Friendlies Debt RELIEF, consumer-centric, web-based debt collection model.

When you're in debt, bad things happen. Nasty people call, thugs threaten you, debt collectors work hard to make your life miserable...and they been doing business that way for thousands of years — It drives people crazy.

Harrassing debt collectors is the #1 consumer complaint in America according to the FCC. And debt collection is a BIG business. Last year, collectors made over 1 billion phone calls, hasseling over 70 million hard-working american consumers, chasing \$50 billion of past-due debt. It's time to get the debt collection monkey off their backs.
