Summary

Commercializing prescription Digital Therapeutic for chronic pain, incontinence, stroke

Experience

JOGO Health Inc.
Founder & CEO
2016 - Present (7 years)
Bridgewater, NJ, USA

JOGO Health is an evidence driven prescription digital therapeutic (PDT) company that developed JOGO-Gx, FDA 510K exempt device, for indications such as incontinence(urinary and fecal), chronic pain, including pain in cancer patients, and stroke.

JOGO helps enhance rewiring of the Central Nervous System (CNS) to improve voluntary control of muscles that was lost due to stroke and other neuro-muscular conditions. JOGO is composed of wearable wireless s/EMG sensors, and a patent protected Mobile App that provide treatment protocols and games that can be adapted for muscle relaxation, movement coordination, and neuro-muscular reeducation, all leveraging neuroplasticity.

Neural Therapeutics
Founder and CEO
2010 - 2016 (6 years)
Somerset, NJ, USA

Product development, IP portfolio creation leveraging body of research. Created clinical partnerships to develop clinical evidence to position company as prescription digital therapeutic for neuromuscular conditions.
