

INVEST IN RESOLUTION BED INC.

RESBED - A HOSPITAL BED THAT PIVOTS 90° TO A STAND-ASSIST CHAIR

resbed.com Dobson NC   

Healthcare

LEAD INVESTOR

Chris Martin

I've been following the production and design of ResBed for years. It's been amazing to see the constant improvement of bed functionality for nurses and patients. The combination of the 1st ever head to toe access (Outside of the OR) and full stand assist will drastically change the bed standards, the lives of nurses, and patients. When you look deeper into the designing team and staff support of ResBed you will see some of the best names in the medical industry and medical production industry. Thus, the opportunity to invest in a company like this from early launch is the easiest investment decision I've made. I look forward to seeing ResBed change the market and excited to be a part of its success.

Invested \$50,000 this round

Highlights

- 1 Patients can exit and enter a hospital bed with 90° Pivot and Stand-Assist Chair 🙇🏻👤
- 2 Nurses and caregivers can eliminate the repetitive back strain from lifting patients 🧑🏻🦴👉
- 3 Hospital Administrators can reduce worker injuries/days away 🙇🏻 related to patient positioning
- 4 Our Migration Minimizer stops unwanted head-of-bed angle, patient sliding & skin shearing 🛏️👤👉
- 5 Help us improve healthcare everywhere, and the patient experience for everyone ❤️❤️❤️

Our Team

Byron Wurdeman Founder of ResBed

Inventor and entrepreneur with highly specialized expertise in hospital bed and patient positioning technology. Mr. Wurdeman is the inventor and founder of ResBed.

In 2002 Founder, Byron Wurdeman suffered his 2nd hospital bed acquired injury. For the next 20 years, Byron applied his personal experience and desire to help everyone who'd be unable to exit a hospital bed without pain or assistance.

Paul Torres Founder of Bioi & Strategic Advisory Board Member

Emeritus Chairman of the Board for the Biomedical Engineering Society - Industry Advisory. Paul has deep expertise in medical device data, addressable markets, & contract access for Government, GPO, & IDN's

David Novotny COO of RQM+ & Strategic Advisory Board Chair

Mr. Novotny has also served as General Manager & V.P. of Operations for ICON plc, within its Medical Device & Diagnostic business unit helping generate \$5.4 Billion annually with 38,000 Employees.

Dr. William E. (Billy) Cohn VP J&J - Strategic Advisory Board Member

Dr. Cohn is a Vice President at Johnson & Johnson Medical Device Companies as well as the Executive Director for Johnson & Johnson Center of Device Innovation at the Texas Medical Center. He is a Professor of Surgery at Baylor College of Medicine.

Jerry McKinney Former CPO & Strategic Advisory Board Member

Former Chief Purchasing Officer & Vice President of Material Management for Quorum Health Corporation. Mr. McKinney has 40 years in Healthcare with expertise in all areas of capital equipment management, planning & construction.

Christelle Cavalli Marketing & Public Relations

CEO of Brutally Honest LLC, a Full Service Marketing & PR Agency, specializing in Medical Device and Healthcare Initiatives. Ms. Cavalli has 10 years experience in Business Development, IP Management & Marketing within Regulatory Compliance.

Jose Quintana CEO of Advent GX - Strategic Advisory Board Member

Mr. Quintana is President & CEO of Advent GX. As a lifelong entrepreneur, he has started several successful companies & has been a consultant to many of the world's top corporations including Nokia, Sprint, Qualcomm, Frito-Lay, Schering-Plough.

Doug Jones Strategic Advisory Board Member

30 years in the HealthCare industry, working on both the supplier and provider side, with extensive experience in sales and sales management, national accounts and large account management, health care contracting and pricing strategy.

Dr. Lonnie Young Caprock CMO - Strategic Advisory Board Member

Dr. Young is the Chief Medical Officer and Co-Founder of Caprock Health. He championed concierge medicine in the region. He has spent 15 years in full-time, direct patient care in multiple emergency rooms.

Dr. Andy Wilson CEO ACP Health - Strategic Advisory Board Member

Dr. Wilson leads strategic growth and development of ACPHealth's existing service line and novel acute care innovative pathways. He interfaces with community and large Health System partners to transform and sustain their Emergency Departments.

Laif Asfeth Amegy President - Strategic Advisory Board Member

Laif leads all strategic direction, credit risk management and specialty lending groups. He has served as Executive Director of C&I Lending, which is responsible for management of Amegy's commercial banking, corporate banking and energy banking.

John Hughson CEO Frio Hospital -Strategic Advisory Board Member

John is an experienced Hospital Executive. He has worked with several national hospital firms and currently serves as the Frio Hospital CEO within the HCA system of owned and managed hospitals. He has also served as CEO of hospitals across Texas

Dr. Michael Mikulecky Strategic Advisory Board Member

Dr. Mikulecky is an Orthopedic surgeon for Dignity Health Medical & part of the American Board of Orthopedic Surgery.

Braden Anderson CEO of PH LLC - Strategic Advisory Board Member

Braden is an experienced operator and executive in healthcare delivery with a demonstrated history of building teams, creating and improving processes, negotiating contracts, and delivering results.

Dr. Luis Fernandez Strategic Advisory Board Member

Dr. Luis Fernandez, M.D., KHS, KCOEG, FACS, FASAS, FCCP, FCCM, FICS, Professor of Surgery for the Dept. of Surgery at UT Health Science Center-Tyler, Texas. He serves as Trauma Surgeon & Medical Director for Trauma Wound Care, UT Health-Tyler, TX.

Help "Pivot" Healthcare

WHAT WE NEED

1. \$1,069,997.30
2. This is for Manufacturing, Parts/Product Inventory & organizational buildout
3. With this money we will hit all the milestones for our next round within 180 Days.
4. Help us improve healthcare everywhere & the patient experience for everyone

Our Strategic Advisory Board -
 We have assembled a World Class Board of career innovators & operators to help guide RESBED

SENIOR LEADERSHIP & ADVISORY BOARD

Byron Wurdeman
 Chief Executive Officer
 27 Years-Hospital Bed Reconditioning & Sales
 Inventor of RESBED

MILESTONES

2002: Byron Wurdeman designs RESBED proof of concept

2007: Piedmont Capital Solutions founded

2010: First of 13 patents granted covering RESBED

2015-16: Alpha & beta prototypes completed

2017: Third party regulatory compliance testing completed

2020: RESBED first production run

2022: Electronics Package Upgrade

2022: RESBED Hospital Demonstration Tours

RESBED

SOLUTIONS
Exclusive to RESBED

90°

The only Class I/Class II medical device to pivot 90° from a full featured hospital bed, into a stand-assist chair.

Pivoted Features:

- Prepare to Pivot
- 90° Pivot
- Stand Assist Chair

Bed Features:

- Migration Minimizer
- Zero Gravity
- Enhanced Cardiovascular Trendelenburg (ECT)
- Trap & Crash Free Side Rails

Engineering Features:

- Remote Bluetooth Diagnostics
- Plug & Play Repair Parts

Watch on YouTube

RESBED

PIVOTED FEATURES

Prepare to Pivot
Pressing button #1 transitions patients into the Pivot Position. Pressing button #2 releases seat section, engaging 90° Pivot.

90° Pivot
The rotating plate manually pivots 90° left or right, while the bed frame remains stationary. Once pivoted, the Stand Assist Chair can be accessed.

90°
90° Pivot

RESBED

Stand Assist Chair

Positioning is key to giving a patient reliable stability with minimal caregiver exertion or additional lift equipment. With caregiver assistance, the patient can transition from Full Chair into Stand Assist. Head-of-bed remains tilted back, to avoid forward momentum while standing. The Foot Section becomes perpendicular to the floor for proper patient footing.

PIVOTED FEATURES

Full Chair

Stand Assist

RESBED

BED

Zero Gravity

Migration Minimizer

Enhanced Cardiovascular Trendelenburg

- Zero Gravity - NASA Technology, aiding patient recovery. 20 min./day in a Zero Gravity position, is equivalent to the back repair of an 8-10 hour sleep cycle.
- Migration Minimizer - Narrow, stationary pan section between the Head-of-Bed & Seat

LEAD INVESTOR

I've been following the production and

design of ResBed for years. It's been amazing to see the constant improvement of bed functionality for nurses and patients. The combination of the 1st ever head to toe access (Outside of the OR) and full stand assist will drastically change the bed standards, the lives of nurses, and patients. When you look deeper into the designing team and staff support of ResBed you will see some of the best names in the medical industry and medical production industry. Thus, the opportunity to invest in a company like this from early launch is the easiest investment decision I've made. I look forward to seeing ResBed change the market and excited to be a part of its success.

Invested \$50,000 this round

Highlights

1 Patients can exit and enter a hospital bed with 90° Pivot and Stand-Assist Chair 🙇🏻👨🏻‍🦯

BENEFITS

Hospital. Healthcare. Home.

- Proper bed ingress/egress
- Reduced length of stay (LOS)
- Minimize migration while maintaining Head-of-Bed (HOB) position
- Lowers risk of kyphotic posture
- Decrease in pressure ulcers, skin shearing & improved respiratory function
- Fewer caregivers required for tandem lifting
- Alleviate strain on caregivers bodies
- Decline in occupational injuries
- Fast, simple & accurate bed repairs
- Lowers additional hospital expenditures

"In my 40 year career I've seen only a few products that had the unique ability to broadly enhance the way we provided care in our 250 hospitals. RESBED can help caregivers do their job better & be safer while they do it. It can also reduce the costs associated with patient falls & staff injuries.

To stand a patient safely & to help staff avoid injury are the greatest benefits I see coming from RESBED."

Jerry McGivney
Former Chief Purchasing Officer at Quorum Healthcare
Senior Director of Equipment Planning at Community Health Systems

EXISTING HOSPITAL BED DETRIMENTS

Decades of minimal innovation

Patient

Prolonged recovery, in bed migration, secondary injuries, difficult bed ingress/egress, falls & diminished quality of life

Caregiver

Overexertion, occupational injuries, increase in workers compensation claims & decreased productivity

Hospital

Decline in workforce functionality, excessive biomedical engineering repairs, unnecessary expenditures & penalties

RESBED

EXISTING ADVERSE PATIENT IMPACT

- Unconducive healing environment, hospital-acquired injuries, increased length of stay (LOS)
- Patient falls, pressure ulcers, skin shearing, Ventilator-Associated Pneumonia (VAP) & secondary infections
- Late mobility, & in-bed patient migration
- Additional treatment costs for patient/caregiver
- Quality of life

611,000
Average daily patient census in U.S. hospitals

'STAND FOR HEALTH'

Vote for someone you know, to use a RESBED, in their home for 1 year.

RESBED

EXISTING ADVERSE CAREGIVER IMPACT

- Nurses lift the equivalent of roughly 1.8 tons in an 8-hour shift
- Inefficient patient repositioning requires multiple caregivers for tandem lifting and/or additional lifting equipment
- Decreases employee satisfaction & productivity
- 12% of nurse turnover is due to back injury & chronic back pain

Reports as high as 70% lower back pain in nurses is higher than in the general population

'SAVE THE BACKS!'

RN's & Nursing Assistants suffer more than 37,000 musculoskeletal injuries per year - more than construction or mining

RESBED

EXISTING ADVERSE HOSPITAL IMPACT

- Rise in workers' compensation claims due to occupational injuries
- Prolonged patient stays reduce patient census
- Penalties for patient re-admittance
- Decreased patient satisfaction
- Diminished hospital reputation
- Decline in hospital profits
- Increase in hospital expenditures

27.2% of RNs averaging 7 'days away from work' were from back injuries

"After seeing the bed in person & experiencing it myself, I can definitely say that RESBED outperforms anything on the market. I'm excited to bring this to our patients."

Broden Anderson
CEO - PHC @ Home Healthcare Group
Former Hospital System CEO

RESBED

TARGET MARKET

- Intensive Care Unit (ICU)
- Hospice
- Skilled Nursing Facility (SNF)
- At Home Health
- Medical Surgical (MED-SURG)
- Inpatient Rehabilitation Facilities (IRF)
- Bariatrics
- Long Term Acute Care Hospital

Click the interactive link below to see the heat map of hospitals/counties without ICU beds.

RESBED MARKET LANDSCAPE

- ICU**
 - 92k ICU units in U.S. replaced on average every 9 years
 - 10k units sold every year
 - \$37M annual spend
- MED-SURG**
 - 102k sold each year
 - \$1.8 annual spend
- LTACH**
 - 394 LTACH units
 - 22,274 licensed hospital beds
- IRF**
 - 1,50 U.S. Inpatient Rehabilitation Facilities
 - 488 hospitals with 20,077 licensed hospital beds
- SNF**
 - 15,500+ U.S. Skilled Nursing Facilities
 - 1.6 million U.S. patients/year
- BARIATRICS**
 - 256,000 people in the United States underwent a bariatric operation in 2019.
- AT HOME HEALTH**
 - 4.2 million U.S. homebound adults 2020
 - 4.7 million U.S. home health agency patients
- HOSPICE**
 - In 2020, 1.61 million patients were taken care of through hospice services in the United States.

RESBED DRIVERS FOR GROWTH

- 37k** RNs suffer 12,000 musculoskeletal injuries annually, resulting in missed workdays. Nursing 200 starts experienced the highest annual rate of 35,000. More than any other occupation, including mining, manufacturing & construction.
- 49%** In the United States, 49% of the adult population is expected to be obese by 2030, & nearly one in four will have severe obesity with BMI > 35 kg/m²
- 11%** The global hospital bed market is projected to grow from \$3,712B in 2019 to \$8,298B by 2030. The hospital bed market is projected to witness the highest CAGR, of 11.2%, in the electric division, based on power.
- 33%** Rise in At Home Healthcare - Employment of home health & personal care aides is projected to grow 33% from 2020 to 2030, much faster than the average for all occupations.

RESBED MARKETING STRATEGY

- Targeted social media campaigns
- Digital Marketing Content
- Federal & State Government Outreach
- GPO Member Marketing
- Direct to Hospital C-Suite
- Search Engine Optimization
- Earned Media & PR
- Competitor Comparisons
- Innovation Award Submissions
- Trade shows & hospital demos

Fast Facts on U.S. Hospitals 2021
