10. The use of proceeds from this offering is set out as below:

	If target offering amount is sold:	If maximum offering amount is sold:
Total Proceeds	\$65,000	\$300,000
<i>Less: Offering Expenses</i>		
Portal Fee	\$650	\$3,000
Other Offering Expenses	\$1,650	\$5,500
Net Proceeds	\$62,700	\$291,500

Additional funds would also be used for marketing and operations.

The term “member of the family of the purchaser or the equivalent” includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. Valuation of Our Membership Units

The \$20 per Unit purchase price has been determined by our board of directors without an independent valuation of the Membership Units.

We generated revenue of \$44,270 in 2018, which was primarily realized in the second half of the fiscal year. With the funds raised in this offering, we expect we could achieve annual revenue of \$100,000. We apply 20x price-to-revenue for our valuation, which gives the company at a valuation of 2 million, or \$20 per Membership Units, given an issued number of units of 100,000.

We established the offering price based on our estimate of capital and expense requirements, and desirable expectation of our future profitability, not based on perceived market value, book value, or other established criteria. We did not obtain an independent appraisal opinion on the valuation of the Membership Units. The Membership Units may have a value significantly less than the offering price and there is no guarantee that the Units will ever attain a value equal to or greater than the offering price.

Methods for how the securities may be valued by the issuer in the future:

We may apply the following valuation methods for the future valuation of our membership units or securities to be issued:

1. Recent comparable financings of companies similar and comparable to us.
2. Market value based on recent M&A transactions in the sector
3. Discounted cash flow method (“DCF”)
4. Price/Book Value, Price/Earnings/Revenue Ratio of companies similar and comparable to us.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

- Purchasers of the securities in this offering have limited rights to demand distributions (e.g. dividends) from the Issuer.
- The majority owner may make a decision that the Purchasers consider bad and put Purchaser's interest in the Issuer at risk.
- Although, as Membership Units holders, the Purchasers would be entitled to a share of any proceeds from a sale of the entire business, the Purchasers may not veto the sale even though the price of sale is below its fair valuation. Moreover, a sale can be structured in a way to avoid any payout to minority owners, such as a sale of assets over time with the proceeds reinvested in another business.
- Since the securities in this offering are not publicly traded and are subject to restrictions on resale or transfer including holding period requirements, the securities in this offering are illiquid.
- Although the Purchasers of the securities offered are entitled voting rights, as minority shareholders, they may not have enough voting power to exert influence in the affairs of the company or the composition of its board of directors.
- The Purchasers of the securities offered are entitled no anti-dilution rights (other than proportionate adjustments for stock splits and similar events) and therefore future equity financings may dilute their ownership percentage in the issuer.

23. What are the risks to purchasers associated with corporate actions:

a. Additional Issuances of Securities

Purchasers of the securities offered are entitled no anti-dilution rights (other than proportionate adjustments for stock splits and similar events) and therefore future equity financings may dilute their ownership percentage in the issuer.

b. Issuer Repurchases of Securities

The issuer could be authorized to repurchase the company's issued securities subject to the approval by the company's board of directors. Purchasers of the securities may not impede the issuer's right to repurchase its securities from other shareholders. Moreover, the repurchase could be made at a price much lower than the company's business value or its fair valuation, which could be indicative of the resale price of the securities thereafter.

c. A Sale of the Issuer or of Assets of the Issuer

Although as Membership Units holders the Purchasers would be entitled to a share of any proceeds from a sale of the entire business, the Purchasers may not veto the sale even though the price of sale is below its fair valuation. Moreover, a sale can be structured in a way to avoid any payout to minority owners, such as a sale of assets over time with the proceeds reinvested in another business.

d. Transactions with Related Parties

Transactions with related parties are transactions between the issuer or any of its subsidiaries and a connected person. These transactions include both capital and revenue nature transactions. They may be one-off transactions or continuing transactions. Purchasers should be aware that these transactions may create conflicts of interests between themselves and the Issuer.

24. Describe the material terms of any indebtedness of the issuer:

The Company does not have material terms of indebtedness.

25. What other exempt offerings has the issuer conducted within the past three years?

The Company does not have exempt offerings has the issuer conducted within the past three years.

26. Was or is the issuer or any entities controlled by or under common control with the issuer a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(6) of the Securities Act during the preceding 12-month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:

- a. any director or officer of the issuer;
- b. any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;

FINANCIAL CONDITION OF THE ISSUER

27. Does the issuer have an operating history?

The Glute Pros (the Company) is a Limited Liability Company organized in the State of Utah in April 2017 and began operations during the 2018 year.

28. Describe the financial condition of the issuer, including, to the extent material, liquidity, capital resources and historical results of operations.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and related notes that appear in this Form C. In addition to historical consolidated financial information, the following discussion contains forward-looking statements that reflect our plans, estimates, and beliefs. Our actual results could differ materially from those discussed in the forward-looking statements. Factors that could cause or contribute to these differences include those discussed below and elsewhere in this Form C, particularly in "Risk Factors."

Revenues

Revenues in 2018 were \$44,270, which was come from the sales of the Glute Pros product - the total glute and leg-focused home gym workout tower set.

Our revenue is recognized on the accrual basis and as earned. This is typically when the client pays for the order upon purchase because orders are fulfilled shortly after.

Cost of Goods Sold and Operating Expenses

Cost of Goods Sold

Our cost of goods sold consists primarily of expenses associated with the delivery and distribution of our products. The cost of goods in 2018 was 34,728.

Operating Expenses

Total operating expenses in 2018 were \$20,941, including consulting fees, contractors expenses, office supplies & software and reimbursable expenses.

Net Income

Net loss for the 12 months ended December 31, 2018 was \$11,399.

Cash flows

In 2018, the cash flow used by operating activities was \$11,399 and during the year we didn't use any cash for investing activities. Cash flow from financing activities was \$12,239, which was the shareholder contributions during the year. Our net cash increase was \$840 during the fiscal year 2018.

Our historical results and cash flows are not representative of what investors should expect in the future.

Liquidity and Capital Resources

Our principal sources of liquidity are our cash and cash equivalents and cash generated from operations. Cash and cash equivalents consist primarily of cash on deposit with banks. Cash and cash equivalents totaled \$840 as of December 31, 2018.

The Company will fund its operations and capital expenditure requirements from operating cash flows, cash and cash equivalents, proceeds from this offering and credit facilities. We may raise additional funds through public or private equity offerings or debt financings, but there can be no assurance that we will be able to do so on acceptable terms or at all.

New business developments or other unforeseen events may occur, resulting in the need to raise additional funds. There can be no assurances regarding the business prospects with respect to any other opportunity. Any other development would require us to obtain additional financing.

Investors should be aware that historical results and cash flows are not representative of the future.

The Company are seeking a minimum of \$65,000 in this offering, which would improve the Company's liquidity and balance sheet, but whether or not receiving these funds and any other additional funds is not necessary to the viability of the business in the next 12 months and we expect that the Company's available cash together with the proceeds of the offering would be enough to finance its operation in the next 12 months.

According to the market situation, we may raise additional funds through public or private equity offerings or debt financings.

Discussion of Operations

The year 2018 was an important milestone for the Glute Pros. This was the first year when the Glute Pros flagship product - the total glute and leg-focused home gym workout tower set was introduced to the market. Our team consists of experts from the fitness industry, including owners of gym centers, gym coach and trainers. With the successful launch of our flagship product in 2018, we are set forth to build a strong foundation for business expansion and future development.

As we keep moving with the current market trend in the fitness industry and seize possible opportunities, we are more focused and dedicated to strengthening our positions towards a premium fitness equipment producer, despite the fact that we are put to the test under a challenging and fast-changing environment. Nevertheless, the fitness equipment industry especially in the United States enjoyed strong growth and was duly recognized by the investment community.

The Glute Pros will continue to solidify its unique position in the fitness equipment industry by producing value-for-money functional products. Starting from our flagship product, the Glute Pros tower set, we are looking forward to expanding our product range to professional and niche fitness workout products and accessories.

Appendix B - RISK FACTORS

RISKS RELATED TO OUR BUSINESS

Our products are used in situations that are inherently risky.

The products that we manufacture are typically used in applications and situations that involve risk of personal injury. Failure to use our products for their intended purposes, failure to use or care for them properly, or their malfunction, or, in some limited circumstances, even correct use of our products, could result in serious bodily injury or death.

We may face product liability and other claims exposure for which we may not be able to obtain adequate insurance.

In cases of product liability and other claims arising in tort, or claims for indirect and consequential loss, we may become subject to one or more product liability claims that, individually or together, could adversely affect our operations, financial condition and operating results. These claims could be expensive to defend and require the expenditure of significant resources and we cannot guarantee that our insurance coverage would be sufficient to cover the payment of any potential claim. Any claim brought against us in excess of available insurance coverage, or any claim or product recall that results in significant expense or adverse publicity against us, could have a material adverse effect on our business, operating results and financial condition.

Dependence on outside manufacturers

We depend heavily on various third-party manufacturers to manufacture our products. If there is any delay in delivery, or failure to meet our expectations and requirements, our business could be seriously affected. Currently, we rely on outside manufacturers for most of our products. In the event that any of our manufacturers should become too expensive or suffer from quality control problems or financial difficulties, we would have to find alternative sources, but we cannot guarantee that we can find alternative sources timely or at the same cost level.

Our success depends on the continuing efforts of our senior management team and other key personnel and our business may be harmed if we lose their services.

Our success depends upon the continuing services of our management team. We must continue to attract, retain and motivate a sufficient number of qualified personnel to maintain consistency in the quality and operation of our business. In addition, competition for experienced management and operating personnel in the health & fitness industry is intense, and the pool of qualified candidates is limited. We may not be able to retain the services of our key management and operating personnel or attract and retain high-quality personnel in the future.

Successful implementation of our business strategies and future plans are subject to uncertainties.

We plan to achieve our business growth by implementing a series of strategies as discussed in our business plan. However, there is no guarantee that we will be able to implement these strategies and future plans successfully, which in turn are subject to uncertainties and changing market conditions. Our development and business expansion plans are formulated based on assumptions on the occurrence of certain future events, which may or may not materialise. There is also no

assurance that any of our business strategies will yield the benefits or achieve the level of profitability we anticipate. If this happens, our results of operations and financial conditions could be adversely affected.

Our intellectual property rights, including trademarks and trade names, may be infringed, misappropriated or challenged by others.

We believe our brand and related intellectual property are important to our continued success. We seek to protect our brand name “The Glute Pros”, copyrights and other intellectual property by exercising our rights under applicable state and federal laws. If we were to fail to successfully protect our intellectual property rights for any reason, or if any third party misappropriates, dilutes or infringes our intellectual property, the value of our brands may be harmed, which could have an adverse effect on our business, results of operations and financial condition. Any damage to our reputation, could lead to fail to continue to attract potential customers and our business, financial condition, and results of operations could be materially and adversely affected.

Our business depends on our brand and reputation.

Our business depends on our brand and reputation as a designer and supplier of The Glute Pros, designed specifically for women. If we are not able to maintain the brand strength and reputation, our brand value, business and operating results could be materially and adversely affected. We believe that our brand “The Glute Pros” is instrumental to the success of our business. If the value of our brand or image and reputation is diminished, we may fail to continue to attract potential customers and our business, financial condition, and results of operations could be materially and adversely affected.

We have a history of losses and we may not be able to generate sufficient revenue to achieve and maintain profitability.

We incurred a net loss of approximately \$11,399 in 2018, primarily because we incurred significant consulting fees of approximately \$15,000 on R&D, spent money on contractors and incurred miscellaneous expenses on brand building and marketing activities for the purpose of driving the expansion of our business during the year, and also because we set lower prices for our products which were introduced to the markets in 2018 in order to promote these products to the market. We expect our operating expenses to increase as we expand our operations. Our ability to maintain profitability depends on the market conditions, the continued market acceptance of our “The Glute Pros” products, the competitiveness of our products and our ability to provide new products and services to meet the demand of our target consumer groups. There is no assurance that we will not incur additional losses in the future.

We expect that our revenue growth rate will fluctuate in the future as a result of a variety of factors. You should not rely on the revenue growth of any prior period as an indication of our future performance. We also expect our costs to increase in future periods as we continue to expend substantial financial resources on business development and acquisitions, sales and marketing and general administration, including legal and accounting expenses. As a result, if we are unable to maintain adequate revenue growth and to manage our expenses effectively, we may incur significant losses in the future and may not be able to achieve and maintain profitability. As a result, we may continue to generate losses and we cannot assure you that we will achieve profitability in the future or that, if we do become profitable, we will be able to maintain profitability.

We may not have timely access to adequate capital financing

We may require access to a adequate amount of capital in order to fund our continued operation and expansion. Moreover, we may not have timely, or able to access to adequate capital financing when suitable business opportunities arise. If we are unable to obtain sufficient resources to fund our operation or expansion plans, our business, financial condition, results of operations and prospects would be materially and adversely affected.

Failure to effectively promote our "The Glute Pros" brand may adversely affect our performance and sales of "The Glute Pros" branded products

We believe that brand image is a key factor in consumers' purchasing decisions for our products. Our "The Glute Pros" brand is therefore critical to our success in the fitness equipment market. We market our "The Glute Pros" brand through various media channels and if we fail to successfully promote our "The Glute Pros" brand in the United States, the goodwill attached to our "The Glute Pros" brand may decrease, and the market recognition of the "The Glute Pros" brand may suffer. As a result, consumer confidence in our "The Glute Pros" brand may be eroded and our business, profitability, and results of operations may be adversely affected.

Our future success depends on our ability to anticipate and respond in a timely manner to ever-evolving consumer tastes and preferences for fitness equipment products

The success and popularity of our fitness equipment products depend on our ability to identify trends and design products that appeal to our targeted customers. Trends and consumer preferences, however, may change frequently. We are unable to guarantee that we can anticipate and respond in a timely manner to changes in consumer tastes and preferences. If we are unable to successfully adjust to changes in consumer tastes and preferences, the demand for our products may decrease and our business, financial condition and results of operations may be adversely affected.

Our operating results may be adversely affected by increases in the market prices of raw materials if we are unable to pass on the increased cost of raw materials to our customers through higher prices for our products

Our operations depend on obtaining adequate supplies of raw materials, including metallic and plastic parts. The prices of certain of our key raw materials, such as plastic parts, are subject to fluctuations. We may also experience difficulty in obtaining other acceptable quality materials on a timely basis and the prices that we pay for such materials may increase due to increased industry demand. If we are unable to pass on the increased cost to our customers, our business, financial condition and results of operations may be adversely affected.

RISKS RELATED TO THE OFFERING

We determined the price of the Membership Units arbitrarily.

The offering price of the Membership Units has been determined by management, and bears no relationship to our assets, book value, potential earnings, net worth or any other recognized criteria of value. We cannot assure that price of the Units is the fair market value of the Units or that investors will earn any profit on them.

We cannot assure that we will pay dividends.

We do not currently anticipate declaring and paying dividends to our shareholders in the near future. It is our current intention to apply net earnings, if any, in the foreseeable future to increasing its capital base and marketing. Prospective investors seeking or needing dividend income or liquidity should therefore not purchase our membership units. We cannot assure that we will ever have sufficient earnings to declare and pay dividends to the holders of our membership units, and in any event, a decision to declare and pay dividends is at the sole discretion of our board of directors.

You can't easily resell the securities.

There are restrictions on how you can resell your securities. More importantly, there is no market for these securities, and there might never be one. It's unlikely that the company will ever go public or get acquired by a bigger company. That means the money you paid for these securities could be tied up for a long time.

Our failure to maintain effective internal controls over financial reporting could have an adverse impact on us.

We are required to establish and maintain appropriate internal controls over financial reporting. Failure to establish those controls, or any failure of those controls once established, could adversely impact our public disclosures regarding our business, financial condition or results of operations. In addition, management's assessment of internal controls over financial reporting may identify weaknesses and conditions that need to be addressed in our internal controls over financial reporting or other matters that may raise concerns for investors. Any actual or perceived weaknesses and conditions that need to be addressed in our internal control over financial reporting, disclosure of management's assessment of our internal controls over financial reporting or disclosure of our public accounting firm's attestation to or report on management's assessment of our internal controls over financial reporting may have an adverse impact on the price of our membership units.

INDEPENDENT ACCOUNTANT'S REVIEW REPORT

January 15, 2019

To the Shareholders
Glute Pros
Gilbert, AZ

We have reviewed the accompanying financial statements of Glute Pros, which comprise the balance sheets as of December 31, 2017 and December 31, 2018, and the related statements of income, change in member's equity, and cash flows for the years then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS **AS OF DECEMBER 31, 2017 & DECEMBER 31, 2018**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations and Basis of Accounting

Glute Pros (the Company) is a Limited Liability Company organized in the State of Utah in April 2017 and began operations during the 2018 year. The Company is owned by Jared Davis, Whitney Jones, Damian Segovia, Darren Neilsen, and Chris Brennan. The Company sells high quality fitness equipment, glute and leg equipment, specifically designed for gyms or home gyms. Services are currently provided primarily to individuals and businesses based in the United States of America. The Company operates in the 423910 NAICS industry classification code. The Company's financial statements are presented in accordance with accounting principles generally accepted in the United States of America.

Accounts Receivable

There are no Accounts Receivable balances currently and the Company does not expect to have them in the foreseeable future. The current structure of sales is that customers pay for their order at the time of purchase.

Property and Equipment

There is no Property or Equipment owned by the Company. Property and equipment will be stated at cost when acquired. The Company will calculate and record depreciation and amortization using tax depreciation methods as provided in the Internal Revenue Code. Tax depreciation and amortization methods result in depreciation and amortization methods that generally range from 3 to 7 years for depreciation on a double declining and straight line basis and 15 years for amortization on a straight line basis.

With the exception of certain major items, expenditures for maintenance and repairs will be expensed as incurred. It is the policy of the Company to capitalize property and equipment expenditures greater than \$300. When assets are sold or retired, the cost and accumulated depreciation are removed from the accounts, and any resulting gain or loss is included in net income.

Revenue Recognition

Revenue is recognized on the accrual basis and as earned. This is typically when the client pays for the order upon purchase because orders are fulfilled shortly after. This happens within the reporting period which results in no unrecognized revenue to report at the end of the 12/31/2017 or 12/31/2018 periods.

Income Taxes and Uncertain Tax Positions

The Company is not a taxpaying entity for federal income tax purposes, and accordingly no federal income tax provision has been recorded in the financial statements. The Company did not recognize any tax-related interest or penalties on the statements of income for the years ended December 31, 2017 or December 31, 2018 and the Company has no unrecognized tax benefits and no uncertain tax positions for the those same years. Revenue and expense activity of the Company is included with the revenue and expenses of the Company's owners. As a result,

Unaudited financial statements - see accompanying notes and independent accountant's review report

the Company's owners recognize any and all tax effects resulting from the Company's financial activity.

The Company is not a taxpaying entity for state income tax purposes, and accordingly no state or local income tax provision has been recorded in the financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Marketing and Promotion

Marketing and promotion costs are expensed as incurred. Total marketing and promotion expenses for the year ended December 31, 2017 was \$0 and for the year ended December 31, 2018 it was \$658.

NOTE 2 - RELATED PARTY RECEIVABLE

The Company does not have any related party receivable balances to report.

NOTE 3 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through the date the financial statements were available to be issued which was January 15, 2019.
