

Form C

Cover Page

Name of issuer:

Bee Mortgage App, Inc.

Legal status of issuer:

Form: **Corporation**
Jurisdiction of Incorporation/Organization: **DE**
Date of organization: **4/29/2019**

Physical address of issuer:

**822 N. A1A Highway
Suite 310
Ponte Vedra Beach FL 32082**

Website of issuer:

http://beemortgageapp.com

Name of intermediary through which the offering will be conducted:

Wefunder Portal LLC

CIK number of intermediary:

0001670254

SEC file number of intermediary:

007-00033

CRD number, if applicable, of intermediary:

283503

Amount of compensation to be paid to the intermediary, whether as a dollar amount or a percentage of the offering amount, or a good faith estimate if the exact amount is not available at the time of the filing, for conducting the offering, including the amount of referral and any other fees associated with the offering:

7.5% of the offering amount upon a successful fundraise, and be entitled to reimbursement for out-of-pocket third party expenses it pays or incurs on behalf of the issuer in connection with the offering.

Any other direct or indirect interest in the issuer held by the intermediary, or any arrangement for the intermediary to acquire such an interest:

No

Type of security offered:

- Common Stock
 Preferred Stock
 Debt
 Other

If Other, describe the security offered:

Simple Agreement for Future Equity (SAFE)

Target number of securities to be offered:

50,000

Price:

\$1.00000

Method for determining price:

Pro-rated portion of the total principal value of \$50,000; interests will be sold in increments of \$1; each investment is convertible to one share of stock as described under Item 13.

Target offering amount:

\$50,000.00

Oversubscriptions accepted:

- Yes
 No

If yes, disclose how oversubscriptions will be allocated:

- Pro-rata basis
 First-come, first-served basis
 Other

If other, describe how oversubscriptions will be allocated:

As determined by the issuer

Maximum offering amount (if different from target offering amount):

\$769,600.00

Deadline to reach the target offering amount:

3/11/2021

NOTE: If the sum of the investment commitments does not equal or exceed the target offering amount at the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

Current number of employees:

4

	Most recent fiscal year-end:	Prior fiscal year-end:
Total Assets:	\$0.00	\$0.00
Cash & Cash Equivalents:	\$0.00	\$0.00
Accounts Receivable:	\$0.00	\$0.00
Short-term Debt:	\$0.00	\$0.00
Long-term Debt:	\$0.00	\$0.00
Revenues/Sales:	\$0.00	\$0.00
Cost of Goods Sold:	\$0.00	\$0.00
Taxes Paid:	\$0.00	\$0.00
Net Income:	\$0.00	\$0.00

Select the jurisdictions in which the issuer intends to offer the securities:

AL, AK, AZ, AR, CA, CO, CT, DE, DC, FL, GA, HI, ID, IL, IN, IA, KS, KY, LA, ME, MD, MA, MI, MN, MS, MO, MT, NE, NV, NH, NJ, NM, NY, NC, ND, OH, OK, OR, PA, RI, SC, SD, TN, TX, UT, VT, VA, WA, WV, WI, WY, BS, GU, PR, VI, IV

Offering Statement

Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

THE COMPANY

1. Name of issuer:

Bee Mortgage App, Inc.

COMPANY ELIGIBILITY

2. Check this box to certify that all of the following statements are true for the issuer.

- Organized under, and subject to, the laws of a State or territory of the United States or the District of Columbia.
- Not subject to the requirement to file reports pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934.
- Not an investment company registered or required to be registered under the Investment Company Act of 1940.
- Not ineligible to rely on this exemption under Section 4(a)(6) of the Securities Act as a result of a disqualification specified in Rule 503(a) of Regulation Crowdfunding.
- Has filed with the Commission and provided to investors, to the extent required, the ongoing annual reports required by Regulation Crowdfunding during the two years immediately preceding the filing of this offering statement (or for such shorter period that the issuer was required to file such reports).
- Not a development stage company that (a) has no specific business plan or (b) has indicated that its business plan is to engage in a merger or acquisition with an unidentified company or companies.

INSTRUCTION TO QUESTION 2: If any of these statements are not true, then you are NOT eligible to rely on this exemption under Section 4(a)(6) of the Securities Act.

3. Has the issuer or any of its predecessors previously failed to comply with the ongoing reporting requirements of Rule 202 of Regulation Crowdfunding?

Yes No

DIRECTORS OF THE COMPANY

4. Provide the following information about each director (and any persons occupying a similar status or performing a similar function) of the issuer.

Director	Principal Occupation	Main Employer	Year Joined as Director
Cynthia Wood	COO	Bee Mortgage App, Inc.	2019
Curtis Wood	CEO	Bee Mortgage App, Inc.	2019

For three years of business experience, refer to [Appendix D: Director & Officer Work History](#).

OFFICERS OF THE COMPANY

5. Provide the following information about each officer (and any persons occupying a similar status or performing a similar function) of the issuer.

Officer	Positions Held	Year Joined
Cynthia Wood	COO	2019
Matthew Offers	VP of Products	2019
Curtis Wood	CEO	2019

For three years of business experience, refer to [Appendix D: Director & Officer Work History](#).

INSTRUCTION TO QUESTION 5: For purposes of this Question 5, the term officer means a president, vice president, secretary, treasurer or principal financial officer, comptroller or principal accounting

PRINCIPAL SECURITY HOLDERS

6. Provide the name and ownership level of each person, as of the most recent practicable date, who is the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power.

Name of Holder	No. and Class of Securities Now Held	% of Voting Power Prior to Offering
Cynthia Wood	144500.0 Common	30.5
Curtis Wood	144500.0 Common	30.5

INSTRUCTION TO QUESTION 6: The above information must be provided as of a date that is no more than 120 days prior to the date of filing of this offering statement.

To calculate total voting power, include all securities for which the person directly or indirectly has or shares the voting power, which includes the power to vote or to direct the voting of such securities. If the person has the right to acquire voting power of such securities within 60 days, including through the exercise of any option, warrant or right, the conversion of a security, or other arrangement, or if securities are held by a member of the family, through corporations or partnerships, or otherwise in a manner that would allow a person to direct or control the voting of the securities (or share in such direction or control – as, for example, a co-trustee) they should be included as being "beneficially owned." You should include an explanation of these circumstances in a footnote to the "Number of and Class of Securities Now Held." To calculate outstanding voting equity securities, assume all outstanding options are exercised and all outstanding convertible securities converted.

BUSINESS AND ANTICIPATED BUSINESS PLAN

7. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

For a description of our business and our business plan, please refer to the attached **Appendix A, Business Description & Plan**

INSTRUCTION TO QUESTION 7: Wefunder will provide your company's Wefunder profile as an appendix (Appendix A) to the Form C in PDF format. The submission will include all Q&A items and "read more" links in an un-collapsed format. All videos will be transcribed.

This means that any information provided in your Wefunder profile will be provided to the SEC in response to this question. As a result, your company will be potentially liable for misstatements and omissions in your profile under the Securities Act of 1933, which requires you to provide material information related to your business and anticipated business plan. Please review your Wefunder profile carefully to ensure it provides all material information, is not false or misleading, and does not omit any information that would cause the information included to be false or misleading.

RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

Minority Ownership Impact

Any equity of Bee Mortgage App, Inc. (the "Company") obtained as a result of this transaction may or may not have voting rights attached to it as otherwise herein stated. You will most likely be a minority shareholder of the Company at all times regardless of the valuation of future equity offering rounds and will therefore have limited ability to influence decisions of the Company's management team. As a minority shareholder, you may be also be restricted to Company information and may be subject to Company status information standard minimum reporting requirements to minority shareholders. By investing in the Company, all investors are trusting the Company's management to make decisions in the best interests of the Company, its customers, mission, team members, partners, and the shareholders it serves.

Dilution Risk

The Company plans to raise more capital in the future with possibly more than one round of funding. Dependent upon the offering, new investors may receive additional equity shares in the Company and existing shareholders may experience a decrease in ownership percentage (dilution) upon the issuance of new shares by the Company, possibly at a lower price. Future offerings may provide the new investors with advantages and rights not available to you as a previous investor.

General Risk

Investing in early stage companies like Bee Mortgage App, Inc. without a proven track record of performance or sound liquidity such is highly speculative in nature and presents significant risk to you the investor. In short, you may lose your entire investment. Prior to investing, you need to thoroughly research and understand all potential risk associated with investing in the Company. Until the Company has achieved profitability and is without need of raising additional capital, the chance of you losing your entire investment remain very high. Therefore, you should not invest more than you are willing to comfortably lose.

Like the Company, many companies engaging in crowd funding are early stage start-ups with a high likelihood of failure due to various factors contained in these risk disclosures. Regardless of future revenue and/or profitability performance, good and bad, there is no guarantee that you will ever see a return on your investment, or that you will ever be in a place to exit your investment for a profit or a loss.

As with all investments, you should proceed with caution, do your own research, due diligence, and seek professional investment advice prior to investing. A professional adviser may identify and alert you to risk not covered in these disclosures. The realization of any of the risks contained herein or unknown risks not disclosed could lead to an immediate need for the Company to raise additional capital, make difficult and unpopular operational decisions, or cease operations altogether. You understand that in the event you lose your entire investment you may have limited or no recourse against the Company as these risk disclosures

Fraud Risk

There is no guarantee that any investment is immune from fraud. While most public offerings, including Reg CF and Standard Agreements for Future Equity offerings, require screening standards, oversight and reviews, the risk of fraud remains high when investing in any early stage company including start-ups such as the Company.

There is no guarantee as to the validity or accuracy of the Company's claims or representations about technology, projections and forward-looking statements, advertising materials related to this crowdfunding raise, or past or future performance. You are required to undertake your own diligence and/or consult your financial advisor with respect to the accuracy and validity of the Company's materials.

Loan And Future Indebtedness Risk

If funds in excess of those raised are needed by the Company, the Company retains the right to make or arrange for a loan to the Company, to be repaid prior to any authorized shareholder dividend payments. The repayment of any such loans could possibly have the effect of delaying shareholder cash distributions in the event that available EBITA is insufficient to increase retained earnings.

Economic Risk

The Company's success is extremely sensitive to various known and unknown internal and external societal, regulatory, global, and economic factors. These factors may negatively impact the performance of the Company and its ability to achieve stated objectives, achieve revenue or profitability, or its ability to access needed additional capital.

Known factors include, but are not limited to:

1. Local, regional, national, or global economic recessions.
2. Changes in capital market conditions and the Company's ability to obtain future funding.
3. Changes or declines in employment within the Company and outside the Company.
4. Real estate and/or home lending market conditions and regulatory conditions.
5. Domestic or international tax policy changes.
6. Domestic and global political conditions.
7. Wars, natural disasters, pandemics, illnesses, mass hysteria, and other potential crisis.

Unknown factors include ones undisclosed herein that could occur without forewarning or knowledge thereof. Such events could lead to a sudden and intense need for the Company to raise additional capital, make difficult and unpopular operational decisions, or cease operations altogether.

Performance Risk

There is a high likelihood that future Company performance may not achieve its stated objectives herein. All statements, claims and representations of future performance are for the most part hypothetical, based on management's good faith and best efforts estimates, analysis, and forecasts. Current management expectations and projections regarding future performance, financial trends, societal trends, economic trends, global trends, and other reasonable beliefs impacting the business, financial conditions, and the results of its operations form the basis for the projections and other forward-looking statements made herein. As socioeconomic trends change, there is a high likelihood that such assumptions made in good faith and contained herein may become less reliable creating a circumstance where adjustments to the Company's operations may be required.

Achievement of stated performance contains risks based on known and unknown internal and external factors that could lead to material changes or variations of actual results. There is no guarantee that the Company's financial and operations performance will meet expectations or herein stated projections and forward-looking statements.

Liquidity Risk

The Company's securities you may be acquiring at a later date through this investment transaction may be illiquid. The Company's current and future securities may not be converted into cash. With limited exceptions, you may not be lawfully able to sell or transfer your securities during a certain period of time. After this period, Federal and State securities regulations may limit or restrict your ability to sell or transfer your securities. In the event you are able to sell your securities you will likely have a hard time finding a buyer due to a lack of an established market, and, if such a marketplace exists, it may experience low volume or few participants. You should be prepared to hold your investment for a very long time.

Disclosure Risk

Data and information regarding the Company and the investment opportunity is limited. You may not have or be able to obtain all the information requested or sought after in order to make a sound investment decision. While the Company is required to disclose certain information such as an offering document, annual financial statements, annual reports, information concerning intended use of funds and material changes, such disclosures and information contained herein do not represent all the data or risks associated with investing in early stage companies such as the Company.

Available information will be limited as the Company does not have a fully developed business plan and long history of operation. Investing in crowdfunding companies presents significantly more risk than investing in publicly traded companies due to the limited amount of data and information provided by a company engaging in a Reg CF raise. Unlike the Company, publicly listed companies are required to file annual and quarterly reports and promptly disclose material information, providing the ability for the investor to more closely and thoroughly monitor their investment.

Capital Risk

The Company requires ongoing intensive capital formation and allocation until profitability is achieved which may not happen due to various internal and external known and unknown factors. The amount of capital the Company is attempting to raise in this offering will not be enough to sustain its business operations to profitability. The Company will have to raise additional capital to continue development, and fund operations and expansion. There is no guarantee that additional capital will be able to be raised by the Company even if this raise is successful. If the Company is unable to acquire additional capital it may be required to alter its business plan, business strategy, sell assets, reduce workforce, restructure under the protections of a bankruptcy filing, or cease operations and dissolve. Under such scenarios, no return of capital, shareholder settlement or refund would be issued to investors. The Company's inability to secure future

capital could adversely impact the business, its valuation, and/or the value of shareholder securities.

Credit Risk

There is a high likelihood that the Company will require access to capital via a credit facility in order to support business growth finance requirements. Acquiring extensions of credit with favorable terms can be challenging and is highly dependent upon macro-economic conditions coupled with aforementioned internal and external known and unknown factors. If the Company is unable to obtain needed credit it could be forced to modify business strategy, growth projections, or take other action necessary to raise additional capital or conserve existing funds. The Company's inability to secure future credit could adversely impact the business, its valuation, and/or the value of shareholder securities.

Use of Funds Risk

The projected use of funds and proceeds from this Reg CF offering is a best estimate. Actual capital allocation may differ based on business conditions at time of execution and is solely based on the Company's discretion. The Company's investors should be comfortable with the provided intended fund usage description and understand the Company's leadership and management team reserves the right to re-allocate use of proceed funds based on the needs of the Company.

Personnel and Management Risk

Investing in the Company is an investment in the founders, employees and management team. Their ability to execute the business plan and make sound operational decisions will be important factors in the viability and success of the Company. As the Company's securities holder, you will not be able to participate directly in the Company's day-to-day operations or engage management or other employees. The Company's security holders do not have special right of access to the Company unless otherwise granted. Your investment in the Company will in part be allocated by the Company to fund employee, management and executive officer compensation. This compensation is exclusively set by Company leadership.

Professional Guidance Risk

Many early stage companies often attribute their early success to the involvement and guidance of professional early stage investors. These investors often provide post transaction value to the organization. They may be on the company's board or oversight committee and may play an integral role in the company's development through access to their capital resources, professional networks and prior experience in assisting start up or early-stage companies in scaling and executing their business plans. The Company does not currently have the guidance of any such professional investors and may not have such guidance in the future.

Demand Risk

Realized market demand for the Company's minimal viable product or flagship mortgage application may not yield forecasted sales or revenue expectations contained herein. All demand calculations factored into the forward-looking sales models are based on hypothetical estimates that may not be obtained when the products and services are released.

Revenue Risk

The Company is pre-revenue and will face challenges in its efforts to grow the business and monetize its products and services. It has limited operating capital and will be largely dependent upon its ability to finance operations from the sale of equity, the issuance of debt or other financing alternatives. The Company's failure to successfully raise operating capital or effectively monetize its products could potentially result in an adverse impact to the business, up to and including bankruptcy.

Product/Service Risk

The Company's primary product and service is currently a consumer mobile app for direct residential lending. This app is not yet released or live to download. Any of the current products or services offered prior to its release are variants of the one primary product and service offering. In order for the Company to achieve its sales projections and generate revenue it will need to capitalize on the market for the mobile residential lending services being offered. Changes in consumer tastes may impact demand which could adversely impact the Company's ability to generate revenue.

Regulatory Risk

The Company plans to offer its primary product and service within a highly regulated marketplace. Federal and State licensing may be required. Failure to obtain such licensing could result in an adverse impact on the Company's ability to meet sales and revenue objectives, and investor securities. The risk that legislative or policy decisions and changes on a Federal or State level may result in higher costs or obstacles to success for the Company is extremely likely. In an uncertain regulatory environment, the Company's operations may be subject to direct or indirect adoption, expansion or interpretation of various laws and regulation. Compliance with current and future laws and regulations may require the Company to significantly change its pricing models or business plan. These additional changes may have a material and adverse impact on its operations and financial results. Furthermore, the introduction of new services may require the Company to comply with additional, yet to be defined, laws and regulations. The failure to adequately comply may delay or possibly prevent some of the Company's products or services from being offered, which could have a material adverse impact on the Company's financial condition and results of operations.

Competitive Risk

The residential lending marketplace in which the Company plans to release products and services is extremely competitive and intense. It is currently occupied by very large, well-capitalized companies including banks, direct lenders, and brokers. The Company will be operating at a disadvantage to these companies as these market participants have proven track records of performance, brand recognition, and access to vast amounts of capital and human resources. The Company does not possess or will be able to acquire such competitive advantages. Marketplace competitiveness is likely to greatly increase in the future. The Company may face declining sales, diminished revenue, or smaller margins as a direct result of competitive marketplace conditions or a larger company copying its products, services or technology. Changes in consumer preferences or the inability to successfully compete with other companies with similar products or services could negatively impact the Company's financial performance.

Risk of Limited Operating History

As a newly established entity with a never before attempted business strategy, the Company cannot provide more than limited information for which investors may use to base their investment decisions on due to its limited operating history.

Intellectual Property (IP) Risk

The Company's performance and success may be impacted by its ability to obtain, maintain and protect legal protections on its intellectual property rights to the technologies and processes used to deliver its products or services. The Company is currently pursuing legal protections for such property however the scope of the protection or whether it will be granted has yet to be determined. Any patents or intellectual property protections issued may be challenged, circumvented, or determined unenforceable in the future. Intellectual property enforcement may be time consuming and cost intensive while simultaneously diverting the Company's attention away from successfully executing its business plan.

Despite the Company's patent attorneys advising it that its data process and structure is likely patentable, the decision to grant a patent is ultimately up to the USPTO. An incumbent competitor or new entrant could copy or illegally obtain the Company's intellectual property, which would require the Company to engage in costly litigation. Such event could lead to a sudden and intense need for the Company to raise additional capital, make difficult and unpopular operational decisions, or cease operations.

Key Person Risk

Due to the Company's small size, it is susceptible to key person risk. The success of the Company will largely be dependent upon the experience and skill of its oversight committee, board of directors, executive officers and tenured employees. The Company can make no guarantees that key individuals necessary for successful operation of the business objectives will continue to be employed by the Company for any defined period of time. Loss of any key persons for any reason could cause irreparable harm to the Company's ability to deliver value to shareholders, meet business objectives, and could cause the Company and your investment to suffer.

Third Party Risk

The Company relies on multiple third-party services that are essential to its operations and achievement of business objectives. It is possible that these third parties will fail to perform their services as represented or will perform them in an unacceptable manner that will result in a material negative impact to the Company and shareholder value. Your investment may be adversely impacted by the Company's reliance on third party service providers and their performance.

Marketing Risk

Sales and revenue projections are based on hypothetical marketing estimates. However, the Company may not be able to successfully maintain, promote and grow the brand through its marketing and communication strategies. Increasing the number of customers while establishing brand awareness and loyalty may prove difficult in the hyper competitive marketplace in which the Company operates. Inability to successfully market the Company and increase its customer base will adversely impact the Company's operations and inhibit success while posing a risk to shareholder investment.

Technology Risk

The Company's success is largely dependent upon market adoption of its products and services including its minimum viable product and primary mortgage lending mobile app. While the residential lending marketplace is well established, certain aspects of the market for the Company's technologies are still nascent. The introduction of new technologies and an evolving regulatory environment could negatively impact the Company's ability to execute on its business plan and generate forecasted revenue.

Challenges will be found in engineering all advertised product design features for loan origination. The Company is a ground-up rebuild of the mortgage origination process using blockchain as the key data validation protocol, a method yet to be adopted, demonstrated, proved, or approved by any overseeing regulatory body, agency or investor. The Company plans to incorporate as much blockchain integration allowable within the current QM (qualified mortgage) file requirements specifications while working to obtain waivers for the more advanced implementations in the future after proving the technology. As blockchain adoption progresses and the mortgage industry continues to adopt new digital mortgage processes (at regulators behest and advice), regulatory bodies have signaled their urgent cooperation with such technological initiatives as messaged by Treasury last year.

Corporate Governance Risk

The Company is not subject to the corporate governance requirements of the national securities exchanges. Any company whose securities are listed on a national securities exchange is subject to a number of rules about corporate governance intended to protect investors. For example, the major U.S. stock exchanges require listed companies to maintain an audit committee comprised entirely of independent members of the board of directors (i.e., directors with no material outside relationships with the company or management), responsible for monitoring the company's compliance with local, state and federal law. The Company does not possess nor will it be required to implement these and other such controls and investor protections.

Valuation Risk

With early stage investing, start-up valuation accuracy can be difficult to obtain. Accurate valuation of the Company can be difficult to assess. Public companies are valued publicly and valuations are supported through market driven stock prices and vast amounts of corporate data provided by the public company. Valuation of a private company is established privately by the company itself and can be difficult to assess due to the limited availability of public information and historical records, or limited time in business. There may exist additional classes of equity with rights that are superior to the class being sold through this offering, and new equity classes may be created based on future needs of the Company and at the sole discretion of the current two majority shareholders, Curtis Wood and Cynthia Wood. Creating a new equity class may dilute or devalue prior investor securities.

Downside Risk

All of the Company's crowdfunding investors have a potential downside of great likelihood. If the Company fails to generate enough revenue you could potentially lose all of your investment.

Secured Risk

Shares of the Company's common stock issued through this offering are not secured by any collateral. In no scenario would the securities be redeemable for any tangible asset owned by the Company or its principal employees, management team, or other shareholders.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in

attracting and retaining other personnel we require to successfully grow our business.

The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **\$50,000**

Use of Proceeds: 30% towards product development, 34% towards advertising and traction, 28.5% towards operations, 7.5% towards WeFunder fees.

If we raise: **\$769,600**

Use of Proceeds: 52% towards product development, 25% towards advertising and traction, 15.5% towards operations, 7.5% towards WeFunder fees.

INSTRUCTION TO QUESTION 10: An issuer must provide a reasonably detailed description of any intended use of proceeds, such that investors are provided with an adequate amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each probable use and the factors the issuer may consider in allocating proceeds among the potential uses. If the issuer will accept proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating oversubscriptions, and intended use of the excess proceeds with similar specificity. Please include all potential uses of the proceeds of the offering, including any that may apply only in the case of oversubscriptions. If you do not do so, you may later be required to amend your Form C. WeFunder is not responsible for any failure by you to describe a potential use of offering proceeds.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

Book Entry and Use of XX Investments LLC as Transfer Agent and Custodian. Investments will be in book entry form. This means that the investor will not receive a certificate representing his or her investment. Each investment will be recorded in the books and records of our transfer agent, XX Investments LLC. XX Investments LLC will act as custodian and hold legal title to the investments for investors that enter into a Custodial and Voting Agreement with XX Investments LLC and will keep track of those investors' beneficial interests in the investments. In addition, investors' interests in the investments will be recorded in each investor's "My Investments" screen. The investor will also be emailed again the Investor Agreement and, if applicable, the Custodial and Voting Agreement. The Investor Agreement and, if applicable, the Custodial and Voting Agreement will also be available on the "My Investments" screen.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

An investor's right to cancel. An Investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the Investor about the offering and/or the Company, the Investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the Investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the Investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the Investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the

reason for the cancellation, identify the refund amount the investor will receive, and refund the investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

In addition, we may cap at 450 the total number of investors who will be allowed to invest through the offering that are not "accredited investors," as defined in Rule 501(a) of Regulation D under the Securities Act of 1933. In the event that more than 450 non-accredited investors are initially accepted into an offering in step (2) described in Question 11, the Company may cancel investments based on the order in which payments by investors were received, or other criteria at the discretion of the Company, before the offering deadline.

Ownership and Capital Structure

THE OFFERING

13. Describe the terms of the securities being offered.

To view a copy of the SAFE you will purchase, please see [Appendix B, Investor Contracts](#). The main terms of the SAFEs are provided below.

The SAFEs. We are offering securities in the form of a Simple Agreement for Future Equity ("SAFE"), which provides investors the right to **Preferred Stock** in the Company ("**Preferred Stock**"), when and if the Company sponsors an equity offering that involves **Preferred Stock**, on the standard terms offered to other investors.

Conversion to Preferred Equity. Based on our SAFEs, when we engage in an offering of equity interests involving Preferred Stock, investors will receive a number of Preferred Stock calculated using the method that results in the greater number of Preferred Stock:

1. the total value of the investor's investment, divided by
 1. the price of Preferred Stock issued to new investors multiplied by
 2. the **discount rate (80%)**, or
2. if the valuation for the company is more than **\$12,000,000.00 (the "Valuation Cap")**, the amount invested by the investor divided by the quotient of
 1. the **Valuation Cap** divided by
 2. the total amount of the Company's capitalization at that time.
3. for investors up to the first **\$384,800.00** of the securities, investors will receive a **valuation cap of \$10,000,000.00** and a discount rate of 80.0%.

Additional Terms of the Valuation Cap. For purposes of option (ii) above, the Company's capitalization calculated as of immediately prior to the Equity Financing and (without double-counting, in each case calculated on an as-converted to Common Stock basis):

- Includes all shares of Capital Stock issued and outstanding;
- Includes all Converting Securities;
- Includes all (i) issued and outstanding Options and (ii) Promised Options; and
- Includes the Unissued Option Pool, except that any increase to the Unissued Option Pool in connection with the Equity Financing shall only be included to the extent that the number of Promised Options exceeds the Unissued Option Pool prior to such increase.

Liquidity Events. If the Company has an initial public offering or is acquired by, merged with, or otherwise taken over by another company or new owners prior to investors in the SAFEs receiving Preferred Stock, investors will receive proceeds equal to the greater of

- 1: the Purchase Amount (the "Cash-Out Amount") or
- 2: the amount payable on the number of shares of Common Stock equal to the Purchase Amount divided by the Liquidity Price (the "Conversion Amount")

Liquidity Priority. In a Liquidity Event or Dissolution Event, this Safe is intended to operate like standard nonparticipating Preferred Stock. The investor's right to receive its Cash-Out Amount is:

1. Junior to payment of outstanding indebtedness and creditor claims, including contractual claims for payment and convertible promissory notes (to the extent such convertible promissory notes are not actually or notionally converted into Capital Stock);
2. On par with payments for other Safes and/or Preferred Stock, and if the applicable Proceeds are insufficient to permit full payments to the investor and such other Safes and/or Preferred Stock, the applicable Proceeds will be distributed pro rata to the investor and such other Safes and/or Preferred Stock in proportion to the full payments that would otherwise be due; and
3. Senior to payments for Common Stock.

Irrevocable Proxy. The investor and his, her, or its transferees or assignees (collectively, the "Investor"), through a power of attorney granted by investor in the Investor Agreement, will appoint XX Team LLC ("XX Team") as the investor's true and lawful proxy and attorney (the "Proxy"), with the power to act alone and with full power of substitution, on behalf of the investor to:

1. direct the voting of all securities purchased through wefunder.com, and to direct the exercise of all voting and other rights of investor with respect to the Company's securities, and
2. direct, in connection with such voting power, the execution of any instrument or document that XX Team determines is necessary and appropriate in the exercise of its authority. Such Proxy will be irrevocable. If an investor has entered into the Custodial and Voting Agreement with XX Investments LLC ("XX Investments"), then XX Investments will be the entity that XX Team directs to vote and take any other actions in connection with such voting (including the execution of documents) on behalf of such investor.

Repurchase. If the Company determines, in its sole discretion, that it is likely that within six months the securities of the Company will be held of record by a number of persons that would require the Company to register a class of its equity securities under the Securities Exchange Act of 1934, as amended ("Exchange Act"), as required by Section 12(g) or 15(d) thereof, the Company shall have the option to repurchase the securities from each investor for the greater of

1. the purchase price of the securities, and

2. the fair market value of the securities, as determined by an independent appraiser of securities chosen by the Company. The foregoing repurchase option will terminate upon a Change of Control or Dissolution Event (each as defined in the Company's Investment Agreement).

14. Do the securities offered have voting rights?

- Yes
 No

15. Are there any limitations on any voting or other rights identified above?

- Yes:
 No: Irrevocable voting proxy granted to XX Team.

16. How may the terms of the securities being offered be modified?

Any provision of this Safe may be amended, waived or modified by written consent of the Company and either

- a. the Investor or
- b. the majority-in-interest of all then-outstanding Safes with the same "Post-Money Valuation Cap" and "Discount Rate" as this Safe (and Safes lacking one or both of such terms will be considered to be the same with respect to such term(s)), provided that with respect to clause (ii):
 - A. the Purchase Amount may not be amended, waived or modified in this manner,
 - B. the consent of the Investor and each holder of such Safes must be solicited (even if not obtained), and
 - C. such amendment, waiver or modification treats all such holders in the same manner. "Majority-in-interest" refers to the holders of the applicable group of Safes whose Safes have a total Purchase Amount greater than 50% of the total Purchase Amount of all of such applicable group of Safes.

Pursuant to authorization in the Investor Agreement between each Investor and Wefunder Portal, Wefunder Portal is authorized to take the following actions with respect to the investment contract between the Company and an investor:

- A. Wefunder Portal may amend the terms of an investment contract, provided that the amended terms are more favorable to the investor than the original terms; and
- B. Wefunder Portal may reduce the amount of an investor's investment if the reason for the reduction is that the Company's offering is oversubscribed.

RESTRICTIONS ON TRANSFER OF THE SECURITIES BEING OFFERED:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

- 1. to the issuer;
- 2. to an accredited investor;
- 3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
- 4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

DESCRIPTION OF ISSUER'S SECURITIES

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Securities	Securities	Voting Rights
	(or Amount) Authorized	(or Amount) Outstanding	
Common	500,000	472,860	Yes <input type="button" value="v"/>

Securities Reserved for Issuance upon Exercise or Conversion

Warrants: _____

Options: _____

Describe any other rights:

The company has yet to authorize preferred stock, which investors in this offering would receive if the SAFE converts. Preferred stock has liquidation preferences over common stock.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

The holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering).

These changes could result in further limitations on the voting rights the Investor will have as an owner of equity in the Company, for example by diluting those rights or limiting them to certain types of events or consents.

To the extent applicable, in cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional equity, an investor's interest will typically also be diluted.

Based on the risk that an Investor's rights could be limited, diluted or otherwise qualified, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, the **shareholders** may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, the **shareholders** may change the terms of the articles of incorporation for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. The **shareholders** may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

The **shareholders** have the right to redeem their securities at any time. **Shareholders** could decide to force the Company to redeem their securities at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability.

In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional stock, an Investor's interest will typically also be diluted.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

The initial amount invested in a SAFE is determined by the investor, and we do not guarantee that the SAFE will be converted into any particular number of **shares of Preferred Stock**. As discussed in Question 13, when we engage in an offering of equity interests involving **Preferred Stock**, investors may receive a number of shares of **Preferred Stock** calculated as either (i) the total value of the Investor's investment, divided by the price of the **Preferred Stock** being issued to new Investors, or (ii) if the valuation for the company is more than the Valuation Cap, the amount invested divided by the quotient of (a) the Valuation Cap divided by (b) the total amount of the Company's capitalization at that time.

Because there will likely be no public market for our securities prior to an initial public offering or similar liquidity event, the price of the **Preferred Stock** that investors will receive, and/or the total value of the Company's capitalization, will be determined by our **board of directors**. Among the factors we may consider in determining the price of **Preferred Stock** are prevailing market conditions, our financial information, market valuations of other companies that we believe to be comparable to us, estimates of our business potential, the present state of our development and other factors deemed relevant.

In the future, we will perform valuations of our **stock (including both common stock and Preferred Stock)** that take into account, as applicable, factors such as the following:

- unrelated third party valuations;
- the price at which we sell other securities in light of the relative rights, preferences and privileges of those securities;
- our results of operations, financial position and capital resources;
- current business conditions and projections;
- the marketability or lack thereof of the securities;
- the hiring of key personnel and the experience of our management;
- the introduction of new products;
- the risk inherent in the development and expansion of our products;
- our stage of development and material risks related to our business;
- the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
- industry trends and competitive environment;
- trends in consumer spending, including consumer confidence;
- overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
- the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Board Of Directors, and the Investor will have

no independent right to name or remove an officer or member of the Board Of Directors of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company and the Board of Directors of the Company. If the Board Of Directors of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

24. Describe the material terms of any indebtedness of the issuer:

None.

INSTRUCTION TO QUESTION 24: name the creditor, amount owed, interest rate, maturity date, and any other material terms.

25. What other exempt offerings has the issuer conducted within the past three years?

Offering Date	Exemption	Security Type	Amount Sold	Use of Proceeds
6/2020	Regulation Crowdfunding	Common stock	\$300,400	General operations

26. Was or is the issuer or any entities controlled by or under common control with the issuer a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(6) of the Securities Act during the preceding 12- month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:

- any director or officer of the issuer;
- any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;
- if the issuer was incorporated or organized within the past three years, any promoter of the issuer;
- or (4) any immediate family member of any of the foregoing persons.

Yes
 No

INSTRUCTIONS TO QUESTION 26. The term transaction includes, but is not limited to, any financial transaction, arrangement or relationship (including any indebtedness or guarantee of indebtedness) or any series of similar transactions, arrangements or relationships.

Beneficial ownership for purposes of paragraph (2) shall be determined as of a date that is no more than 120 days prior to the date of filing of this offering statement and using the same calculation described in Question 6 of this Question and Answer format.

The term "member of the family" includes any child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the person, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Compute the amount of a related party's interest in any transaction without regard to the amount of the profit or loss involved in the transaction. Where it is not practicable to state the approximate amount of the interest, disclose the approximate amount involved in the transaction.

FINANCIAL CONDITION OF THE ISSUER

ISSUER

27. Does the issuer have an operating history?

- Yes
 No

28. Describe the financial condition of the issuer, including, to the extent material, liquidity, capital resources and historical results of operations.

Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

Think Robinhood app for mortgages + AI/ML

With AI/machine learning and blockchain, we're building the first end-to-end mobile mortgage experience that will eliminate the need for a human loan officer to manually verify and validate loan file data. In other words, a true mobile mortgage for Generation Mobile that's the largest home buying group this year (\$1.2 Trillion).

In five years, we hope to be a unicorn known as the first direct mobile lender onboarding massive numbers of new home buyers (and others), powering super streamlined refinances, generating \$100M+ in loans, and an IPO in 10 years. These projections cannot be guaranteed.

Given the Company's limited operating history, the Company cannot reliably estimate how much revenue it will receive in the future, if any.

Milestones

Bee Mortgage App, Inc. was incorporated in the State of Delaware in April 2019.

Since then, we have:

- Patent pending AI, machine learning, & blockchain replace the loan officer unlike Rocket Mortgage. Patent rights are held by Bee Mortgage App, Inc.
- 🏆 Successful VC backed pre-seed raise | Revenue generating | Growing user base.
- 🏠 \$3.4 Trillion market targeting young, new homebuyers who love mobile apps.
- 📱 Live MVP app & major bank partnership.
- 🏢 Founded by licensed mortgage, real estate & certified blockchain experts.
- 📅 Execution: team delivered MVP on time and under budget during global pandemic.
- 🟢 Team experienced in mobile app development, mortgage lending, and smart contract automation.

Historical Results of Operations

Our company was organized in April 2019 and has limited operations upon which prospective investors may base an evaluation of its performance.

- *Revenues & Gross Margin.* For the period ended December 31, 2019, the Company had revenues of \$0.
- *Assets.* As of December 31, 2019, the Company had total assets of \$0, including \$0 in cash.
- *Net Income.* The Company has had net income of \$0 for 2019.
- *Liabilities.* The Company's liabilities totaled \$0 for 2019.

Liquidity & Capital Resources

To-date, the company has been financed with \$300,400 in equity.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 6 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 6 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

Bee Mortgage App, Inc. cash in hand is \$40,770, as of October 2020. Over the last three months, revenues have averaged \$0/month, cost of goods sold has averaged \$0/month, and operational expenses have averaged \$20,000/month, for an average burn rate of \$20,000 per month. Our intent is to be profitable in 12 months.

Since June 30 2020, we released our MVP on Apple and have launched a marketing campaign to drive downloads. We continue development on the full standardized mortgage application that should be completed during this fund raise. We are currently only spending \$10,000/month in expenses as we have completed the MVP development.

Over the next 6 months, we expect revenues to be over \$100K and expenses to be around \$200K. This reflects the early stage nature of our business, as we need to spend on development in order to reach our milestones. We do not need additional to reach a revenue-generating point--once the customers we have in our pipeline convert, will be generating revenue. These projections cannot be

guaranteed.

For additional capital outside of this offering, we have cash in the bank that we raised in a prior funding round and we have some wonderful and committed anchor investors who believe in Bee as much as we do!

INSTRUCTIONS TO QUESTION 28. The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.

FINANCIAL INFORMATION

29. Include financial statements covering the two most recently completed fiscal years or the period(s) since inception, if shorter:

Refer to [Appendix C, Financial Statements](#)

STAKEHOLDER ELIGIBILITY

30. With respect to the issuer, any predecessor of the issuer, any affiliated issuer, any director, officer, general partner or managing member of the issuer, any beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, any promoter connected with the issuer in any capacity at the time of such sale, any person that has been or will be paid (directly or indirectly) remuneration for solicitation of purchasers in connection with such sale of securities, or any general partner, director, officer or managing member of any such solicitor, prior to May 16, 2016:

(1) Has any such person been convicted, within 10 years (or five years, in the case of issuers, their predecessors and affiliated issuers) before the filing of this offering statement, of any felony or misdemeanor:

- i. in connection with the purchase or sale of any security? Yes No
- ii. involving the making of any false filing with the Commission? Yes No
- iii. arising out of the conduct of the business of an underwriter, broker, dealer, municipal securities dealer, investment adviser, funding portal or paid solicitor of purchasers of securities? Yes No

(2) Is any such person subject to any order, judgment or decree of any court of competent jurisdiction, entered within five years before the filing of the information required by Section 4A(b) of the Securities Act that, at the time of filing of this offering statement, restrains or enjoins such person from engaging or continuing to engage in any conduct or practice:

- i. in connection with the purchase or sale of any security? Yes No
- ii. involving the making of any false filing with the Commission? Yes No
- iii. arising out of the conduct of the business of an underwriter, broker, dealer, municipal securities dealer, investment adviser, funding portal or paid solicitor of purchasers of securities? Yes No

(3) Is any such person subject to a final order of a state securities commission (or an agency or officer of a state performing like functions); a state authority that supervises or examines banks, savings associations or credit unions; a state insurance commission (or an agency or officer of a state performing like functions); an appropriate federal banking agency; the U.S. Commodity Futures Trading Commission; or the National Credit Union Administration that:

- i. at the time of the filing of this offering statement bars the person from:
 - A. association with an entity regulated by such commission, authority, agency or officer? Yes No
 - B. engaging in the business of securities, insurance or banking? Yes No
 - C. engaging in savings association or credit union activities? Yes No
- ii. constitutes a final order based on a violation of any law or regulation that prohibits fraudulent, manipulative or deceptive conduct and for which the order was entered within the 10-year period ending on the date of the filing of this offering statement? Yes No

(4) Is any such person subject to an order of the Commission entered pursuant to Section 15(b) or 15B(c) of the Exchange Act or Section 203(e) or (f) of the Investment Advisers Act of 1940 that, at the time of the filing of this offering statement:

- i. suspends or revokes such person's registration as a broker, dealer, municipal securities dealer, investment adviser or funding portal? Yes No
- ii. places limitations on the activities, functions or operations of such person? Yes No
- iii. bars such person from being associated with any entity or from participating in the offering of any penny stock? Yes No

(5) Is any such person subject to any order of the Commission entered within five years before the filing of this offering statement that, at the time of the filing of this offering statement, orders the person to cease and desist from committing or causing a violation or future violation of:

- i. any scienter-based anti-fraud provision of the federal securities laws, including without limitation Section 17(a)(1) of the Securities Act, Section 10(b) of the Exchange Act, Section 15(c)(1) of the Exchange Act and Section 206(1) of the Investment Advisers Act of 1940 or any other rule or regulation thereunder? Yes No
- ii. Section 5 of the Securities Act? Yes No

(6) Is any such person suspended or expelled from membership in, or suspended or barred from association with a member of, a registered national securities exchange or a registered national or affiliated securities association for any act or omission to act constituting conduct inconsistent with just and equitable principles of trade?

Yes No

(7) Has any such person filed (as a registrant or issuer), or was any such person or was any such person named as an underwriter in, any registration statement or Regulation A offering statement filed with the Commission that, within five years before the filing of this offering statement, was the subject of a refusal order, stop order, or order suspending the Regulation A exemption, or is any such person, at the time of such filing, the subject of an investigation or proceeding to determine whether a stop order or suspension order should be issued?

Yes No

(8) Is any such person subject to a United States Postal Service false representation order entered within five years before the filing of the information required by Section 4A(b) of the Securities Act, or is any such person, at the time of filing of this offering statement, subject to a temporary restraining order or preliminary injunction with respect to conduct alleged by the United States Postal Service to constitute a scheme or device for obtaining money or property through the mail by means of false representations?

Yes No

If you would have answered "Yes" to any of these questions had the conviction, order, judgment, decree, suspension, expulsion or bar occurred or been issued after May 16, 2016, then you are NOT eligible to rely on this exemption under Section 4(a)(6) of the Securities Act.

INSTRUCTIONS TO QUESTION 30: Final order means a written directive or declaratory statement issued by a federal or state agency, described in Rule 503(c)(2) of Regulation Crowdfunding, under applicable statutory authority that provides for notice and an opportunity for hearing, which constitutes a final disposition or action by that federal or state agency.

No matters are required to be disclosed with respect to events relating to any affiliated issuer that occurred before the affiliation arose if the affiliated entity is not (i) in control of the issuer or (ii) under common control with the issuer by a third party that was in control of the affiliated entity at the time of such events.

OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in this Form, include:

- (1) any other material information presented to investors; and
- (2) such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

The Company is using the services of XX as part of its offering. XX is comprised of XX Investments, LLC, XX Team LLC, and the Lead Investors who provide services on behalf of XX Team LLC. The services of XX are available to companies that offer securities through Wefunder Portal LLC and to investors who invest in such companies through Wefunder Portal, but XX is not affiliated with Wefunder Portal or its affiliates.

XX Investments is the Company's transfer agent and also acts as custodian, paying agent, and proxy agent on behalf of all investors that enter into the Custodial and Voting Agreement with XX Investments through the Wefunder Portal website ("Investors"). XX Investments holds legal title to the securities the Company issues through Wefunder Portal (which are uncertificated) on behalf of Investors. Investors, in turn, hold the beneficial interests in the Company's securities. XX Investments keeps track of each Investor's beneficial ownership interest and makes any distributions to the Investors (or other parties, as directed by the Investors).

In addition to the above services, at the direction of XX Team, XX Investments votes the securities and take any other actions in connection with such voting on behalf of the Investors. XX Investments acts at the direction of XX Team, because XX Team holds a power of attorney from each Investor that has entered into the Investor Agreement to make voting decisions on behalf of that Investor. XX Investments will not charge Investors for its services. XX Investments does charge the Company \$1,000/year for services; however, those fees may be paid by Wefunder Inc. on behalf of the Company.

As noted, XX Team holds a power of attorney from each investor that has entered into the Investor Agreement to make voting decisions on behalf of that investor. Pursuant to the power of attorney, XX Team will make voting decisions and then direct XX Investments to vote and take any other actions in connection with the voting on Investors' behalf. XX Team will act, with respect to the Company, through our Lead Investor, who is a representative of XX Team. As compensation for its voting services, each Investor authorizes XX Investments to distribute to XX Team 10% of any distributions the Investor would otherwise receive from the Company. XX Team will share its compensation with our Lead Investor. XX Team, through our Lead Investor, may also provide consulting services to the Company and may be compensated for these services by the Company; although, fees owed by the Company may be paid by Wefunder Inc. XX Team will share its consulting compensation with our Lead Investor.

The Lead Investor is an experienced investor that we choose to act in the role of Lead Investor, both on behalf of the Company and on behalf of Investors. As noted, the Lead Investor will be a representative of XX Team and will share in compensation that XX Team receives from the Company (or Wefunder Inc. on the Company behalf) or from Investors. The Lead Investor will be chosen by the Company and approved by Wefunder Inc., and the identity of the Lead Investor must be disclosed to Investors before Investors make a final investment decision to purchase the Company's securities. Investors will receive disclosure regarding all fees that may be received by the Lead Investor. In addition to the fees described above, the Lead Investor may receive compensation if, in the future, Wefunder Advisors LLC forms a special purpose vehicle ("SPV") for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such a circumstance, the Lead Investor may act as a portfolio manager for that SPV (and as a supervised person of Wefunder Advisors) and may be compensated through that role. Although the Lead Investor may act in multiple roles and be compensated from multiple parties, the Lead Investor's goal is to maximize the value of the Company and therefore maximize the value of the Company's securities. As a result, the Lead Investor's interests should always be aligned with those of the Investors.

Investors that wish to purchase the Company's securities through Wefunder Portal must agree to (1) hire XX Investments to serve as custodian, paying agent, and proxy agent with respect to the Company's securities; (2) give a power of attorney to XX Team to make all voting decisions with respect to the Company's securities; and (3) direct XX Investments to share 10% of the Investor's distribution from the Company with XX Team. The Company may waive these requirements for certain investors with whom the Company has a pre-existing relationship.

The XX arrangement described above is intended to benefit the Company by allowing the Company to reflect one investor of its capitalization table (XX Investments) and by simplifying the voting process with respect to the Company's securities by having one entity (XX Team), through one person (the Lead Investor), make all voting decisions and having one entity (XX Investments) carry out XX Team's voting instruments and any take any related actions. The XX arrangement also is intended to benefit Investors by providing the services of an experienced Lead Investor (acting on behalf of XX Team) who is expected to make value-maximizing decisions regarding Investors' securities. XX Team (acting through the Lead Investor) may further benefit both the Company and Investors by providing consulting services to the Company that are intended to maximize both the value of the Company's business and also the value of its securities.

INSTRUCTIONS TO QUESTION 30: If information is presented to investors in a format, media or other means not able to be reflected in text or portable document format, the issuer should include: (a) a description of the material content of such information; (b) a description of the format in which such disclosure is presented; and (c) in the case of disclosure in video, audio or other dynamic media or format, a transcript or description of such disclosure.

ONGOING REPORTING

32. The issuer will file a report electronically with the Securities & Exchange Commission annually and post the report on its website, no later than:

120 days after the end of each fiscal year covered by the report.

33. Once posted, the annual report may be found on the issuer's website at:

<http://beemortgageapp.com/invest>

The issuer must continue to comply with the ongoing reporting requirements until:

1. the issuer is required to file reports under Exchange Act Sections 13(a) or 15(d);
2. the issuer has filed at least one annual report and has fewer than 300 holders of record;
3. the issuer has filed at least three annual reports and has total assets that do not exceed \$10 million;
4. the issuer or another party purchases or repurchases all of the securities issued pursuant to Section 4(a)(6), including any payment in full of debt securities or any complete redemption of redeemable securities; or the issuer liquidates or dissolves in accordance with state law.

Pursuant to the requirements of Sections 4(a)(6) and 4A of the Securities Act of 1933 and Regulation Crowdfunding (§ 227.100 et seq.), the issuer certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form C and has duly caused this Form to be signed on its behalf by the duly authorized undersigned.

Bee Mortgage App, Inc.

By

Curtis Wood
Co-founder & CEO

Pursuant to the requirements of Sections 4(a)(6) and 4A of the Securities Act of 1933 and Regulation Crowdfunding (§ 227.100 et seq.), this Form C and Transfer Agent Agreement has been signed by the following persons in the capacities and on the dates indicated.

Matthew James Offers

Co-founder & VP of Products
11/18/2020

Cynthia Wood

COO
11/18/2020

Curtis Wood

Co-founder & CEO
11/18/2020

The Form C must be signed by the issuer, its principal executive officer or officers, its principal financial officer, its controller or principal accounting officer and at least a majority of the board of directors or persons performing similar functions.

I authorize Wefunder Portal to submit a Form C to the SEC based on the information I provided through this online form and my company's Wefunder profile.

As an authorized representative of the company, I appoint Wefunder Portal as the company's true and lawful representative and attorney-in-fact, in the company's name, place and stead to make, execute, sign, acknowledge, swear to and file a Form C on the company's behalf. This power of attorney is coupled with an interest and is irrevocable. The company hereby waives any and all defenses that may be available to contest, negate or disaffirm the actions of Wefunder Portal taken in good faith under or in reliance upon this power of attorney.
