§227.201(D) – THE COMPANY’S BUSINESS AND BUSINESS PLAN

Invest in a sustainable, mission-driven beauty company in the City of Holyoke.

The traditional way to describe *The Plan* is “a salon”. We offer a full menu of hair, skin, and beauty services - but that description alone sells us short. We are a sustainable, mission-driven beauty company working to help elevate our employees, our customers, our industry, and most importantly our community. We will be using our business as a force for positive change, starting with helping to revitalize downtown Holyoke. We have leased a space in the Wauregan Building on Dwight Street, and have plans to bring beauty back to this former paper mill with the help of our architect, Noah Modie, from [Oxbow Design Build](#). *The Plan* is a beauty company that stands 100% behind the idea that beauty is much deeper than a look. We want to be part of not only making people look better, but also feel better. We care about sustainability and want to do our part for a greener future. We have some of the most talented and educated stylists and estheticians in the region, but we promise that *The Plan* is more than just a salon.

Our Story

As founders, we are bringing 30 years of combined experience working in the hair and beauty industry, including two years as owners and founders at another salon that grossed \$1 million in our first year of business. Earlier this year we left that salon after deciding we wanted to move in another direction. We are staying true to our vision and our values no matter what it takes. This mindset is how *The Plan* was born. Although this is a new business, we are bringing extensive experience from running our first business. We learned so many valuable lessons, including the importance of accountability, transparency, relationships with our clients and employees, and the importance of building a strong and consistent culture. We are now clearer than ever on our *plan*, and we have proved that we have the perseverance, passion, and leadership to not stop working until it’s in place.

Intended Use of Offerings

The Plan has leased a space in the Wauregan Building, a former paper mill on Dwight Street in Holyoke. The proceeds will be used to move the build out of the space to the next phase. Our architect, Noah Modie from Oxbow Design Build, is helping us create a design that will rehab the space back to its natural beauty. At our maximum target, we will be able to fully furnish our space and buy initial product lines, allowing us to open our doors.

Please note that an additional loan is in the process of being secured outside of MainVest to cover all remaining startup costs and provide working capital.

Business Model

The Plan is a new business on paper, but we will be opening our doors with 7 stylists (including owners), and one esthetician, all established and with a following built over the last 15 years. This combination of an experienced team and a loyal client base will allow us to start quickly generating projected revenue as soon as our doors open.

Key Facts

- 90% of The Plan's revenue will come from traditional salon services provided to our clients. The remaining 10% will come from product sales and events
- Projected to earn \$700k in revenue in year 1 (conservative forecast based off actual figures from our last salon business venture)
- Our two largest costs are variable costs - commission paid to our stylists and esthetician will be roughly 18% of revenue, and hair color will be about 7.5% of revenue
- Our two largest fixed costs are for our lease and wages paid to hourly employees (assistants, receptionist, maintenance/cleaning)

Plans For Expansion

- Operations will begin with 7 stylists, but there is room for another 8+ stylists which will help drive growth in our service sales
- Year 1's focus will be primarily on sales from service for individual clients, with only \$25,000 forecasted to come from special events and parties. By Year 2 we would like to hire an event coordinator who will focus on organizing events and parties, so we can grow that revenue stream through weddings, pop-up shop events, etc.
- Education will become a focus of The Plan by Year 2. We want to become an education hub for not only our stylists but stylists from any other salon in the country. We will collaborate with top talent to offer training, education, and mentoring at our salon, allowing us to help shape the industry while creating an entirely new revenue stream not included in our current projections.

Market Analysis

The hair salon industry is set to continue growing over the next five years, and is expected to out perform the United States general economy during that time. Two of the key drivers of success in our industry are an ability to keep up with trends, and having a loyal customer base, two areas of strength for *The Plan*.

When it comes to competition, we have a unique perspective. We are aware of the other salons that exist in our city and the entire Pioneer Valley, but we are not in the business of competing against them. We believe this approach will actually become a competitive advantage in itself, because this outlook is not the norm in the beauty industry. Our business will thrive on collaboration, even if it means collaborating with another local salon that others may view as a competitor. We know we can better educate ourselves and our team, and more quickly transform the beauty industry, when we bring the talent and passion of all local stylists together.

Key Differentiators

While we aren't trying to compete, we are definitely trying to be different. Below are some of the things that set us apart from your traditional hair salon. We are building a business to fulfill a need that no other salon in the Pioneer Valley has been able to fulfill yet.

Sustainable Beauty: We will utilize sustainable products, energy, and systems wherever possible. This will allow us to attract a new demographic of clients that are searching for a high-quality, eco-friendly salon in Western Massachusetts, while being able to add value for our existing clients at the same time.

- We are the only *Davines* Flagship partner in the Pioneer Valley. Our entire hair product line will be from *Davines*, a beauty company committed to minimizing their impact on the environment, and doing their part not to compromise the quality or quantity of natural resources. They offer plant based products, with ingredients from farms in Italy, all packaged with recycled materials.
- We are one of only two [Green Circle Salons](#) in the Pioneer Valley. This partnership will allow us to re-purpose and recover up to 95% of the resources that were once considered waste; materials such as hair, leftover hair color, foils, color tubes, aerosol cans, paper and plastics.
- We plan to use *Eco-Heads* on our sinks, a product that reduces water & energy use by up to 65%
- We will offer an in-salon [Beauty Counter shop](#), allowing our clients to conveniently shop for safer skin care and make-up. Beauty Counter creates products that have been sourced sustainably and screened rigorously, ensuring the highest safety for its consumers and the environment.
- We will be operating in a city relying on several solar and hydro facilities. In 2017, 95% of the electricity sold was carbon free. Holyoke is on track to be one of the greenest cities in the country by 2019.

Mission Driven: While we will always take the best care of our clients' hair and skin, we have a plan to also do so much more than that.

- We want to use our business as a force for good. With that in mind, we will be working from day one to become a [Certified B Corporation](#) within 5 years. Certified B Corporations measure success not only by profits, but also based on the impact they have on people, the planet, and contributing towards positive change.
- We are committed to the City of Holyoke and our community. When we say this we mean it. We are already giving back and we haven't even opened our doors yet. We have mentored students from Holyoke High School as well as the Holyoke Boys and Girls Club. We will continue to build partnerships with local non-profits in order to continuously help elevate the citizens of Holyoke.
- We want to create a movement to redefine the beauty industry. We are breaking down barriers and removing stigma often found within beauty salons. Labor abuse is far too common, and often times cosmetology schools aren't giving students the 21st education they need to excel. We will have a mentoring program setup for our employees that will allow them to develop their skills and learn the salon business, including laws and employee rights, while empowering them to achieve their goals. We also want to advocate to see positive change in the beauty industry as a whole, including changes to the beauty school curriculum.

The Experience: We want to make our clients not just look good, but also feel good. They are more than just a body in a chair, and beauty is defined by more than just looks.

- We believe in compassion, self-care, positive thinking, and kindness, and will spread this in our salon every day.
- We are authentic and transparent. We believe in doing the right thing always. If something isn't right, we will make it right.
- We strive to be an inclusive and completely judgement free space. Everyone will be treated equally and everyone will actually feel welcome when they walk through our doors.

If a material change occurs after you make an investment commitment but before the Offering closes, then the Company will notify you and ask whether you want to invest anyway. If you do not affirmatively choose to invest, then your commitment will be cancelled, your funds will be returned to you, and you will not receive any securities.

§227.201(L) – PRICE OF THE SECURITIES

**INTENDED FOR REVIEW BY POTENTIAL INVESTORS ON MAINVEST ONLY.
DO NOT COPY OR DISTRIBUTE.**

The Company is offering “securities” in the form of Revenue Sharing Notes, which we refer to as “Notes.” The Notes are being offered at their face amount. For example, you will pay \$1,000 for a Note with a face amount of \$1,000.

§227.201(M) – TERMS OF THE SECURITIES

Overview

The Company is offering “securities” in the form of Revenue Sharing Notes, which we refer to as “Notes.” Many of the terms of the Notes are set forth in a separate document called the Note Indenture. Copies of the form of Note the Company will issue, and the Note Indenture, are attached to this Form C.

Your Right to Payments under the Note

Your right to payments under the Note is set forth in the Note, together with a separate document called the Note Indenture. Copies of the form of Note the Company will issue, and the Note Indenture, are attached to this Form C. Additionally, general terms are outlined below and in the Company’s offering page:

SENIORITY

*as further defined in the note agreement

**The rate of revenue sharing is calculated on a linear scale, with a minimum rate of 4% and a maximum rate of 5% (rounded to the nearest 1/10th percent). The final rate is based on the amount raised and is calculated after the offering has successfully closed. As the amount raised in the offering increases, the rate of revenue sharing increases.

Obligation to Contribute Capital

Once you pay for your Note, you will have no obligation to contribute more money to the Company, and you will not be personally obligated for any debts of the Company. However, under some circumstances you could be required by law to return some or all of a distribution you receive from the Company.

No Right to Transfer

The Notes will be illiquid (meaning you might not be able to sell them) for four reasons:

- The Note Indenture prohibits the sale or other transfer of Notes without the Company’s consent.
- If you want to sell your Note the Company will have the first right of refusal to buy it, which could make it harder to find a buyer.
- Even if a sale were permitted, there is no ready market for Notes, as there would be for a publicly-traded stock.

**INTENDED FOR REVIEW BY POTENTIAL INVESTORS ON MAINVEST ONLY.
DO NOT COPY OR DISTRIBUTE.**

- By law, for a period of one year you won't be allowed to transfer the Notes except (i) to the Company itself, (ii) to an "accredited" investor, (iii) to a family or trust, or (iii) in a public offering of the Company's shares.

As a result, you should plan to hold your Note until maturity.

Security

The Notes are not secured by any assets of the Company or any assets of persons associated with the Company.

Modification of Terms of Notes

The terms of the Notes and the Note Indenture may be amended with the written consent of (i) the Company, and (ii) Investors who own more than fifty percent (50%) of all such Notes issued in the same offering, measured by the total amount outstanding under each Note.

Other Classes of Securities

The Company has outstanding the following securities:

Name of Security	Limited Liability Company Interests
Number of Shares Outstanding	n/a
Describe Voting Rights of These Securities, Including Any Limitations on Voting Rights	n/a
How These Securities Differ from the Promissory Notes Offered to Investors	n/a

Dilution of Rights

The Company has the right to create additional classes of securities, both equity securities and debt securities (e.g., other classes of promissory notes). Some of these additional classes of securities could have rights that are superior to those of the Notes. For example, the Company could issue promissory notes that are secured by specific property of the Company.

The People Who Control the Company

Each of these people owns 20% or more of the total voting power of the Company:

<i>Name</i>	<i>Percentage of Voting Rights</i>
Tiffany Duchesne	50%
Chelsea Falcetti	50%

How the Exercise of Voting Rights Could Affect You

You will receive payments with respect to your Note only if the Company makes enough money to pay you or, if the Company doesn't make enough money to pay you, if there is enough value in the collateral the Company pledged as security for the Notes.

The people with voting rights control the Company and make all the decisions about running its business. If they make good business decisions, it is more likely you will be paid. If they make poor business decisions, it is less likely you will be paid. For example, if they hire too many people and/or try to expand too quickly, the business

**INTENDED FOR REVIEW BY POTENTIAL INVESTORS ON MAINVEST ONLY.
DO NOT COPY OR DISTRIBUTE.**

could be harmed. The people with voting rights could also decide to file for bankruptcy protection, making it more difficult for you to be paid.

How the Notes are Being Valued

The Notes are being valued at their face value. We don't anticipate that we'll ever need to place a value on the Notes in the future.

§227.201(N) – THE FUNDING PORTAL

The Plan is offering its securities through MainVest, Inc., which is a "Funding Portal" licensed by the Securities and Exchange Commission and FINRA. SEC File number is 007-00162, and Central Registration Depository (CRD) number is 298384.

§227.201(O) – COMPENSATION OF THE FUNDING PORTAL

The Company will compensate MainVest, Inc. as follows:

MainVest will be paid 6.0% of the final offering amount, upon the successful completion of the offering. MainVest does not receive compensation if the offering does not succeed.

MainVest, Inc. owns no interest in the Company, directly or indirectly, and will not acquire an interest as part of the Offering, nor is there any arrangement for MainVest, Inc. to acquire an interest.

§227.201(P) – INDEBTEDNESS OF THE COMPANY

The Company has no indebtedness outside of the debt the Company is expecting to raise through regulation crowdfunding on MainVest.

§227.201(Q) – OTHER OFFERINGS OF SECURITIES WITHIN THE LAST THREE YEARS

Company Condition

The Company has not made any offerings with other third party regulation crowdfunding companies in the past three years

§227.201(R) – TRANSACTIONS BETWEEN THE COMPANY AND "INSIDERS"

Company Condition

The Company has not made any business transaction, including stock purchases, salaries, property rentals, consulting arrangements, guaranties, etc.

§227.201(S) – THE COMPANY'S FINANCIAL CONDITION

The Company was established in June 2018. As such, there are limited financial statements and information for the investor to review.

Without the funds the Company plans to raise through regulation crowdfunding on MainVest, the Company would need to find other funds for the completion of its buildout, equipment, and ultimately to launch the

Company. At this time, the Company will need to secure another form of capital (e.g. bank loan or equity investment) in order to launch the Company. The Company has no outstanding debt at the time of this offering.

APPENDIX A: INVESTMENT RISKS

YOU MIGHT LOSE YOUR MONEY

When you buy a certificate of deposit from a bank, the Federal government (through the FDIC) guarantees you will get your money back. Buying a Note is not like that at all. The ability of the Company to make the payments you expect, and ultimately to give you your money back, depends on a number of factors, including many beyond our control.

LIMITED OPERATING HISTORY

The Company is a newly established entity and has no history for prospective investors to consider.

LACK OF ACCOUNTING CONTROLS

Larger companies typically have in place strict accounting controls. Smaller companies typically lack these controls, exposing themselves to additional risk.

RELIANCE ON MANAGEMENT

As a securities holder, you will not be able to participate in the Company's management or vote on and/or influence any managerial decisions regarding the Company. Furthermore, if the founders or other key personnel of the Company were to leave the Company or become unable to work, the Company (and your investment) could suffer substantially.

FINANCIAL FORECASTS RISKS

The financial forecasts provided by us herein are reasonable forecasts by us based upon assumption of stable economic conditions and other various assumptions regarding operations. The validity and accuracy of these assumptions will depend in large part on future events over which the Company and the key persons will have no control. Changes in assumptions or their underlying facts could significantly affect the forecasts. To the extent that the assumed events do not occur, the outcome may vary significantly from the projected outcomes. Consequently, there can be no assurance that the actual operating results will correspond to the forecasts provided herein.

INABILITY TO SELL YOUR INVESTMENT

The law prohibits you from selling your securities (except in certain very limited circumstances) for 12 months after you acquire them. Even after that one-year period, a host of Federal and State securities laws may limit or restrict your ability to sell your securities. Even if you are permitted to sell, you will likely have difficulty finding a buyer because there will be no established market. Given these factors, you should be prepared to hold your investment for its full term.

THE COMPANY MIGHT NEED MORE CAPITAL

The Company might need to raise more capital in the future to fund/expand operations, buy property and equipment, hire new team members, market its services, pay overhead and general administrative expenses, or a variety of other reasons. There is no assurance that additional capital will be available when needed, or that it will be available on terms that are not adverse to your interests as an investor. If the Company is unable to obtain additional funding when

needed, it could be forced to delay its business plan or even cease operations altogether.

CHANGES IN ECONOMIC CONDITIONS COULD HURT THE COMPANY

Factors like global or national economic recessions, changes in interest rates, changes in credit markets, changes in capital market conditions, declining employment, changes in real estate values, changes in tax policy, changes in political conditions, and wars and other crises, among other factors are unpredictable and could negatively affect the Company's financial performance or ability to continue to operate.

NO REGISTRATION UNDER SECURITIES LAWS

The Notes will not be registered with the SEC or the securities regulator of any State. Hence, neither the Company nor the Notes will be subject to the same degree of regulation and scrutiny as if they were registered.

INCOMPLETE OFFERING INFORMATION

Title III does not require us to provide you with all the information that would be required in some other kinds of securities offerings, such as a public offering of shares (for example, publicly-traded firms must generally provide investors with quarterly and annual financial statements that have been audited by an independent accounting firm). Although Title III does require extensive information, it is possible that you would make a different decision if you had more information.

LACK OF ONGOING INFORMATION

The Company will be required to provide some information to investors for at least 12 months following the offering. However, this information is far more limited than the information that would be required of a publicly-reporting company; and the Company is allowed to stop providing annual information in certain circumstances.

UNINSURED LOSSES

Although the Company will carry liability and workers comp insurance, the Company may not carry enough insurance to protect against all risks to the business. Additionally, there are some kinds of risks that are very difficult or impossible to insure against, at least at a reasonable cost. Therefore, the Company could incur an uninsured loss that could damage its business.

CHANGES IN LAWS

Changes in laws or regulations, including but not limited to zoning laws, environmental laws, tax laws, consumer protection laws, securities laws, antitrust laws, and health care laws, could negatively affect the Company's financial performance or ability to continue to operate. Specifically, any additional regulation on the beauty industry could significantly negatively affect the business.

CONFLICT OF INTEREST WITH COMPANIES AND THEIR MANAGEMENT

In many ways, your interests and the interests of the Company's management will coincide: you both want the Company to be as successful as possible. However, your interests might be in conflict in other important areas, including these:

- You might want the company to act conservative to make sure they are best equipped to repay the Note obligations, while the company might prefer to spend aggressively to invest in the business.
- You would like to keep the compensation of managers low, while managers want to make as much as they can.

FUTURE INVESTORS MIGHT HAVE SUPERIOR RIGHTS

If the Company needs more capital in the future and takes on additional debt or other sources of financing, the new investors might have rights superior to yours. For example, they might have the right to be paid before you are, to receive larger distributions, to have a greater voice in management, or otherwise.

THE COMPANY IS NOT SUBJECT TO THE CORPORATE GOVERNANCE REQUIREMENTS OF THE NATIONAL SECURITIES EXCHANGES

Any company whose securities are listed on a national stock exchange (for example, the New York Stock Exchange) is subject to a number of rules about corporate governance that are intended to protect investors. For example, the major U.S. stock exchanges require listed companies to have an audit committee made up entirely of independent members of the board of directors (i.e., directors with no material outside relationships with the company or management), which is responsible for monitoring the company's compliance with the law. The Company will not be required to implement these and other investor protections.

YOU HAVE A LIMITED UPSIDE

Notes include a maximum amount you can receive. You cannot receive more than that even if the Company is significantly more successful than your initial expectations.

PAYMENTS AND RETURN ARE UNPREDICTABLE

Because your payments are based on the revenue of the Company, and the revenue of the Company can go up or down (or even disappear altogether) unpredictably, it is impossible to predict how much you will receive and when. And because the payments are unpredictable, so is your ultimate return.

THE NOTES ARE UNSECURED AND UNINSURED

The Notes are not secured by any collateral, nor are they guaranteed or insured by the FDIC or any other entity.

SUBORDINATION

The Notes shall be subordinated to all indebtedness of the Company to banks, commercial finance lenders, leasing and equipment financing institutions, and/or other institutions regularly engaged in the business of lending money.

LACK OF GUARANTY

The Notes are not personally guaranteed by any of the founders or any other person.

LIMITATION OF INDIVIDUAL RIGHTS IN EVENT OF DEFAULT

In the event of a default under the Notes, you will not be able to enforce your rights individually (for example, by bringing a lawsuit). Instead, a representative will be appointed according to the procedures set forth in the Note Indenture. It's possible that you will not like the representative, or that the representative will do things you believe are wrong or misguided. If an event of default has occurred and a representative has been appointed, all of the representative's reasonable expenses must be paid before any further payments are made with respect to the Notes.
