OFFERING MEMORANDUM

Timbolier Industries, Inc.

Form C Offering Memorandum

Purpose of This Form

A company that wants to raise money using Regulation Crowdfunding must give certain information to prospective investors, so investors will have a basis for making an informed decision. The Securities and Exchange Commission, or SEC, has issued regulations at 17 CFR §227.201 listing the information companies must provide. This form – Form C – is the form used to provide that information.

Each heading below corresponds to a section of the SEC’s regulations under 17 CFR §227.201.

(D) THE COMPANY’S BUSINESS AND BUSINESS PLAN

BUSINESS MODEL

Timbolier develops products for boat owners to operate the complex machinery of a vessel with a view toward safety and longevity of equipment. Our flagship product is DEWLine, a dynamic early warning system that captures critical data on engine operation and presents it in a meaningful way that alerts the pilot to problems before they cascade into a critical failure.

Timbolier leverages an existing business providing engine rebuilding services and propeller manufacturing to attract customers and channel partners for DEWLine.

THE MARKET

Consumers who purchase a yacht for occasional pleasure use or retirement lifestyle frequently have insufficient knowledge of diesel propulsion to properly care for their engines. Both older used and current model new boats do little to give the pilot adequate data at the helm to know what's going on in the engine room. The result is often a failed engine that can cost upwards of \$50,000 to rebuild, not to mention hazards of returning to port and disrupted vacation plans. Commercial pilots often have the same issues but with much higher opportunity cost as their livelihood depends on their vessel being operational during a limited harvest window or seasonal demand. Our initial target market is the 250,000 powerboats registered in the USA over 38' and less than 150' in length.

OUR COMPETITORS

New engines sold today are often paired with SmartCraft, a product that displays engine information at the helm generated by the engine's electronic control module. There are also retrofit solutions for older vessels such as Chetco SeaGauge G-2, Noland RS-11 and Actisense EMU-1. These products have three common weaknesses: They are limited in the number and scope of sensors that can be used on the engine; the user interface is unwieldy and lacks the omniscience needed to inform the pilot without user intervention that is impossible in heavy traffic or rough seas; they lack the flexibility to establish multiple alarm thresholds that dynamically respond to operating conditions. DEWLine addresses all of these issues and more, providing data analytics that enable Captains and maintenance personnel to see deteriorating parameters over time and evaluate the impact of alternative maintenance routines or operating profiles.

(E) NUMBER OF EMPLOYEES

The Company currently has 2 employees.

(F) RISKS OF INVESTING

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment. In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. Please review the [Educational Materials](#) for risks that are common to many of the companies on the MainVest platform.

These securities are offered under an exemption from registration under federal law. The U.S. Securities and Exchange Commission (the "SEC") has not made an independent determination that these securities are exempt from registration. The SEC has not passed upon the merits of the securities or the terms of the offering, and has not passed upon the accuracy or completeness of the offering documents or literature.

These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

Please refer to Appendix A for additional risks to consider when investing in this offering.

Other Information on the Investment Process

- Investors may cancel an investment commitment until 48 hours prior to the Offering Deadline.
- MainVest will notify investors when and if the Target Offering Amount has been raised.
- If the Company reaches the Target Offering Amount before the Offering Deadline, it may close the offering early if it provides notice about the new Offering Deadline at least five business days before such new Offering Deadline, absent a material change that would require an extension of the offering and reconfirmation of the investment commitment.
- If an investor does not cancel an investment commitment before the 48-hour period before the Offering Deadline, the funds will be released to the Company upon closing of the offering and the investor will receive securities in exchange for his or her investment.

For additional information about the investment and cancellation process, see the [Educational Materials](#).

(K) MATERIAL CHANGES

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

Explanation

A "material change" means a change that an average, careful investor would want to know about before making an investment decision. A material change could be good or bad. If a material change occurs after you make an investment commitment but before the Offering closes, then the Company will notify you and ask whether you want to invest anyway. If you do not affirmatively choose to invest, then your commitment will be cancelled, your funds will be returned to you, and you will not receive any securities.

(L) PRICE OF THE SECURITIES

The Company is offering "securities" in the form of revenue sharing notes, which we refer to as "Notes." The Notes are being offered at their face amount. For example, you will pay \$1,000 for a Note with a face amount of \$1,000.

(M) TERMS OF THE SECURITIES

Overview

The Company is offering "securities" in the form of revenue sharing notes, which we refer to as the "Notes." Many of the terms of the Notes are set forth in a separate document called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C.

Summary of Terms

Revenue Percentage*	4.3 - 6.2%**
Payment Deadline	12 / 31 / 2026

Maximum Payment Multiple	
- Early Investors	1.8 x
- All Other Investors	1.6 x
Sharing Start Date	The first day after disbursement that the company has revenues greater than one (\$1) dollar
First Payment Date	Thirty (30) days after the last day of the calendar quarter ending not less than Sixty (60) days after the sharing start date.
Seniority	Subordinated
Securitization	Unsecured
Accrual Rate	1.78 %

*as further defined in the note agreement

**The rate of revenue sharing is calculated on a linear scale between the stated rates and is rounded to the nearest 1/10th percent. The final rate is based on the amount raised and is calculated after the offering has successfully closed. As the amount raised in the offering increases, the rate of revenue sharing increases.

For example, a hypothetical offering could result in the following revenue sharing percentages, depending on the amount raised:

Amount Raised	Revenue Sharing Percentage
\$75,000	4.3%
\$83,000	4.8%
\$83,500	5.3%
\$99,200	5.9%
\$107,000	6.2%

*** To reward early participation, the investors who contribute the first \$20,000 raised in the offering will receive a 1.8x cap. Investors who contribute after \$20,000 has been raised in the offering will receive a 1.6x cap.

Your Right to Payments under the Note

Your right to payments under the Note is set forth in the Note, together with a separate document called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C. Additionally, general terms are outlined below and in the Company's offering page.

Obligation to Contribute Capital

Once you pay for your Note, you will have no obligation to contribute more money to the Company, and you will not be personally obligated for any debts of the Company. However, under some circumstances you could be required by law to return some or all of a distribution you receive from the Company.

No Right to Transfer

You should plan to hold the Notes until maturity. The Notes will be illiquid (meaning you might not be able to sell them) for at least four reasons:

- The Revenue Sharing Agreement prohibits the sale or other transfer of Notes without the Company's consent.
- If you want to sell your Note the Company will have the first right of refusal to buy it, which could make it harder to find a buyer.
- Even if a sale were permitted, there is no ready market for Notes, as there would be for a publicly-traded stock.
- By law, for a period of one year you won't be allowed to transfer the Investor Shares except (i) to the Company itself, (ii) to an "accredited" investor, (iii) to a family or trust, or (iii) in a public offering of the Company's shares.

Security

The Notes are not secured by any assets of the Company or any assets of persons associated with the Company.

Modification of Terms of Notes

The terms of the Notes and the Revenue Sharing Agreement may be modified or amended with the consent of Investors holding 50% of the Notes, measured by the total amount outstanding under each Note.

Other Classes of Securities

The Company has outstanding the following securities:

Name of Security	Common Stock
Number of Shares Outstanding	100
Describe Voting Rights of These Securities, Including Any Limitations on Voting Rights	Common Stock shares have voting rights
How These Securities Differ from the Promissory Notes Offered to Investors	Common Stock comprises 100% of the voting rights

Dilution of Rights

The Company has the right to create additional classes of securities, both equity securities and debt securities (e.g., other classes of promissory notes). Some of these additional classes of securities could have rights that are superior to those of the Notes. For example, the Company could issue promissory notes that are secured by specific property of the Company.

The People Who Control the Company

Each of these people owns 20% or more of the total voting power of the Company:

<i>Name</i>	<i>Percentage of Voting Rights</i>
John Cox	100

How the Exercise of Voting Rights Could Affect You

You will receive payments with respect to your Note only if the Company makes enough money to pay you, or, if the Company does not make enough money to pay you, if there is enough value in the collateral the Company pledged as security for the Notes.

The people with voting rights control the Company and make all the decisions about running its business. If they make good business decisions, it is more likely you will be paid. If they make poor

business decisions, it is less likely you will be paid. For example, if they hire too many people and/or try to expand too quickly, the business could be harmed. The people with voting rights could also decide to file for bankruptcy protection, making it more difficult for you to be paid.

How the Notes are Being Valued

The Notes are being valued at their face value. We don't anticipate that we'll ever need to place a value on the Notes in the future.

(N) THE FUNDING PORTAL

The Company is offering its securities through MainVest, Inc., which is a "Funding Portal" licensed by the Securities and Exchange Commission and FINRA. MainVest Inc.'s Central Index Key (CIK) number is 0001746059, their SEC File number is 007-00162, and their Central Registration Depository (CRD) number is 298384.

(O) COMPENSATION OF THE FUNDING PORTAL

MainVest will be paid 6.0% of the final offering amount, upon the successful completion of the offering. MainVest does not receive compensation if the offering does not succeed. MainVest, Inc. owns no interest in the Company, directly or indirectly, and will not acquire an interest as part of the Offering, nor is there any arrangement for MainVest to acquire an interest.

(P) INDEBTEDNESS OF THE COMPANY

<i>Creditor</i>	<i>Amount</i>	<i>Interest Rate</i>	<i>Maturity Date</i>	<i>Other Important Terms</i>

(S) THE COMPANY'S FINANCIAL CONDITION
