Founder

Clava App

Nov 2017 – Present · 1 yr 9 mos

Baltimore, Maryland Area

Clava is a new hyper-local social media app helping people discover things to do around them. We do this by providing our users with location-based chatrooms pinned on our map and through real-time alerts from locals companies in their surrounding area.

Our chatrooms can represent users in the area looking to connect, networking events, public events/parties, bars, restaurants, etc. Offering this type of solution allows our users to connect with people in a specific location.
