FORM C

Offering Memorandum

Purpose of This Form

A company that wants to raise money using Regulation Crowdfunding must give certain information to prospective investors, so investors will have a basis for making an informed decision. §227.201(D) – THE COMPANY’S BUSINESS AND BUSINESS PLAN

The Problem

East Boston has experienced strong growth in the past 5 years, with population growth exceeding the greater Boston average by nearly 25%. With more than 40,000 residents and growing, East Boston’s amenity-based business growth has lagged its population growth immensely. Specifically in the food, retail, and entertainment categories, the market is definitively undersaturated, waiting for quality operations to begin soaking up the unfulfilled demand.

The Solution

Noodle Bar and Cafe by Iterum Foods will serve high quality affordable dining options to the residents of East Boston. We will focus on modern clean and healthy foods, taking influence from different cultural noodle cuisines across the world, all while maintaining the familiarity of classic comfort foods. By bringing more diversity to East Boston’s culinary landscape, we will give consumers more dining options to engrain in their day to day routines.

Iterum as a company focuses on better restaurant systems that create more ethically conscious restaurants and reduce waste.

We will also provide a place for local residents to buy sustainable products to use at the cafe or at home.

Why Iterum:

As a resident of East Boston, Chef McPherson has been wanting to bring a new dining option to his community for a while. Living and breathing Eastie is integral into getting it right. We look to offer clean, healthier but desirable food options for the community, starting with breakfast as they make

their way to work in the morning, a cozy spot to work and grab lunch if working local, and dinner and drinks to close out their day.

Competitor Analysis:

While the volume of dining options in East Boston has grown over the past 5 years, the majority of new ventures have stayed within the lanes of the dominant cuisine options currently in existence. We will be the first to market in the noodle house category in East Boston and will be providing an option that didn't exist before.

With the surplus of residential demand, we believe that adding more options to better balance the market will only continue to drive population growth as East Boston's business amenity ecosystem makes living in East Boston more and more attractive.

Market Analysis

The East Boston market has been seeing huge development within the past couple years of over 1,200 new buildings, as well as hundreds of houses and units being renovated.

The city of Boston is home to an estimated 667,137 people as of 2016. The Greater Boston area is home to an estimated 4.7 million, making it the 10th largest metropolitan area in the United States.

The Greater Boston region has an even larger population of 8.1 million, which makes it the 6th largest combined statistical area in the country.

The economic development of the East Boston market is continuing to grow at a near-exponential scale, seeing new unit construction in the thousands and hundreds of residential rehabilitation/renovation projects being executed concurrently.

Our Business Model and Business Plan

303 Sumner is a 1,500 sf space in the Jeffries point area of East Boston. Opening at 7 AM, we will cater to residential working population, serving morning coffee and tea drinks to the morning residences as well as a light breakfast menu. We will provide a small assortment of grab&go style food for the morning commute into Boston as well. We will remain open through lunch, operating as a casual dining hang. At 4 pm, we will switch over into a more elevated dining experience, while maintaining our laid-back, accessible vibe. We want to make the residents feel as though this an extension of their home and are welcome to come multiple times a day for whatever they are in need of: coffee, a warm meal, or a quiet place to work over a beer.

Hours of Operation

7:00am - 12:30am

Target Market

The residents of Maverick Square and Jeffries Point in East Boston will be the primary target market for Iterum Noodle.

With the recent surge in affluent population, we will be offering high quality food and beverage to capture underserved demand stemming from lagging growth in East Boston's hospitality space.

Required Statement

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

EXPLANATION: A “material change” means a change that an average, careful investor would want to know about before making an investment decision. A material change could be good or bad. If a material change occurs after you make an investment commitment but before the Offering closes, then the Company will notify you and ask whether you want to invest anyway. If you do not affirmatively choose to invest, then your commitment will be cancelled, your funds will be returned to you, and you will not receive any securities.

§227.201(L) – PRICE OF THE SECURITIES

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as “Notes.” The Notes are being offered at their face amount. For example, you will pay \$1,000 for a Note with a face amount of \$1,000.

§227.201(M) – TERMS OF THE SECURITIES

Overview

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as “Notes.” Many of the terms of the Notes are set forth in a separate document called the Note Indenture. Copies of the form of Note the Company will issue, and the Note Indenture, are attached to this Form C.

Your Right to Payments under the Note

Your right to payments under the Note is set forth in the Note, together with a separate document called the Note Indenture. Copies of the form of Note the Company will issue, and the Note Indenture, are attached to this Form C. Additionally, general terms are outlined below and in the Company's offering page:

Obligation to Contribute Capital

Once you pay for your Note, you will have no obligation to contribute more money to the Company, and you will not be personally obligated for any debts of the Company. However, under some circumstances you could be required by law to return some or all of a distribution you receive from the Company.

No Right to Transfer

The Notes will be illiquid (meaning you might not be able to sell them) for four reasons:

- The Note Indenture prohibits the sale or other transfer of Notes without the Company's consent.
- If you want to sell your Note the Company will have the first right of refusal to buy it, which could make it harder to find a buyer.
- Even if a sale were permitted, there is no ready market for Notes, as there would be for a publicly-traded stock.
- By law, for a period of one year you won't be allowed to transfer the Investor Shares except (i) to the Company itself, (ii) to an "accredited" investor, (iii) to a family or trust, or (iii) in a public offering of the Company's shares.

As a result, you should plan to hold your Note until maturity.

Security

The Notes are not secured by any assets of the Company or any assets of persons associated with the Company.

Modification of Terms of Notes

The terms of the Notes and the Note Indenture may be modified or amended with the consent of Investors holding 50% of the Notes, measured by the total amount outstanding under each Note.

Other Classes of Securities

The Company has outstanding the following securities:

INTENDED FOR REVIEW BY POTENTIAL INVESTORS ON MAINVEST ONLY. DO NOT COPY OR DISTRIBUTE.

Number of Shares Outstanding	n/a
Describe Voting Rights of These Securities, Including Any Limitations on Voting Rights	n/a
How These Securities Differ from the Promissory Notes Offered to Investors	Limited Liability Company Interests represent ownership interests in the Company, whereas the Notes are a debt obligation of the Company.

Dilution of Rights

The Company has the right to create additional classes of securities, both equity securities and debt securities (e.g., other classes of promissory notes). Some of these additional classes of securities could have rights that are superior to those of the Notes. For example, the Company could issue promissory notes that are secured by specific property of the Company.

The People Who Control the Company

Each of these people owns 20% or more of the total voting power of the Company:

<i>Name</i>	<i>Percentage of Voting Rights</i>
Matthew McPherson	100%

How the Exercise of Voting Rights Could Affect You

You will receive payments with respect to your Note only if the Company makes enough money to pay you or, if the Company doesn't make enough money to pay you, if there is enough value in the collateral the Company pledged as security for the Notes.

The people with voting rights control the Company and make all the decisions about running its business. If they make good business decisions, it is more likely you will be paid. If they make poor business decisions, it is less likely you will be paid. For example, if they hire too many people and/or try to expand too quickly, the business could be harmed. The people with voting rights could also decide to file for bankruptcy protection, making it more difficult for you to be paid.

How the Notes are Being Valued

The Notes are being valued at their face value. We don't anticipate that we'll ever need to place a value on the Notes in the future.

§227.201(n) – THE FUNDING PORTAL

The Company is offering its securities through MainVest, Inc., which is a "Funding Portal" licensed by the Securities and Exchange Commission and FINRA. MainVest Inc.'s Central Index Key (CIK) number is 0001746059, their SEC File number is 007-00162, and their Central Registration Depository (CRD) number is 298384.

§227.201(o) – COMPENSATION OF THE FUNDING PORTAL

INTENDED FOR REVIEW BY POTENTIAL INVESTORS ON MAINVEST ONLY. DO NOT COPY OR DISTRIBUTE.

The Company will compensate MainVest, Inc. as follows:

MainVest will be paid 6.0% of the final offering amount, upon the successful completion of the offering. MainVest does not receive compensation if the offering does not succeed.

MainVest, Inc. owns no interest in the Company, directly or indirectly, and will not acquire an interest as part of the Offering, nor is there any arrangement for MainVest, Inc. to acquire an interest.

§227.201(P) – INDEBTEDNESS OF THE COMPANY

The Company has no indebtedness outside of the debt the Company is expecting to raise through regulation crowdfunding on MainVest.

§227.201(Q) – OTHER OFFERINGS OF SECURITIES WITHIN THE LAST THREE YEARS

The Company has not made any offerings with other third-party regulation crowdfunding companies in the past three years.

§227.201(R) – TRANSACTIONS BETWEEN THE COMPANY AND “INSIDERS”

The Company has not made any business transaction with “Insiders,” including stock purchases, salaries, property rentals, consulting arrangements, guaranties, etc.

§227.201(S) – THE COMPANY’S FINANCIAL CONDITION

The Company was established in January 2019. As such, there are limited financial statements and information for the investor to review.

Without the funds the Company plans to raise through regulation crowdfunding on MainVest, the Company would need to find other funds for the completion of its buildout, equipment, and ultimately to launch the Company. At this time, the Company has no outstanding debt at the time of this offering.

As such, Investor "Perks" are not contractual conditions governed by "the Note" and are not enforceable under "the Note".

APPENDIX A: INVESTMENT RISKS

YOU MIGHT LOSE YOUR MONEY

When you buy a certificate of deposit from a bank, the Federal government (through the FDIC) guarantees you will get your money back. Buying a Note is not like that at all. The ability of the Company to make the payments you expect, and ultimately to give you your money back, depends on a number of factors, including many beyond our control. Investing in restaurants is a risk and Factors beyond our control include government regulation, weather and changing market trends.

REAL ESTATE RISK

Iterum Foods LLC is still in the process of securing a location to lease, which will be necessary to conduct operations. Iterum Foods has signed a Letter of Intent and has a location in sight. We do have several back up locations that are also still available. To the extent Iterum Foods is unable to find and secure a location that is adequate, investors may lose some or all of their investment.

LIMITED SERVICES

Iterum Foods operates with a limited scope, offering only coffee, smoothies and breakfast food for the commuter crowd, as well as noodles and light bistro style fair with limited bar during the evening. Services to potential clients, making them vulnerable to changes in customer preferences.

LIMITED OPERATING HISTORY

The Company is a newly established entity and has no history for prospective investors to consider.

LACK OF ACCOUNTING CONTROLS

Larger companies typically have in place strict accounting controls. Smaller companies typically lack these controls, exposing themselves to additional risk.

COMPETITION

The market in which we operate is highly competitive and could become increasingly competitive with new entrants in the market. The Company competes with many other businesses, both large and small, on the basis of quality, price, location, and customer experience. Changes in customer preference away from the Company's core business or the inability to compete successfully against the with other competitors could negatively affect the Company's financial performance.

RELIANCE ON MANAGEMENT

As a securities holder, you will not be able to participate in the Company's management or vote on and/or influence any managerial decisions regarding the Company. Furthermore, if the founders or other key personnel of the Company were to leave the Company or become unable to work, the Company (and your investment) could suffer substantially.

FINANCIAL FORECASTS RISK

The financial forecasts provided by us herein are reasonable forecasts by us based upon assumption of stable economic conditions and other various assumptions regarding operations. The validity and accuracy of these assumptions will depend in large part on future events over which the Company and the key persons will have no control. Changes in assumptions or their underlying facts could significantly affect the forecasts. To the extent that the assumed events do not occur, the outcome may vary significantly from the projected outcomes. Consequently, there can be no assurance that the actual operating results will correspond to the forecasts provided herein.

Additionally, the Company is a newly established entity and therefore has no operating history from which forecasts could be projected with.

INABILITY TO SELL YOUR INVESTMENT

The law prohibits you from selling your securities (except in certain very limited circumstances) for 12 months after you acquire them. Even after that one-year period, a host of Federal and State securities laws may limit or restrict your ability to sell your securities. Even if you are permitted to sell, you will likely have difficulty finding a buyer because there will be no established market. Given these factors, you should be prepared to hold your investment for its full term.

THE COMPANY MIGHT NEED MORE CAPITAL

The Company might need to raise more capital in the future to fund/expand operations, buy property and equipment, hire new team members, market its services, pay overhead and general administrative expenses, or a variety of other reasons. There is no assurance that additional capital will be available when needed, or that it will be available on terms that are not adverse to your interests as an investor. If the Company is unable to obtain additional funding when needed, it could be forced to delay its business plan or even cease operations altogether.

CHANGES IN ECONOMIC CONDITIONS COULD HURT THE COMPANY

Factors like global or national economic recessions, changes in interest rates, changes in credit markets, changes in capital market conditions, declining employment, changes in real estate values, changes in tax policy, changes in

political conditions, and wars and other crises, among other factors are unpredictable and could negatively affect the Company's financial performance or ability to continue to operate.

NO REGISTRATION UNDER SECURITIES LAWS

The Notes will not be registered with the SEC or the securities regulator of any State. Hence, neither the Company nor the Notes will be subject to the same degree of regulation and scrutiny as if they were registered.

INCOMPLETE OFFERING INFORMATION

Title III does not require us to provide you with all the information that would be required in some other kinds of securities offerings, such as a public offering of shares (for example, publicly-traded firms must generally provide investors with quarterly and annual financial statements that have been audited by an independent accounting firm). Although Title III does require extensive information, it is possible that you would make a different decision if you had more information.

LACK OF ONGOING INFORMATION

The Company will be required to provide some information to investors for at least 12 months following the offering. However, this information is far more limited than the information that would be required of a publicly-reporting company; and the Company is allowed to stop providing annual information in certain circumstances.

UNINSURED LOSSES

Although the Company will carry some insurance, the Company may not carry enough insurance to protect against all risks to the business. Additionally, there are some kinds of risks that are very difficult or impossible to insure against, at least at a reasonable cost. Therefore, the Company could incur an uninsured loss that could damage its business.

CHANGES IN LAWS

Changes in laws or regulations, including but not limited to zoning laws, environmental laws, tax laws, consumer protection laws, securities laws, antitrust laws, and health care laws, could negatively affect the Company's financial performance or ability to continue to operate. Specifically, any additional regulation on the restaurant industry could significantly negatively affect the business.

CONFLICT OF INTEREST WITH COMPANIES AND THEIR MANAGEMENT

In many ways, your interests and the interests of the Company's management will coincide: you both want the Company to be as successful as possible. However, your interests might be in conflict in other important areas, including these:

- You might want the company to act conservative to make sure they are best equipped to repay the Note obligations, while the company might prefer to spend aggressively to invest in the business.
- You would like to keep the compensation of managers low, while managers want to make as much as they can.

FUTURE INVESTORS MIGHT HAVE SUPERIOR RIGHTS

If the Company needs more capital in the future and takes on additional debt or other sources of financing, the new investors might have rights superior to yours. For example, they might have the right to be paid before you are, to receive larger distributions, to have a greater voice in management, or otherwise.

THE COMPANY IS NOT SUBJECT TO THE CORPORATE GOVERNANCE REQUIREMENTS OF THE NATIONAL SECURITIES EXCHANGES

Any company whose securities are listed on a national stock exchange (for example, the New York Stock Exchange) is subject to a number of rules about corporate governance that are intended to protect investors. For example, the major U.S. stock exchanges require listed companies to have an audit committee made up entirely of independent members of the board of directors (i.e., directors with no material outside relationships with the company or management), which is responsible for monitoring the company's compliance with the law. The Company will not be required to implement these and other investor protections.

YOU HAVE A LIMITED UPSIDE

Notes include a maximum amount you can receive. You cannot receive more than that even if the Company is significantly more successful than your initial expectations.

YOU DO HAVE A DOWNSIDE

Conversely, if the Company fails to generate enough revenue, you could lose some or all of your money.

PAYMENTS AND RETURN ARE UNPREDICTABLE

Because your payments are based on the revenue of the Company, and the revenue of the Company can go up or down (or even disappear altogether) unpredictably, it is impossible to predict how much you will receive and when. And because the payments are unpredictable, so is your ultimate return.

THE NOTES ARE UNSECURED AND UNINSURED

The Notes are not secured by any collateral, nor are they guaranteed or insured by the FDIC or any other entity.

SUBORDINATION

The Notes shall be subordinated to all indebtedness of the Company to banks, commercial finance lenders, leasing and equipment financing institutions, and/or other institutions regularly engaged in the business of lending money.

LACK OF GUARANTY

The Notes are not personally guaranteed by any of the founders or any other person.

LIMITATION OF INDIVIDUAL RIGHTS IN EVENT OF DEFAULT

In the event of a default under the Notes, you will not be able to enforce your rights individually (for example, by bringing a lawsuit). Instead, a representative will be appointed according to the procedures set forth in the Note Indenture. It's possible that you will not like the representative, or that the representative will do things you believe are wrong or misguided. If an event of default has occurred and a representative has been appointed, all of the representative's reasonable expenses must be paid before any further payments are made with respect to the Notes.
