RISK FACTORS

Investing in the Securities involves a high degree of risk and may result in the loss of your entire investment. Before making an investment decision with respect to the Securities, we urge you to carefully consider the risks described in this section and other factors set forth in this Form C/A. In addition to the risks specified below, the Company is subject to same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. Prospective Investors should consult with their legal, tax and financial advisors prior to making an investment in the Securities. The Securities should only be purchased by persons who can afford to lose all of their investment.

Risks Related to the Company's Business and Industry

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.

The Company is still in an early phase and we are just beginning to implement our business plan. There can be no assurance that we will ever operate profitably. The likelihood of our success should be considered in light of the problems, expenses, difficulties, complications and delays usually encountered by early stage companies. The Company may not be successful in attaining the objectives necessary for it to overcome these risks and uncertainties.

Global crises such as COVID-19 can have a significant effect on our business operations and revenue projections.

With shelter-in-place orders and non-essential business closings throughout 2020 due to COVID-19, the Company's revenue was adversely affected. The COVID-19 pandemic forced NUOVO to scale down their operations due to the lack of travel.

The amount of capital the Company is attempting to raise in this Offering may not be enough to sustain the Company's current business plan.

In order to achieve the Company's near and long-term goals, the Company may need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Company will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations will be in jeopardy and we may be forced to cease operations and sell or otherwise transfer all or substantially all of our remaining assets, which could cause an Investor to lose all or a portion of their investment.

We may face potential difficulties in obtaining capital.

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of revenues from sales, as well as the inherent business risks associated with our Company and present and future market conditions. We will require additional funds to execute our business strategy and conduct our operations. If adequate funds are unavailable, we may be required to delay, reduce the scope of or eliminate one or more of our research, development or commercialization programs, product launches or marketing efforts, any of which may materially harm our business, financial condition and results of operations.

We may not have enough authorized membership interests to issue membership interests to investors upon the conversion of any security convertible into our membership interests, including the Securities.

Currently, all of our membership interests are issued and outstanding. Unless our operating agreement is amended to constitute units in order to represent an interest in our membership interests, we may not have enough authorized membership interests to be able to obtain funding by issuing membership interests or securities convertible into membership interest. We may also not have enough authorized membership interests to issue membership interests to investors upon the conversion of any security convertible into our membership interests, including the Securities.

We may implement new lines of business or offer new products and services within existing lines of business.

As an early-stage company, we may implement new lines of business at any time. There are substantial risks and uncertainties associated with these efforts, particularly in instances where the markets are not fully developed. In developing and marketing new lines of business and/or new products and services, we may invest significant time and resources. Initial timetables for the introduction and development of new lines of business and/or new products or services may not be achieved, and price and profitability targets may not prove feasible. We may not be successful in introducing new products and services in response to industry trends or developments in technology, or those new products may not achieve market acceptance. As a result, we could lose business, be forced to price products and services on less advantageous terms to retain or attract clients or be subject to cost increases. As a result, our business, financial condition or results of operations may be adversely affected.

We rely on various intellectual property rights, including trademarks, in order to operate our business.

The Company relies on certain intellectual property rights to operate its business. The Company's intellectual property rights may not be sufficiently broad or otherwise may not provide us a significant competitive advantage. In addition, the steps that we have taken to maintain and protect our intellectual property may not prevent it from being challenged, invalidated, circumvented or designed-around, particularly in countries where intellectual property rights are not highly developed or protected. In some circumstances, enforcement may not be available to us because an infringer has a dominant intellectual property position or for other business reasons, or countries may require compulsory licensing of our intellectual property. Our failure to obtain or maintain intellectual property rights that convey competitive advantage, adequately protect our intellectual property or detect or prevent circumvention or unauthorized use of such property, could adversely impact our competitive position and results of operations.

We also rely on nondisclosure and noncompetition agreements with employees, consultants and other parties to protect, in part, trade secrets and other proprietary rights. There can be no assurance that these agreements will adequately protect our trade secrets and other proprietary rights and will not be breached, that we will have adequate remedies for any breach, that others will not independently develop substantially equivalent proprietary information or that third parties will not otherwise gain access to our trade secrets or other proprietary rights. As we expand our business, protecting our intellectual property will become increasingly important. The protective steps we have taken may be inadequate to deter our competitors from using our proprietary information. In order to protect or enforce our patent rights, we may be required to initiate litigation against third parties, such as infringement lawsuits. Also, these third parties may assert claims against us with or without provocation. These lawsuits could be expensive, take significant time and could divert management's attention from other business concerns. The law relating to the scope and validity of claims in the technology field in which we operate is still evolving and, consequently, intellectual property positions in our industry are generally uncertain. We cannot assure you that we will prevail in any of these potential suits or that the damages or other remedies awarded, if any, would be commercially valuable.

The Company's success depends on the experience and skill of the board of managers, its executive officers and key employees.

In particular, we are dependent on Nicolas Ortega Arosemena, our Manager and Chief Executive Officer, along with the other members of our Board of Managers, namely: Fabian Ortega Arosemena, Andres Ortega Arosemena, Steven Rhodes and Fabian Ortega Trujillo. The Company has or intends to enter into employment agreements with Mr. N. Ortega, however there can be no assurance that it will do so or that he will continue to be employed by the Company for a particular period of time. The loss of Mr. Ortega, Fabian Ortega Arosemena, Andres Ortega Arosemena, Steven Rhodes or Fabian Ortega Trujillo could harm the Company's business, financial condition, cash flow and results of operations.

Mr. Andres Ortega Arosemena may not devote his full time and attention to our company.

Mr. Andres Ortega Arosemena, a member of our Board of Managers, has business interests outside our company. Accordingly, from time to time he may not devote his full time and attention to our affairs. There are no assurances that our business and operations may not be adversely impacted in future periods as a result of the time he may devote to his other business interests instead of a sole focus by him on the affairs of our company.

Although dependent on certain key personnel, the Company does not have any key person life insurance policies on any such people.

We are dependent on certain key personnel in order to conduct our operations and execute our business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of these personnel die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and our operations. We have no way to guarantee key personnel will stay with the Company, as many states do not enforce non-competition agreements, and therefore acquiring key man insurance will not ameliorate all of the risk of relying on key personnel.

Damage to our reputation could negatively impact our business, financial condition and results of operations.

Our reputation and the quality of our brand are critical to our business and success in existing markets, and will be critical to our success as we enter new markets. Any incident that erodes consumer loyalty for our brand could significantly reduce its value and damage our business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar devices, including blogs, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience of consumers and other interested persons. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be adverse to our interests or may be inaccurate, each of which may harm our performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correction.

We have not fully developed a market and lack brand recognition.

Our ability to finance operations and to achieve profitability will depend, in large part, on our ability introduce and successfully market our products and services. Market and brand acceptance and recognition generally require substantial time and effort. In the public safety market, where our and our competitors' customers may share information or provide reviews about our and our competitor's services, customers are highly fraternal, and credibility and reputation are critical, so any adverse reviews about our services may have a negative effect on our business operations. While we believe that our technology, business development, marketing, and sales plan will generate the projections that we have provided, we make no assurances that the markets will be penetrated as planned. Additionally, if it is, we make no assurances regarding the level of penetration required to be successful in helping us realize a competitive advantage over existing competitors or others who may enter the markets.

Our business could be negatively impacted by cyber security threats, attacks and other disruptions.

We continue to face advanced and persistent attacks on our information infrastructure where we manage and store various proprietary information and sensitive/confidential data relating to our operations. These attacks may include sophisticated malware (viruses, worms, and other malicious software programs) and phishing emails that attack our products or otherwise exploit any security vulnerabilities. These intrusions sometimes may be zero-day malware that are difficult to identify because they are not included in the signature set of commercially available antivirus scanning programs. Experienced computer programmers and hackers may be able to penetrate our network security and misappropriate or compromise our confidential information or that of our customers or other third-parties, create system disruptions, or cause shutdowns. Additionally, sophisticated software and applications that we produce or procure from third-parties may contain defects in design or manufacture, including "bugs" and other problems that could unexpectedly interfere with the operation of the information infrastructure. A disruption, infiltration or failure of our information infrastructure systems or any of our data centers as a result of software or hardware malfunctions, computer viruses, cyber-attacks, employee theft or misuse, power disruptions, natural disasters or accidents could cause breaches of data security, loss of critical data and performance delays, which in turn could adversely affect our business.

Changes in government regulation could adversely impact our business.

The Company may be, or may become, subject to legislation and regulation at the federal and local levels and, in some instances, at the state level. The Federal Communications Commission and/or Congress may attempt to change the classification of or change the way that our online content platforms are regulated and/or change the framework under which Internet service providers are provided Safe Harbor for claims of copyright infringement, introduce changes to how digital advertising is regulated and consumer information is handled, changing rights and obligations of our competitors. We expect that court actions and regulatory proceedings will continue to refine our rights and obligations

under applicable federal, state and local laws, which cannot be predicted. Modifications to existing requirements or imposition of new requirements or limitations could have an adverse impact on our business.

Security breaches of confidential customer information, in connection with our electronic processing of credit and debit card transactions, or confidential employee information may adversely affect our business.

Our business requires the collection, transmission and retention of personally identifiable information, in various information technology systems that we maintain and in those maintained by third parties with whom we contract to provide services. The integrity and protection of that data is critical to us. The information, security and privacy requirements imposed by governmental regulation are increasingly demanding. Our systems may not be able to satisfy these changing requirements and customer and employee expectations, or may require significant additional investments or time in order to do so. A breach in the security of our information technology systems or those of our service providers could lead to an interruption in the operation of our systems, resulting in operational inefficiencies and a loss of profits. Additionally, a significant theft, loss or misappropriation of, or access to, customers' or other proprietary data or other breach of our information technology systems could result in fines, legal claims or proceedings.

The use of individually identifiable data by our business, our business associates and third parties is regulated at the state, federal and international levels.

The regulation of individual data is changing rapidly, and in unpredictable ways. A change in regulation could adversely affect our business, including causing our business model to no longer be viable. Costs associated with information security – such as investment in technology, the costs of compliance with consumer protection laws and costs resulting from consumer fraud – could cause our business and results of operations to suffer materially. Additionally, the success of our online operations depends upon the secure transmission of confidential information over public networks, including the use of cashless payments. The intentional or negligent actions of employees, business associates or third parties may undermine our security measures. As a result, unauthorized parties may obtain access to our data systems and misappropriate confidential data. There can be no assurance that advances in computer capabilities, new discoveries in the field of cryptography or other developments will prevent the compromise of our customer transaction processing capabilities and personal data. If any such compromise of our security or the security of information residing with our business associates or third parties were to occur, it could have a material adverse effect on our reputation, operating results and financial condition. Any compromise of our data security may materially increase the costs we incur to protect against such breaches and could subject us to additional legal risk.

The Company is not subject to Sarbanes-Oxley regulations and may lack the financial controls and procedures of public companies.

The Company may not have the internal control infrastructure that would meet the standards of a public company, including the requirements of the Sarbanes Oxley Act of 2002. As a privately-held (non-public) Company, the Company is currently not subject to the Sarbanes Oxley Act of 2002, and its financial and disclosure controls and procedures reflect its status as a development stage, non-public company. There can be no guarantee that there are no significant deficiencies or material weaknesses in the quality of the Company's financial and disclosure controls and procedures. If it were necessary to implement such financial and disclosure controls and procedures, the cost to the Company of such compliance could be substantial and could have a material adverse effect on the Company's results of operations.

We operate in a highly regulated environment, and if we are found to be in violation of any of the federal, state, or local laws or regulations applicable to us, our business could suffer.

We are also subject to a wide range of federal, state, and local laws and regulations, such as local licensing requirements, and retail financing, debt collection, consumer protection, environmental, health and safety, creditor, wage-hour, anti-discrimination, whistleblower and other employment practices laws and regulations and we expect these costs to increase going forward. The violation of these or future requirements or laws and regulations could result in administrative, civil, or criminal sanctions against us, which may include fines, a cease and desist order against the subject operations or even revocation or suspension of our license to operate the subject business. As a result, we have incurred and will continue to incur capital and operating expenditures and other costs to comply with these requirements and laws and regulations.

Our revenue growth rate has slowed, and we expect it to continue to slow in the future.

We have experienced significant revenue growth in the past; however, our revenue growth has slowed in recent periods and there is no assurance that historic growth rates will return. Our year-over-year growth rate in revenue decreased in 2020 as compared to 2019. In 2020, as a result of the COVID-19 pandemic, our revenue decreased significantly compared to 2019. Our future revenue growth depends on the growth of supply and demand for listings on our platform, and our business is affected by general economic and business conditions worldwide as well as trends in the global travel and hospitality industries. In addition, we believe that our revenue growth depends upon a number of factors, including:

- the COVID-19 pandemic and its impact on the travel and accommodations industries;
- our ability to retain and grow the number of guests for our accommodations;
- our ability to retain and grow the number of accommodation listings on our platform;
- events beyond our control such as pandemics and other health concerns, increased or continuing restrictions on travel and immigration, trade disputes, economic downturns, and the impact of climate change on travel, including fires, floods, severe weather and other natural disasters, and the impact of climate change on seasonal destinations;
- competition;
- the legal and regulatory landscape and changes in the application of existing laws and regulations or adoption of new laws and regulations that impact our business, hosts, and/or guests, including changes in short-term occupancy and tax laws;
- the attractiveness of home sharing and subscription based living to prospective hosts and guests;
- the level of consumer awareness and perception of our brand;
- our ability to build and strengthen trust and safety on our platform and among members of our community;
- the level of spending on brand and performance marketing to attract hosts and guests to our platform;
- our ability to grow new offerings and to deepen our presence in certain geographies;
- timing, effectiveness, and costs of expansion and upgrades to our platform and infrastructure; and
- other risks described elsewhere herein.

A softening of demand, whether caused by events outside of our control, such as COVID-19, changes in host and guest preferences, any of the other factors described above, or in this prospectus or otherwise, will result in decreased revenue. If our revenue does not improve, we may not achieve profitability and our business, results of operations, and financial condition would be materially adversely affected.

If we fail to retain existing hosts or add new hosts, or if hosts fail to provide high-quality accommodations, our business, results of operations, and financial condition would be materially adversely affected.

Our business depends on availability of hosts and their accommodations, along with their listings on our platform and engaging in practices that encourage guests to book those listings, including increasing the number of nights that are available to book, providing timely responses to inquiries from guests, offering a variety of desirable and differentiated listings at competitive prices that meet the expectations of guests, and offering exceptional hospitality, services, and experiences to guests. These practices are outside of our direct control. If hosts do not establish or maintain a sufficient number of listings and availability for listings, the number of nights declines for a particular period, or the price charged by hosts declines, our revenue would decline and our business, results of operations, and financial condition would be materially adversely affected.

The hosts of our accommodations may manage and control their spaces and experiences and may have no obligation to make them available to guests for specified dates and have no obligation to accept bookings from prospective guests. If we are unable to retain accommodations or add new accommodations, or if accommodations are listed exclusively with a competitor or cross-listed with a competitor, we may be unable to offer a sufficient supply and variety of properties or accommodations to attract guests to use our platform.

Professional hosts, including property management companies, serviced apartment providers, and boutique hotels, expand the types of listings available to our guests. These professional hosts may list on our platform as well as on the platforms of our competitors. We do not control whether professional hosts provide us with a sizable allocation of rooms and competitive pricing relative to the same properties listed with other services. If we are not able to effectively deploy professional tools, application programming interfaces, and payment processes, work with third-party channel managers, and develop effective sales and account management teams that address the needs of these professional

hosts, we may not be able to attract and retain professional hosts. If our fee structure and payment terms are not as competitive as those of our competitors, these professional hosts may choose to provide less inventory and availability with us. Historically, we have seen an increase in the number of, and revenue from, professional hosts on our platform. The uniqueness of listings on our platform will be negatively impacted if the number of individual hosts does not grow at the same rate.

In addition, the number of listings on our platform has declined and may continue to decline as a result of a number of other factors affecting hosts, including: the COVID-19 pandemic; enforcement or threatened enforcement of laws and regulations, including short-term occupancy and tax laws; private groups, such as homeowners, landlords, and condominium and neighborhood associations, adopting and enforcing contracts that prohibit or restrict home sharing; leases, mortgages and other agreements, or regulations that purport to ban or otherwise restrict home sharing; hosts opting for long-term rentals on other third-party platforms as an alternative to listing on our platform; economic, social, and political factors; perceptions of trust and safety on and off our platform; negative experiences with guests, including guests who damage host property, throw unauthorized parties, or engage in violent and unlawful acts; and our decision to remove hosts from our platform for not adhering to our host standards or other factors we deem detrimental to our community. We believe a number of our hosts are individuals who rely on the additional income generated from our platform to pay their living expenses or mortgages or have acquired properties specifically for listing. It is not yet clear what financial impact the severe travel reduction occurring during the COVID-19 pandemic will have on these individuals or whether they will be able to keep their homes or operate their businesses as travel resumes. Our business, results of operations, and financial condition could be materially adversely affected if our hosts are unable to return to normal operations in the near to immediate term.

If we fail to retain existing guests or add new guests, our business, results of operations, and financial condition would be materially adversely affected.

Our success depends significantly on existing guests continuing to book and attracting new guests to book on our platform. Our ability to attract and retain guests could be materially adversely affected by a number of factors discussed elsewhere in these “Risk Factors,” including:

- events beyond our control such as the COVID-19 pandemic, other pandemics and health concerns, increased or continuing restrictions on travel, immigration, trade disputes, economic downturns, and the impact of climate change on travel, including fires, floods, severe weather and other natural disasters, and the impact of climate change on seasonal destinations;
- hosts failing to meet guests’ expectations, including increased expectations for cleanliness in light of the COVID-19 pandemic;
- increased competition and use of our competitors’ platforms and services;
- hosts failing to provide differentiated, high-quality, and an adequate supply of stays or experiences at competitive prices;
- guests not receiving timely and adequate community support from us;
- our failure to provide new or enhanced offerings, tiers, or features that guests value;
- declines or inefficiencies in our marketing efforts;
- negative associations with, or reduced awareness of, our brand;
- actual or perceived racial discrimination by hosts in deciding whether to accept a requested reservation;
- negative perceptions of the trust and safety on our platform; and
- macroeconomic and other conditions outside of our control affecting travel and hospitality industries generally.

In addition, if our platform is not easy to navigate, guests have an unsatisfactory sign-up, search, booking, or payment experience on our platform, the listings and other content provided on our platform is not displayed effectively to guests, we are not effective in engaging guests across our various offerings and tiers, or we fail to provide an experience in a manner that meets rapidly changing demand, we could fail to convert first-time guests and fail to engage with existing guests, which would materially adversely affect our business, results of operations, and financial condition.

Any further and continued decline or disruption in the travel and hospitality industries or economic downturn would materially adversely affect our business, results of operations, and financial condition.

Our financial performance is dependent on the strength of the travel and hospitality industries. The outbreak of COVID-19 has caused many governments to implement quarantines and significant restrictions on travel or to advise that people remain at home where possible and avoid crowds, which has had a particularly negative impact on cross-border travel. In addition, most airlines have suspended or significantly reduced their flights during this period, further decreasing opportunities for travel. This has led to a decrease in our bookings and an increase in cancellations and associated claims brought against us. We expect that COVID-19 will continue to materially adversely impact our bookings and business in 2021 and beyond. The extent and duration of such impact over the longer term remains uncertain and is dependent on future developments that cannot be accurately predicted at this time, such as the severity and transmission rate of COVID-19, the timing, availability, and effectiveness of a vaccine, the extent and effectiveness of containment actions taken, including mobility restrictions, and the impact of these and other factors on travel behavior in general, and on our business in particular.

Other events beyond our control, such as unusual or extreme weather or natural disasters, such as earthquakes, hurricanes, fires, tsunamis, floods, severe weather, droughts, and volcanic eruptions, and travel-related health concerns including pandemics and epidemics such as Ebola, Zika, and Middle East Respiratory Syndrome, restrictions related to travel, trade or immigration policies, wars, terrorist attacks, sources of political uncertainty, such as the United Kingdom's departure from the European Union ("Brexit"), protests, foreign policy changes, regional hostilities, imposition of taxes or surcharges by regulatory authorities, changes in regulations, policies, or conditions related to sustainability, including climate change, work stoppages, labor unrest or travel-related accidents can disrupt travel globally or otherwise result in declines in travel demand. Because these events or concerns, and the full impact of their effects, are largely unpredictable, they can dramatically and suddenly affect travel behavior by consumers, and therefore demand for our platform and services, which would materially adversely affect our business, results of operations, and financial condition. Events such as sudden outbreaks of wars or regional instability have led to a large number of localized cancellations and safety concerns, which harm our business and our relationship with our hosts and guests. In addition, increasing awareness around the impact of air travel on climate change and the impact of over-tourism may adversely impact the travel and hospitality industries and demand for our platform and services.

Our financial performance is also subject to global economic conditions and their impact on levels of discretionary consumer spending. Some of the factors that have an impact on discretionary consumer spending include general economic conditions, worldwide or regional recession, unemployment, consumer debt, reductions in net worth, fluctuations in exchange rates, residential real estate and mortgage markets, taxation, energy prices, interest rates, consumer confidence, tariffs, and other macroeconomic factors. Consumer preferences tend to shift to lower-cost alternatives during recessionary periods and other periods in which disposable income is adversely affected, which could lead to a decline in the bookings and prices for stays and experiences on our platform and an increase in cancellations, and thus result in lower revenue. Leisure travel in particular, which accounts for a substantial majority of our current business, is dependent on discretionary consumer spending levels. Downturns in worldwide or regional economic conditions, such as the current downturn resulting from the COVID-19 pandemic, have led to a general decrease in leisure travel and travel spending, and similar downturns in the future may materially adversely impact demand for our platform and services. Such a shift in consumer behavior would materially adversely affect our business, results of operations, and financial condition.

Uncertainty exists in the application of various laws and regulations to our business and we may become subject to new laws or regulations that are applicable to our business.

We may be considered to "operate" or "do business" in states where our customers conduct their business, subjecting us to regulatory and other oversight, possibly resulting in regulatory action. In the event any state's regulatory requirements impose state specific requirements on us or include us within an industry-specific regulatory scheme, we may be required to modify our marketing programs in that state in a manner that may undermine the program's attractiveness to consumers or dealers. In the alternative, if we determine that the licensing and related requirements are overly burdensome, we may elect to terminate operations in that state. In each case, our business, results of operations and financial condition could be materially and adversely affected.

The business and industry in which we participate are highly competitive, and we may be unable to compete successfully with our current or future competitors.

We operate in a highly competitive environment and we face significant competition in attracting hosts and guests.

- ***Hosts.*** We compete to attract, engage, and retain hosts on our platform to list their accommodations. Hosts

have a range of options for listing their spaces and experiences, both online and offline. It is also common for hosts to cross-list their offerings. We compete for hosts based on many factors, including the volume of bookings generated by our guests, ease of use of our platform, the service fees we charge, protections and our brand.

- **Guests.** We compete to attract, engage, and retain guests on our platform. Guests have a range of options to find and book spaces, hotel rooms, serviced apartments, and other accommodations and experiences, both online and offline. We compete for guests based on many factors, including unique inventory and availability of listings, the value and all-in cost of our offerings relative to other options, our brand, ease of use of our platform, the relevance and personalization of search results, the trust and safety of our platform, and community support. Throughout the COVID-19 pandemic, we have also competed based on the availability of inventory close to where guests live and in non-urban markets as well as the perceived safety and cleanliness of listings on our platform.

Our competitors are adopting aspects of our business model, which could affect our ability to differentiate our offerings from competitors. Increased competition could result in reduced demand for our platform from hosts and guests, slow our growth, and materially adversely affect our business, results of operations, and financial condition. Many of our current and potential competitors enjoy substantial competitive advantages over us, such as greater name and brand recognition, longer operating histories, larger marketing budgets, and loyalty programs, as well as substantially greater financial, technical, and other resources. In addition, our current or potential competitors have access to larger user bases and/or inventory for accommodations, and may provide multiple travel products, including flights. As a result, our competitors may be able to provide consumers with a better or more complete product experience and respond more quickly and effectively than we can to new or changing opportunities, technologies, standards, or host and guest requirements or preferences. The global travel industry has experienced significant consolidation, and we expect this trend may continue as companies attempt to strengthen or hold their market positions in a highly competitive industry. Consolidation amongst our competitors will give them increased scale and may enhance their capacity, abilities, and resources, and lower their cost structures. In addition, other start-ups may be able to innovate and focus on developing a new product or service faster than we can or may foresee consumer need for new offerings or technologies before us.

Laws, regulations, and rules that affect the short-term rental and home sharing business have limited and may continue to limit the ability or willingness of hosts to share their spaces over our platform and expose our hosts or us to significant penalties, which have had and could continue to have a material adverse effect on our business, results of operations, and financial condition.

Since we began our operations in 2015, there have been and continue to be legal and regulatory developments that affect the short-term rental and accommodation sharing business. Hotels and groups affiliated with hotels have engaged and will likely continue to engage in various lobbying and political efforts for stricter regulations governing our business in both local and national jurisdictions. Other private groups, such as homeowners, landlords, and condominium and neighborhood associations, have adopted contracts or regulations that purport to ban or otherwise restrict short-term rentals, and third-party lease agreements between landlords and tenants, home insurance policies, and mortgages may prevent or restrict the ability of hosts to list their spaces. In addition, some jurisdictions regard short-term rental or home sharing as “hotel use” and claim that such use constitutes a conversion of a residential property to a commercial property requiring a permitting process. Macroeconomic pressures and public policy concerns could continue to lead to new laws and regulations, or interpretations of existing laws and regulations, that limit the ability of hosts to share their spaces. If laws, regulations, rules, or agreements significantly restrict or discourage hosts in certain jurisdictions from sharing their properties, it would have a material adverse effect on our business, results of operations, and financial condition. While a number of cities and countries have implemented legislation to address short-term rentals, there are many others that are not yet explicitly addressing or enforcing short-term rental laws, and could follow suit and enact regulations. We may in the future become involved in disputes with government agencies regarding such laws and regulations. For example, some governments have attempted to impose fines on our competitors regarding what they contend is illegal offering of short-term accommodations in violation of applicable laws. Certain jurisdictions have adopted laws and regulations that seek to impose lodging taxes, often known as transient or occupancy taxes, on guests, collection and remittance obligations on hosts and our competitors, and withholding obligations on our competitors. In addition, some third parties and regulators have asserted that our competitors, through operations similar to those offered by us, are subject to regulations with respect to short-term rentals, host registration, licensing, and other requirements for the listing of accommodations and experiences, such as real estate broker or agent licenses, travel agency licenses, and insurance-related licenses. We could be held liable

and incur significant financial and potential criminal penalties if we are found to have violated any of these regulations.

We are subject to a wide variety of complex, evolving, and sometimes inconsistent and ambiguous laws and regulations that may adversely impact our operations and discourage hosts and guests from using our platform, and that could cause us to incur significant liabilities including fines and criminal penalties, which could have a material adverse effect on our business, results of operations, and financial condition.

Hosts list, and guests search for, stays on our platform. There are national, state, local, and foreign laws and regulations in jurisdictions that relate to or affect our business. Moreover, the laws and regulations of each jurisdiction in which we operate are distinct and may result in inconsistent or ambiguous interpretations among local, regional, or national laws or regulations applicable to our business. Compliance with laws and regulations of different jurisdictions imposing varying standards and requirements is burdensome for businesses like ours, imposes added cost and increases potential liability to our business, and makes it difficult to realize business efficiencies and economies of scale. For example, we incur significant operational costs to comply with requirements of jurisdictions and cities that have disparate requirements around tax collection, tax reporting, host registration, limits on lengths of stays, and other regulations, each of which require us to dedicate significant resources to provide the infrastructure and tools needed on our platform for our hosts to meet these legal requirements and for us to fulfill any obligations we may have. The complexity of our platform and changes required to comply with the large number of disparate requirements can lead to compliance gaps if our internal resources cannot keep up with the pace of regulatory change and new requirements imposed on our platform, or if our platform does not work as intended or has errors or bugs.

It may be difficult or impossible for us to investigate or evaluate laws or regulations in all cities, countries, and regions. The application of existing laws and regulations to our business and platform can be unclear and may be difficult for hosts, guests, and us to understand and apply, and are subject to change, as governments or government agencies seek to apply legacy systems of laws or adopt new laws to new online business models in the travel and accommodations industries, including ours. Uncertain and unclear application of such laws and regulations to host and guest activity and our platform could cause and has caused some hosts and guests to leave or choose not to use our platform, reduce supply and demand for our platform and services, increase the costs of compliance with such laws and regulations, and increase the threat of litigation or enforcement actions related to our platform, all of which would materially adversely affect our business, results of operations, and financial condition.

There are laws that apply to us, and there are laws that apply to our hosts and/or guests. While we require our hosts and guests to comply with their own independent legal obligations under our terms of service, we have limited means of enforcing or ensuring the compliance of our hosts and guests with all applicable legal requirements. Governments may try to hold us responsible for laws that apply to our hosts and/or guests. Whether applicable to us, our hosts, and/or our guests, the related consequences arising out of such laws and regulations, including penalties for violations of and costs to maintain compliance with such laws and regulations, have had and could continue to have a material adverse effect on our reputation, business, results of operations, and financial condition.

There is increased governmental interest in regulating technology companies in areas including privacy, tax, data localization and data access, algorithm-based discrimination, and competition. In addition, climate change and greater emphasis on sustainability could lead to regulatory efforts to address the carbon impact of housing and travel. As a result, governments may enact new laws and regulations and/or view matters or interpret laws and regulations differently than they have in the past, and in a manner that could materially adversely affect our business, results of operations, and financial condition.

Home sharing may not achieve global acceptance.

While home sharing has grown in popularity, home sharing may not achieve global acceptance, particularly in regions where home sharing may not be deemed attractive to hosts and guests due to cultural considerations. The attractiveness of our platform for hosts and guests is impacted by a number of factors, including the willingness of individual hosts to offer their homes on our platform, the willingness of guests to book stays at homes in lieu of more traditional options, such as hotels, our ability to continue to extend our operating model internationally and offer localized services that are desirable to our hosts and guests, and our ability to offer cost-effective alternatives to traditional accommodations. Furthermore, both hosts and guests may be reluctant or unwilling to use our platform because of concerns regarding their safety or the quality of their stays. Many hosts and guests are apprehensive about or not willing to share homes due to concerns surrounding the transmission of COVID-19, and if they are willing to share

homes, their ability to do so may be restricted by laws, rules, regulations, or decrees adopted in response to the COVID-19 pandemic.

This uncertainty surrounding acceptance of home sharing is exacerbated by the legacy system of laws and regulations that govern short and long-term accommodations, travel services, real estate brokerage services, and taxes, which generally does not directly address the online home sharing business model. If home sharing does not achieve global acceptance, our growth could be limited, which could materially adversely affect our business, results of operations, and financial condition.

Maintaining and enhancing our brand and reputation is critical to our growth, and negative publicity could damage our brand and thereby harm our ability to compete effectively, and could materially adversely affect our business, results of operations, and financial condition.

Our brand and our reputation are among our most important assets. Maintaining and enhancing our brand and reputation is critical to our ability to attract hosts, guests, and employees, to compete effectively, to preserve and deepen the engagement of our existing hosts, guests, and employees, to maintain and improve our standing in the communities where our hosts operate, including our standing with community leaders and regulatory bodies, and to mitigate legislative or regulatory scrutiny, litigation, and government investigations. We are heavily dependent on the perceptions of hosts and guests who use our platform to help make word-of-mouth recommendations that contribute to our growth.

Any incident, whether actual or rumored to have occurred, involving the safety or security of listings, hosts, guests, or other members of the public, fraudulent transactions, or incidents that are mistakenly attributed to us, or even to competitors in our industry, and any media coverage resulting therefrom, could create a negative public perception of our platform, which would adversely impact our ability to attract hosts and guests. In addition, when hosts cancel reservations or if we fail to provide timely refunds to guests in connection with cancellations, guest perception of the value of our platform is adversely impacted and may cause guests to not use our platform in the future. The impact of these issues may be more pronounced if we are seen to have failed to provide prompt and appropriate community support or our platform policies are perceived to be too permissive, too restrictive, or providing hosts and/or guests with unsatisfactory resolutions. We may become the subject of media reports, social media posts, blogs, and other forums that contain allegations about our business or activity on our platform that create negative publicity. As a result of any such complaints and negative publicity, some hosts may refrain from listing with us, and some guests may in the future refrain from using our platform, which could materially adversely affect our business, results of operations, and financial condition.

In addition, we rely on our hosts and guests to provide trustworthy reviews and ratings that our hosts or guests may rely upon to help decide whether or not to book a particular listing or accept a particular booking and that we use to enforce quality standards. We rely on these reviews to further strengthen trust among members of our community. Our hosts and guests may be less likely to rely on reviews and ratings if they believe that our review system does not generate trustworthy reviews and ratings. In addition, if our hosts and guests do not leave reliable reviews and ratings, other potential hosts or guests may disregard those reviews and ratings, and our systems that use reviews and ratings to enforce quality standards would be less effective, which could reduce trust within our community and damage our brand and reputation, and could materially adversely affect our business, results of operations, and financial condition.

Host, guest, or third-party actions that are criminal, violent, inappropriate, or dangerous, or fraudulent activity, may undermine the safety or the perception of safety of our platform and our ability to attract and retain hosts and guests and materially adversely affect our reputation, business, results of operations, and financial condition.

We have no control over or ability to predict the actions of our users and other third parties, such as neighbors or invitees, either during the guest's stay, experience, or otherwise, and therefore, we cannot guarantee the safety of our hosts, guests, and third parties. The actions of hosts, guests, and other third parties have resulted and can further result in fatalities, injuries, other bodily harm, fraud, invasion of privacy, property damage, discrimination, brand and reputational damage, which have created and could continue to create potential legal or other substantial liabilities for us. We do not verify the identity of all of our hosts and guests nor do we verify or screen third parties who may be present during a reservation made through our platform. Our identity verification processes rely on, among other things, information provided by hosts and guests, and our ability to validate that information and the effectiveness of third-party service providers that support our verification processes may be limited. In addition, we do not currently

and may not in the future require users to re-verify their identity following their successful completion of the initial verification process.

We have not in the past and may not in the future undertake to independently verify the safety, suitability, location, quality, compliance with our policies or standards, and legal compliance, such as fire code compliance or the presence of carbon monoxide detectors, of all our hosts' listings or accommodations.

In the limited circumstances where we have undertaken the verification or screening of certain aspects of host qualifications, listings or accommodations, the scope of such processes may be limited and rely on, among other things, information provided by hosts and guests and the ability of our internal teams or third-party vendors to adequately conduct such verification or screening practices. In addition, we have not in the past taken and may not in the future take steps to re-verify or re-screen host qualifications, listings, or experiences following initial review. We have in the past relied, and may in the future, rely on hosts and guests to disclose information relating to their listings and experiences and such information may be inaccurate or incomplete. We have created standards to respond to issues reported with listings, but certain listings may pose heightened safety risks to individual users because those issues have not been reported to us or because we have not taken the requisite action. We rely, at least in part, on reports of issues from hosts and guests to investigate and enforce many of our policies and standards. In addition, our policies may not contemplate certain safety risks posed by listings or individual hosts or guests or may not sufficiently address those risks.

We rely on traffic to our platform to grow revenue, and if we are unable to drive traffic cost-effectively, it would materially adversely affect our business, results of operations, and financial condition.

We believe that maintaining and strengthening our brand is an important aspect of our efforts to attract and retain hosts and guests. In particular, we rely on marketing to drive guest traffic to our platform. We have invested considerable resources into establishing and maintaining our brand. As a result of the COVID-19 pandemic, we realigned our organizational priorities to further increase our focus on individual hosts and brand marketing, while reducing performance marketing.

Our substantial level of indebtedness could materially adversely affect our financial condition.

We have significant indebtedness that could materially adversely affect our business by:

- increasing our vulnerability to general adverse economic and industry conditions;
- requiring us to dedicate a substantial portion of our cash flow from operations to payments on our indebtedness, thereby reducing the availability of our cash flow to fund working capital, capital expenditures, acquisitions, product development efforts, and other general corporate purposes;
- limiting our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate; and
- exposing us to the risk of increased interest rates as our borrowings are, and may in the future be, at variable interest rates.

The occurrence of any one of these events could have a material adverse effect on our business, results of operations, and financial condition, and ability to satisfy our obligations to our creditors.

Our efforts to create new offerings and initiatives, such as subscription based living, are costly, and if we are unable to successfully pursue such offerings and initiatives, we may fail to grow, and our business, results of operations, and financial condition would be materially adversely affected.

We need to continue to invest in the development of new offerings and initiatives that differentiate us from our competitors, such as our subscription based living. Developing and delivering these new offerings and initiatives increase our expenses and our organizational complexity, and we may experience difficulties in developing and implementing these new offerings and initiatives. Our new offerings and initiatives, such as our subscription based living, have a high degree of risk, as they may involve unproven businesses with which we have limited or no prior

development or operating experience. There can be no assurance that consumer demand for such offerings and initiatives will exist or be sustained at the levels that we anticipate, that we will be able to successfully manage the development and delivery of such offerings and initiatives, or that any of these offerings or initiatives will gain sufficient market acceptance to generate sufficient revenue to offset associated expenses or liabilities. It is also possible that offerings developed by others will render our offerings and initiatives noncompetitive or obsolete. Further, these efforts entail investments in our systems and infrastructure, payments platform, and increased legal and regulatory compliance expenses, could distract management from current operations, and will divert capital and other resources from our more established offerings and geographies. Even if we are successful in developing new offerings and initiatives, regulatory authorities may subject us or our hosts and guests to new rules, taxes, or restrictions or more aggressively enforce existing rules, taxes, or restrictions, that could increase our expenses or prevent us from successfully commercializing these initiatives. If we do not realize the expected benefits of our investments, we may fail to grow and our business, results of operations, and financial condition would be materially adversely affected.

Going Concern note.

Our independent accountant's review report for the period ending December 31, 2019 and December 31, 2020, accompanying this Form C/A contains a note identifying that certain conditions indicate that the Company may be unable to continue as a going concern. Our financial statements do not include any adjustments that might be necessary should we be unable to continue as a going concern.

Risks Related to the Offering

State and federal securities laws are complex, and the Company could potentially be found to have not complied with all relevant state and federal securities law in prior offerings of securities.

The Company has conducted previous offerings of securities and may not have complied with all relevant state and federal securities laws. If a court or regulatory body with the required jurisdiction ever concluded that the Company may have violated state or federal securities laws, any such violation could result in the Company being required to offer rescission rights to investors in such offering. If such investors exercised their rescission rights, the Company would have to pay to such investors an amount of funds equal to the purchase price paid by such investors plus interest from the date of any such purchase. No assurances can be given the Company will, if it is required to offer such investors a rescission right, have sufficient funds to pay the prior investors the amounts required or that proceeds from this Offering would not be used to pay such amounts.

In addition, if the Company violated federal or state securities laws in connection with a prior offering and/or sale of its securities, federal or state regulators could bring an enforcement, regulatory and/or other legal action against the Company which, among other things, could result in the Company having to pay substantial fines and be prohibited from selling securities in the future.

The U.S. Securities and Exchange Commission does not pass upon the merits of the Securities or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.

You should not rely on the fact that our Form C/A is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering. The U.S. Securities and Exchange Commission has not reviewed this Form C/A, nor any document or literature related to this Offering.

Neither the Offering nor the Securities have been registered under federal or state securities laws.

No governmental agency has reviewed or passed upon this Offering or the Securities. Neither the Offering nor the Securities have been registered under federal or state securities laws. Investors will not receive any of the benefits available in registered offerings, which may include access to quarterly and annual financial statements that have been audited by an independent accounting firm. Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering based on the information provided in this Form C/A and the accompanying exhibits.

The Company's management may have broad discretion in how the Company uses the net proceeds of the Offering.

Unless the Company has agreed to a specific use of the proceeds from the Offering, the Company's management will have considerable discretion over the use of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

The Company has the right to limit individual Investor commitment amounts based on the Company's determination of an Investor's sophistication.

The Company may prevent any Investor from committing more than a certain amount in this Offering based on the Company's determination of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Company's determination and not in line with relevant investment limits set forth by the Regulation CF rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Company's determination.

The Company has the right to extend the Offering Deadline.

The Company may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Target Offering Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment in the event the Company extends the Offering Deadline, if you choose to reconfirm your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Company receiving the Target Offering Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Target Offering Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after the release of such funds to the Company, the Securities will be issued and distributed to you.

The Company may also end the Offering early.

If the Target Offering Amount is met after 21 calendar days, but before the Offering Deadline, the Company can end the Offering by providing notice to Investors at least 5 business days prior to the end of the Offering. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to invest in this Offering – it also means the Company may limit the amount of capital it can raise during the Offering by ending the Offering early.

The Company has the right to conduct multiple closings during the Offering.

If the Company meets certain terms and conditions, an intermediate close of the Offering can occur, which will allow the Company to draw down on half of the proceeds committed and captured in the Offering during the relevant period. The Company may choose to continue the Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors whose investment commitments were previously closed upon will not have the right to re-confirm their investment as it will be deemed to have been completed prior to the material change.

The Company could potentially be found to have not complied with securities law in connection with this Offering.

Prior to filing this Form C/A, the Company engaged in "testing the waters" permitted under Regulation Crowdfunding (17 CFR 227.206), which allows issuers to communicate to determine whether there is interest in the offering. All communication sent is deemed to be an offer of securities for purposes of the antifraud provisions of federal securities laws. Any Investor who expressed interest prior to the date of this Offering should read this Form C/A thoroughly and rely only on the information provided herein and not on any statement made prior to the Offering. The communication sent to Investors prior to the Offering are attached as Exhibit E.

Risks Related to the Securities

The Securities will not be freely tradable under the Securities Act until one year from the initial purchase date. Although the Securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with their attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not ever be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or foreign jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Securities may also adversely affect the price that you might be able to obtain for the Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Each Investor in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof.

Investors will not become equity holders until the Company decides to convert the Securities into “CF Shadow Securities” (the type of equity securities issuable upon conversion of the Securities) or until there is a change of control or sale of substantially all of the Company’s assets.

Investors will not have an ownership claim to the Company or to any of its assets or revenues for an indefinite amount of time and depending on when and how the Securities are converted, the Investors may never become equity holders of the Company. Investors will not become equity holders of the Company unless the Company receives a future round of financing great enough to trigger a conversion and the Company elects to convert the Securities into CF Shadow Securities. The Company is under no obligation to convert the Securities into CF Shadow Securities. In certain instances, such as a sale of the Company or substantially all of its assets, an initial public offering or a dissolution or bankruptcy, the Investors may only have a right to receive cash, to the extent available, rather than equity in the Company.

Investors will not have voting rights, even upon conversion of the Securities into CF Shadow Securities. Upon the conversion of the Securities into CF Shadow Securities (which cannot be guaranteed), the holders of the CF Shadow Securities will be required to enter into a proxy with the Intermediary or its designee to ensure any statutory voting rights are voted in tandem with the majority holders of whichever series of securities the CF Shadow Securities follow.

Investors will not have the right to vote upon matters of the Company even if and when their Securities are converted into CF Shadow Securities (the occurrence of which cannot be guaranteed). Upon such conversion, the CF Shadow Securities will have no voting rights and, in circumstances where a statutory right to vote is provided by state law, the CF Shadow Security holders are required to enter into a proxy agreement with the Intermediary or its designee to vote their CF Shadow Securities with the majority of the holder(s) of the securities issued in the round of equity financing that triggered the conversion right. For example, if the Securities are converted in connection with an offering of Series B Preferred Membership Interests, Investors would receive CF Shadow Securities in the form of Series B-CF Shadow Membership Interests and would be required to enter into a proxy that allows the Intermediary or its designee to vote their Series B-CF Shadow Preferred Membership Interests consistent with the majority of the Series B Preferred Members. Thus, Investors will essentially never be able to vote upon any matters of the Company.

Investors will not be entitled to any inspection or information rights other than those required by law.

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by law. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information. Additionally, there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Company such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

Investors will be unable to declare the Security in “default” and demand repayment.

Unlike convertible notes and some other securities, the Securities do not have any “default” provisions upon which Investors will be able to demand repayment of their investment. The Company has ultimate discretion as to whether or not to convert the Securities upon a future equity financing and Investors have no right to demand such conversion.

Only in limited circumstances, such as a liquidity event, may Investors demand payment and even then, such payments will be limited to the amount of cash available to the Company.

The Company may never elect to convert the Securities or undergo a liquidity event and Investors may have to hold the Securities indefinitely.

The Company may never conduct a future equity financing or elect to convert the Securities if such future equity financing does occur. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an initial public offering. If neither the conversion of the Securities nor a liquidity event occurs, Investors could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.

In addition, the Company may make additional grants of equity and/or convertible securities. Should the Company enter into a financing that would trigger any conversion rights, the converting securities would further dilute the equity securities receivable by the holders of the Securities upon a qualifying financing.

Equity securities acquired upon conversion of the Securities may be significantly diluted as a consequence of subsequent equity financings.

The Company's equity securities will be subject to dilution. The Company intends to issue additional equity to employees and third-party financing sources in amounts that are uncertain at this time, and as a consequence holders of equity securities resulting from the conversion of the Securities will be subject to dilution in an unpredictable amount. Such dilution may reduce the Investor's control and economic interests in the Company.

The amount of additional financing needed by the Company will depend upon several contingencies not foreseen at the time of this Offering. Generally, additional financing (whether in the form of loans or the issuance of other securities) will be intended to provide the Company with enough capital to reach the next major corporate milestone. If the funds received in any additional financing are not sufficient to meet the Company's needs, the Company may have to raise additional capital at a price unfavorable to their existing investors, including the holders of the Securities. The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Company. There can be no assurance that the Company will be able to accurately predict the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain financing on favorable terms could dilute or otherwise severely impair the value of the Securities.

Equity securities issued upon conversion of the Securities may be substantially different from other equity securities offered or issued by the Company at the time of conversion.

In the event the Company decides to exercise the conversion right, the Company will convert the Securities into equity securities that are materially different from the equity securities being issued to new investors at the time of conversion in many ways, including, but not limited to, liquidation preferences, dividend rights, or anti-dilution protection. Additionally, any equity securities issued at the Conversion Price (as defined in the Crowd SAFE agreement) shall have only such preferences, rights, and protections in proportion to the Conversion Price and not in proportion to the price per share paid by new investors receiving the equity securities. Upon conversion of the Securities, the Company may not provide the holders of such Securities with the same rights, preferences, protections, and other benefits or privileges provided to other investors of the Company.

The foregoing paragraph is only a summary of a portion of the conversion feature of the Securities; it is not intended to be complete, and is qualified in its entirety by reference to the full text of the Crowd SAFE agreement, which is attached as [Exhibit C](#).

Equity securities issued upon conversion of the Securities may result in the holder of such Securities being required, as a member of the Company, to report such holder's distributive share (whether or not distributed) of the Company's income, gains, losses, deductions and credits.

By reason of its organizational structure, the Company is presently treated as a partnership for federal income tax purposes. As an entity treated as a partnership, the Company will not be subject to United States federal income tax,

but the members of the Company will be required to report their distributive share (whether or not distributed) of the Company's income, gains, losses, deductions and credits. As is the case with any partnership, members of the Company are subject to taxes on realized gains or income allocated to them, whether or not distributed. Before purchasing any Security, prospective investors should consult their own advisors regarding the tax implications of acquiring, owning or disposing of Membership Interests, which may be equity securities issued upon conversion of the Securities, under the laws of any jurisdiction to which they are subject.

A Crowd SAFE holder may lose their right to any appreciation or return on investment due to defaulting on certain notice and require action requirements in such Crowd SAFE; failure to claim cash set aside in this case may result in a total loss of principal.

The Crowd SAFE offered requires a holder to complete, execute and deliver any reasonable or necessary information and documentation requested by the Company or the Intermediary in order to effect the conversion or termination of the Crowd SAFE, in connection with an Equity Financing or Liquidity Event, within thirty (30) calendar days of receipt of notice (whether actual or constructive) from the Company. Failure to make a timely action may result in the Company declaring that the Investor is only eligible to receive a cash payment equal to their Purchase Amount (or a lesser amount in certain events). While the Company will set aside such payment for the investor, such payment may be subject to escheatment laws, resulting in a total loss of principal if the Investor never claims their payment.

There is no present market for the Securities and we have arbitrarily set the price.

The Offering price was not established in a competitive market. We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our net worth or prior earnings. We cannot guarantee that the Securities can be resold at the Offering price or at any other price.

In the event of the dissolution or bankruptcy of the Company, Investors will not be treated as debt holders and therefore are unlikely to recover any proceeds.

In the event of the dissolution or bankruptcy of the Company, the holders of the Securities that have not been converted will be entitled to distributions as described in the Securities. This means that such holders will only receive distributions once all of the creditors and more senior security holders, including any holders of preferred membership interest, have been paid in full. Neither holders of the Securities nor holders of CF Shadow Securities can be guaranteed any proceeds in the event of the dissolution or bankruptcy of the Company.

While the Securities provide mechanisms whereby holders of the Securities would be entitled to a return of their purchase amount upon the occurrence of certain events, if the Company does not have sufficient cash on hand, this obligation may not be fulfilled.

Upon the occurrence of certain events, as provided in the Securities, holders of the Securities may be entitled to a return of the principal amount invested. Despite the contractual provisions in the Securities, this right cannot be guaranteed if the Company does not have sufficient liquid assets on hand. Therefore, potential Investors should not assume a guaranteed return of their investment amount.

There is no guarantee of a return on an Investor's investment.

There is no assurance that an Investor will realize a return on their investment or that they will not lose their entire investment. For this reason, each Investor should read this Form C/A and all exhibits carefully and should consult with their attorney and business advisor prior to making any investment decision.

IN ADDITION TO THE RISKS LISTED ABOVE, RISKS AND UNCERTAINTIES NOT PRESENTLY KNOWN, OR WHICH WE CONSIDER IMMATERIAL AS OF THE DATE OF THIS FORM C/A, MAY ALSO HAVE AN ADVERSE EFFECT ON OUR BUSINESS AND RESULT IN THE TOTAL LOSS OF YOUR INVESTMENT.

BUSINESS

Description of the Business

We are capitalizing on the massive consumer behavior trends towards remote work and offering a flexible travel and living solution. By partnering with building owners through revenue share agreements, we offer short and long term tenants fully furnished and equipped apartments around the US.

Business Plan

We rent, and facilitate the renting of hosts', apartments and condominium units in rental communities for use as short-term vacation rentals. We rent units for 12-15 months on average, to sublease as short-term rentals (average stay is four days). We list units on various Internet platforms, including Airbnb, Booking.com, and Expedia. We are transparent about our intentions, and try to develop a working relationship with, unit owners and homeowner associations and the communities in which we operate. We typically do not rent more than approximately 10% of the units in any particular condominium or homeowner community. We plan to use the funds from this offering to lease more units in cities where we currently operate and possibly three or four other cities in the United States. We furnish our units and contract with a cleaning service to clean our units and offer services to our guests (e.g., additional towel requests) so that our guests have similar conveniences to that of a hotel.

The Company's Products and/or Services

Product / Service	Description	Current Market
Short Term Rentals	Fully furnished and equipped apartments in Top Cities main locations.	GenZ & Millennials looking for quality accommodations, at convenient prices in the most desirable locations of the US top cities, such as Miami, Orlando, Philadelphia, Atlanta, amongst others.
Flexible Living	First ever subscription-based living.	GenZ & Millennials looking for quality accommodations, at convenient prices in the most desirable locations of the US top cities, such as Miami, Orlando, Philadelphia, Atlanta, amongst others.

Competition

The markets in which our services are sold are highly competitive. Our services compete against similar services of many large and small companies, including well-known global competitors, such as AirBnb. In many of the markets and industry segments in which we sell our products, we compete against other branded products as well as retailers' private-label brands. Product quality, performance, value and packaging are also important differentiating factors.

Sonder: largest short term rental operator in the industry, heavily funded and focused primarily on branding and licensing hotels.

Mint House: based out of NYC, primarily focused on providing alternative accommodations for corporate travel.

The Guild: mostly operational in Texas, primarily focused on providing alternative accommodations for corporate travel.

HelloLanding: largest flexible living provider; main issue is that although providing great flexibility in exchange for a subscription fee, it is very expensive and highly volatile in pricing.

Starting in 2018, some of our direct competitors raised millions of dollars to increase their market share and launch in new cities. Among the most noteworthy are Stay Alfred, Sonder, The Guild and Lyric. Stay Alfred raised \$47 million in 2018, bringing the company’s total funding to \$62 million. It has approximately 2,000 units under management in 23 U.S. cities. Sonder raised \$85 million in 2018, bringing the company’s total funding to \$135 million. They also have approximately 2,000 units under management and have a presence in 11 U.S. cities and 3 European cities. The Guild and Lyric are smaller than the previously mentioned companies. These companies have between 300 and 400 units under management and a presence in 5 and 13 U.S. cities, respectively. They also raised significant funds during 2018 (\$9 million and \$15.5 million, respectively).

The Company also has two key indirect competitors. The first is the traditional hotel industry. The hotel industry has massive inventory that pushes through some of the same channels that the vacation rental industry uses to reach our guests. The hotel industry is a particularly dangerous competitor as travelers are very familiar with their product, brands and loyalty plans. The hotel industry also lobbies for cities to limit the growth of our business through legislation (e.g., legislation to prohibit short term rentals). Another important competitor are millions of individuals using various platforms (like Airbnb) to rent their homes (or extra rooms in their homes).

Customer Base

Our products and services are marketed direct-to-consumer. Along with our traveler and renter database of over 50,000 subscribers of past clients, we leverage the power of online travel agencies such as AirBnb, Booking.com, Expedia, HomeAway and 150+ other distribution channels.

Supply Chain

The accommodations offered through our services are sourced through relationships and referrals.

George “Bud” Scholl is a member, but not a manager of the Company. Mr. Scholl also has a great deal of real estate experience, specifically in single family development, multi-family rentals and commercial condominiums (including in South Florida, Georgia and South Carolina), and while he has refrained from joining the board of managers due to time constraints, his input and guidance will be valuable to our business operations.

THE OFFERING AND THE SECURITIES

The Offering

The Company is offering a minimum amount of \$25,000 (the “**Target Offering Amount**”) and up to a maximum amount of \$1,070,000 (the “**Maximum Offering Amount**”) of Crowd SAFE (Simple Agreement for Future Equity) (the “**Securities**”) on a best efforts basis as described in this Form C/A (this “**Offering**”). We must raise an amount equal to or greater than the Target Offering Amount by April 30, 2022 (the “**Offering Deadline**”). Unless we raise at least the Target Offering Amount by the Offering Deadline, no Securities will be sold in this Offering, all investment commitments will be cancelled and all committed funds will be returned. Potential purchasers of the Securities are referred to herein as “**Investors**” or “**you**”.

The price of the Securities was determined arbitrarily, does not necessarily bear any relationship to the Company’s asset value, net worth, revenues or other established criteria of value, and should not be considered indicative of the actual value of the Securities. The minimum amount that an Investor may invest in the Offering is \$150 and the maximum amount that an Investor may invest in the Offering is \$107,000, each of which is subject to adjustment in the Company’s sole discretion.

In order to purchase the Securities, you must make a commitment to purchase by completing the subscription process hosted by OpenDeal Portal LLC dba Republic (the “**Intermediary**”), including complying with the Intermediary’s know your customer (KYC) and anti-money laundering (AML) policies. **If an Investor makes an investment commitment under a name that is not their legal name, they may be unable to redeem their Security indefinitely, and neither the Intermediary nor the Company are required to correct any errors or omissions made by the Investor.**

Investor funds will be held in escrow with Prime Trust, LLC until the Target Offering Amount has been met or exceeded and one or more closings occur. Investors may cancel an investment commitment until up to 48 hours prior to the Offering Deadline, or such earlier time as the Company designates pursuant to Regulation CF, using the cancellation mechanism provided by the Intermediary. **Investors using a credit card to invest must represent and warrant to cancel any investment commitment(s) by submitting a request through the Intermediary at least 48 hours prior to the Offering Deadline, instead of attempting to claim fraud or claw back their committed funds.**

The Company will notify Investors when the Target Offering Amount has been reached through the Intermediary. If the Company reaches the Target Offering Amount prior to the Offering Deadline, it may close the Offering early *provided* (i) the expedited Offering Deadline must be twenty-one (21) days from the time the Offering was opened, (ii) the Intermediary must provide at least five (5) business days’ notice prior to the expedited Offering Deadline to the Investors and (iii) the Company continues to meet or exceed the Target Offering Amount on the date of the expedited Offering Deadline.

Material Changes

If any material change occurs related to the Offering prior to the current Offering Deadline the Company will provide notice to Investors and receive reconfirmations from Investors who have already made commitments. If an Investor does not reconfirm their investment commitment after a material change is made to the terms of the Offering within five (5) business days of receiving notice, the Investor’s investment commitment will be cancelled and the committed funds will be returned without interest or deductions. If an Investor does not cancel an investment commitment before the Target Offering Amount is reached, the funds will be released to the Company upon the closing of the Offering and the Investor will receive the Securities in exchange for their investment.

Intermediate Closings

In the event an amount equal to two (2) times the Target Offering Amount is committed and meets all required terms of the Offering prior to the Offering Deadline on such date or such later time the Company designates pursuant to Rule 304(b) of Regulation CF, the Company may conduct the first of multiple closings of the Offering early, *provided* (i) the early closing date must be twenty-one (21) days from the time the Offering opened and (ii) that all Investors will receive notice of such early closing date at least five (5) business days prior to such new offering deadline (absent a material change that would require an extension of the Offering and reconfirmation of all investment commitments).

Investors who committed on the date such notice is provided or prior to the issuance of such notice will be able to cancel their investment commitment until 48 hours before such early closing date.

If the Company conducts an initial closing (the “**Initial Closing**”), the Company agrees to only withdraw half of the proceeds that are in escrow and will only conduct such Initial Closing if there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of the Initial Closing. The Company may only conduct another close (a “**Subsequent Closing**”) before the Offering Deadline if the amount of investment commitments made as of the date of such Subsequent Closing exceeds two times the amount committed as of the date of the Initial Closing and there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of such Subsequent Closing.

Any investment commitments received after an intermediate closing will be released to the Company upon a subsequent closing and the Investor will receive evidence of the Securities via electronic certificate/PDF in exchange for their investment commitment as soon as practicable thereafter.

The Company has agreed to return all funds to Investors in the event a Form C-W is ultimately filed in relation to this Offering, regardless of whether multiple closings are conducted.

Investment commitments are not binding on the Company until they are accepted by the Company, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any investment commitment. If the Company rejects all or a portion of any investment commitment, the applicable prospective Investor’s funds will be returned without interest or deduction.

The Securities

We request that you please review this Form C/A and the Crowd SAFE instrument attached as Exhibit C, in conjunction with the following summary information.

Transfer Agent and Registrar

The Company will act as transfer agent and registrar for the Securities.

Not Currently Equity Interests

The Securities are not currently equity interests in the Company and merely provide a right to receive equity at some point in the future upon the occurrence of certain events.

Dividends

The Securities do not entitle Investors to any dividends.

Conversion

Upon each future equity financing resulting in proceeds to the Company of not less than \$1,000,000 (each an “**Equity Financing**”), the Securities are convertible at the option of the Company, into CF Shadow Securities, which are securities identical to those issued in such future Equity Financing except (1) they do not provide the right to vote on any matters except as required by law, (2) they require Investors to vote in accordance with the majority of the investors purchasing securities from the Company in such Equity Financing with respect to any such required vote and (3) they do not provide any inspection or information rights (other than those contemplated by Regulation CF or otherwise required by law). The Company has no obligation to convert the Securities in any Equity Financing.

Conversion Upon the First Equity Financing

If the Company elects to convert the Securities upon the first Equity Financing following the issuance of the Securities, the Investor will receive the number of CF Shadow Securities equal to the greater of the quotient obtained by dividing the amount the Investor paid for the Securities (the “**Purchase Amount**”) by (a) or (b) immediately below (the “**Conversion Price**”):

(a) the quotient of \$10,000,000 divided by the aggregate number of issued and outstanding membership interests, assuming full conversion or exercise of all convertible and exercisable securities then outstanding, including convertible preferred membership interests and all outstanding vested or unvested options or warrants to purchase membership interests, but excluding (i) membership interests reserved for future issuance under any equity incentive or similar plan, (ii) convertible promissory notes, (iii) any Simple Agreements for Future Equity, including the Securities (collectively, “**Safes**”), and (iv) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or Safes;

OR

(b) the price per share of the securities sold in such Equity Financing multiplied by 80%.

Such Conversion Price shall be deemed the “**First Equity Financing Price**”.

Conversion After the First Equity Financing

If the Company elects to convert the Securities upon an Equity Financing other than the first Equity Financing following the issuance of the Securities, the Investor will receive the number of CF Shadow Securities equal to the quotient obtained by dividing (a) the Purchase Amount by (b) the First Equity Financing Price.

If the Investor fails to complete, execute and deliver any reasonable or necessary information and documentation requested by the Company or the Intermediary in order to effect the conversion of the Crowd SAFE, as contemplated above in connection with an Equity Financing, within thirty (30) calendar days of receipt of notice (whether actual or constructive) from the Company of the closing of the First Equity Financing, or Subsequent Equity Financing, as applicable, and of the Company’s decision to convert the Crowd Safe to membership interests, then the Investor shall only be eligible to receive a cash payment equal to the Purchase Amount (or a lesser amount as described below), and the Company shall keep a record of the cash payment that the Investor is entitled to claim; provided, that any unclaimed cash payment amount shall be subject to applicable state escheatment laws.

If there are not enough funds to pay the Investor and holders of other Crowd SAFEs that failed to act as required herein (collectively, the “**Cash-Default Investors**”) in full, then all of the Company’s available funds will be allocated with equal priority and pro rata among the Cash-Default Investors to claim in proportion to their Purchase Amounts.

Conversion Upon a Liquidity Event Prior to an Equity Financing

In the case of the Company’s undergoing an **IPO** (as defined below) of its Capital Stock or a Change of Control (as defined below) of the Company (either of these events, a “**Liquidity Event**”) prior to any Equity Financing, the Investor must select, at the option of the Investor and within thirty (30) days of receiving notice (whether actual or constructive), either (i) a cash payment equal to the Purchase Amount subject to the following paragraph (the “**Cash Out Option**”) or (ii) a number of membership interests of the Company equal to the Purchase Amount divided by the quotient of (a) \$10,000,000 divided by (b) the number, as of immediately prior to the Liquidity Event, of membership interests outstanding (on an as-converted basis), assuming the exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding: (x) membership interests reserved for future issuance under any equity incentive or similar plan; (y) any Safes; (z) convertible promissory notes; and (aa) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or Safes.

In connection with the Cash Out Option, the Purchase Amount (or a lesser amount as described below) will be due and payable by the Company to the Investor immediately prior to, or concurrent with, the consummation of the Liquidity Event. If there are not enough funds to pay the Investors and the holders of other Safes (collectively, the

“**Cash-Out Investors**”) in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts.

“**Change of Control**” as used above, means (i) a transaction or series of related transactions in which any person or group becomes the beneficial owner of more than fifty percent (50%) of the outstanding voting securities entitled to elect the Company’s board of directors or managers, (ii) any reorganization, merger or consolidation of the Company, in which the outstanding voting security holders of the Company fail to retain at least a majority of such voting securities following such transaction or (iii) a sale, lease or other disposition of all or substantially all of the assets of the Company.

“**IPO**” ,as used above, means: (A) the completion of an underwritten initial public offering of Capital Stock by the Company pursuant to: (I) a final prospectus for which a receipt is issued by a securities commission of the United States or of a province of Canada, or (II) a registration statement which has been filed with the United States Securities and Exchange Commission and is declared effective to enable the sale of Capital Stock by the Company to the public, which in each case results in such equity securities being listed and posted for trading or quoted on a recognized exchange; (B) the Company’s initial listing of its Capital Stock (other than shares of Capital Stock not eligible for resale under Rule 144 under the Securities Act) on a national securities exchange by means of an effective registration statement on Form S-1 filed by the Company with the SEC that registers shares of existing capital stock of the Company for resale, as approved by the Company’s board of directors, where such listing shall not be deemed to be an underwritten offering and shall not involve any underwriting services; or (C) the completion of a reverse merger or take-over whereby an entity (I) whose securities are listed and posted for trading or quoted on a recognized exchange, or (II) is a reporting issuer in the United States or the equivalent in any foreign jurisdiction, acquires all of the issued and outstanding Capital Stock of the Company

Conversion Upon a Liquidity Event Following an Equity Financing

In the case of a Liquidity Event following any Equity Financing, the Investor must select, at the option of the Investor and within thirty (30) days of receiving notice (whether actual or constructive), either (i) the Cash Out Option or (ii) a number of membership interests of the most recently issued membership interests equal to the Purchase Amount divided by the First Equity Financing Price. Membership interests granted in connection therewith shall have the same liquidation rights and preferences as the membership interests issued in connection with the Company’s most recent Equity Financing.

If there are not enough funds to pay the Investors and the other Cash-Out Investors in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts.

If the Investor fails to (i) complete, execute and deliver any reasonable or necessary information and documentation requested by the Company or the Intermediary in order to effect the conversion of the Crowd SAFE or (ii) notify Company of its selection to receive the cash payment or membership interests of the most recently issued membership interests, as contemplated above in connection with a Liquidity Event, within thirty (30) calendar days of receipt of notice (whether actual or constructive) from the Company of such Liquidity Event, then the Investor shall only be eligible to receive the cash payment option, and the Company shall keep a record of the cash payment that the Investor is entitled to claim; provided, that any unclaimed cash payment amount shall be subject to applicable state escheatment laws.

If the Company’s board of directors (or other applicable governing body if the Company is a limited liability company) determines in good faith that delivery of equity securities to the Investor pursuant to Liquidity Event paragraphs above would violate applicable law, rule or regulation, then the Company shall deliver to Investor in lieu thereof, a cash payment equal to the fair market value of such membership interests, as determined in good faith by the Company’s board of directors (or other applicable governing body if the Company is a limited liability company).

Dissolution

If there is a Dissolution Event (as defined below) before the Securities terminate, subject to the preferences applicable to any series of preferred membership interests then outstanding, the Company will distribute all proceeds legally available for distribution with equal priority among the (i) holders of the Securities (on an as converted basis based on a valuation of Common Stock as determined in good faith by the Company’s board of directors (or other applicable

governing body if the Company is a limited liability company) at the time of the Dissolution Event), (ii) all other holders of instruments sharing in the distribution of proceeds of the Company at the same priority as holders of Common Stock upon a Dissolution Event and (iii) all holders of Common Stock.

A “**Dissolution Event**” means (i) a voluntary termination of operations by the Company, (ii) a general assignment for the benefit of the Company’s creditors or (iii) any other liquidation, dissolution or winding up of the Company (excluding a Liquidity Event), whether voluntary or involuntary.

Each Investor should be aware that although the Securities may legally be able to be transferred, there is no guarantee that another party will be willing to purchase them.

In addition to the foregoing restrictions, prior to making any transfer of the Securities or any membership interests into which they are convertible, such transferring Investor must either make such transfer pursuant to an effective registration statement filed with the SEC or provide the Company with an opinion of counsel reasonably satisfactory to the Company stating that a registration statement is not necessary to effect such transfer.

In addition, the Investor may not transfer the Securities or any membership interests into which they are convertible to any of the Company’s competitors, as determined by the Company in good faith.

Furthermore, upon the event of an IPO, the capital stock into which the Securities are converted will be subject to a lock-up period and may not be lent, offered, pledged, or sold for up to 180 days following such IPO.

Nuovo Properties LLC
Notes to the Unaudited Financial Statements
December 31st, 2020
\$USD

NOTE 1 – ORGANIZATION AND NATURE OF ACTIVITIES

Nuovo Properties LLC (“the Company”) was formed in Florida on August 20th, 2015. A subsidiary of the Company, Nuovo LLC, was also formed in Florida on May 6th, 2020. These financials are a consolidation of both entities. The Company earns revenue by subleasing fully furnished luxury apartments.

The Company will conduct a crowdfunding campaign under regulation CF in 2021 to raise operating capital.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

Our financial statements are prepared in accordance with U.S. generally accepted accounting principles (“GAAP”). Our fiscal year ends on December 31.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include all cash balances, and highly liquid investments with maturities of three months or less when purchased.

Fair Value of Financial Instruments

ASC 820 “*Fair Value Measurements and Disclosures*” establishes a three-tier fair value hierarchy, which prioritizes the inputs in measuring fair value. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

These tiers include:

Level 1: defined as observable inputs such as quoted prices in active markets;

Level 2: defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and

Level 3: defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Concentrations of Credit Risks

The Company’s financial instruments that are exposed to concentrations of credit risk primarily consist of its cash and cash equivalents. The Company places its cash and cash equivalents with financial institutions of high credit worthiness. The Company’s management plans to assess the financial strength and credit worthiness of any parties to which it extends funds, and as such, it believes that any associated credit risk exposures are limited.

Revenue Recognition

The Company recognizes revenue from the sale of products and services in accordance with ASC 606, "Revenue Recognition" following the five steps procedure:

- Step 1: Identify the contract(s) with customers
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to performance obligations
- Step 5: Recognize revenue as performance obligations are satisfied.

The Company generates substantially all of its revenue from facilitating guest stays at short or long term rentals at properties leased by the Company from owners.

The Company recognizes revenue in accordance with Accounting Standards Codification ("ASC") Topic 606, Revenue from Contracts with Customers ("ASC 606"). The customers agree to the Company's Terms of Service ("ToS") to use the Company's platform. Upon confirmation of a booking made by a guest, the Company agrees to provide the use of the property. At such time, the Company and guest also agree upon the applicable booking value as well as service fees. The Company charges service fees in exchange for certain activities, including the use of the Company's platform, customer support, and payment processing activities. These activities are not distinct from each other and are not separate performance obligations. As a result, the Company's single performance obligation is to facilitate a stay, which occurs upon the completion of a check-in event (a "check-in"). The Company recognizes revenue upon check-in as its performance obligation is satisfied upon check-in and the Company has the right to receive payment for the fulfillment of the performance obligation.

The Company charges service fees to its customers as a percentage of the value of the booking, excluding taxes. The Company collects both the booking value from the guest and the applicable guest fees owed to the Company using the guest's pre-authorized payment method. After check-in, the Company disburses the booking value to the property owner, less the fees due from the owner to the Company. The service fees collected from customers prior to check-in are recorded as unearned fees. Unearned fees are not considered contract balances under ASC 606-10-50-8 because they are subject to refund in the event of a cancellation.

The Company evaluates the presentation of revenue on a gross versus net basis based on whether or not it is the principal (gross) or the agent (net) in the transaction. As part of the evaluation, the Company considers whether it controls the right to use the property before control is transferred. Indicators of control that the Company considers include whether the Company is primarily responsible for fulfilling the promise associated with the rental of the property, whether it has inventory risk associated with the property, and whether it has discretion in establishing the prices for the property. The Company determined that it does control the right to use the properties either before and after completion of its service since it leases the property from the owner. Accordingly, the Company has concluded that it is acting in a principal; capacity and revenue is presented gross reflecting the nightly and service fees received from guests and hosts to facilitate a stay.

The Company has elected to recognize the incremental costs of obtaining a contract, including the costs of certain referrer fees, as an expense when incurred as the amortization period of the asset that the Company otherwise would have recognized is one year or less. The Company has no significant financing components in its contracts with customers.

Property and Equipment

Property and equipment are recorded at cost. Expenditures for renewals and improvements that significantly add to the productive capacity or extend the useful life of an asset are capitalized. Expenditures for maintenance and repairs are charged to expense. When equipment is retired or sold, the cost and related accumulated depreciation are eliminated from the accounts and the resultant gain or loss is reflected in income. Depreciation is provided using the straight-line method, based on useful lives of the assets.

The Company reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, the manner in which the property is used, and the effects of obsolescence, demand, competition, and other economic factors. Based on this assessment there was no impairment for December 31, 2020.

A summary of the Company's property and equipment is below.

Property Type	Useful Life (in years)	Cost	Accumulated Depreciation	Disposals	Book Value as of 12/31/20
Furniture & Fixtures	7	916,009	308,533	-	607,476
Equipment	7	46,260	26,933	-	19,327
Trademark	15	3,815	593	-	3,222
Grand Total	-	966,084	336,059	-	630,025

Accounts Receivable

Trade receivables due from customers are uncollateralized customer obligations due under normal trade terms. Trade receivables are stated at the amount billed to the customer. Payments of trade receivables are allocated to the specific invoices identified on the customer's remittance advice or, if unspecified, are applied to the earliest unpaid invoices. Payments are generally collected upfront, but some of the merchants that products are sold through have a delay between collecting from the customer and sending to the Company.

The Company estimates an allowance for doubtful accounts based upon an evaluation of the current status of receivables, historical experience, and other factors as necessary. It is reasonably possible that the Company's estimate of the allowance for doubtful accounts will change.

Advertising Costs

Advertising costs associated with marketing the Company's products and services are generally expensed as costs are incurred.

General and Administrative

General and administrative expenses consist of payroll and related expenses for employees and independent contractors involved in general corporate functions, including accounting, finance, tax, legal, business development, and other miscellaneous expenses.

Income Taxes

The Company is a pass-through entity therefore any income tax expense or benefit is the responsibility of the company's owners. As such, no provision for income tax is recognized on the Statement of Operations.

Recent accounting pronouncements

The FASB issues ASUs to amend the authoritative literature in ASC. There have been a number of ASUs to date that amend the original text of ASC. Management believes that those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, (iii) are not applicable to us or (iv) are not expected to have a significant impact on our financial statements.

NOTE 6 – EQUITY

The Company is a multi member LLC with a single class of ownership interest. During the years ended December 31, 2020 and 2019, Member Capital was \$2,048,381 and \$1,967,625, respectively.

NOTE 7 – SUBSEQUENT EVENTS

The Company has evaluated events subsequent to December 31, 2020 to assess the need for potential recognition or disclosure in this report. Such events were evaluated through July 15, 2021, the date these financial statements were available to be issued. No events require recognition or disclosure.

NOTE 8 – GOING CONCERN

The accompanying balance sheet has been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The entity has realized losses every year since inception and may continue to generate losses.

The Company's ability to continue as a going concern in the next twelve months following the date the financial statements were available to be issued is dependent upon its ability to produce revenues and/or obtain financing sufficient to meet current and future obligations and deploy such to produce profitable operating results. Management has evaluated these conditions and plans to generate revenues and raise capital as needed to satisfy its capital needs. No assurance can be given that the Company will be successful in these efforts. These factors, among others, raise substantial doubt about the ability of the Company to continue as a going concern for a reasonable period of time. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities.

NOTE 9 – RISKS AND UNCERTAINTIES

COVID-19

Since December 31, 2020 the spread of COVID-19 has severely impacted many local economies around the globe. In many countries, businesses are being forced to cease or limit operations for long or indefinite periods of time. Measures taken to contain the spread of the virus, including travel bans, quarantines, social distancing, and closures of non-essential services have triggered significant disruptions to businesses worldwide, resulting in an economic slowdown. Global stock markets have also experienced great volatility and a significant weakening. Governments and central banks have responded with monetary and fiscal interventions to stabilize economic conditions.

The duration and impact of the COVID-19 pandemic, as well as the effectiveness of government and central bank responses remains unclear currently. It is not possible to reliably estimate the duration and severity of these consequences, as well as their impact on the financial position and results of the Company for future periods. Note: this disclosure assumes there is no significant doubt about the entity's ability to continue as a going concern.

FAQ

How do I earn a return?	We are using Republic's Crowd SAFE security. Learn how this translates into a return on investment here.
What must I do to receive my equity or cash in the event of the conversion of my Crowd SAFE?	<p>Suppose the Company converts the Crowd SAFE as a result of an equity financing. In that case, you must open a custodial account with the custodian and sign subscription documentation to receive the equity securities. The Company will notify you of the conversion trigger, and you must complete necessary documentation within 30 days of such notice. If you do not complete the required documentation with that time frame, you will only be able to receive an amount of cash equal to (or less in some circumstances) your investment amount. Unclaimed cash will be subject to relevant escheatment laws. For more information, see the Crowd SAFE for this offering.</p> <p>If the conversion of the Crowd SAFE is triggered as a result of a Liquidity Event (e.g. M&A or an IPO), then you will be required to select between receiving a cash payment (equal to your investment amount or a lesser amount) or equity. See Section 2 for certain additional defined terms.

1. *Events*

(a) Equity Financing.

(i) If an Equity Financing occurs before this instrument terminates in accordance with Sections 1(b)-(d) (“**First Equity Financing**”), the Company shall promptly notify the Investor of the closing of the First Equity Financing and of the Company’s discretionary decision to either (1) continue the term of this Crowd SAFE without converting the Purchase Amount to Equity Interests; or (2) issue to the Investor a number of units of the CF Shadow Series of the Equity Interests (whether Preferred Securities or another class issued by the Company), as applicable, sold in the First Equity Financing. The number of units of the CF Shadow Series of such Equity Interests shall equal the quotient obtained by dividing (x) the Purchase Amount by (y) the applicable Conversion Price (such applicable Conversion Price, the “**First**

Equity Financing Price”).

(ii) If the Company elects to continue the term of this Crowd SAFE past the First Equity Financing and another Equity Financing occurs before the termination of this Crowd SAFE in accordance with Sections 1(b)-(d) (each, a “**Subsequent Equity Financing**”), the Company shall promptly notify the Investor of the closing of the Subsequent Equity Financing and of the Company’s discretionary decision to either (1) continue the term of this Crowd SAFE without converting the Investor’s Purchase Amount to Equity Interests; or (2) issue to the Investor a number of units of the CF Shadow Series of the Equity Interests (whether Preferred Securities or another class issued by the Company) sold in the Subsequent Equity Financing. The number of units of the CF Shadow Series of such Equity Interests shall equal to the quotient obtained by dividing (x) the Purchase Amount by (y) the First Equity Financing Price.

(iii) If the Investor fails to complete, execute and deliver any reasonable or necessary information and documentation requested by the Company or the Intermediary in order to effect the conversion of this Crowd SAFE, as contemplated in this Section 1(a), within thirty (30) calendar days of receipt of notice (whether actual or constructive) from the Company of the closing of the First Equity Financing, or Subsequent Equity Financing, as applicable, and of the Company’s decision to convert this Crowd Safe to Equity Interests, then the Investor shall only be eligible to receive a cash payment equal to the Purchase Amount (or a lesser amount as described below), and the Company shall keep a record of the cash payment that the Investor is entitled to claim; provided, that any unclaimed cash payment amount shall be subject to applicable state escheatment laws. If there are not enough funds to pay the Investor and holders of other Crowd SAFEs that failed to act as required herein (collectively, the “**Cash-Default Investors**”) in full, then all of the Company’s available funds will be allocated with equal priority and pro rata among the Cash-Default Investors to claim in proportion to their Purchase Amounts.

(b) **Liquidity Event.**

(i) If there is a Liquidity Event before the termination of this instrument and before any Equity Financing, the Investor must select, at its option, within thirty (30) days of receiving notice (whether actual or constructive), either (1) to receive a cash payment equal to the Purchase Amount (or a lesser amount as described below) or (2) to receive from the Company a number of units of Common Securities equal to the Purchase Amount (or a lesser amount as described below) divided by the Liquidity Price.

(ii) If there is a Liquidity Event after one or more Equity Financings have occurred but before the termination of this instrument, the Investor must select, at its option, within thirty (30) days of receiving notice (whether actual or constructive), either (1) to receive a cash payment equal to the Purchase Amount (or a lesser amount as described below) or (2) to receive from the Company a number of units of the most recent issued Equity Interests (whether Preferred Securities or another class issued by the Company) equal to the Purchase Amount divided by the First Equity Financing Price. Units of Equity Interests granted in connection therewith shall have the same liquidation rights and preferences as the units of Equity Interests issued in connection with the Company’s most recent Equity Financing.

(iii) If there are not enough funds to pay the Investor and holders of other Crowd SAFEs (collectively, the “**Cash-Out Investors**”) in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts. In connection with this Section 1(b), the Purchase Amount (or a lesser amount as described below) will be due and payable by the Company to the Investor immediately prior to, or concurrent with, the consummation of the Liquidity Event.

Notwithstanding Sections 1(b)(i)(2) or 1(b)(ii)(2), if the Company's managers (or board of directors if the Company is a corporation) determines in good faith that delivery of Equity Interests to the Investor pursuant to Section 1(b)(i)(2) or Section 1(b)(ii)(2) would violate applicable law, rule or regulation, then the Company shall deliver to Investor in lieu thereof, a cash payment equal to the fair market value of such Equity Interests, as determined in good faith by the Company's manager(s) (or board of directors if the Company becomes a corporation).

If the Investor fails to (i) complete, execute and deliver any reasonable or necessary information and documentation requested by the Company or the Intermediary in order to effect the conversion of this Crowd SAFE or (ii) notify Company of its selection to receive the cash payment or units of the most recently issued Equity Interests, as contemplated in this Section 1(b), within thirty (30) calendar days of receipt of notice (whether actual or constructive) from the Company of such Liquidity Event, then the Investor shall only be eligible to receive the cash payment option, and the Company shall keep a record of the cash payment contemplated in Section 1(b) that the Investor is entitled to claim; provided, that any unclaimed cash payment amount shall be subject to applicable state escheatment laws.

(c) **Dissolution Event**. (d) **Termination**. This instrument will terminate (without relieving the Company or the Investor of any obligations arising from a prior breach of or non-compliance with this instrument) upon the earlier to occur: (i) the issuance of units, whether in Equity Interests or in the CF Shadow Series or Common Securities to the Investor pursuant to Section 1(a) or Section 1(b); or (ii) the payment, or setting aside for payment, of amounts due to the Investor pursuant to Sections 1(b) or 1(c).

(i) There is then in effect a registration statement under the Securities Act covering such proposed disposition and such disposition is made in accordance with such registration statement; or

(ii) The Investor shall have notified the Company of the proposed disposition and shall have furnished the Company with a detailed statement of the circumstances surrounding the proposed disposition and, if reasonably requested by the Company, the Investor shall have furnished the Company with an opinion of counsel reasonably satisfactory to the Company that such disposition will not require registration of such securities under the Securities Act.

Exhibit A – CF Shadow Unit Proxy

Irrevocable Proxy

Reference is hereby made to a certain Crowdfunding Simple Agreement for Future Equity (the “**Crowd SAFE**”) dated [Date of Crowd SAFE] between Nuovo Properties LLC, a Florida limited liability company (the “**Company**”) and [Investor Name] (“**Member**”). Capitalized terms used but not defined herein shall have the respective meanings ascribed thereto in the Crowd SAFE. In connection with a conversion of Member’s investment in the Crowd SAFE into Equity Interests of a CF Shadow Series (as defined in the Crowd SAFE) pursuant to the Crowd SAFE, the Member and OpenDeal Portal LLC (the “**Intermediary**”) as another holder of Equity Interests of a CF Shadow Series hereby agree as follows:

1) Grant of Irrevocable Proxy.

- a) With respect to all of the units of Equity Interests of CF Shadow Series owned by the Member as of the date of this Irrevocable Proxy or any subsequent date (the “**Units**”), Member hereby grants to Intermediary an irrevocable proxy under Section 605.04073 of the Florida Revised Limited Liability Act to vote the Units in any manner that the Intermediary may determine in its sole and absolute discretion. For the avoidance of doubt, the Intermediary, as the holder (“**Holder**”) of the irrevocable proxy (rather than the Member) will vote the Units with respect to all member meetings and other actions (including actions by written consent in lieu of a meeting) on which holders of Units may be entitled to vote. The Intermediary hereby agrees to vote all Units consistently with the majority of the Equity Interests on which the CF Shadow Series is based. This proxy revokes any other proxy granted by the Member at any time with respect to the Units.
- b) The Intermediary shall have no duty, liability or obligation whatsoever to the Member arising out of the Intermediary’s exercise of this irrevocable proxy. The Member expressly acknowledges and agrees that (i) the Member will not impede the exercise of the Intermediary’s rights under this irrevocable proxy and (ii) the Member waives and relinquishes any claim, right or action the Member might have, as a member of the Company or otherwise, against the Intermediary or any of its affiliates or agents (including any directors, officers, managers, members, and employees) in connection with any exercise of the irrevocable proxy granted hereunder.
- c) This irrevocable proxy shall expire as to those Units on the earlier of (i) the date that such Units are converted into Common Securities of the Company or (ii) the date that such Units are converted to cash or a cash equivalent, but shall continue as to any Units not so converted.

2) **Legend.** The Member agrees to permit an appropriate legend on certificates evidencing the Units or any transfer books or related documentation of ownership reflecting the grant of the irrevocable proxy contained in the foregoing Section 1.

3) **Representations and Warranties.** The Member represents and warrants to the Intermediary as follows:

- a) The Member has all the necessary rights, power and authority to execute, deliver and perform his obligations under this Irrevocable Proxy. This Irrevocable Proxy has been duly executed and delivered by the Member and constitutes such Member’s legal and valid obligation enforceable against the Member in accordance with its terms.

b) The Member is the record owner of the Units and the Member has plenary voting and dispositive power with respect to such Units; the Member owns no other units of the Equity Interests of the Company; there are no proxies, voting trusts or other agreements or understandings to which such Member is a party or bound by and which expressly require that any of the Units be voted in any specific manner other than pursuant to this irrevocable proxy; and the Member has not entered into any agreement or arrangement inconsistent with this Irrevocable Proxy.

4) **Equitable Remedies.** The Member acknowledges that irreparable damage would result if this Irrevocable Proxy is not specifically enforced and that, therefore, the rights and obligations of the Intermediary may be enforced by a decree of specific performance issued by arbitration pursuant to the Crowd SAFE, and appropriate injunctive relief may be applied for and granted in connection therewith. Such remedies shall, however, not be exclusive and shall be in addition to any other remedies that the Intermediary may otherwise have available.

5) **Defined Terms.** All terms defined in this Irrevocable Proxy shall have the meaning defined herein. All other terms will be interpreted in accordance with the Crowd SAFE.

6) **Amendment.** Any provision of this instrument may be amended, waived or modified only upon the written consent of the (i) the Member and (ii) the Intermediary.

7) **Assignment.**

a) In the event the Member wishes to transfer, sell, hypothecate or otherwise assign any Units, the Member hereby agrees to require, as a condition of such action, that the counterparty or counterparties thereto must enter into a proxy agreement with the Intermediary substantially identical to this Irrevocable Proxy.

b) The Intermediary may transfer its rights as Holder under this instrument after giving prior written notice to the Member.

8) **Severability.** In the event any one or more of the terms or provisions of this instrument is for any reason held to be invalid, illegal or unenforceable, in whole or in part or in any respect, or in the event that any one or more of the terms or provisions of this instrument operate or would prospectively operate to invalidate this instrument, then such term(s) or provision(s) only will be deemed null and void and will not affect any other term or provision of this instrument and the remaining terms and provisions of this instrument will remain operative and in full force and effect and will not be affected, prejudiced, or disturbed thereby.

IN WITNESS WHEREOF, the undersigned have caused this instrument to be duly executed and delivered.

FAQ**How do I
earn a
return?**

We are using Republic's Crowd SAFE security. Learn how this translates into a return on investment here.

**What must
I do to
receive my
equity or
cash in the
event of
the
conversion
of my
Crowd
SAFE?**

Suppose the Company converts the Crowd SAFE as a result of an equity financing. In that case, you must open a custodial account with the custodian and sign subscription documentation to receive the equity securities. The Company will notify you of the conversion trigger, and you must complete necessary documentation within 30 days of such notice. If you do not complete the required documentation with that time frame, you will only be able to receive an amount of cash equal to (or less in some circumstances) your investment amount. Unclaimed cash will be subject to relevant escheatment laws. For more information, see the Crowd SAFE for this offering.

If the conversion of the Crowd SAFE is triggered as a result of a Liquidity Event (e.g. M&A or an IPO), then you will be required to select between receiving a cash payment (equal to your investment amount or a lesser amount) or equity. You are required to make your selection (and complete any relevant documentation) within 30 days of such receiving notice from the Company of the conversion trigger, otherwise you will receive the cash payment option, which will be subject to relevant escheatment laws. The equity consideration varies depending on whether the Liquidity Event occurs before or after an equity financing. For more information, see the Crowd SAFE for this offering.

FAQ**How do I
earn a
return?**

We are using Republic's Crowd SAFE security. Learn how this translates into a return on investment here.

**What must
I do to
receive my
equity or
cash in the
event of
the
conversion
of my
Crowd
SAFE?**

Suppose the Company converts the Crowd SAFE as a result of an equity financing. In that case, you must open a custodial account with the custodian and sign subscription documentation to receive the equity securities. The Company will notify you of the conversion trigger, and you must complete necessary documentation within 30 days of such notice. If you do not complete the required documentation with that time frame, you will only be able to receive an amount of cash equal to (or less in some circumstances) your investment amount. Unclaimed cash will be subject to relevant escheatment laws. For more information, see the Crowd SAFE for this offering.

If the conversion of the Crowd SAFE is triggered as a result of a Liquidity Event (e.g. M&A or an IPO), then you will be required to select between receiving a cash payment (equal to your investment amount or a lesser amount) or equity. You are required to make your selection (and complete any relevant documentation) within 30 days of such receiving notice from the Company of the conversion trigger, otherwise you will receive the cash payment option, which will be subject to relevant escheatment laws. The equity consideration varies depending on whether the Liquidity Event occurs before or after an equity financing. For more information, see the Crowd SAFE for this offering.

Subscription-Based Living And Short Term Rentals Are Revolutionizing The Way People Live, Work, And Travel With NUOVO

(Photo : Subscription-Based Living And Short Term Rentals Are Revolutionizing The Way People Live, Work, And Travel With NUOVO)

We have all heard of many different subscription-based services including entertainment, software, classes, food, beauty, personal products, medical services, etc. These services offer value, convenience, and personalization, making them quite popular with a wide range of consumers and specific niche markets. One thing most people have never heard of is subscription-based living, a new, unique concept brought to you by Nicolas Ortega, CEO, and co-founder of NUOVO, a Miami-based tech-enabled short-term rental management company. NUOVO partners clients with short-term rentals and manages properties for owners. Ortega and his team are launching a new, innovative, and truly unique subscription-based rental housing network that will revolutionize how people live, work, and travel.

work, many professionals have found they do not want to go back. Digital nomads, influencers, creators, and more and more people have found ways to work in the digital space, giving them the flexibility to travel and work from anywhere in the country. This has increased the need and demand for short-term rentals, and NUOVO has created a subscription-based model that will benefit those who need to live and work regularly in different cities around the United States.

Currently, many people are embracing the semi-nomadic lifestyle, however, the cost of sustaining a home, or regular place to crash in multiple places can get pricey very quickly. The subscription-based living model will cater to those who need to live and work in different places, offering financial security and flexibility at the same time. Subscribers will have the ability to pay a monthly fee and guarantee themselves a reliable place to stay in multiple cities. NUOVO provides a living solution that not only serves digital nomads and those who work remotely, it is a perfect fit for those in the creator economy as it provides flexibility to experience new locations and cultures, inspiring them to create organic and engaging new content.

The subscription service will offer three different tiers, as well as a custom option offering monthly accommodations in different cities. There will be a bronze, silver, and gold tier, allowing subscribers to pick from different housing markets across the country. Subscribers can also create a custom package to suit the needs of their individual situation. The company believes that flexible travel and living options are the future of both industries and wants to combine the best of both these worlds to create sustainable, affordable, flexible housing options with a presence in all major real estate markets in the country, offering a wide

NUOVO plans to launch this new service within the next 18 months and is working through the different phases of research and development now. NUOVO has launched a crowdfunding campaign on the startup investment platform Republic, offering investors an option to grow with this opportunity, they have raised \$2.5 million and now aim to raise another \$1.07 million to apply towards business development and growth, product development, team building, and marketing of this new, subscription-based short term rental platform.

Learn more about NUOVO and their unique subscription-based model on their [website](#), and through their [Republic crowdfunding campaign](#). The future of how we live and travel is here with this revolutionary new idea of subscription short-term rental concept.
