Corporate Growth Consulting

Founder
January 2007 - December 2018 (12 years)

Corporate Growth Consulting provides overall business consulting, with a focus on Finance and Operations. CGC provides the following services to assist owners and their companies:

- Improve the financial and operational infrastructure necessary to transition a company from a small business to a middle-market company
- Create detailed annual operating plans to measure company performance throughout the year
- Analyze product/service mix, cost of sales and overhead expenses, then recommend changes to improve the bottom line
- Establish compensation plans and strategies to attract and retain high performing employees
- Develop long-term financial models to assist in growth planning
- Assist in raising operating capital through both debt and the sale of equity
- Position companies and their owners for liquidity events
- Refer clients to high quality, vetted professionals when their expertise is required

Stormwater Management, Inc.
