Offering Statement

Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

Economic conditions could adversely affect the profitability of some or all of our businesses.

Turmoil in the financial markets could adversely affect economic activity in both Europe and in the United States. Our operations and performance depend significantly on worldwide economic conditions. The attendance of a sporting event and purchase of merchandise is discretionary, and the purchase of these items may be easily deferrable by consumers should the financial wherewithal of consumers not justify such purchases.

An uncertain worldwide economic environment could cause the reported financial information not to be necessarily indicative of future operating results or of future financial condition. The economic environment could affect our business in a number of direct and indirect ways including: the record of the team, thus effecting the popularity of events and merchandise; the likeability of our team; the increase in popularity of minor soccer clubs on a global and local level; changes in currency exchange rates; tightening of credit markets; and business disruptions due to difficulties experienced by suppliers (for our merchandise) and customers.

Our products face intense competition, and if we cannot compete successfully in our industry, and within our product lines, we could lose market share and our business could be adversely affected.

The markets for minor league sports teams are highly competitive and we face competition from a number of sources. Competition is primarily based on brand name recognition, the team's record, the players the team attracts, the stadium and its features, the reach of the team beyond the local market, and the increase (or decrease) in the popularity of the sport of soccer. We will compete with not only other minor league soccer clubs, but also will compete with other sports and their popularity. Other soccer club competitors are significantly larger and have greater financial resources than we do. To compete effectively, we must (1) build the image of our brand and our reputation in our core markets; (2) be flexible and innovative in responding to changing market demands on the basis of brand image; (3) keep pace with rapid changes in marketing strategies; and (4) offer fans opportunities to interact with the team. The purchasing decisions of fans for either tickets or merchandise, are highly subjective and can be influenced by many factors, such as brand image, marketing programs and the team's record. Several of our competitors enjoy substantial competitive advantages, including greater financial resources for competitive activities, such as sales and marketing and strategic acquisitions. The number of our direct competitors and the intensity of competition may increase as we expand. Our competitors also may be able to respond more quickly and effectively than we can to new or changing opportunities, standards or fan preferences. Our results of operations and market position may be adversely impacted by our competitors and the competitive pressures in the sporting apparel, sporting merchandise and live or televised sporting events.

Increased competition in the markets for our products may cause us to reduce our prices to customers, which would cause our gross margin to decline if we are unable to offset price reductions with comparable reductions in our product

costs. If our gross margin declines, our profitability could decline and we could incur operating losses that we may be unable to fund or sustain for extended periods of time, if at all. We cannot assure you that additional competitors will not enter our existing markets or that we will be able to compete successfully against existing or new competition.

Our failure to maintain or renew key agreements could adversely affect our ability to distribute our media content which could adversely affect our operating results.

We currently are allowed to practice and play games at a local stadium for no charge. This is through an agreement with the city in which we operate.

However, the city may rescind this agreement. If they were to rescind this agreement, it would be incredibly harmful to our business as we lack the capital resources to build our own stadium and our team would no longer be able to play. We will need to continue to maintain a healthy relationship that allows the team to continue to play and practice. Our inability for any of the reasons set forth in these Risk Factors to maintain and/or renew or replace these agreements on terms favorable to us could adversely affect our financial outlook, liquidity, business and/or operating results.

Our failure to retain or continue to recruit key performers could lead to a decline in the appeal of our storylines and the popularity of our brand of entertainment, which could adversely affect our operating results.

Our success depends, in large part, upon our ability to recruit, train and retain athletes who have the physical presence, athletic ability, and personality for our soccer club brand. We cannot guarantee that we will be able to continue to identify and train these athletes. Also, athletes that are more talented will come at a higher price. We may not be able to pay the price that such talented athletes demand. Additionally, we cannot guarantee that we will be able to retain our current players or team staff, such as coaches, either during the terms of their contracts or when their contracts expire. Our failure to attract and retain key players and successful coaches, an increase in the costs required to attract and retain such players or coaches, or a serious or untimely injury to, or the death of, or unexpected or premature loss or retirement for any reason of, any of our key players could lead to a decline in the popularity of our brand. Any of the foregoing issues could adversely affect our operating results.

A decline in the popularity of club soccer, including as a result of changes in the social and political climate, could adversely affect our business.

Our operations are affected by consumer tastes and entertainment trends, which are unpredictable and subject to change and may be affected by changes in the social and political climate. Our programming is created to evoke a passionate response from our fans. Changes in our fans' tastes or a material change in the perceptions of our business partners, including sponsors and licensees, whether as a result of the social and political climate or otherwise, could adversely affect our operating results.

We face uncertainties associated with international markets, which could adversely affect our operating results and impair our business strategy.

We will be operating, largely, in Austria and within the continent of Europe. Cultural norms and regulatory frameworks vary in the markets in which we operate and our products' nonconformance to local norms or applicable law, regulations or licensing requirements could interrupt our operations or affect our sales, viewership and success in the markets. Operations overseas subjects us to numerous risks involved in foreign travel and operations and also subjects us to local norms and complex regulations (including visa obligations) in the event we recruit foreign players or executives. In addition, the licensing and/or sale of our goods and services in international markets expose us to some degree of currency risk. International operations may be subject to political instability inherent

in varying degrees in those markets, terrorism and wars. Other risks relating to foreign operations include difficulties and costs associated with staffing and managing foreign operations, management distraction, new and different sources of competition, compliance with U.S. and international laws relating to, among other things, bribery, less favorable foreign intellectual property laws, laws relating to repatriation of funds, lower levels of Internet availability, complexity of VAT and other local tax laws, and data protection, consumer protection, censorship, licensing and other regulatory matters as well as possible reputational risks.

The GDPR applies to certain of our operations, and its provisions are far reaching, and noncompliance could result in significant fines, operational issues, and/or harm to reputation. While we have committed significant financial and personnel resources toward compliance, no assurances can be provided that our efforts will be entirely successful. These risks could adversely affect our operating results and impair our ability to pursue our business strategy as it relates to international markets, which could adversely affect our business.

We will own less than majority control of GmbH which could hinder our ability to control and we may not complete our purchase of ownership in GmbH

if we do not raise sufficient funds.

Three of the six members of Verein are also officers of the Company: Mark Ciociola, our CEO; Steve Paris, our CFO; and Tray FitzGerald, our EVP of Marketing, but the Company does not have control and we could lose control of Verein. Verein has a majority control over the GmbH and Fan Owned Club will have a minority interest as required by Austrian law. There is a potential that we may lose the ability to take part in managing Verein. Further, there is a possibility that our purchase of ownership in GmbH will not be consummated or will not be consummated on the anticipated terms. Even though many terms have been negotiated, those terms are not finalized and the end agreement may not contain the terms currently anticipated by the parties.

We face uncertainties regarding our leasing arrangement.

The Club has a lease for the use of a stadium which expires June 30, 2020, subject to renewal until a new lease is executed. Based upon management, the revised lease terms will include the following (in US \$): term 25 years, annual rent \$11,125, Price per ticket, \$1,112.4 and rent not to exceed \$22,250. There is no guarantee that our lease will be renewed. If we were to lose our agreement to lease the stadium, our business will be negatively affected. With uncertainty regarding recent world events, we are unsure of the future regarding our lease and our upcoming season. Due to the canceling of the 2020 Olympics in Tokyo, Japan, it is foreseeable that any soccer season in Europe for 2020 will also be cancelled.

We face uncertainties associated with COVID19 and gatherings of any number of people.

The world, including the entire continent of Europe and the United States America, are currently not allowing any gatherings of people including for sporting events. Sporting events worldwide and every other social engagement has been cancelled due to the outbreak of COVID19. It is uncertain when the ban on social gatherings in Europe will end and when sporting events will resume. This will most certainly have a negative impact on our season and will have a negative impact on potential revenues. To date, the Company has not generated any revenues. It is expected that the Company will not generate revenues for some time due to the lack of soccer season in Europe. Therefore, our timeline to generate income will be greater than previously expected and may be impacted by a year or more.

The team overall will be adversely affected if we cannot satisfy the standards established by testing and athletic governing bodies.

We expect that we will need to adhere to standards established by a number of regulatory and testing bodies, as well as by athletic organizations and governing bodies. We cannot provide any assurance that we will satisfy standards, athletic organizations and governing bodies or that existing standards will not be altered in ways that adversely affect our brands and the sales of our products, which has occurred in the past. Any failure to comply with applicable standards could have a material adverse effect on our business.

The seasonality of our sales may have an adverse effect on our operations and our ability to service our debt.

Our business is subject to seasonal fluctuations. This seasonality requires that we effectively manage our cash flows over the course of the year. If our sales were to fall substantially below what we would normally expect during particular periods, our annual financial results would be adversely impacted and our ability to service our debt may also be adversely affected. Accordingly, comparisons of quarterly information from our results of operations may not be indicative of our ongoing performance.

Our success is dependent on our ability to protect our worldwide intellectual property rights and if we are unable to enforce and protect our intellectual property rights, our competitive position may be harmed.

We will most likely rely on a combination of trademark and trade secret laws in the United States, Europe, and other jurisdictions and contractual restrictions, such as confidentiality agreements, to protect certain aspects of our business. We also enter into invention assignment agreements with our employees and consultants. Our success depends in part on our ability to protect our trademarks from unauthorized use by others. If substantial unauthorized use of our intellectual property rights occurs, we may incur significant financial costs in prosecuting actions for infringement of our rights, as well as the loss of efforts by managers who must devote attention to these matters. We cannot be sure that our trademarks, or other protections such as confidentiality, will be adequate to prevent imitation by others. We may be unable to prevent third parties from using our intellectual property without our authorization, particularly in countries where we have not perfected our proprietary rights, where the laws or law enforcement practices do not protect our proprietary rights as fully as in the United States, or where intellectual property protection is otherwise limited or unavailable. If we fail to obtain trademark protection or prevent substantial unauthorized use of our brands, we risk the loss of our intellectual property rights and competitive advantages we have developed, causing us to lose net sales and harm our business. Accordingly, we intend to devote substantial resources to the establishment and protection of our trademarks and continue to evaluate the registration of additional trademarks and service marks, as appropriate. We cannot guarantee that any of our pending applications will be approved by the applicable governmental authorities. Moreover, even if the applications will be approved, third parties may seek to oppose or otherwise challenge these registrations.

We cannot assure that any thirdparty trademarks for which we have obtained licenses are adequately protected to prevent imitation by others. If those third-party owners fail to obtain or maintain adequate trademark protection or prevent substantial unauthorized use of the licensed intellectual property, we risk the loss of our rights under the thirdparty intellectual property and competitive advantages we have developed based on those rights. We cannot assure that our actions taken to establish and protect our brands will be adequate to prevent others from seeking to block sales of our products or to obtain monetary damages, based on alleged violation of their trademarks or other proprietary rights.

We have limited management resources and are dependent on key executives.

We are currently relying on key individuals to continue our business and operations and, in particular, the professional expertise and services of Steve Paris, Chief Financial Officer and Mark Ciociola, Chief Executive Officer, as well as key members of our executive management team and others in key management positions. Our future success depends in large part on the continued service of Messrs. Paris and Ciociola. If our officers and directors chose not to serve or if they are unable to perform their duties, and we are unable to retain a replacement qualified individual or individuals, this could have an adverse effect on our business operations, financial condition and operating results if we are unable to replace the current officers and directors with other qualified individuals.

There is no market for our stock and for the foreseeable future, it is unlikely one will develop.

Prior to this offering, there has been no public market for shares of our preferred or our common stock. An active market may not develop following completion of this offering, or if developed, may not be maintained.

We have no intention to pay cash dividends on our preferred or common stock for the foreseeable future.

We currently expect to retain future earnings, if any, to finance the growth and development of our business and do not anticipate paying any cash dividends for the foreseeable future. Therefore, you possibly will not receive any return on an investment in our preferred or converted common stock unless you sell your preferred or converted common stock for a price greater than which you paid for it.

Our offering price is arbitrary and bears no relationship to our assets, earnings, or book value.

There is no current public trading market for the Company's stock and the price at which the Shares are being offered bears no relationship to conventional criteria such as book value or earnings per share. There can be no assurance that the offering price bears any relation to the current fair market value of the stock.

New shareholders will experience immediate dilution.

The net tangible book value of the preferred or converted common stock offered hereby will be substantially diluted below the offering price paid by investors. Therefore, new shareholders will experience immediate dilution.

An investment in the shares is speculative and there can be no assurance of any return on any such investment.

An investment in the Company's shares is speculative and there is no assurance that investors will obtain any return on their investment. Investors will be subject to substantial risks involved in an investment in the Company, including the risk of losing their entire investment.

The shares are offered on a "best efforts" basis and the Company may not raise the maximum amount being offered.

Since the Company is offering the shares on a "best efforts" basis, there is no assurance that the Company will sell enough shares to meet its capital needs. If you purchase shares in this offering, you will do so without any assurance that the Company will raise enough money to satisfy the full use of proceeds to Company which the Company has outlined in this Form C or to meet the Company's working capital needs.

If the maximum offering is not raised, it may increase the amount of longterm debt or the amount of additional equity it needs to raise.

There is no assurance that the maximum amount of shares in this offering will be sold. If the maximum offering amount is not sold, we may need to incur additional debt or raise additional equity in order to finance our operations. Increasing the amount of debt will increase our debt service obligations and make less cash available for distribution to our shareholders. Increasing the amount of additional equity that we will have to seek in the future will further dilute those investors participating in this offering.

Because the Company does not have an audit or compensation committee, shareholders will have to rely on our directors to perform these functions.

The Company does not have an audit or compensation committee comprised of independent directors or any audit or compensation committee. The board of directors performs these functions as a whole. No members of the board of directors are independent directors. Thus, there is a potential conflict in that board members who are a part of management will participate in discussions concerning management compensation and audit issues that may affect management decisions.

The Company has made assumptions in its projections and in forwardlooking statements that may not be accurate.

The discussions and information in this offering circular may contain both historical and "forwardlooking statements" which can be identified by the use of forwardlooking terminology including the terms "believes," "anticipates," "continues," "expects," "intends," "may," "will," "would," "should," or, in each case, their negative or other variations or comparable terminology. You should not place undue reliance on forwardlooking statements. These forwardlooking statements include matters that are not historical facts. Forwardlooking statements involve risk and uncertainty because they relate to future events and circumstances. Forwardlooking statements contained in this offering circular, based on past trends or activities, should not be taken as a representation that such trends or activities will continue in the future. To the extent that the offering circular contains forwardlooking statements regarding the financial condition, operating results, business prospects, or any other aspect of the Company's business, please be advised that the Company's actual financial condition, operating results, and business performance may differ materially from that projected or estimated by the Company. The Company has attempted to identify, in context, certain of the factors it currently believes may cause actual future experience and results to differ from its current expectations. The differences may be caused by a variety of factors, including but not limited to adverse economic conditions, lack of market acceptance, reduction of consumer demand, unexpected costs and operating deficits, lower sales and revenues than forecast, default on leases or other indebtedness, loss of suppliers, loss of supply, loss of distribution and service contracts, price increases for capital, supplies and materials, inadequate capital, inability to raise capital or financing, failure to obtain customers, loss of customers and failure to obtain new customers, the risk of litigation and administrative proceedings involving the Company or its employees, loss of government licenses and permits or failure to obtain them, higher than anticipated labor costs, the possible acquisition of new businesses or products that result in operating losses or that do not perform as anticipated, resulting in unanticipated losses, the possible fluctuation and volatility of the Company's operating results and financial condition, adverse publicity and news coverage, inability to carry out marketing and sales plans, loss of key executives, changes in interest rates, inflationary factors, and other specific risks that may be referred to in this offering circular or in other reports issued by us or by thirdparty publishers.

The Company has significant discretion over the net proceeds of this offering.

The Company has significant discretion over the net proceeds of this offering. As is the case with any business, particularly one without a proven business model, it

should be expected that certain expenses unforeseeable to management at this juncture will arise in the future. There can be no assurance that management's use of proceeds generated through this offering will prove optimal or translate into revenue or profitability for the Company. Investors are urged to consult with their attorneys, accountants and personal investment advisors prior to making any decision to invest in the Company.

You should be aware of the longterm nature of this investment

There is not now, and likely will not be in the near future, a public market, for the shares. Because the shares have not been registered under the securities act or under the securities laws of any state or nonunited states jurisdiction, the shares may have certain transfer restrictions. It is not currently contemplated that registration under the securities act or other securities laws will be effected. Limitations on the transfer of the shares may also adversely affect the price that you might be able to obtain for the shares in a private sale. You should be aware of the longterm nature of your investment in the Company. You will be required to represent that you are purchasing the securities for your own account, for investment purposes and not with a view to resale or distribution thereof.

You will not have a vote or influence on the management of the Company

Substantially all decisions with respect to the management of the Company will be made exclusively by the officers, directors, managers or employees of the Company. You will have a very limited ability, if at all, to vote on issues of Company management and will not have the right or power to take part in the management of the Company and will not be represented on the board of directors or by managers of the Company. Accordingly, no person should purchase shares unless he or she is willing to entrust all aspects of management to the Company.

IN ADDITION TO THE RISKS LISTED ABOVE, BUSINESSES ARE OFTEN SUBJECT TO RISKS NOT FORESEEN OR FULLY APPRECIATED BY THE MANAGEMENT. IT IS NOT POSSIBLE TO FORESEE ALL RISKS THAT MAY AFFECT THE COMPANY. MOREOVER, THE COMPANY CANNOT PREDICT WHETHER THE COMPANY WILL SUCCESSFULLY EFFECTUATE THE COMPANY'S CURRENT BUSINESS PLAN. EACH PROSPECTIVE PURCHASER IS ENCOURAGED TO CAREFULLY ANALYZE THE RISKS AND MERITS OF AN INVESTMENT IN THE SECURITIES AND SHOULD TAKE INTO CONSIDERATION WHEN MAKING SUCH ANALYSIS, AMONG OTHER FACTORS, THE RISK FACTORS DISCUSSED ABOVE.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

INSTRUCTION TO QUESTION 6: Avoid generalized statements and include only those factors that are unique to the issuer. Disclosures should be tailored to the issuer's business and the offering and should not repeat the factors addressed in this legend's set form above. No specific number of risk factors is required to be identified.

INFORMATION TO QUESTION 10. An issuer must provide a reasonably detailed description of any intended use of proceeds, such that investors are provided with an adequate amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each probable use and the factors the issuer can consider in allocating proceeds among the potential uses. If the issuer will accept proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating over-achievement, and intended use of the excess proceeds with similar specificity. Please include all potential uses of the proceeds of the offering, including any that may apply only in the case of over-subscriptions. If you do not do so, you may later be required to amend your Form C. Wefunder is not responsible for any failure by you to describe a potential use of offering proceeds.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

If we reach our target offering amount prior to the deadline, we may conduct an initial closing of the offering early if we provide notice about the new offering deadline at least five business days prior to the new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Wefunder will notify investors if we conduct an initial closing. Thereafter, we may conduct additional closings from time to time at our and Wefunder's discretion until the deadline date.

The following describes the process to invest in the Company, including how the Company will complete an investor's transaction and deliver securities to the investor.

- 1. Investor Commitment.** The Investor will submit, through Wefunder Portal, a requested investment amount. When doing so, the Investor will also execute an investment contract with the Company ("Investment Agreement"), using the Investor's electronic signature.
- 2. Acceptance of the Investment.** If the Investor Agreement is complete, the Investor's commitment will typically be recorded within a few minutes. The commitment will also be available on the Investor's "My Investments" screen on the wefunder.com website. After the offering closes, the contract will be counter signed by the Company. The executed investment contract will then be sent to the investor via email, and is also available to download on the "My Investments" screen.
- 3. Investor Transfer of Funds.** Upon receiving confirmation that an investment has been accepted, the Investor will be responsible for transferring funds from a source that is accepted by Wefunder Portal into an escrow account held with a third party bank on behalf of issuers offering securities through Wefunder Portal.
- 4. Progress of the Offering.** The Investor will receive periodic email updates on the progress of the offering, including total amounts raised at any given time, and will be notified by email and through the "My Investments" screen when the target offering amount is met.
- 5. Closing: Original Deadline.** Unless we meet the target offering amount early, investor funds will be transferred from the escrow account to the Company on the deadline date identified in the Cover Page to this Form C and the Company's Wefunder Portal Profile.
- 6. Early Closings.** If the target offering amount is met prior to the original deadline date, we may close the offering earlier, but no less than 21 days after the date on which information about the Company, including this Form C, is posted on our Wefunder Portal Profile. We will reschedule the offering deadline, and at least five days prior to the new deadline, investors will receive notice of it by email and through the "My Investments" screen. At the time of the new deadline, your funds will be transferred to the Company from the escrow account, provided that the target offering amount is still met after any cancellations.
- 7. Book Entry.** Investments may be in book entry form. This means that the Investor may not receive a certificate representing his or her investment. Each investment will be recorded in our books and records and will be recorded in each Investors' "My Investments" screen. The Investor will also be emailed the Investment Agreement again. The Investment Agreement will also be available on the "My Investments" screen. At the option of the Company, you may receive an electronic certificate.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The Intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon

closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

An investor's right to cancel. An investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the investor about the offering and/or the Company, the investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the investor will receive, and refund the investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

In addition, we may cap at 450 the total number of investors who will be allowed to invest through the offering that are not "accredited investors," as defined in Rule 501(a) of Regulation D under the Securities Act of 1933. In the event that more than 450 non-accredited investors are initially accepted into an offering in step (2) described in Question 11, the Company may cancel investments based on the order in which payments by investors were received, or other criteria at the discretion of the Company, before the offering deadline.

14. Do the securities offered have voting rights?

 No

15. Are there any limitations on any voting or other rights identified above?

Yes;
 No

16. How may the terms of the securities being offered be modified?

None of the provisions of this Subscription Agreement may be waived, changed or terminated orally or otherwise, except as specifically set forth herein or except by a writing signed by the Company and Subscriber.

RESTRICTIONS ON TRANSFER OF THE SECURITIES BEING OFFERED:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

1. to the issuer;
2. to an accredited investor;
3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

DESCRIPTION OF ISSUER'S SECURITIES

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Securities	Securities	Voting
	(or Amount)	(or Amount)	
	Authorized	Outstanding	

Common Stock	110,000,000	2,626,168	Yes
--------------	-------------	-----------	-----

Securities Reserved for Issuance upon Exercise or Conversion

Warrants: _____

Options: _____

Describe any other rights:

All Shares of Common Stock shall be identical. All holders of shares of Common Stock shall be identical and shall at every meeting of the stockholders be entitled to one vote for each share of the capital stock held by such stockholder.

To date, the Company has not designated any of the authorized stock as preferred stock, however, at some time in the future, the Company may designate some of its authorized stock as preferred stock at some point in the future. Such preferred stock may have preference over the common stock in terms of dividends and voting.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

To the extent applicable, in cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the investor's securities will decrease, which could also diminish the investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional equity, an investor's interest will typically also be diluted.

Based on the risk that an investor's rights could be limited, diluted or otherwise qualified, the investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

None

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, the **shareholders** may make decisions with which the investor disagrees, or that negatively affect the value of the investor's securities in the Company, and the investor will have no recourse to change these decisions. The investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the investor.

For example, the **shareholders** may change the terms of the articles of incorporation for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. The **shareholders** may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the investor owns. Other holders of securities of the Company may also have access to more information than the investor, leaving the investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

The **shareholders** have the right to redeem their securities at any time. **Shareholders** could decide to force the Company to redeem their securities at a time that is not favorable to the investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability.

In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the investor's securities will decrease, which could also diminish the investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional stock, an investor's interest will typically also be diluted.

Based on the risks described above, the investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

In the future, we will perform valuations of our common stock that take into account factors such as the following:

- unrelated third party valuations of our common stock;
- the price at which we sell other securities, such as convertible debt or preferred

stock, in light of the rights, preferences and privileges of our those securities relative to those of our common stock;

- our results of operations, financial position and capital resources;
- current business conditions and projections;
- the lack of marketability of our common stock;
- the hiring of key personnel and the experience of our management;
- the introduction of new products;
- the risk inherent in the development and expansion of our products;
- our stage of development and material risks related to our business;
- the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
- industry trends and competitive environment;
- trends in consumer spending, including consumer confidence;
- overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
- the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Board Of Directors, and the Investor will have no independent right to name or remove an officer or member of the Board Of Directors of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company and the Board of Directors of the Company. If the Board Of Directors of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

Fan Owned Club (FOC) takes the community membership model common in Europe and brings it to the United States.

We aim to develop Austria's FC Pinzgau Saalfelden (FCPS) into a truly global Club, giving international players, coaches and executives an entry point and a home in European football (soccer), driving FCPS to become a recognizable name across North America, Europe and beyond. Ideally, the FCPS project — a blank slate, albeit not from thin air — provides "proof of concept" for future FOC initiatives in both soccer, sporting, gaming and other platforms.

Given the Company's limited operating history, the Company cannot reliably estimate how much revenue it will receive in the future, if any.

Related Party Transaction

Refer to Question 26 of this Form C for disclosure of all related party transactions.

Liquidity & Capital Resources

To-date, the company has been financed with \$270,000 in debt and \$412,000 in equity.

We hope to begin generating revenue in Q3 of 2020, based mostly on sponsorship revenue and merchandise sales. We are planning to run a Reg A+ campaign immediately after the Reg CF campaign, which we are hoping to raise a maximum of \$30M through.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 3 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 12 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

Fan Owned Club, Inc. cash in hand is \$11,676.52, as of March 2020. Over the last three months, revenues have averaged \$0/month, cost of goods sold has averaged \$0/month, and operational expenses have averaged \$8,500/month, for an average burn rate of \$8,500 per month. Our intent is to be profitable in 12 months.

Currently, FC Pinzgau Saalfelden (Verein) holds the license from the Austrian Football Association and directly operates the FC Pinzgau Saalfelden club. By law the Verein is a nonprofit organization whose assets must only be used for fulfilling the Verein's purpose of operating the soccer team. Association rules allow the outsourcing of the soccer team to a corporation if among other requirements:

- 1) the Verein maintains controlling influence over the corporation (50%+1 voting rights) and
- 2) the corporation must be a domestic (Austrian) entity.

As such, an Austrian Limited Liability Company (GmbH) is in place & directly operates the soccer team with the Verein holding majority voting rights. FAN OWNED CLUB will own the balance of the interest in the GmbH and Directors of FAN OWNED CLUB will join the ownership group of the Verein. On December 19, 2019, the Company entered into an agreement to purchase 49.9% of the GmbH for \$434,750.

As of April 10th, 2020, Fan Owned Club, Inc. owns 49.9% of GmbH, and part of the proceeds from this offering will be used to make payments towards that purchase agreement.

Although we cannot guarantee it, we expect to be profitable in the 2021/22 season, roughly 12 months after we start to generate revenue. At that point we expect monthly expenses to be approximately \$102K off of revenue of \$114K. During the 20/21 season, we expect average monthly expenses will be approximately \$49K and revenue of \$20K. The jump is primarily related to greater sponsorship revenue, which tends to track seasons and increases with success.

Fan Owned Club, Inc.'s revenue is based on North American sponsorship revenue, merchandise sales, North American events (e.g. international friendlies), sport tourism (camps/clinics and match packages in Austria), proprietary content and dividends from profitable soccer operations.
