Netcapital and Portal do not make investment recommendations and no communication, through this website or in any other medium, should be construed as a recommendation for any security offered on or off this investment platform. Equity crowdfunding investments in private placements, Regulation A, D and CF offerings, and start-up investments in particular are speculative and involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest in start-ups. Companies seeking startup investments through equity crowdfunding tend to be in earlier stages of development and their business model, products and services may not yet be fully developed, operational or tested in the public marketplace. There is no guarantee that the stated valuation and other terms are accurate or in agreement with the market or industry valuations. Additionally, investors may receive illiquid and/or restricted stock that may be subject to holding period requirements and/or liquidity concerns. In the most sensible investment strategy for start-up investing, start-ups should only be part of your overall investment portfolio. Further, the start-up portion of your portfolio may include a balanced portfolio of different start-ups. Investments in startups are highly illiquid and those investors who cannot hold an investment for the long term (at least 5-7 years) should not invest.

Principal Security Holders

5. Provide the name and ownership level of each person, as of the most recent practicable date, who is the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power. To calculate total voting power, include all securities for which the person directly or indirectly has or shares the voting power, which includes the power to vote or to direct the voting of such securities. If the person has the right to acquire voting power of such securities within 60 days, including through the exercise of any option, warrant or right, the conversion of a security, or other arrangement, or if securities are held by a member of the family, through corporations or partnerships, or otherwise in a manner that would allow a person to direct or control the voting of the securities (or share in such direction or control — as, for example, a co-trustee) they should be included as being "beneficially owned." You should include an explanation of these circumstances in a footnote to the "Number of and Class of Securities Now Held." To calculate outstanding voting equity securities, assume all outstanding options are exercised and all outstanding convertible securities converted.

Business and Anticipated Business Plan

6. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

College Coaching Network was created to help students virtually navigate through the college planning process while using our virtual scholarship app. Our scholarship app provides 24/7 video training, chat support, and access to scholarships. Students will have access to career assessment test, essay writing assistance, ACT & SAT training and Financial Aid Endowment reports. Universities are expected to host booths in our virtual exhibit halls providing them a platform to engage with students and offer scholarships to deserving students. College Coaching Network aims to revolutionize the guidance counseling experience through leveraging technology, social learning, and networking. Our scholarship program was initially done as a pilot program with the YMCA. We won 6 awards with the YMCA and felt the need to reach more families with our knowledge of college and scholarship planning. Our quest to impact more families became the launching pad of our Edtech company. We pitched our idea to the Kauffman Foundations "Digital Sandbox" program and won a \$25,000 grant to launch our Edtech company. With the launching of our mobile app, we now have partnerships with Big Brother Big Sisters, AFL-CIO Labor Union, Kansas City Kansas School District, Grandview C4 School District, University Academy, Urban League, Urban Rangers, YMCA, Sallie Mae, Palestine Church, Giving Hope and Help and Guided Path, Detroit Pal, Youth Entrepreneurs just to name a few. Currently, over 100,000 students have access to our program. We are creating a virtual mobile app that we expect will allow students to receive mobile guidance counseling 24/7. The platform is intended to have one unique API code integrated with the app that will allow users to access all portals with 1 unique user name and password. The platform is also expected to offer a lobby that will provide students with guidance on how to navigate the app and career halls that will categorize different career paths. We have University partners that will host event booths in the career halls most suitable. Our app will offer access to our scholarship fast-track program that will allow students to interact with video training and live seminar classes. Our networking room will provide a social learning environment that will allow students, college coaches, and university recruiters to interact simultaneously. Our app will offer gamification prompting students to find a pokemon like objects that will provide scholarship tips and links to scholarship applications. Students with the highest points will be highlighted on our video leader board will receiving monthly prizes through our Sallie Mae Partnership. Students that receive

scholarships will be highlighted on our video leader board and will be registered for laptops, Ipads and book scholarships. Our marketing plan consists of using email marketing, pay-per-click advertising, event booths, trade-shows, and human resource publication marketing. Each potential partner will go through our a free automated webinar that will demo the program and lead them to a free trial offer for using the program for an introductory period. We plan to use an outside call-center that will provide concierge services for all of our introductory partners and we plan to hire internal customer experience coordinators to ensure our customers receive a 5-star experience.

College Coaching Network currently has 7 employees.

Risk Factors

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

7. Material factors that make an investment in College Coaching Network Inc. speculative or risky:

1. We are not a new idea that just launched with no customers, but have an track record of growth and sizable partnerships with great organizations but nothing is guranteed. We are a growth company looking to acquire our share of the market and as with any business we run the risk of not properly executing on our plans and/or making costly decisions that could impact the growth of our company.
2. Start-up investing is risky. Investing in startups is very risky, highly speculative, and should not be made by anyone who cannot afford to lose their entire investment. Unlike an investment in a mature business where there is a track record of revenue and income, the success of a startup or early-stage venture often relies on the development of a new product or service that may or may not find a market. Before investing, you should carefully consider the specific risks and disclosures related to both this offering type and the company which can be found in this company profile and the documents in the data room below.
3. The potential inability of Internet infrastructure may compromise the Company's ability to meet the demand. The growth of Internet usage has caused frequent interruptions and delays in processing and transmitting data over the Internet. There can be no assurance that the Internet infrastructure or the Company's own network systems will be able to meet the demand placed on it by the continued growth of the Internet or of the Company's customers. The Internet's viability could be affected if the necessary infrastructure is not sufficient, or if other technologies and technological devices eclipse the Internet as a viable channel.
4. We must be able to develop and implement an expansion strategy and manage our growth. Our success depends in part on our ability to grow and take advantage of efficiencies of scale. We believe our software will expand and allow tens of thousands of additional users to access our product and website. However, we may need additional servers, bandwidth and other fixed expenses to support an increased customer base and we cannot be certain that our projections of our bandwidth and software needs are accurate if the user base rapidly increases.
5. Our future growth depends on our ability to develop and retain customers. Our future growth

depends to a large extent on our ability to effectively anticipate and adapt to customer requirements and offer services that meet customer demands. If we are unable to attract customers and/or retain customers, our business, results of operations and financial condition may be materially adversely affected.

6. The market for cloud software solutions is subject to rapid technological change, and we depend on new product and service introductions in order to maintain and grow our business. We operate in an emerging market that is characterized by rapid changes in customer requirements, frequent introductions of new and enhanced products, and continuing and rapid technological advancement. To compete successfully in this emerging market, we must continue to design, develop, manufacture, and sell new and enhanced cloud software solutions products and services that provide higher levels of performance and reliability at lower cost. If we are unable to develop new services that address our customers' needs, to deliver our applications in one seamless integrated product offering that addresses our customers' needs, or to enhance and improve our services in a timely manner, we may not be able to achieve or maintain adequate market acceptance of our services. Our ability to grow is also subject to the risk of future disruptive technologies. Access and use of our services is provided via the cloud, which, itself, has been disruptive.
7. Failure to comply with laws and contractual obligations related to data privacy and protection could have a material adverse effect on our business, financial condition and operating results. We are subject to the data privacy and protection laws and regulations adopted by federal, state and foreign governmental agencies. Data privacy and protection is highly regulated and may become the subject of additional regulation in the future. Privacy laws restrict our storage, use, processing, disclosure, transfer and protection of personal information, including credit card data, provided to us by our customers as well as data we collect from our customers and employees. We strive to comply with all applicable laws, regulations, policies and legal obligations relating to privacy and data protection. However, it is possible that these requirements may be interpreted and applied in a manner that is inconsistent from one jurisdiction to another and may conflict with other rules or our practices. Should this occur, we may be subject to fines, penalties and lawsuits, and our reputation may suffer. We may also be required to make modifications to our data practices that could have an adverse impact on our business.
8. Third parties might infringe upon our technology. We cannot assure you that the steps we have taken to protect our property rights will prevent misappropriation of our technology. To protect our rights to our intellectual property, we rely on a combination of trade secrets, confidentiality agreements and other contractual arrangements with our employees, affiliates, strategic partners and others. We may be unable to detect inappropriate use of our technology. Failure to adequately protect our intellectual property could materially harm our brand, devalue our proprietary content and affect our ability to compete effectively. Further, defending any technology rights could result in significant financial expenses and managerial resources.
9. Third parties may claim that our services infringe upon their intellectual property rights. Third parties may assert that we have violated a patent or infringed a copyright, trademark or other proprietary right belonging to them and subject us to expensive and disruptive litigation. We cannot assure you that we have taken all the steps necessary to adequately protect us from infringement claims. Any infringement claims and lawsuits, even if not meritorious, could be expensive and time consuming to defend; divert management's attention and resources; require us to redesign our products, if feasible; require us to pay royalties or enter into licensing agreements in order to obtain the right to use necessary technologies; and/or may materially disrupt the conduct of our business.
10. Investment in personnel. An early-stage investment is also an investment in the entrepreneur or management of the company. Being able to execute on the business plan is often an important factor in whether the business is viable and successful. You should be aware that a portion of your investment may fund the compensation of the company's employees, including its management. You should carefully review any disclosure regarding the company's use of proceeds.
11. We will need more people to join our company. We anticipate will need additional engineers, and people with the skills necessary to ensure we create and sell a premium product. The people we bring on should come with specialized skills that will bring value to the company. There are no guarantees that we will be able to find the right people for the job

12. We face a risk of failure of website and communications systems used in our business. Our business depends on the efficient and uninterrupted operation of our website and communications systems as well as those that connect to our network. Although we have designed our network to reduce the possibility of disruptions or other outages, our systems and those that connect to our network are subject to damage or interruption from natural disasters, power loss, communications failure, hardware or software malfunction, network failures, physical or electronic break-ins, sabotage, computer viruses, intentional acts of terrorism or vandalism and other events that may be or may not be beyond our control. Any system interruptions that cause our services to be unavailable could damage our reputation and result in a loss of users.
13. We borrowed a total of \$25,000 from four individuals during 2019 to fund our limited operations. Two of the loans totaling \$10,000 are past their maturity date. A third loan matures on April 30, 2020 and the fourth loan, in the amount of \$10,000, matures on June 27, 2020. We have a verbal agreement with the lenders to extend the repayment period. We believe our creditors will not demand payment of our liabilities to them, in the near future, although each lender may have a change in circumstances and demand payment. Any demand for payment from a lender will have an adverse impact on our ability to achieve our short-term business objectives, and will adversely affect our ability to continue operating as a going concern.
14. *The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.*

You should not rely on the fact that our Form C is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering.

15. *Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulation applicable to the Company.*

The securities being offered have not been registered under the Securities Act of 1933 (the "Securities Act"), in reliance on exemptive provisions of the Securities Act. Similar reliance has been placed on apparently available exemptions from securities registration or qualification requirements under applicable state securities laws. No assurance can be given that any offering currently qualifies or will continue to qualify under one or more of such exemptive provisions due to, among other things, the adequacy of disclosure and the manner of distribution, the existence of similar offerings in the past or in the future, or a change of any securities law or regulation that has retroactive effect. If, and to the extent that, claims or suits for rescission are brought and successfully concluded for failure to register any offering or other offerings or for acts or omissions constituting offenses under the Securities Act, the Securities Exchange Act of 1934, or applicable state securities laws, the Company could be materially adversely affected, jeopardizing the Company's ability to operate successfully. Furthermore, the human and capital resources of the Company could be adversely affected by the need to defend actions under these laws, even if the Company is ultimately successful in its defense.

16. *The Company has the right to extend the Offering Deadline, conduct multiple closings, or end the Offering early.*

The Company may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Minimum Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment up to 48 hours before an Offering Deadline, if you choose to not cancel your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Company receiving the Minimum Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Minimum Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after release of such funds to the Company, the Securities will be issued and distributed to you. If the Company reaches the target offering amount prior to the Offering Deadline, they may conduct the first of

multiple closings of the Offering prior to the Offering Deadline, provided that the Company gives notice to the investors of the closing at least five business days prior to the closing (absent a material change that would require an extension of the Offering and reconfirmation of the investment commitment). Thereafter, the Company may conduct additional closings until the Offering Deadline. The Company may also end the Offering early; if the Offering reaches its target offering amount after 21-calendar days but before the deadline, the Company can end the Offering with 5 business days' notice. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to participate – it also means the Company may limit the amount of capital it can raise during the Offering by ending it early.

17. *The Company's management may have broad discretion in how the Company uses the net proceeds of the Offering.*

Despite that the Company has agreed to a specific use of the proceeds from the Offering, the Company's management will have considerable discretion over the allocation of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

18. *The Securities issued by the Company will not be freely tradable until one year from the initial purchase date. Although the Securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with his or her attorney.*

You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for the Securities. Because the Securities offered in this Offering have not been registered under the Securities Act or under the securities laws of any state or non-United States jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be affected. Limitations on the transfer of the shares of Securities may also adversely affect the price that you might be able to obtain for the shares of Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Investors in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof.

19. *Investors will not be entitled to any inspection or information rights other than those required by Regulation CF.*

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by Regulation CF. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information – there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders.

20. *The shares of Securities acquired upon the Offering may be significantly diluted as a consequence of subsequent financings.*

Company equity securities will be subject to dilution. Company intends to issue additional equity to future employees and third-party financing sources in amounts that are uncertain at this time, and as a consequence, holders of Securities will be subject to dilution in an unpredictable amount. Such dilution may reduce the purchaser's economic interests in the Company.

21. The amount of additional financing needed by Company will depend upon several contingencies not foreseen at the time of this Offering. Each such round of financing (whether from the Company or other investors) is typically intended to provide the Company with enough capital to reach the next major corporate milestone. If the funds are not sufficient, Company may have to raise additional capital at a price unfavorable to the existing investors. The availability of capital

is at least partially a function of capital market conditions that are beyond the control of the Company. There can be no assurance that the Company will be able to predict accurately the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain such financing on favorable terms could dilute or otherwise severely impair the value of the investor's Company securities.

22. There is no present public market for these Securities and we have arbitrarily set the price.

The offering price was not established in a competitive market. We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our net worth or prior earnings. We cannot assure you that the Securities could be resold by you at the Offering price or at any other price.

23. In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether the Company will successfully effectuate the Company's current business plan. Each prospective Investor is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other, the Risk Factors discussed above.
24. THE SECURITIES OFFERED INVOLVE A HIGH DEGREE OF RISK AND MAY RESULT IN THE LOSS OF YOUR ENTIRE INVESTMENT. ANY PERSON CONSIDERING THE PURCHASE OF THESE SECURITIES SHOULD BE AWARE OF THESE AND OTHER FACTORS SET FORTH IN THIS OFFERING STATEMENT AND SHOULD CONSULT WITH HIS OR HER LEGAL, TAX AND FINANCIAL ADVISORS PRIOR TO MAKING AN INVESTMENT IN THE SECURITIES. THE SECURITIES SHOULD ONLY BE PURCHASED BY PERSONS WHO CAN AFFORD TO LOSE ALL OF THEIR INVESTMENT.

The Offering

College Coaching Network Inc. ("Company") is offering securities under Regulation CF, through Netcapital Funding Portal Inc. ("Portal"). Portal is a FINRA/SEC registered funding portal and will receive cash compensation equal to 4.9% of the value of the securities sold through Regulation CF. Investments made under Regulation CF involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest.

The Company plans to raise between \$10,000 and \$77,180 through an offering under Regulation CF. Specifically, if we reach the target offering amount of \$10,000, we may conduct the first of multiple or rolling closings of the offering early if we provide notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have yet to be closed.

In the event The Company fails to reach the offering target of \$10,000, any investments made under the offering will be cancelled and the investment funds will be returned to the investor.

8. What is the purpose of this offering?

We expect to use the funds from this offering for additional manager compensation, office space, and supplies, sales and marketing, and app technological development.

9. How does the issuer intend to use the proceeds of this offering?

Uses	If Target Offering Amount Sold	If Maximum Amount Sold
Intermediary Fees	\$490	\$3,782
Compensation for managers	\$0	\$10,000
Working Capital	\$9	\$0
Sales and Marketing	\$9,501	\$25,000
Virtual App Tech Development	\$0	\$23,398
Office supplies	\$0	\$3,000
Office Space	\$0	\$12,000
Total Use of Proceeds	\$10,000	\$77,180

10. How will the issuer complete the transaction and deliver securities to the investors?

In entering into an agreement on the Netcapital Funding Portal to purchase securities, both investors and College Coaching Network Inc. must agree that a transfer agent, which keeps records of our outstanding Common Stock (the "Securities"), will issue digital Securities in the investor's name (a paper certificate will not be printed). Similar to other online investment accounts, the transfer agent will give investors access to a web site to see the number of Securities that they own in our company. These Securities will be issued to investors after the deadline date for investing has passed, as long as the targeted offering amount has been reached. The transfer agent will record the issuance when we have received the purchase proceeds from the escrow agent who is holding your investment commitment.

11. How can an investor cancel an investment commitment?

You may cancel an investment commitment for any reason until 48 hours prior to the deadline identified in the offering by logging in to your account with Netcapital, browsing to the Investments screen, and clicking to cancel your investment commitment. Netcapital will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment. If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

12. Can the Company perform multiple closings or rolling closings for the offering?

If we reach the target offering amount prior to the offering deadline, we may conduct the first of multiple closings of the offering early, if we provide notice about the new offering deadline at least five business days prior (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Thereafter, we may conduct additional closings until the offering deadline. We will issue Securities in connection with each closing. Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have yet to be closed.

Ownership and Capital Structure

The Offering

13. Describe the terms of the securities being offered.

We are issuing Securities at an offering price of \$5.00 per share.

14. Do the securities offered have voting rights?

The Securities are being issued with voting rights. However, so that the crowdfunding community has the opportunity to act together and cast a vote as a group when a voting matter arises, a custodian will cast your vote for you. Please refer to the custodian agreement that you sign before your purchase is complete.

15. Are there any limitations on any voting or other rights identified above?

You are giving your voting rights to the custodian, who will vote the Securities on behalf of all investors who purchased Securities on the Netcapital crowdfunding portal.

16. How may the terms of the securities being offered be modified?

We may choose to modify the terms of the securities before the offering is completed. However, if the terms are modified, and we deem it to be a material change, we need to contact you and you will be given the opportunity to reconfirm your investment. Your reconfirmation must be completed within five business days of receipt of the notice of a material change, and if you do not reconfirm, your investment will be canceled and your money will be returned to you.

Restrictions on Transfer of the Securities Offered

The securities being offered may not be transferred by any purchaser of such securities during the one-year period beginning when the securities were issued, unless such securities are transferred:

- to the issuer;
- to an accredited investor;
- as part of an offering registered with the U.S. Securities and Exchange Commission; or
- to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

The term “accredited investor” means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term “member of the family of the purchaser or the equivalent” includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term “spousal equivalent” means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Description of Issuer’s Securities

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Securities

Class of Security	Amount Authorized	Amount Outstanding	Voting Rights	Other Rights
Common Stock	600,000	505,964	Yes	

Options, Warrants and Other Rights

None.

18. **How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of securities?**

The securities being offered are shares of common stock. The common shares offered for sale are exactly the same as the shares of common stock that are currently outstanding.

19. **Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?**

No.

20. **How could the exercise of rights held by the principal owners identified in Question 5 above affect the purchasers of Securities being offered?**

The holder of a majority of the voting rights in the company may make decisions with which you disagree, or that negatively affect the value of your investment in the company, and you will have no recourse to change those decisions. Your interests may conflict with the interests of other investors, and there is no guarantee that the company will develop in a way that is advantageous to you. For example, the majority shareholder may decide to issue additional shares to new investors, sell convertible debt instruments with beneficial conversion features, or make decisions that affect the tax treatment of the company in ways that may be unfavorable to you. Based on the risks described above, you may lose all or part of your investment in the securities that you purchase, and you may never see positive returns.

21. **How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.**

At the issuer's discretion.

22. **What are the risks to purchasers of the securities relating to minority ownership in the issuer?**

As minority owners, you are subject to the decisions made by the majority owners. The issued and outstanding shares of common stock give management voting control of the company. As a minority owner, you may be outvoted on issues that impact your investment, such as the issuance of new shares, or the sale of debt, convertible debt or assets of the company.

23. **What are the risks to purchasers associated with corporate actions including:**

- additional issuances of securities,
- issuer repurchases of securities,
- a sale of the issuer or of assets of the issuer or
- transactions with related parties?

The issuance of additional securities will dilute your ownership. As a result, if we achieve profitable operations in the future, our net income per share will be reduced because of dilution, and the market price of our common stock, if there is a market price, could decline as a result of the additional issuances of securities. If we repurchase securities, so that the above risk is mitigated, we may not have enough cash available for marketing expenses, growth, or operating expenses to reach our goals. If we do not have enough cash to operate and grow, we anticipate the market price of our common stock, if any, would decline. A sale of our company or of all the assets of our company may result in an entire loss of your investment. We cannot predict the market value of our company or

our assets, and the proceeds of a sale may not be cash, but instead, unmarketable securities, or an assumption of liabilities. It is unlikely that in the near term, a sale would result in a premium that is significant enough over book value to generate a return to our investors. We may need to negotiate with a related party for additional capital. No assurance can be given that such funds will be available or, if available, will be on commercially reasonable terms satisfactory to us. Even if such financing is available, it may be on terms that are materially adverse to your interests with respect to dilution of book value, dividend preferences, liquidation preferences, or other terms. We anticipate that if we have any transactions with related parties, that they will be on an arms-length basis.

1. any director or officer of the issuer;
 2. any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;
 3. if the issuer was incorporated or organized within the past three years, any promoter of the issuer; or
 4. any immediate family member of any of the foregoing persons.

No.

Financial Condition of the Issuer

27. Does the issuer have an operating history?

Yes.

28. Describe the financial condition of the issuer, including, to the extent material, liquidity, capital resources and historical results of operations.

Revenues for the year ended December 31, 2018, increased by \$7,500, or 100% to \$15,000 as compared to revenues of \$7,500 for the year ended December 31, 2017. Cost of sales for the year ended December 31, 2018, increased by \$800, or 36% to \$3,000 as compared to the cost of sales of \$2,200 for the year ended December 31, 2017. Our gross profit percentage for the year ended December 31, 2018, increased by 8 percentage points to 80% as compared to a gross profit percentage of 71% for the year ended December 31, 2017. We have been able to operate profitably by keeping our overhead costs low. We have limited access to outside capital, but we successfully raised \$25,000 in debt in 2019, which matures in February, March, April, and June of 2020. Two of our promissory notes are past their maturity date. A \$5,000 loan payable to Janet Watson matured on March 8, 2020, and a \$5,000 loan payable from Denise Ray matured on February 18, 2020. These lenders have provided us with a verbal agreement to extend the repayment period until we have positive cash flow from operations. In the year 2019, our sales were \$36,000, while we burned approximately \$4,500 on a monthly basis. In addition, our current cash balance is \$13,000.

Video Transcript: I had a 3.857 GPA. I scored 17 on my ACT test. No one told me from the guidance counselors office how to prepare for the test. I didn't know back when I was 20 that it was a seed being sown into my heart that would actually catapult me into owning my own business. My name is Claude Harris, I'm the CEO and Founder of College Coaching Network. College Coaching Network is a mobile guidance counselor experience where people have access to guidance counselors 24/7 through their mobile device. We started private consulting with a lot of families that needed help in regards to finding scholarships to college. They didn't know how to go through the college planning process. So we created a program that they could continue to receive that support 24/7. I didn't even know I had a tech business. Before we had the app, life was crazy. Great problem to have 500 students, still a problem because you have to key all those in. We won a grant through Digital Sandbox, so they've been amazing for us. They gave us validation that the app created. So, the app allowed us to have them download the app, we don't have to do anything, they do a registration form, and then say one user seamless integration where they get their username and password right there on the spot. So it has made out life a lot easier and has put me in a better position so we can scale. One of the greatest resources that are out there is KC Sourcelink. They can get you introduced to greater organizations like 1 million cups, Digital Sandbox, Elevation Lab, Pitch Perfect, Heartland, and the list goes on. So there is over 240 resources that are through KC Sourcelink. PitchPerfect actually showed us how to do an executive summary and how to put everything together to go after angel investors. They teach you how to create a business that can scale. So I would say, just to any entrepreneur, you've got to learn how to use the resources that are out there. KC Sourcelink, if you don't know which way you should go they will direct you on the right path and make sure you get your business where it needs to be.
