As the owners of the Common Stock, the principal shareholders identified in Question 6 above are having the majority of the voting rights of the issuer.

The Purchasers (the "Investors") of the securities offered, as holders of Common Stock with a minority voting rights, may not have enough voting power to exert influence on the decisions made by the principal shareholders, with which the Investors disagree, or that negatively affect the value of the Purchasers' securities in the Company. The Investors generally do not control day-to-day business decisions or management of the issuer and the Investors' interests may conflict with those of the principal shareholders and there is no guarantee that the company will develop in a way that is advantageous to the Investors.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

Important Disclaimer:

As the Issuer is a company lacking of material assets and has conducted no prior sales of securities except to its founders and initial shareholders, the reliability, accuracy and appropriateness of the valuation methods used in this section in determining the valuation of the securities being offered is not guaranteed. The valuation methods used in this section do not infer that the Issuer assumes any fiduciary duties and should not be construed as financial, legal or tax advice. In addition, such valuation methods should not be relied upon as the only valuation methods. The Issuer cannot guarantee the reliability, accuracy and appropriateness of these valuation methods.

We strongly encourage you to consult with qualified business financial analysis professionals, attorneys, or tax advisors prior to making any investment decisions.

Valuation of Our Common Stock

Investors should consider that the \$0.5 per share purchase price has been determined by our board of directors without an independent valuation of our Common Stock. We established the offering price based on our estimate of capital and expense requirements, and desirable expectation of our future profitability, not based on perceived market value, book value, or other established criteria.

Further, we did not obtain an independent appraisal opinion on the valuation of our Common Stock. Our Common Stock may have a value significantly less than the offering price and there is no guarantee that the Units will ever attain a value equal to or greater than the offering price.

We use *Revenue Multiple* to value our Common Stock in this offering. Multiple of Revenue, or Revenue Multiple, is a ratio that is used to measure a company's value based on its net sales or gross revenue.

With the proceeds raised in this offering, we expect we can achieve 1.6-1.7 million in sales in 2020 (\$781,010.20 in 2018). Given our established brand of CEO Space International in the education management industry and our expectation that a growing momentum in our business given the deployment of our capital on advertising and PR activities in the coming years, we apply a Revenue Multiple of 6 in determining the valuation of our company.

	Lower Estimate	Upper Estimate
Valuation of CEO Space International Inc	\$1.6 million x 6 = \$9.6 million	\$1.7 million x 6 = \$10.2 million
Valuation per Common Stock (20,000,000 shares issued)	\$0.48	\$0.51
Offering Price	\$0.5	

Methods for how the securities may be valued by the issuer in the future:

The Board of Directors of the Company believes Revenue Multiple is a widely used valuation method for companies similar to us in terms of size and business nature and we expect we will continually use it in valuing our securities in the future until we reach a scale that other valuation approaches make sense.

We may apply the following valuation methods for the future valuation of our common stock or securities to be issued in the future:

1. Asset values derived from the streaming teaching courses over one thousand recorded education modules owned by the Issuer
2. Recent comparable financings of companies similar and comparable to us.
3. Potential value at exit, the value can be based either on recent M&A transactions in the sector
4. Discounted cash flow method (“DCF”)
5. Price/Book Value, Price/Earnings Ratio of companies similar and comparable to us.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

- Purchasers of the securities in this offering have limited rights to demand distributions (e.g. dividends) from the Issuer.
- The majority owner may make a decision that the Purchasers consider bad and puts Purchaser's interest in the Issuer at risk.
- Although, as Common Stock holders, the Purchasers would be entitled to a share of any proceeds from a sale of the entire business, the Purchasers may not veto the sale even though the price of sale is below its fair valuation. Moreover, a sale can be structured in a

way to avoid any payout to minority owners, such as a sale of assets over time with the proceeds reinvested in another business.

- Since the securities in this offering are not publicly traded and are subject to restrictions on resale or transfer including holding period requirements, the securities in this offering are illiquid.
- Although the Purchasers of the securities offered are entitled voting rights, as minority shareholders, they may not have enough voting power to exert influence in the affairs of the company or the composition of its board of directors.
- The Purchasers of the securities offered are entitled no anti-dilution rights (other than proportionate adjustments for stock splits and similar events) and therefore future equity financings may dilute their ownership percentage in the issuer.

23. What are the risks to purchasers associated with corporate actions:

a. Additional Issuances of Securities

Purchasers of the securities offered are entitled no anti-dilution rights (other than proportionate adjustments for stock splits and similar events) and therefore future equity financings may dilute their ownership percentage in the issuer.

b. Issuer Repurchases of Securities

The issuer could be authorized to repurchase the company's issued securities subject to the approval by the company's board of directors. Purchasers of the securities may not impede the issuer's right to repurchase its securities from other shareholders. Moreover, the repurchase could be made at a price much lower than company's business value or its fair valuation, which could be indicative of the resale price of the securities thereafter.

c. A Sale of the Issuer or of Assets of the Issuer

Although as Common Stock holders the Purchasers would be entitled to a share of any proceeds from a sale of the entire business, the Purchasers may not veto the sale even though the price of sale is below its fair valuation. Moreover, a sale can be structured in a way to avoid any payout to minority owners, such as a sale of assets over time with the proceeds reinvested in another business.

d. Transactions with Related Parties

Transactions with related parties are transactions between the issuer or any of its subsidiaries and a connected person. These transactions include both capital and revenue nature transactions. They may be one-off transactions or continuing transactions. Purchasers should be aware that these transactions may create conflicts of interests between themselves and the Issuer.

24. Describe the material terms of any indebtedness of the issuer:

Reported on the December 31, 2017 and December 31, 2018 financial statements is a liability owed to Lynn (the current owner's husband's ex-wife, no last name provided) which is a liability related to the previous company name IBI Global. This liability is reported under the Other Long-Term Liabilities category on the Balance Sheet. The principal balance owed is accruing interest at 4%. No

payments were made towards this liability in either of the reporting periods. The balances for each period are provided below:

Balance Owed to Lynn: As of December 31, 2017	\$541,346
Balance Owed to Lynn: As of December 31, 2018	\$563,000

25. What other exempt offerings has the issuer conducted within the past three years?

FINANCIAL CONDITION OF THE ISSUER

27. Does the issuer have an operating history?

Yes. CEO Space International began its operation since its inception in September 2009.

28. Describe the financial condition of the issuer, including, to the extent material, liquidity, capital resources and historical results of operations.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and related notes that appear in this Form C. In addition to historical consolidated financial information, the following discussion contains forward-looking statements that reflect our plans, estimates, and beliefs. Our actual results could differ materially from those discussed in the forward-looking statements. Factors that could cause or contribute to these differences include those discussed below and elsewhere in this Form C, particularly in "Risk Factors."

Revenues

Revenues in 2018 decreased \$289,501, or 27% to \$781,010 compared to \$1,070,511 in 2017. The decrease was primarily due to lower sales of our networking/training products.

Operating Expenses

Total expenses are the operating expenses. Significant expenses included the hiring of independent consultants, free enterprise forum expenses, sales commission and payroll expenses.

Total operating expenses remained flat in 2018, totaled \$941,894 compared to \$1,055,705 in 2017.

Net Income

Net loss for the 12 months ended December 31, 2018 was \$160,884.

Net income for the 12 months ended December 31, 2017 was \$14,805.

The net loss in 2018 was primarily due to lower sales revenue but total operating expenses remained flat.

Cash flows

In 2018, the cash flow from operating activities was \$111,171, versus a cash flow of \$20,001 in 2017. The increase is primarily due to the contribution from lines of credit in 2018. The cash used by investing activities was \$0 in 2018, versus \$39,052 in 2017 due to fixed asset adjustment. Cash flow used by financing activities was \$114,768 in 2018, versus a positive cash flow of \$30,987 in 2017, due to a downward equity adjustments.

Our historical results and cash flows are not representative of what investors should expect in the future.

Liquidity and Capital Resources

Our principal sources of liquidity are our cash and cash equivalents and cash generated from operations. Cash and cash equivalents consist primarily of cash on deposit with banks. Highly liquid investments with maturities of three months or less at the date of purchase are also considered to be cash equivalents. Our cash level remained roughly the same in 2018 when compared to 2017. Cash and cash equivalents totaled \$47,376 as of December 31, 2018, decreased \$3,597 from \$50,973 a year earlier.

Income Taxes

For financial reporting purposes, the Company has elected to use the taxes payable method. Under that method, income tax expense represents the amount of income tax the Company expects to pay based on the Company's current year taxable income. The Federal tax rate of 15% has been used for this calculation as the 12/31/2017 estimated taxable income is less than \$50,000. For the 12/31/2018 period there is no estimated income tax because the period is reporting a loss.

Related Party Transactions and Substantial Liability

New business developments or other unforeseen events may occur, resulting in the need to raise additional funds. There can be no assurances regarding the business prospects with respect to any other opportunity. Any other development would require us to obtain additional financing.

Although the Company expects that there will be a growth in revenue in the coming years, investors should be aware that historical results and cash flows are not representative of the future.

The proceed of this offering will significantly improve our financial condition and liquidity, and will allow us to expand our business in the coming 1-2 years, though we believe the proceed of this offering does not affect the viability of our business as we believe the cash generated from operations is sufficient to finance our ongoing operations, as we did in the past. But investors should be aware that our past records are not representative of the future.

According to the market situation, we may raise additional funds through public or private equity offerings or debt financings.

The Company expects to fund its operations and capital expenditure requirements from future operating cash flows, cash and cash equivalents, proceeds from this offering and credit facilities. We

need to raise additional funds through public or private equity offerings or debt financings, but there can be no assurance that we will be able to do so on acceptable terms or at all.

New business developments or other unforeseen events may occur, resulting in the need to raise additional funds. There can be no assurances regarding the business prospects with respect to any other opportunity. Any other development would require us to obtain additional financing.

The Company is seeking a minimum of \$50,000 in this offering. We expect that the Company's with the proceeds of the offering would be enough to finance its operation in the next 12 months, but whether or not receiving these funds and any other additional funds is not necessary to the viability of the business in the next 12 months and we expect that the Company's available cash together with the proceeds of the offering would be enough to finance its operation in the next 12 months.

Appendix A - BUSINESS AND ANTICIPATED BUSINESS PLAN

Executive Summary

CEO Space is a Florida C Corporation. The company is owned and controlled by September Dohrmann, conducting business in New Port Richey Florida at 1324 Seven Springs Blvd, # 343, New Port Richey Florida 34655. September is Chairwoman, President and CEO.

CEO Space from 2010 to 2010 has been Press Ranked Business Conference in the world. CEO Space's latent revenue-generating engines revolve around:

1. Business Memberships to small business, and professionals, to attend five Business Acceleration Conferences, within unique IP that is transactional versus a seminar model of learning and skill transfer for business owners and professionals. Membership fees are the primary income source into 2020.
2. Additional fees come from sales of products, books, booths at the business Expo, sponsorship fees, and educational film and audio products.

CEO Space is raising capital in this offering to grow the demand side of its business. The company presently operates approximately 15 city chapters via independent contractors. City Chapters (fee and free models) provide cooperation/collaboration based networking as a sampling of the CEO Space forum for new prospects, and as a free service to members between programs.

Scaling the business with advertising and PR where the larger business community learns about the firm top decade of Press ranking, it expected resources to increase customer staffing for larger growth of the business owner community in very small scaling effect margins. With small volume elevation from advertising in Entrepreneur Inc. Vistage and Forbes, supplemented by PR news articles of CEO Space contributions to the entrepreneur space, two outcomes are anticipated.

1. Every fifty new customers at low volume drive 5% margin growth.
2. 100 New customers present margins of 20% on cost scaling efficiency versus 10% in 2019.
3. 200 New customers still low volume from marketing raise margins to 30%.

CEO Space has survived trauma from the 2000 dot com market crash and recession the 2007 market crash and great recession and two hurricanes hitting its arrival event dates in 2018. Management has demonstrated staying power and skill to ride through even climate change Hurricane events, and stabilize operations in all markets. The reorganizations completed occurred with flat growth years and large investments to affect the outcomes in technology legal and training revisions in all fifty state jurisdictions. CEO Space is now growing the demand side of its business to effect rapid shareholder growth. Capital is fuel to secure market share in its existing city markets and rapidly growing city markets as set forth in this plan. As this plan is inside borders of well researched and expert advisers and firms, and is board approved, it must be stated no assurance can be made to shareholders the plan set forth here will complete as stated or on general timelines suggested.

LATENT BUSINESS POTENTIAL:

The CEO Space teams will continue to improve and perfect systems to recruit, train, retain, and open new markets across the major US cities.

1. CEO Space owns a content library known as the Entrepreneur Curriculum Library (ECL). This digital content library contains content to train entrepreneurs on every imaginable subject. The ECL is carried on company books into goodwill at zero. Capital will permit placing the library in a “for pay” steaming services targeting our core customer market at a subscription price of \$150 a month. Our own member base of almost 30,000 members will be the potential early and targeted adopters as it comes online.
2. CEO Space owns patented issued technology software known as SuperTeaching Software (<http://www.superteaching.org/>) through Life Success Academy Inc. Super Teaching Software thus far has been gifted to the Salt Lake Community College, the Denver Business College, and in 2010 Tony Robbins cut the ribbons for the Super Teaching classroom at the University of Alabama. Patents are issued worldwide including China. A division of CEO Space will be opened to license the software to public schools, private schools, as well as government and institutional education classrooms invented for a 5G educational improvement. In 2010 CEO Space acquired the assets of Life Success Academy Inc., including Super Teaching Software.
3. The existing city system of City Managers for CEO Space has consumed seven figures to create education, training and support.
4. In 2019 CEO Space was held in Florida. Income was suppressed by back-to-back hurricanes which moved profit making programs into loss programs. Nine months was required to build back the system to break even and profit in July of 2019. Steady growth is occurring today without capital.

CAPITAL PLAN:

CEO Space aims at raising 1.07 million dollars in a RegCF crowdfunding offering, offering 2,140,000 shares of common stock at 50 cents a share to CROWDFUNDING INVESTORS.

CEO Space is also considering a Regulation D 506c Offering, offered to accredited investors stock to grow its capital balance sheet. While no assurance can be made the equity plan will conclude successfully, interest is internal to CEO Space membership. September Dohrmann and her Board will be the sole offerees of the securities

Upon completing the above equity rounds, CEO Space would engage global New York brand firms to advance the saturation of CEO Space benefits to the entire small business and professional community in sustained saturation marketing driving profits and margins. The goal is to secure six ballrooms at the Dallas convention center or equivalent to host five thousand small business owners and professionals – five Business Acceleration Conferences a year, as well as driving ECL subscription to the steaming library.

HISTORY:

In 2010 CEO Space acquired the assets of IBI Global, a 1991 Georgia based corporation, and Life Success Academy Inc. also a Georgia Based Company, which included all assets of its Business Growth Conferences, its city manager systems, its Entrepreneur Curriculum Library, and its Super Teaching Software. The prior companies were affected by the 2007 crash. CEO Space took over the liabilities of the firm in exchange for the assets to provide ongoing outreach for the service. September Dohrmann invested family assets to business continuity.

In 2010 September Dohrmann paid 2.5 million for half the share ownership from the prior owner Lynn Lawler of Huntsville Alabama controlling 100% of prior corporation which she deregistered from 1991 to 2009.

In 2010 the assets were transitioned into CEO Space and the company worked through the challenges to small business owners going out of Business in 2010 to 2014 during the brunt of the Great Recession on Small Business.

In 2014 at the low moment of the firm from the Great Recession, September Dohrmann reorganized the business model.

September's milestones in redefining the band included:

1. The earlier firms model was 8 AM door speech and classes back to back to 11 PM. September moved the model into a networking and deal making with 1:1 mentorship focusing on members business challenge list, and making owner-to-owner networking and completion. This new IP developed and perfected in 2015 - 2017 created an entirely new business model of a trade show that uses meals to form relationships and "Seal the Deal" follow up in the evening where new customers, alliances, investor exploratory meetings, and markets are forged, and business owners align to areas of natural interest. Results of this environment is shared in online testimonial videos, and print testimonials. This core product improvement created a unique pathology outside the seminar workshop experience. Third-party press (Forbes & Inc.) and others ranked CEO Space the a "must attend" Business Conference from 2014 to 2020.

2. In 2016 September Dohrmann retooled the back-bone of the company's IT from the date 1990's technology into cloud based upgraded web resources. The website features free blog and podcast interviews with leading subject matter experts serving the small business community. The combination of local gatherings to entrepreneurs, and the upgraded web modeling, stabilized the revenues and presented new paths to growth. During this period revenues dropped to just under one million.

3. In 2018 - 2019 September invested in upgrading the company's CRM and digital tools to provide the resources the club sales team desired. September, with outside and inside team members are currently completing the Knack installation as the main CRM system.

4. In 2018 - 2019 September and outside legal counsel upgraded the company's independent contractor agreement ensuring the vitality and security of the agreements as well as the policy manuals and new training to advance new city club manager expansion.

The training modality includes weekly zoom training calls for the whole team, personalized rookie calls for new team members, weekly sales strategy calls, 1:1 weekly coaching calls, and live trainings with outside sales professionals at all five CEO Space business forums.

The improvement of these service gradients has incrementally grown the business in 2019 with substantial growth anticipated with advertising and public relation strategies via test marketing with expert firms to assure the undiscovered secret in tools and tactics for accelerating small business success, will be unfolding in 2020 and 2021.

5. In 2017, the old system could reach a total of 2000 CEO Space members; In 2019 (still a work in progress) the database is being rebuilt into the Knack with 20,000 + of our members. September

operates a vibrant grad community group on Facebook with member engagements the firm has awakened as CEO Space rebuilds its large historic database.

2020 – CAPITAL EXECUTION PLAN

September is engaging to move the reorganized CEO Space to more rapid growth deploying capital approximately 40% for three-year staffing ramp up, and 60% for advertising and PR marketing to professional and small business communities in the US as our prime market with test marketing in Canada, our secondary prime market, over a three-year period of testing. As profitable tests from pay-to-click advertising, to trade press such as Forbes, and Entrepreneur, September seeks to grow 200 new customers per class. The margins as set forth in scaling CEO Space in only modest volumes triple to a 30% epitaph.

September will also deploy capital to promote and grow the city club system adding up to 1,000 cities between 2020 to 2030 with incremental planned staged growth for the firm.

We believe this plan can be capitalized by equity crowdfunding backed by social capital investors with a boon to small business, made obvious by years of third-party press ranking for the quality of CEO Space service outcomes to small business owners and professionals in practice.

MANAGEMENT:

September Dohrmann is the current President and CEO of CEO Space International. In what Forbes.com called a “must-attend” for entrepreneurs, the CEO Space Business Growth Conferences are strategically scheduled five times each year to create a steady pace of growth.

For over 25 years, CEO Space International has brought together business leaders, investors and entrepreneurs to create a networking environment unlike any other. By developing meaningful, mentor-driven relationships, professionals are able to get the help they need in a cooperative environment.

Her past positions with the company included Vice President and Chief Operating Officer. In addition to her role as CEO, September serves as the Vice Chairwomen of the CEO Space Board of Directors.

MARKETING PLAN:

CEO Space has maintained consistent operations hosting Business Acceleration Forums also known as Business Growth Conferences. The marketing is word of mouth from customer referrals inside 50 city clubs operating in communities from London to New York across the United States and Canada. Non-city club referrals are serviced by their closest City Manager account agent or the home office. City Managers are independent contractors.

CEO Space contracts with qualified applicants who are recruited internally and by word of mouth. CEO Space has never advertised or promoted its product to date. At this time the culture in the business owner community is of high goodwill as new city managers are being added organically.

Advertising from capital proceeds via testing will permit target recruitment with prediction and controls for quality and desired incremental growth of ten new CP cities per month in 2020 and 20 in 2021

forecasting 30 a month in 2022 and up to 50 a month in 2023 – 2025.

To supplement this back-bone growth the company, September has completed due diligence on the following additional growth models:

1. Outside vendor firms on developing proven lead generation in our market space, managing prospects, and closing the leads into membership. The marketing cost to achieve this outcome is precisely the same to Club President marketing cost. No change. This new pipe is scalable to test and with prediction and control grow geographic market share to hundreds and then thousands of new customers.
2. Working with vendor firms, to be cross bid, starting with Solution Stream to work on automated registration to convert advertising traffic to new upgraded funnel Sites Solution Stream specializes in producing for high volume traffic conversions. Solution Steam is also a leader in for steaming for-pay content and is leading in the new 5G world CEO Space products (maximally visual) are designed to maximum opportunity within. Solution Steam is turnkey and provides all language support at launch for the company's global Entrepreneur Curriculum Content.
3. CEO Space seeks to license its Super Teaching classroom software to educational clients. Classrooms used by public education to date provide video testimonials on the benefits from Public School Superintendents, teachers, principles and student users themselves. Super Teaching is a three-screen software controlled information delivery system that helps elevate learner retention and performance. The url www.superteaching.com displays benefits and theory for the Super Teaching software. Interest in the system requires software support employees and a customer service department to be developed in staffing to bring on revenue from license fees for the software which as education itself is the largest industry in any nation next to food and its distribution, a new 5G educational classroom upgrade technology has appeal. Super Teaching is an included TITLE I block grant technology. This value is carried as zero goodwill or value on company financials. Significant capital and manpower have been invested over decades on research and software automation for this system in classrooms.

September will develop zone marketing staffing for North East Internal Zone Vice Presidents, South East, Mid-West, North West South West and Canada, plus offshore market support where all engaged from capital Zone Vice Presidents will report to September Dohrmann.

Appendix B - RISK FACTORS

RISKS RELATED TO OUR BUSINESS

We are operating in a very competitive industry

Our business is in a competitive industry with companies with much more financial and physical resources.

We rely on continuing efforts of September Dohrmann, the CEO of CEO Space International

The business relies mainly on the efforts of September Dohrmann to lead and oversee the operations of the company. If something happened to her the business may not be able to continue.

We may not be able to attract and retain qualified faculty members in a wide variety of topics and areas of business

In view of our business nature, our faculty members are critical to maintaining the quality of our programmes and maintaining our brand and reputation. We may not be able to attract, hire and retain qualified faculty members to keep pace with our growth while maintaining consistent quality of our programs. If we are not able to attract qualified faculty members, our business will be materially and adversely affected.

We may not be able to enforce the restrictive covenants of the contracts

We may not be able to enforce the restrictive covenants of the contracts and services agreements against our faculty team members to prevent them from immediately directly competing with us, which may disrupt our business and materially.

We have both an operating history upon which you can evaluate our performance. Our business plan is still in development and we likely do not recognize all of the challenges that may emerge and affect our proposed business.

Potential investors must consider the risks, expenses, delays, problems, and difficulties we may face in a new and rapidly evolving market, including:

- Technical uncertainties respecting the internet;
- Uncertainties about the anticipated markets for business and consumer clients;
- Our dependence on identifying clients based on our model and fees;
- Our inability to obtain and integrate technical and managerial resources;
- Our inability to develop and maintain strategic relationships; and
- Our dependence upon key personnel in addition to September Dohrmann.

Advertising and increased marketing effort may not lead to higher enrolments or increase in our revenue

To increase public awareness of our business and enhance our brand, one of our business strategies is to advertise and run marketing campaigns on social media and other online channels.

Nonetheless, despite our efforts and substantial costs incurred in these marketing efforts and advertisements, it may not necessarily lead to higher enrolments in our programmes or increase in our revenue.

New programmes that we develop may compete with our current programmes

To further grow our business, we may need to develop new business forums and conferences programmes to meet new demands and respond to changes in business environment, market needs and trends. While some of these programmes that we develop may compete our existing programmes and services without increasing our total enrolments. If this happen, our profitability and business could be adversely affected.

We face significant competition

We face intense competition in the geographic market in which we operate. Certain of our competitors offer similar programmes and services as we provide. Moreover, some of our competitors may be able to devote greater resources than we do and could have a much bigger budget for promotion and marketing. It is uncertain whether we will be able to compete successfully against current or future competitors. If we are unable to maintain our competitive position or otherwise respond to market competition effectively, our profitability could be adversely affected.

Our business depends on our brand and reputation

Our business depends on our brand and reputation as a provider of forums, workshops and faculty programs and business conferences. If we are not able to maintain the brand strength and reputation, our brand value, business and operating results could be materially and adversely affected. We believe that our brand “**CEO Space International**” is instrumental to the success of our business. If the value of our brand or image and reputation is diminished, we may fail to continue to attract potential customers and our business, financial condition and results of operations could be materially and adversely affected.

If we are not able to continue to attract customers to enrol in our forums, workshops and faculty programs and business conferences at commercially viable fee levels, our revenue may decline and we may not be able to maintain our profitability.

The success of our business depends primarily on the number of forum, workshop and enrolments in our faculty programs and the amount of fees that our customers are willing to pay. Therefore, our ability to continue to maintain and attract customers to enrol in our forums, workshops and faculty programs and business conferences at commercially viable fee levels is critical to the continual success and growth of our business.

We may face labour or other nature of disputes that could interfere with our operations and business.

We may face legal actions, claims and disputes in connection with our business activities, including employment-related claims and contractual disputes or claims. Although we believe we have a satisfactory relationship with our consultants and faulty members, we may nevertheless subject to the risk of labour disputes and adverse employee relationships. These potential disputes could have a material adverse effect on our business, financial condition or results of operations.

Uncertainty and adverse changes in the economy could have a material adverse impact on our business

We mainly generate our revenue from fees paid by our customers enrolling in our programmes. As a majority of our customers are entrepreneurs, business executives and business owners, uncertainty or adverse changes in the economy could lead to a significant decline in the demand of our forums, conferences and programmes, which may negatively impact our business, financial conditions and results of operations.

Intellectual property rights and proprietary rights

We may be subject to claims and legal proceedings regarding alleged infringement by us of the intellectual property rights of third parties. Such claims, whether or not meritorious, may result in the expenditure of significant financial and managerial resources, injunctions against us or the payment of damages.

We are subject to negative publicity

Our Company, management or faculty team members could be subject to negative publicity, which may materially and adversely affect our brand, reputation and business.

Our historical financial and operating results are not indicative of future performance.

Our revenue, operating expenses and results of operations may vary from period to period and from year to year in response to a variety of factors beyond our control, including general business and economic conditions, employment rates, inflation and interest rates, and consumer discretionary income. Therefore our historical results may not be indicative of our future performance.

We may need additional capital, and our ability to obtain additional capital is subject to uncertainties.

We believe that our current cash and cash equivalents, anticipated cash flow from operations and the proceeds from this offering will be sufficient to meet our anticipated cash needs, including our cash needs for working capital and capital expenditures, for at least the next 12 months. We may, however, require additional cash resources to finance our continued growth or other future developments, including any investments we may decide to pursue. The amount and timing of such additional financing needs will vary depending on investments in new facilities, decorations and the amount of cash flow from our operations. If our resources are insufficient to satisfy our cash requirements, we may seek additional financing by selling additional equity or debt securities or obtaining a credit facility.

Our insurance coverage may not be sufficient to cover all losses or potential claims from our customers

We may become subject to liabilities against which we are not insured adequately or at all or liabilities against which cannot be insured. Should any significant property damage or personal injury occur in our facilities or to our employees due to accidents, natural disasters, or similar events which are not covered or inadequately covered by our insurance, our business may be

adversely affected, potentially leading to a loss of assets, lawsuits, employee compensation obligations, or other form of economic loss. In addition, we have not maintained insurance policies against losses arising from our environmental liabilities, business interruption, industrial accidents, work stoppages, civil unrest or other activities.

Any losses that we may incur which we are not insured against may adversely affect our business, financial condition and results of operations.

CEO SPACE INTERNATIONAL, INC

NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2018 & DECEMBER 31, 2017

NOTE 1 - NATURE OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

CEO Space International, Inc (the Company) was founded 35 years ago under the name of The Million Dollar Forum, and later changed to "IBI Global". (Income Builders International) In 2009, the name changed to CEO Space International, Inc. (a C corporation) The Company sells memberships to business owners across the United States which allows them to attend "Business Growth Forums" and other events.

The Company is owned by the following individuals:

September Dohrmann 100%

The Company is considered to operate in the event industry under NAICS Code 561920 (SIC Code 7113)

Cash Equivalents

Highly liquid investments with maturities of three months or less at the date of purchase are considered to be cash equivalents.

Inventory

Inventory (when applicable), which is carried at cost, consists of raw materials, work-in-process, and finished goods categories.

Accounts Receivable

Accounts receivable balances are stated at the amount the Company expects to collect from balances outstanding at December 31, 2017 and December 31, 2018. At each year-end the Company assesses the outstanding balances with customers, the current relationships with them, and the payment methods. From those assessments, the Company estimates the amount of funds included in accounts receivable outstanding at year-end that will be uncollectible. The result of the analysis is an allowance of \$0 at December 31, 2017 and \$0 at December 31, 2018.

Property and Equipment

Property and equipment is stated at cost when acquired. The Company calculates and records depreciation and amortization using tax depreciation methods as provided in the Internal Revenue Code. Tax depreciation and amortization methods result in depreciation and amortization methods that generally range from 3 to 7 years for depreciation on a double declining and straight line basis and 15 years for amortization on a straight line basis.

With the exception of certain major items, expenditures for maintenance and repairs will be expensed as incurred. It is the policy of the Company to capitalize property and equipment expenditures greater than \$500. When assets are sold or retired, the cost and accumulated depreciation are removed from the accounts, and any resulting gain or loss is included in net income.

Revenue Recognition

Revenue is recognized on the accrual basis and as earned.

Income Taxes

For financial reporting purposes, the Company has elected to use the taxes payable method. Under that method, income tax expense represents the amount of income tax the Company expects to pay based on the Company's current year taxable income. The Federal tax rate of 15% has been used for this calculation as the 12/31/2017 estimated taxable income is less than \$50,000. For the 12/31/2018 period there is no estimated income tax because the period is reporting a loss.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - RELATED PARTY TRANSACTIONS

Reported on the December 31, 2017 and December 31, 2018 financial statements is a liability owed to Lynn (the current owner's husband's ex-wife, no last name provided) which is a liability related to the previous company name IBI Global. This liability is reported under the Other Long-Term Liabilities category on the Balance Sheet. The principal balance owed is accruing interest at 4%. No payments were made towards this liability in either of the reporting periods. The balances for each period are provided below:

(continued)

(continued)

Balance Owed to Lynn: As of December 31, 2017	\$541,346
Balance Owed to Lynn: As of December 31, 2018	\$563,000

NOTE 3 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 2, 2019, the date on which the financial statements were issued. There were no subsequent events through October 2, 2019 that require an adjustment or disclosure in the financial statements.
