OFFERING MEMORANDUM

Purpose of This Form

A company that wants to raise money using Regulation Crowdfunding must give certain information to prospective investors, so investors will have a basis for making an informed decision. The Securities and Exchange Commission, or SEC, has issued regulations at 17 CFR §227.201 listing the information companies must provide. This form – Form C – is the form used to provide that information.

Each heading below corresponds to a section of the SEC's regulations under 17 CFR §227.201.

(D) The Company's Business and Business Plan

the opportunity

By investing in Detailing2Go, you will support a business that is changing the way people purchase everyday automotive services .

- Proven Demand - We've identified a loyal customer base in Marlborough through our initial location in the parking garage at the Solomon Pond Mall.
- Competitive Advantage - We have the potential to be one of the largest operators in the everyday automotive service market. While other competitors are targeting households, we are selling to large corporations (Rent-A-Car companies, Malls, Large Employers, etc.) Therefore we require less sales and marketing resources to reach larger accounts.
- Experienced Founders - Our founder, Ugur Yilmaz, has spent 20 years in the automotive and services industry with a focus on mobile services.

Proven Demand

Other segments of the mobile business model have seen tremendous success and demand. 'Lube2Go' a segment specializing in on-site oil changes, has been operating out of the same location in Marlborough and has garnered interest from clients like BioGen, Tufts University, and IBM. We are now seeking investment to build out a car detailing service model in the Marlborough location.

how it works

Our model is simple. Customers are leaving their cars in parking lots while they go to work, spend the afternoon in the mall, or taking the family out to dinner. People are limited on time - now they can capitalize on the time they spend working, shopping, etc. to accomplish necessary errands - in this case, washing their car. They simply schedule an appointment, park their car in the designated 'Detailing2Go' area, and when they return, their car is sparkling clean!

why we need investment

We have the opportunity to build out a local market that is asking for this service while demonstrating the value as a franchise model. With a capital infusion, we will purchase new steam-cleaning equipment and a state-of-the-art truck to hold the mobile components of the

business which will utilize sustainable technology for conserving water and oil for lower expenditures. Our truck will serve as a mobile billboard, as businesses can purchase advertisement space on the side and rear of the truck as the business drives hundreds of miles a day, from client to client.

Key performance indicators - oil-changing segment

- Average Monthly Revenue: ~\$20,000
- Average Ticket Size: \$200
- Profit Margin: ~50%

from the founder

We have a great opportunity here with Detailing2Go, we just need to seize the moment! With capital and local support we will be able to build out the local market. Companies are coming to me asking when our service will be available. It's a win-win for us and our clients; businesses can offer their employees our high-quality services while saving their employees from doing things they would otherwise need to leave work to do.

—Ugur Yilmaz

- Investors may cancel an investment commitment until 48 hours prior to the Offering Deadline.
- MainVest will notify investors when and if the Target Offering Amount has been raised.
- If the Company reaches the Target Offering Amount before the Offering Deadline, it may close the offering early if it provides notice about the new Offering Deadline at least five business days before such new Offering Deadline, absent a material change that would require an extension of the offering and reconfirmation of the investment commitment.
- If an investor does not cancel an investment commitment before the 48-hour period before the Offering Deadline, the funds will be released to the Company upon closing of the offering and the investor will receive securities in exchange for his or her investment.

(K) Material Changes

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

Explanation

A “material change” means a change that an average, careful investor would want to know about before making an investment decision. A material change could be good or bad. If a material change occurs after you make an investment commitment but before the Offering closes, then the Company will notify you and ask whether you want to invest anyway. If you do not affirmatively choose to invest, then your commitment will be cancelled, your funds will be returned to you, and you will not receive any securities.

(L) Price of the Securities

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as “Notes.” The Notes are being offered at their face amount. For example, you will pay \$1,000 for a Note with a face amount of \$1,000.

(M) Terms of the Securities

Overview

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as the “Notes.” Many of the terms of the Notes are set forth in a separate document called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C.

Summary of Terms

Revenue Percentage ¹	4.0 - 8.4% ²
Payment Deadline	2027-01-01
Maximum Payment Multiple ³ - Early Investors - All Other Investors	1.8 x 1.4 x
Sharing Start Date	The first day after disbursement that the company has revenues greater than one (\$1) dollar
First Payment Date	Thirty (30) days after the last day of the calendar quarter ending not less than Sixty (60) days after the sharing start date.
Seniority	Subordinated
Securitization	Unsecured
Accrual Rate	1.69%

¹ as further defined in the note agreement

² The rate of revenue sharing is calculated on a linear scale with a minimum rate of 4.0% and a maximum rate of 8.4% and is rounded to the nearest 1/10th percent. The final rate is based on the amount raised and is calculated after the offering has successfully closed. As the amount raised in the offering increases, the rate of revenue sharing increases. For example, a hypothetical offering could result in the following revenue sharing percentages, depending on the amount raised:

Amount Raised	Revenue Sharing Percentage
\$45,000	4.0%
\$57,500	5.1%
\$70,000	6.2%
\$82,500	7.3%
\$95,000	8.4%

³ To reward early participation, the investors who contribute the first \$25,000.0 raised in the offering will receive a 1.8x cap. Investors who contribute after \$25,000.0 has been raised in the offering will receive a 1.4x cap.

Your Right to Payments under the Note

Your right to payments under the Note is set forth in the Note, together with a separate document called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C. Additionally, general terms are outlined below and in the Company's offering page.

Obligation to Contribute Capital

Once you pay for your Note, you will have no obligation to contribute more money to the Company, and you will not be personally obligated for any debts of the Company. However, under some circumstances you could be required by law to return some or all of a distribution you receive from the Company.

No Right to Transfer

You should plan to hold the Notes until maturity. The Notes will be illiquid (meaning you might not be able to sell them) for at least four reasons:

- The Revenue Sharing Agreement prohibits the sale or other transfer of Notes without the Company's consent.
- If you want to sell your Note the Company will have the first right of refusal to buy it, which could make it harder to find a buyer.
- Even if a sale were permitted, there is no ready market for Notes, as there would be for a publicly-traded stock.
- By law, for a period of one year you won't be allowed to transfer the Investor Shares except (i) to the Company itself, (ii) to an "accredited" investor, (iii) to a family or trust, or (iii) in a public offering of the Company's shares.

Security

The Notes are not secured by any assets of the Company or any assets of persons associated with the Company.

Modification of Terms of Notes

The terms of the Notes and the Revenue Sharing Agreement may be modified or amended with the consent of Investors holding 50% of the Notes, measured by the total amount outstanding under each Note.

Other Classes of Securities

The Company has no outstanding securities.

Dilution of Rights

The Company has the right to create additional classes of securities, both equity securities and debt securities (e.g., other classes of promissory notes). Some of these additional classes of securities could have rights that are superior to those of the Notes. For example, the Company could issue promissory notes that are secured by specific property of the Company.

The People Who Control the Company

Each of these people owns 20% or more of the total voting power of the Company:

Name of Holder	% of Voting Power (Prior to Offering)
Ugur Yilmaz	100%

How the Exercise of Voting Rights Could Affect You

You will receive payments with respect to your Note only if the Company makes enough money to pay you, or, if the Company does not make enough money to pay you, if there is enough value in the collateral the Company pledged as security for the Notes.

The people with voting rights control the Company and make all the decisions about running its business. If they make good business decisions, it is more likely you will be paid. If they make poor business decisions, it is less likely you will be paid. For example, if they hire too many people and/or try to expand too quickly, the business could be harmed. The people with voting rights could also decide to file for bankruptcy protection, making it more difficult for you to be paid.

How the Notes are Being Valued

The Notes are being valued at their face value. We don't anticipate that we'll ever need to place a value on the Notes in the future.

(N) The Funding Portal

The Company is offering its securities through MainVest, Inc., which is a "Funding Portal" licensed by the Securities and Exchange Commission and FINRA. MainVest Inc.'s Central Index Key (CIK) number is 0001746059, their SEC File number is 007-00162, and their Central Registration Depository (CRD) number is 298384.

(O) Compensation of the Funding Portal

MainVest will be paid 6.0% of the final offering amount, upon the successful completion of the offering. MainVest does not receive compensation if the offering does not succeed. MainVest, Inc. owns no interest in the Company, directly or indirectly, and will not acquire an interest as part of the Offering, nor is there any arrangement for MainVest to acquire an interest.

(P) Indebtedness of the Company

The Company has no indebtedness outside of the debt the Company is expecting to raise through regulation crowdfunding on MainVest.

(Q) Other Offerings of Securities within the Last Three Years

The Company has not made any offerings with other third-party regulation crowdfunding companies in the past three years.

(R) Transactions Between the Company and "Insiders"

The Company has not made any business transaction, including stock purchases, salaries, property rentals, consulting arrangements, guaranties, etc.
