran has a big advantage over the leading cryptocurrencies. Because they were established in the early days of digital currency, they cannot take advantage of the technology which was developed subsequently. In short, the Big Three may have been the first but, ironically, that is precisely what will always keep them from being the best.

Redeemable Tokens

Holders of Moneda tokens will have the option of having them redeemed directly from Monetran.

Making Moneda redeemable accomplishes a couple of important things.

First, it provides liquidity. We believe Moneda holders will never have to worry if there will be a buyer for their tokens.

Second, it promotes stability of token price. Because Moneda tokens will be redeemed at a price which is determined by the principal in the asset account, those who buy and sell on the exchanges will have a built-in reference of what the approximate market price should be. Because token holders will have the option of redeeming their tokens with Monetran, there should be no significant difference in price between the open market and the redemption price, although tokens traded on the open market should be slightly higher due to the likelihood that future increases will be factored in.

Token Burns

The process of burning – basically destroying – tokens is something a cryptocurrency company does to increase the scarcity of their tokens. It can be done to reward token holders or simply because it is part of the operating agreement, such as a post ICO burn to eliminate any leftover tokens.

When a token becomes more scarce, in theory its price should increase because the demand for such tokens remains the same while the supply is decreased.

The process for burning tokens is fairly simple. The tokens to be destroyed are sent to an address which has a private key that is unobtainable, thereby rendering them impossible to retrieve or spend.

Monetran plans to remove any profits earned by the asset account on a quarterly basis and to use those funds to buy Moneda on the open market. **Those tokens will be burned, thereby increasing the scarcity which we believe will very likely trigger an increase in token price.**

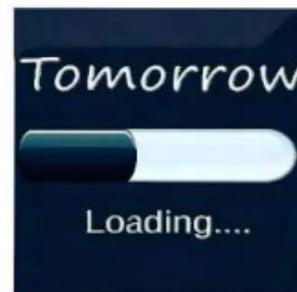

Asset Backed

Moneda will be backed by a fully transparent, actively managed portfolio of financial assets.

40% of the proceeds from any funding campaign will go directly into “seeding” the asset account. This will ensure that Moneda tokens are backed by tangible assets from its inception and will ensure that Moneda has intrinsic value.

The asset account has been established with Fidelity Investments, one of America's most trusted providers of financial services. The objective will be to preserve capital and to seek a reasonable rate of return. Plans call for investment in conservative instruments such as corporate and municipal bonds, U.S. treasuries, etc. A small amount of precious metals may be added as a hedge.

Monetran will always attempt to have a profit at the end of each quarter in order to purchase Moneda on the open market and to subsequently burn them which should enhance its price.

Future of Monetran

Because there is evidence of an underserved remittance market, in the future Monetran plans to embark on a mission to use Moneda and the Monetran system to compete for a section of that business.

According to statistics from the World Bank, the average \$200 remittance is subject to nearly 7% in fees, almost \$14. The Monetran system, enabled by the Stellar network, will be able to transfer \$200 nearly anywhere in the world in a matter of seconds for a fee that is 70% less. Regarding the problem of cost, Monetran / Moneda is obviously the solution.

Our first foray into the remittance market should likely be the USD / Mx. **Recent statistics show that the total amount of USD sent to Mexico as remittances was nearly \$30 billion in a year's time.**

A 3% market penetration would translate to nearly \$1 billion in business with commissions, based on Monetran's fee schedule, that would yield revenues of \$20 million.

Invest in Monetran Today!

THE HOLY GRAIL OF CRYPTOCURRENCIES HAS ARRIVED!

We believe no cryptocurrency to date can be widely accepted for making payments over the Internet. Latency, expense, and instability have been insurmountable problems, and virtually all existing cryptocurrencies suffer from at least one, and often more than one, of these problems.

Here we have introduced Moneda, an asset-backed, redeemable stable token which will be issued by Monetran for use on the Stellar network.

Moneda will be transfused with tangible value from its inception, with a viable plan to increase its value over time. **It will be redeemable - something that no American currency has been since the days of the gold standard.** Because it will be built on the lightning fast Stellar network, Moneda will enable swift, secure, economical transfers and transactions for any amount, large or small, either domestically or internationally. Moneda should be stable and therefore beneficial to both customers and merchants. It will be very economical for those sending remittances and other money transfers, especially in the under-developed parts of the world.

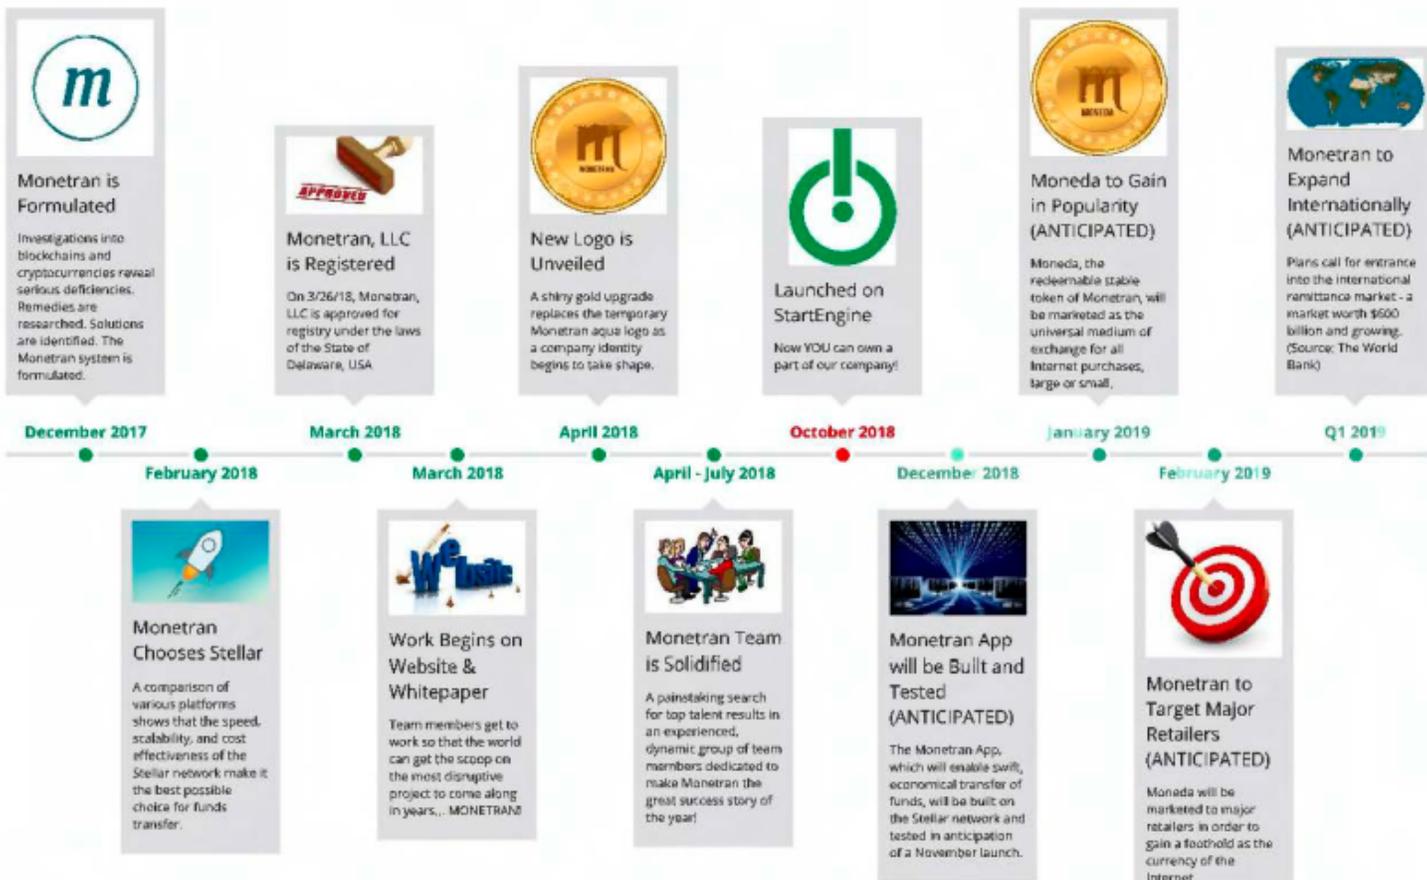

In short, Moneda has been designed to encompass all of the qualities that any currency, digital or otherwise, should have to be accepted as a universal medium of exchange.

The Monetran system will extract transaction fees whenever Moneda is used to make payment through the Internet and, with significant economic activity passing through it every year, **Monetran will have a great opportunity for rapid growth!**

Now **you** can be a part of the revolution in Internet commerce that Monetran is spearheading. Don't be a spectator. Latch on and ride the wave... **invest in Monetran today!**

Our team stands ready to complete the greatest improvement in the field of cryptocurrency payments - the Monetran / Moneda project!

Platform Compensation

- As compensation for the services provided by StartEngine Capital, the issuer is required to pay to StartEngine Capital a fee consisting of a 6-8% (six to eight percent) commission based on the dollar amount of securities sold in the Offering and paid upon disbursement of funds from escrow at the time of a closing. The commission is paid in cash and in securities of the Issuer identical to those offered to the public in the Offering at the sole discretion of StartEngine Capital. Additionally, the issuer must reimburse certain expenses related to the Offering. The securities issued to StartEngine Capital, if any, will be of the same class and have the same terms, conditions and rights as the securities being offered and sold by the issuer on StartEngine Capital's website.

Information Regarding Length of Time of Offering

- Investment Cancellations: Investors will have up to 48 hours prior to the end of the offering period to change their minds and cancel their investment commitments for any reason. Once within 48 hours of ending, investors will not be able to cancel for any reason, even if they make a commitment during this period.
- Material Changes: Material changes to an offering include but are not limited to: A change in minimum offering amount, change in security price, change in management, material change to financial information, etc. If an issuer makes a material change to the offering terms or other information disclosed, including a change to the offering deadline, investors will be given five business days to reconfirm their investment commitment. If investors do not reconfirm, their investment will be cancelled and the funds will be returned.

Hitting The Target Goal Early & Oversubscriptions

- StartEngine Capital will notify investors by email when the target offering amount has hit 25%, 50% and 100% of the funding goal. If the issuer hits its goal early, and the minimum offering period of 21 days has been met, the issuer can create a new target deadline at least 5 business days out. Investors will be notified of the new target deadline via email and will then have the opportunity to cancel up to 48 hours before new deadline.
- Oversubscriptions: We require all issuers to accept oversubscriptions. This may not be possible if: 1) it vaults an issuer into a different category for financial statement requirements (and they do not have the requisite financial statements); or 2) they reach \$1.07M in investments. In the event of an oversubscription, shares will be allocated at the discretion of the issuer.
- If the sum of the investment commitments does not equal or exceed the target offering amount at the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.
- If a StartEngine issuer reaches its target offering amount prior to the deadline, it may conduct an initial closing of the offering early if they provide notice of the new offering deadline at least five business days prior to the new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). StartEngine will notify investors when the issuer meets its

target offering amount. Thereafter, the issuer may conduct additional closings until the offering deadline.

Minimum and Maximum Investment Amounts

- In order to invest, to commit to an investment or to communicate on our platform, users must open an account on StartEngine Capital and provide certain personal and non-personal information including information related to income, net worth, and other investments.
- Investor Limitations: Investors are limited in how much they can invest on all crowdfunding offerings during any 12-month period. The limitation on how much they can invest depends on their net worth (excluding the value of their primary residence) and annual income. If either their annual income or net worth is less than \$107,000, then during any 12-month period, they can invest up to the greater of either \$2,200 or 5% of the lesser of their annual income or net worth. If both their annual income and net worth are equal to or more than \$107,000, then during any 12-month period, they can invest up to 10% of annual income or net worth, whichever is less, but their investments cannot exceed \$107,000.

“**Adjusted Capital Account Deficit**” means, with respect to any Member, the deficit balance, if any, in such Member’s Capital Account as of the end of the relevant Fiscal Year, after giving effect to the following adjustments:

income shall be computed (i) minus any excess taxable loss or excess taxable credits of the Company for any prior period allocable to such Member with respect to such Units that were not previously taken into account for purposes of determining such Member's Adjusted Taxable Income in a prior Fiscal Year to the extent such loss or credit would be available under the Code to offset income of the Member determined as if the income, loss, and credits from the Company were the only income, loss, and credits of the Member in such Fiscal Year and all prior Fiscal Years, and (ii) taking into account any special basis adjustment with respect to such Member resulting from an election by the Company under Code Section 754.

“**Agreement**” means this Limited Liability Company Agreement, as executed and as it may be amended, modified, supplemented or restated from time to time, as provided herein.

(iii) the liquidation of the Company within the meaning of Treasury Regulation Section 1.704-1(b)(2)(ii)(g);

provided, that adjustments pursuant to clauses (i) and (ii) above need not be made if the Manager reasonably determines that such adjustment is not necessary or appropriate to reflect the relative economic interests of the Members and that the absence of such adjustment does not adversely and disproportionately affect any Member;

For each Fiscal Year (or portion thereof), except as otherwise provided in this Agreement, Net Income and Net Loss (and, to the extent necessary, individual items of income, gain, loss or deduction) of the Company shall be allocated among the Members in a manner such that, after giving effect to the special allocations set forth in Section 6.2, the Capital Account balance of each Member, immediately after making such allocations, is, as nearly as possible, equal to (i) the Distributions that would be made to such Member pursuant to Section 12.3(c) if the Company were dissolved, its affairs wound up and its assets sold for cash equal to their Book Value, all Company liabilities were satisfied (limited with respect to each Nonrecourse Liability to the Book Value of the assets securing such liability), and the net assets of the Company were distributed, in accordance with Section 12.3(c), to the Members immediately after making such allocations, minus (ii) such Member's share of Company Minimum Gain and Member Nonrecourse Debt Minimum Gain, computed immediately prior to the hypothetical sale of assets.

Section 6.2 REGULATORY AND SPECIAL ALLOCATIONS. Notwithstanding the provisions of Section 6.1:

- (a) If there is a net decrease in Company Minimum Gain (determined according to Treasury Regulations Section 1.704-2(d)(1)) during any Fiscal Year, each Member shall be specially allocated Net Income for such Fiscal Year (and, if necessary, subsequent Fiscal Years) in an amount equal to such Member's share of the net decrease in Company Minimum Gain, determined in accordance with Treasury Regulations Section 1.704-2(g). The items to be so allocated shall be determined in accordance with Treasury Regulations Sections 1.704-2(f)(6) and 1.704-2(j)(2). This Section 6.2(a) is intended to comply with the "minimum gain chargeback" requirement in Treasury Regulation Section 1.704-2(f) and shall be interpreted consistently therewith.

(b) Member Nonrecourse Deductions shall be allocated in the manner required by Treasury Regulations Section 1.704-2(i). Except as otherwise provided in Treasury Regulations Section 1.704-2(i)(4), if there is a net decrease in Member Nonrecourse Debt Minimum Gain during any Fiscal Year, each Member that has a share of such Minimum Gain shall be specially allocated Net Income for such Fiscal Year (and, if necessary, subsequent Fiscal Years) in an amount equal to that Member's share of the net decrease in Member Nonrecourse Debt Minimum Gain. Items to be allocated pursuant to this paragraph shall be determined in accordance with Treasury Regulations Sections 1.704-2(i)(4) and 1.704-2(j)(2). This Section 6.2(b) is intended to comply with the "minimum gain chargeback" requirements in Treasury Regulations Section 1.704-2(i)(4) and shall be interpreted consistently therewith.

(c) In the event any Member unexpectedly receives any adjustments, allocations or Distributions described in Treasury Regulations Section 1.704-1(b)(2)(ii)(d)(4), (5) or (6), Net Income shall be specially allocated to such Member in an amount and manner sufficient to eliminate the Adjusted Capital Account Deficit created by such adjustments, allocations or Distributions as quickly as possible. This Section 6.2(c) is intended to comply with the qualified income offset requirement in Treasury Regulations Section 1.704-1(b)(2)(ii)(d) and shall be interpreted consistently therewith.

(d) The allocations set forth in paragraphs (a), (b) and (c) above (the "**Regulatory Allocations**") are intended to comply with certain requirements of the Treasury Regulations under Code Section 704. Notwithstanding any other provisions of this Article 6 (other than the Regulatory Allocations), the Regulatory Allocations shall be taken into account in allocating Net Income and Net Losses among Members so that, to the extent possible, the net amount of such allocations of Net Income and Net Losses and other items and the Regulatory Allocations to each Member shall be equal to the net amount that would have been allocated to such Member if the Regulatory Allocations had not occurred.

Section 6.3 TAX ALLOCATIONS.

(a) Subject to Section 6.3(b) through Section 6.3(e), all income, gains, losses and deductions of the Company shall be allocated, for federal, state and local income tax purposes, among the Members in accordance with the allocation of such income, gains, losses and deductions among the Members for computing their Capital Accounts, except that if any such allocation for tax purposes is not permitted by the Code or other Applicable Law, the Company's subsequent income, gains, losses and deductions shall be allocated among the Members for tax purposes, to the extent permitted by the Code and other Applicable Law, so as to reflect as nearly as possible the allocation set forth herein in computing their Capital Accounts.

(b) Items of Company taxable income, gain, loss and deduction with respect to any property contributed to the capital of the Company shall be allocated among the Members in accordance with Code Section 704(c) and the traditional method of Treasury

Regulations Section 1.704-3(b), so as to take account of any variation between the adjusted basis of such property to the Company for federal income tax purposes and its Book Value.

(c) If the Book Value of any Company asset is adjusted pursuant to Treasury Regulation Section 1.704-1(b)(2)(iv)(f) as provided in clause (c) of the definition of Book Value, subsequent allocations of items of taxable income, gain, loss and deduction with respect to such asset shall take account of any variation between the adjusted basis of such asset for federal income tax purposes and its Book Value in the same manner as under Code Section 704(c).

(d) Allocations of tax credit, tax credit recapture and any items related thereto shall be allocated to the Members according to their interests in such items as determined by the Manager taking into account the principles of Treasury Regulations Section 1.704-1(b)(4)(ii).

(e) The Company shall make allocations pursuant to this Section 6.3 in accordance with the traditional method in accordance with Treasury Regulations Section 1.704-3(d).

(f) Allocations pursuant to this Section 6.3 are solely for purposes of federal, state and local taxes and shall not affect, or in any way be taken into account in computing, any Member's Capital Account or share of Net Income, Net Losses, Distributions or other items pursuant to any provisions of this Agreement.

Section 6.4 ALLOCATIONS IN RESPECT OF TRANSFERRED UNITS. In the event of a Transfer of Units during any Fiscal Year made in compliance with the provisions of Article 9, Net Income, Net Losses and other items of income, gain, loss and deduction of the Company attributable to such Units for such Fiscal Year shall be determined using the interim closing of the books method.

Section 6.5 CURATIVE ALLOCATIONS. In the event that the Tax Matters Member determines, after consultation with counsel experienced in income tax matters, that the allocation of any item of Company income, gain, loss or deduction is not specified in this Article 6 (an "**Unallocated Item**"), or that the allocation of any item of Company income, gain, loss or deduction hereunder is clearly inconsistent with the Members' economic interests in the Company (determined by reference to the general principles of Treasury Regulations Section 1.704-1(b) and the factors set forth in Treasury Regulations Section 1.704-1(b)(3)(ii)) (a "**Misallocated Item**"), then the Manager may allocate such Unallocated Items, or reallocate such Misallocated Items, to reflect such economic interests; *provided*, that no such allocation will be made without the prior consent of each Member that would be adversely and disproportionately affected thereby; and *provided, further*, that no such allocation shall have any material effect on the amounts distributable

to any Member, including the amounts to be distributed upon the complete liquidation of the Company.

ARTICLE 7 DISTRIBUTIONS

Section 7.1 GENERAL.

- (a) Subject to Section 7.1(b) and Section 7.2, the Manager shall have discretion regarding the amounts and timing of Distributions of Available Cash to Members, including to decide to forego payment of Distributions.

Section 8.3 COMPENSATION. The Manager shall be reimbursed for his reasonable out-of-pocket expenses incurred in the performance of his duties as a Manager. Nothing contained in this Section 8.3 shall be construed to preclude any Manager from serving the Company in any other capacity and receiving reasonable compensation for such services.

Section 8.4 MANAGER RESIGNATION; REMOVAL. The Manager may resign at any time upon written notice to the Company. The Manager may be removed by the vote of holders of a majority of the Class A Units, with or without cause, at any time.

Any two (2) or more offices may be held by the same Person. The Manager may create and define the duties of the offices in the Company and shall appoint persons to fill all such offices. Appointment of an officer shall not of itself create contract rights.
- (b) **Removal; Resignation; Vacancies.** Each Officer shall hold office until his successor is designated by the Board or until his earlier death, resignation or removal. Any Officer may resign at any time upon written notice to the Company. Any Officer may be removed by the Manager with or without cause at any time. **ARTICLE 9
TRANSFER**

Section 9.1 GENERAL RESTRICTIONS ON TRANSFER.

- (a) No Member shall Transfer all or any portion of its Units in the Company without the written consent of the Manager (which consent may be granted or withheld in the sole discretion of the Manager). No Transfer of Units to a Person not already a Member of the Company shall be deemed completed until the prospective transferee is admitted as a Member of the Company in accordance with Section 4.1.
- (b) Notwithstanding any other provision of this Agreement (including Section 9.2), each Member agrees that it will not, directly or indirectly, Transfer any of its Units, and the Company agrees that it shall not issue any Units:
- (i) except as permitted under the Securities Act and other applicable federal or state securities or blue sky laws, and then, with respect to a Transfer of Units, if requested by the Company, only upon delivery to the Company of an opinion of counsel in form and substance satisfactory to the Company to the effect that such Transfer may be effected without registration under the Securities Act;
 - (ii) if such Transfer or issuance would cause the Company to be considered a “publicly traded partnership” under Section 7704(b) of the Code within the meaning of Treasury Regulation Section 1.7704-1(h)(1)(ii), including the look-through rule in Treasury Regulation Section 1.7704-1(h)(3);
 - (iii) if such Transfer or issuance would affect the Company’s existence or qualification as a limited liability company under the Delaware Act;
 - (iv) if such Transfer or issuance would cause the Company to lose its status as a partnership for federal income tax purposes;
 - (v) if such Transfer or issuance would cause a termination of the Company for federal income tax purposes;
 - (vi) if such Transfer or issuance would cause the Company to be required to register as an investment company under the Investment Company Act of 1940, as amended; or
 - (vii) if such Transfer or issuance would cause the assets of the Company to be deemed “Plan Assets” as defined under the Employee Retirement Income Security Act of 1974 or its accompanying regulations or result in any “prohibited transaction” thereunder involving the Company.

In any event, the Manager may refuse the Transfer to any Person if such Transfer would have a material adverse effect on the Company as a result of any regulatory or other restrictions imposed by any Governmental Authority.

(c) Any Transfer or attempted Transfer of any Units in violation of this Agreement shall be null and void, no such Transfer shall be recorded on the Company's books and the purported Transferee in any such Transfer shall not be treated (and the purported Transferor shall continue be treated) as the owner of such Units for all purposes of this Agreement.

(d) For the avoidance of doubt, any Transfer of Units permitted by Section 9.2 and purporting to be a sale, transfer, assignment or other disposal of the entire Membership Interest represented by such Units, inclusive of all the rights and benefits applicable to such Membership Interest as described in the definition of the term "**Membership Interest**," shall be deemed a sale, transfer, assignment or other disposal of such Membership Interest in its entirety as intended by the parties to such Transfer, unless otherwise explicitly agreed to by the parties to such Transfer.

Section 9.2 PERMITTED TRANSFERS. The provisions of Section 9.1(a), do not apply to any of the following Transfers by any Member of any of its Units to (i) such Member's spouse, parent, siblings, descendants (including adoptive relationships and stepchildren) and the spouses of each such natural persons (collectively, "**Family Members**"), (ii) a trust under which the distribution of Units may be made only to such Member and/or any Family Member of such Member, (iii) a charitable remainder trust, the income from which will be paid to such Member during his life, (iv) a corporation, partnership or limited liability company, the stockholders, partners or members of which are only such Member and/or Family Members of such Member, or (v) by will or by the laws of intestate succession, to such Member's executors, administrators, testamentary trustees, legatees or beneficiaries.

Section 9.3 COMPANY CALL RIGHT.

(a) With respect to a holder of Class A Units who provides services to the Company as an employee, consultant, advisor, or director, then in the event such Member's services to the Company are terminated, for any reason, with or without cause, prior to the two-year anniversary of the date such Member acquires such Class A Units, the Company may elect to repurchase all or any portion of the Class A Units held by such Member or his Permitted Transferees, as applicable (the "**Selling Member**"), at a price equal to the original purchase price paid by the Selling Member for such Class A Units.

(b) If the Company wishes to exercise its right to purchase a Member's Class A Units pursuant to this Section 9.3, the Company shall deliver to the Selling Member, within sixty (60) days after the termination of the Selling Member's services, a written notice specifying the number of Class A Units to be repurchased by the Company and the purchase price for such Class A Units. The closing of any sale of Class A Units pursuant to this Section 9.3

must take place no later than sixty (60) days following receipt by the Selling Member of the Company's notice.

(c) The Selling Member shall take all actions as may be reasonably necessary to consummate the sale contemplated by this Section 9.3, including, without limitation, entering into agreements and delivering certificates and instruments and consents as may be deemed necessary or appropriate.

- (b) The Members authorize and consent to the involvement of a Member in any Other Business; *provided*, that any transactions between the Company and an Other Business will be on terms no less favorable to the than would be obtainable in a comparable arm’s-length transaction. The Members waive, to the fullest extent permitted by Applicable Law, any rights to assert any claim that such involvement breaches any fiduciary or other duty or obligation owed to the Company or any Member or to assert that such involvement constitutes a conflict of interest by such Persons with respect to the Company or any Member.

**ARTICLE 11
ACCOUNTING AND REPORTS; TAX MATTERS**

Section 11.1 FINANCIAL STATEMENTS. The Company shall furnish to each Member holding one or more Class A Units, as soon as available, and in any event within one hundred twenty (120) days after the end of each Fiscal Year, balance sheets of the Company as at the end of each such Fiscal Year and statements of income, cash flows and Members’ equity for such Fiscal Year, in each case setting forth in comparative form the figures for the previous Fiscal Year,

prepared in accordance with GAAP (except as may be required to compute Capital Accounts under this Agreement).

Section 11.2 INSPECTION RIGHTS. Upon reasonable notice from a Member holding 5% or more of the issued and outstanding Class A Units of the Company (a “**Qualified Member**”), the Company shall, and shall cause its Officers and employees to afford each Qualified Member and its Representatives reasonable access during normal business hours to (i) the Company’s properties, offices, plants and other facilities, (ii) the corporate, financial and similar records, reports and documents of the Company, including all books and records, minutes of proceedings, internal management documents, reports of operations, reports of adverse developments, copies of any management letters and communications with Members, and to permit each Qualified Member and its Representatives to examine such documents and make copies thereof, and (iii) the Company’s Officers, senior employees and public accountants, and to afford each Qualified Member and its Representatives the opportunity to discuss and advise on the affairs, finances and accounts of the Company with their Officers, senior employees and public accountants (and the Company hereby authorizes said accountants to discuss with such Qualified Member and its Representatives such affairs, finances and accounts).

Section 11.3 TAX MATTERS MEMBER; PARTNERSHIP REPRESENTATIVE.

(a) **Appointment.** The Members hereby appoint Manager as the “tax matters partner” (as defined in Code Section 6231 prior to its amendment by the BBA) (the “**Tax Matters Member**”) and, for tax years beginning on or after January 1, 2018, the “partnership representative” (the “**Partnership Representative**”) as provided in Code Section 6223(a) (as amended by the BBA).

(b) **Tax Examinations and Audits.** The Tax Matters Member and Partnership Representative are each authorized and required to represent the Company (at the Company’s expense) in connection with all examinations of the Company’s affairs by taxing authorities, including resulting administrative and judicial proceedings, and to expend Company funds for professional services and costs associated therewith. The Tax Matters Member and Partnership Representative shall each have sole authority to act on behalf of the Company in any such examinations and any resulting judicial proceedings and shall have sole discretion to determine whether the Company (either on its own behalf or on behalf of the Members) will contest or continue to contest any tax deficiencies assessed or proposed to be assessed by any taxing authority. The Company and its Members shall be bound by the actions taken by the Tax Matters Member and Partnership Representative.

(c) **BBA Elections and Procedures.** In the event of an audit of the Company that is subject to the partnership audit procedures enacted under Section 1101 of the BBA (the “**BBA Procedures**”), the Partnership Representative, in its sole discretion, shall have the right to make any and all elections and to take any actions that are available to be made or taken by the Partnership Representative or the Company under the BBA Procedures (including any election under Code Section 6226 as amended by the BBA). If an election

under Code Section 6226(a) (as amended by the BBA) is made, the Company shall furnish to each Member for the year under audit a statement of the Member's share of any adjustment set forth in the notice of final partnership adjustment, and each Member shall take such adjustment into account as required under Code Section 6226(b) (as amended by the BBA).

(d) **Resignation.** The Tax Matters Member may resign at any time. The Partnership Representative may resign at the times and in the manner set forth in applicable Treasury Regulations or other administrative guidance. If Manager ceases to be the Tax Matters Member or Partnership Representative for any reason, a majority of the Class A Members shall appoint a new Tax Matters Member or Partnership Representative.

Section 11.4 TAX RETURNS. At the expense of the Company, the Manager (or any Officer that he may designate pursuant to Section 8.5) shall cause the preparation and timely filing (including extensions) of all tax returns required to be filed by the Company pursuant to the Code as well as all other required tax returns in each jurisdiction in which the Company owns property or does business. As soon as reasonably possible after the end of each Fiscal Year, the Manager will cause to be delivered to each Person who was a Member at any time during such Fiscal Year, such information with respect to the Company as may be necessary for the preparation of such Person's income tax returns for such Fiscal Year.

Section 11.5 COMPANY FUNDS. All funds of the Company shall be deposited in its name, or in such name as may be designated by the Manager, in such checking, savings or other accounts, or held in its name in the form of such other investments as shall be designated by the Manager. The funds of the Company shall not be commingled with the funds of any other Person. All withdrawals of such deposits or liquidations of such investments by the Company shall be made exclusively upon the signature or signatures of the Manager or such Officer or Officers as the Manager may designate.

ARTICLE 12 DISSOLUTION AND LIQUIDATION

Section 12.1 EVENTS OF DISSOLUTION. The Company shall be dissolved and its affairs wound up only upon the occurrence of any of the following events:

- (a) An election to dissolve the Company made by holders of a majority of the issued and outstanding Class A Units;
- (b) The sale, exchange, involuntary conversion, or other disposition or Transfer of all or substantially all the assets of the Company; or
- (c) The entry of a decree of judicial dissolution.

Section 12.2 EFFECTIVENESS OF DISSOLUTION. Dissolution of the Company will be effective on the day on which the event described in Section 12.1 occurs, but the Company will not terminate until the winding up of the Company is completed, the assets of the Company distributed as provided in Section 12.3 and the Certificate of Formation cancelled as provided in Section 12.4.

Section 12.3 LIQUIDATION. If the Company is dissolved pursuant to Section 12.1, the Company shall be liquidated and its business and affairs wound up in accordance with the Delaware Act and the following provisions:

- (a) **Liquidator.** The Manager, or, if the Manager is unable to do so, a Person selected by a majority of the Class A Members, shall act as liquidator to wind up the Company (the “**Liquidator**”). The Liquidator will have full power and authority to sell, assign, and encumber any or all of the Company’s assets and to wind up and liquidate the affairs of the Company in an orderly and business-like manner.
- (b) **Accounting.** As promptly as possible after dissolution and again after final liquidation, the Liquidator shall cause a proper accounting to be made by a recognized firm of certified public accountants of the Company’s assets, liabilities and operations through the last day of the calendar month in which the dissolution occurs or the final liquidation is completed, as applicable.
- (c) **Distribution of Proceeds.** The Liquidator shall liquidate the assets of the Company and make a Liquidation Distribution in the following order of priority, unless otherwise required by mandatory provisions of Applicable Law:
 - (i) *First*, to the payment of all of the Company’s debts and liabilities to its creditors (including Members, if applicable) and the expenses of liquidation (including sales commissions incident to any sales of assets of the Company);
 - (ii) *Second*, to the establishment of and additions to reserves that are determined by the Manager in his sole discretion to be reasonably necessary for any contingent unforeseen liabilities or obligations of the Company; and
 - (iii) *Third*, to the Members in the same manner as Distributions are made under Section 7.2.
- (d) **Discretion of Liquidator.** Notwithstanding the provisions of Section 12.3 that require the liquidation of the assets of the Company, but subject to the order of priorities set forth in Section 12.3(c), if upon dissolution of the Company the Liquidator determines that an immediate sale of part or all of the Company’s assets would be impractical or could cause undue loss to the Members, the Liquidator may defer the liquidation of any assets except those necessary to satisfy Company liabilities and reserves, and may, in its absolute discretion, distribute to the Members, in lieu of cash, as tenants in common and in accordance with the provisions of Section 12.3(c), undivided interests in such Company

assets as the Liquidator deems not suitable for liquidation. Any such Distribution in kind will be subject to such conditions relating to the disposition and management of such properties as the Liquidator deems reasonable and equitable and to any agreements governing the operating of such properties at such time. For purposes of any such Distribution, any property to be distributed will be valued at its Fair Market Value.

Section 12.4 REQUIRED FILINGS. Upon completion of the Distribution of the assets of the Company as provided in Section 12.3(c) hereof, the Company shall be terminated and the Liquidator shall cause the cancellation of the Certificate of Formation in the State of Delaware and of all qualifications and registrations of the Company as a foreign limited liability company in jurisdictions other than the State of Delaware and shall take such other actions as may be necessary to terminate the Company.

Section 12.5 SURVIVAL OF RIGHTS, DUTIES AND OBLIGATIONS. Dissolution, liquidation, winding up or termination of the Company for any reason shall not release any party from any Loss which at the time of such dissolution, liquidation, winding up or termination already had accrued to any other party or which thereafter may accrue in respect of any act or omission prior to such dissolution, liquidation, winding up or termination. For the avoidance of doubt, none of the foregoing shall replace, diminish or otherwise adversely affect any Member's right to indemnification pursuant to Section 13.3.

Section 12.6 RECOURSE FOR CLAIMS. Each Member shall look solely to the assets of the Company for all Distributions with respect to the Company, such Member's Capital Account, and such Member's share of Net Income, Net Loss and other items of income, gain, loss and deduction, and shall have no recourse therefor (upon dissolution or otherwise) against the Manager, the Liquidator or any other Member.

ARTICLE 13 EXCULPATION AND INDEMNIFICATION

Section 13.1 EXCULPATION OF COVERED PERSONS.

(a) **Covered Persons.** As used herein, the term "**Covered Person**" shall mean (i) each Member, (ii) each officer, director, shareholder, partner, member, controlling affiliate, employee, agent or Representative of each Member, and (iii) each Officer, employee, agent or Representative of the Company.

(b) **Standard of Care.** No Covered Person shall be liable to the Company or any other Covered Person for any loss, damage or claim incurred by reason of any action taken or omitted to be taken by such Covered Person in good-faith reliance on the provisions of this Agreement, so long as such action or omission does not constitute fraud or willful misconduct by such Covered Person.

(c) **Good Faith Reliance.** A Covered Person shall be fully protected in relying in good faith upon the records of the Company and upon such information, opinions, reports or statements (including financial statements and information, opinions, reports or statements as to the value or amount of the assets, liabilities, Net Income or Net Losses of the Company or any facts pertinent to the existence and amount of assets from which Distributions might properly be paid) of the following Persons or groups: (i) one or more Officers or employees of the Company; (ii) any attorney, independent accountant, appraiser or other expert or professional employed or engaged by or on behalf of the Company; or (iii) any other Person selected in good faith by or on behalf of the Company, in each case as to matters that such relying Person reasonably believes to be within such other Person's professional or expert competence.

Section 13.2 LIABILITIES AND DUTIES OF COVERED PERSONS.

(a) **Limitation of Liability.** This Agreement is not intended to, and does not, create or impose any fiduciary duty on any Covered Person. Furthermore, each of the Members and the Company hereby waives any and all fiduciary duties that, absent such waiver, may be implied by Applicable Law, and in doing so, acknowledges and agrees that the duties and obligation of each Covered Person to each other and to the Company are only as expressly set forth in this Agreement. The provisions of this Agreement, to the extent that they restrict the duties and liabilities of a Covered Person otherwise existing at law or in equity, are agreed by the Members to replace such other duties and liabilities of such Covered Person.

(b) **Duties.** Whenever in this Agreement a Covered Person is permitted or required to make a decision (including a decision that is in such Covered Person's "discretion" or under a grant of similar authority or latitude), the Covered Person shall be entitled to consider only such interests and factors as such Covered Person desires, including its own interests, and shall have no duty or obligation to give any consideration to any interest of or factors affecting the Company or any other Person. Whenever in this Agreement a Covered Person is permitted or required to make a decision in such Covered Person's "good faith," the Covered Person shall act under such express standard and shall not be subject to any other or different standard imposed by this Agreement or any other Applicable Law.

Section 13.3 INDEMNIFICATION.

(a) **Indemnification.** To the fullest extent permitted by the Delaware Act, as the same now exists or may hereafter be amended, substituted or replaced (but, in the case of any such amendment, substitution or replacement only to the extent that such amendment, substitution or replacement permits the Company to provide broader indemnification rights than the Delaware Act permitted the Company to provide prior to such amendment, substitution or replacement), the Company shall indemnify, hold harmless, defend, pay and reimburse any Covered Person against any and all losses, claims, damages, judgments, fines or liabilities, including reasonable legal fees or other expenses incurred in investigating or

defending against such losses, claims, damages, judgments, fines or liabilities, and any amounts expended in settlement of any claims (collectively, “**Losses**”) to which such Covered Person may become subject by reason of:

- (i) Any act or omission or alleged act or omission performed or omitted to be performed on behalf of the Company or any Member in connection with the business of the Company; or
- (ii) The fact that such Covered Person is or was acting in connection with the business of the Company as a partner, member, stockholder, manager, director, officer, employee or agent of the Company, or any Member, or that such Covered Person is or was serving at the request of the Company as a partner, member, manager, director, officer, employee or agent of any Person including the Company;

provided, that (x) such Covered Person acted in good faith and in a manner believed by such Covered Person to be not opposed to, the best interests of the Company and, with respect to any criminal proceeding, had no reasonable cause to believe his conduct was unlawful, and (y) such Covered Person’s conduct did not constitute fraud or willful misconduct, in either case as determined by a final, nonappealable order of a court of competent jurisdiction.

(b) **Reimbursement.** The Company shall promptly reimburse (and/or advance to the extent reasonably required) each Covered Person for reasonable legal or other expenses (as incurred) of such Covered Person in connection with investigating, preparing to defend or defending any claim, lawsuit or other proceeding relating to any Losses for which such Covered Person may be indemnified pursuant to this Section 13.3; *provided*, that if it is finally judicially determined that such Covered Person is not entitled to the indemnification provided by this Section 13.3, then such Covered Person shall promptly reimburse the Company for any reimbursed or advanced expenses.

(c) **Entitlement to Indemnity.** The indemnification provided by this Section 13.3 shall not be deemed exclusive of any other rights to indemnification to which those seeking indemnification may be entitled under any agreement or otherwise. The provisions of this Section 13.3 shall continue to afford protection to each Covered Person regardless of whether such Covered Person remains in the position or capacity pursuant to which such Covered Person became entitled to indemnification under this Section 13.3 and shall inure to the benefit of the executors, administrators, legatees and distributees of such Covered Person.

(d) **Insurance.** To the extent available on commercially reasonable terms, the Company may purchase, at its expense, insurance to cover Losses covered by the foregoing indemnification provisions and to otherwise cover Losses for any breach or alleged breach by any Covered Person of such Covered Person’s duties in such amount and with such

deductibles as the Manager may determine; *provided*, that the failure to obtain such insurance shall not affect the right to indemnification of any Covered Person under the indemnification provisions contained herein, including the right to be reimbursed or advanced expenses or otherwise indemnified for Losses hereunder. If any Covered Person recovers any amounts in respect of any Losses from any insurance coverage, then such Covered Person shall, to the extent that such recovery is duplicative, reimburse the Company for any amounts previously paid to such Covered Person by the Company in respect of such Losses.

(e) ***Funding of Indemnification Obligation.*** Notwithstanding anything contained herein to the contrary, any indemnity by the Company relating to the matters covered in this Section 13.3 shall be provided out of and to the extent of Company assets only, and no Member (unless such Member otherwise agrees in writing) shall have personal liability on account thereof or shall be required to make additional Capital Contributions to help satisfy such indemnity by the Company.

(f) ***Savings Clause.*** If this Section 13.3 or any portion hereof is invalidated on any ground by any court of competent jurisdiction, then the Company shall nevertheless indemnify and hold harmless each Covered Person pursuant to this Section 13.3 to the fullest extent permitted by any applicable portion of this Section 13.3 that has not been invalidated and to the fullest extent permitted by Applicable Law.

(g) ***Amendment.*** The provisions of this Section 13.3 shall be a contract between the Company, on the one hand, and each Covered Person who served in such capacity at any time while this Section 13.3 is in effect, on the other hand, pursuant to which the Company and each such Covered Person intend to be legally bound. Notwithstanding any other provision of this Agreement to the contrary, no amendment, modification or repeal of this Section 13.3 that adversely affects the rights of a Covered Person to indemnification for Losses incurred or relating to a state of facts existing prior to such amendment, modification or repeal shall apply in such a way as to eliminate or reduce such Covered Person's entitlement to indemnification for such Losses without the Covered Person's prior written consent.

Section 13.4 SURVIVAL. The provisions of this Article 13 shall survive the dissolution, liquidation, winding up and termination of the Company.

ARTICLE 14 MISCELLANEOUS

Section 14.5 SEVERABILITY. If any term or provision of this Agreement is held to be invalid, illegal or unenforceable under Applicable Law in any jurisdiction, such invalidity, illegality or unenforceability shall not affect any other term or provision of this Agreement or invalidate or render unenforceable such term or provision in any other jurisdiction. Upon such determination that any term or other provision is invalid, illegal or unenforceable, the parties hereto shall negotiate in good faith to modify this Agreement so as to effect the original intent of the parties as closely as possible in a mutually acceptable manner in order that the transactions contemplated hereby be consummated as originally contemplated to the greatest extent possible.

Except as provided in Article 13, which shall be for the benefit of and enforceable by Covered Persons as described therein, this Agreement is for the sole benefit of the parties hereto (and their respective heirs, executors, administrators, successors and assigns) and nothing herein, express or implied, is intended to or shall confer upon any other Person, including any creditor of the Company, any legal or equitable right, benefit or remedy of any nature whatsoever under or by reason of this Agreement.

Section 14.9 AMENDMENT. No provision of this Agreement may be amended or modified except by written consent of holders of a majority of the issued and outstanding Class A Units. Any such written amendment or modification will be binding upon the Company and each Member. Notwithstanding the foregoing, amendments to the Members Schedule following any new issuance, redemption, repurchase or Transfer of Units in accordance with this Agreement may be made by the Manager without the consent of or execution by the Members.

Section 14.10 WAIVER. No waiver by any party of any of the provisions of this Agreement shall be effective unless explicitly set forth in writing and signed by the party so waiving. No waiver by any party shall operate or be construed as a waiver in respect of any failure, breach or default not expressly identified by such written waiver, whether of a similar or different character, and whether occurring before or after that waiver. No failure to exercise, or delay in exercising, any right, remedy, power or privilege arising from this Agreement shall operate or be construed as a waiver thereof, nor shall any single or partial exercise of any right, remedy, power or privilege hereunder preclude any other or further exercise thereof or the exercise of any other right, remedy, power or privilege.

Section 14.11 GOVERNING LAW. This Agreement shall be governed by and construed in accordance with the internal laws of the State of Delaware, without giving effect to any choice or conflict of law provision or rule (whether of the State of Delaware or any other jurisdiction) that would cause the application of laws of any jurisdiction other than those of the State of Delaware.

Section 14.12 SUBMISSION TO JURISDICTION. The parties hereby agree that any suit, action or proceeding seeking to enforce any provision of, or based on any matter arising out of or in connection with, this Agreement or the transactions contemplated hereby, whether in contract, tort

or otherwise, shall be brought in the federal courts of the United States located in the state of Delaware or the state courts of Delaware (and of the appropriate appellate courts therefrom).

Section 14.13 WAIVER OF JURY TRIAL. Each party hereto waives any right it may have to a trial by jury in respect of any legal action arising out of or relating to this Agreement or the transactions contemplated hereby.

Section 14.14 EQUITABLE REMEDIES. Each party hereto acknowledges that a breach or threatened breach by such party of any of its obligations under this Agreement would give rise to irreparable harm to the other parties, for which monetary damages would not be an adequate remedy, and hereby agrees that in the event of a breach or a threatened breach by that party of any such obligations, each of the other parties hereto shall, in addition to any and all other rights and remedies that may be available to them in respect of that breach, be entitled to equitable relief, including a temporary restraining order, an injunction, specific performance and any other relief that may be available from a court of competent jurisdiction (without any requirement to post bond).

Section 14.15 ATTORNEYS' FEES. In the event that any party hereto institutes any legal suit, action or proceeding, including arbitration, against another party in respect of a matter arising out of or relating to this Agreement, the prevailing party in the suit, action or proceeding will be entitled to receive, in addition to all other damages to which it may be entitled, the costs incurred by such party in conducting the suit, action or proceeding, including reasonable attorneys' fees and expenses and court costs.

Section 14.16 REMEDIES CUMULATIVE. The rights and remedies under this Agreement are cumulative and are in addition to and not in substitution for any other rights and remedies available at law or in equity or otherwise, except to the extent expressly provided in Section 13.2 to the contrary.

Section 14.17 COUNTERPARTS; ELECTRONIC SIGNATURES. This Agreement may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed to be one and the same agreement. A signed copy of this Agreement delivered by facsimile or email will be deemed to have the same legal effect as delivery of an original signed copy of this Agreement. Signatures of the parties through electronic means or methods shall be deemed to be their original signatures for all purposes.
