Enflux

Y Combinator

### About

I am a startup founder that is backed by Y Combinator. We created the Peloton for back pain.

Strength: Persistence

Weakness: Sometimes I don't know when to quit because I'm too persistent

### Experience

#### CEO & Founder

Enflux

Jul 2012 – Present · 7 yrs 4 mos

San Francisco Bay Area

Enflux is motion capture clothing for injury prevention and rehabilitation. It is clothing with sensors integrated into garments for constant monitoring and evaluation of human movement to warn against injury in sports and the workplace. We are backed by Y Combinator.

We are releasing a new product line: vibrating posture monitoring sensors measuring range of motion, reps, etc for the wrist, back, and knee. We overlay data on video exercises that users love. It's Peloton for pain therapy.
