Offering Statement

Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

You should include an explanation of these circumstances in a footnote to the "Number of and Class of Securities Now Held." Please review your Wefunder profile carefully to ensure it provides all material information, is not false or misleading, and does not omit any information that would cause the information included to be false or misleading.

RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

We rely on a small management team to run Mammalz. The loss of any one of those members could have a drastic impact on the morale and functionality of the remaining team. While we feel confident in our team's commitment, we cannot control all financial and logistical factors that could put a team member at risk of separation from Mammalz.

If our community growth rate is much slower than anticipated, we may not be able to attract Series A investors when we need to and will risk reaching the end of our runway.

A competing content platform like YouTube or Twitch may find the value in the nature and outdoors community and target them with a niche approach and comparable monetization tools. This would make it more difficult for us to capture our target audience.

The nature community may not embrace live-streaming as strongly as we are anticipating. No other live content platform has targeted the nature niche, with the exception of a small portion of Twitch, so we don't have many data showing us how hungry the nature community may or may not be for our highest priority content format.

Because we are relying on a third-party server and data host to keep the Mammalz platform running, a crash could render us temporarily inoperable.

New data management and privacy laws could impact our ability to both monetize and achieve our company's mission as it relates to community-contributed data use.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **\$50,000**

Use of Proceeds: Summary: Crowdfund campaign operations and marketing, 3 months runway.

At this minimum, we can continue operating the Mammalz platform in beta, maintain our current development and community growth teams, and contract marketing assistance to achieve a higher return on investment with our crowdfunding campaign advertising buys.

Breakdown: 6.5% toward Wefunder fees, 13% technical maintenance, 45% operational and data fees, 35.5% marketing expenses.

If we raise: **\$250,000**

Use of Proceeds: Summary: All \$50K level features, Seeds feature, External Live Camera feature, App Store launch, limited marketing, 4 months runway.

With \$250,000, we intend to integrate Seeds - the first of our monetization tools, build out an external camera live-streaming feature for backpack and remote streaming functionality, and launch Mammalz on the App Store. We will operate under the same team size with a limited marketing budget, relying mostly on PR and organic community growth using the skillsets of our growth and marketing team. This \$250,000 will give us 4 months of runway. By month 3, we anticipate being ready for Series A.

Breakdown: 6.5% toward Wefunder fees, 26% technical development, 59% operational and data fees, 8.5% marketing expenses.

If we raise: **\$500,000**

Use of Proceeds: Summary: All \$250K level features, Badges gamification feature, UI/UX facelift, extended marketing with agency contract, events, and give-aways, 5 months runway.

At the \$500,000 mark, we'll have enough for all previous feature developments plus the first of our gamification features: Badges. We will also contract a local development agency to begin transitioning all creative development in-house and polish our UI/UX. Our marketing budget will be significantly increased, accelerating our community growth and therefore improving our value upon raising Series A. With additional marketing funds, we intend to introduce give-aways, to hold community events, and to contract a marketing agency for bigger PR hits.

Breakdown: 6.5% toward Wefunder fees, 23.5% technical development, 45% operational and data fees, 25% marketing expenses.

If we raise: **\$1,070,000**

Use of Proceeds: Summary: All \$500K level features, native Android app development, Adventure Streamers and Content Partnership Program, 6 months runway.

If we reach our maximum, we plan to prioritize the development of our native Android app, build out our community growth team, and introduce our Content Partnership Program. This program intends to boost our most engaging content creators through sponsorships, travel, and collaboration opportunities. A very exciting part of this program called Adventure Streamers will match up content partners with unlimited service live-streaming backpacks, giving them and their viewers interactive, live experiences of the natural world multiple days per week.

Breakdown: 6.5% toward Wefunder fees, 25% technical development, 40% operational and data fees, 28.5% marketing expenses.

INSTRUCTION TO QUESTION 10: An issuer must provide a reasonably detailed description of any intended use of proceeds, such that investors are provided with an adequate amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each probable use and the factors the issuer may consider in allocating proceeds among the potential uses. If the issuer will accept proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating oversubscriptions, and intended use of the excess proceeds with similar specificity. Please include all potential uses of the proceeds of the offering, including any that may apply only in the case of oversubscriptions. If you do not do so, you may later be required to amend your Form C. Wefunder is not responsible for any failure by you to describe a potential use of offering proceeds.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

If we reach our target offering amount prior to the deadline, we may conduct an initial closing of the offering early if we provide notice about the new offering deadline at least five business days prior to the new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Wefunder will notify investors if we conduct an initial closing. Thereafter, we may conduct additional closings from time to time at our and Wefunder's discretion until the deadline date.

The following describes the process to invest in the Company, including how the Company will complete an Investor's transaction and deliver securities to the investor.

1. **Investor Commitment.** The Investor will submit, through Wefunder Portal, a requested investment amount. When doing so, the Investor will also execute an investment contract with the Company ("Investment Agreement"), using the Investor's electronic signature.
2. **Acceptance of the Investment.** If the Investor Agreement is complete, the Investor's commitment will typically be recorded within a few minutes. The commitment will also be available on the Investor's "My Investments" screen on the wefunder.com website. After the offering closes, the contract will be counter-signed by the Company. The executed investment contract will then be sent to the investor via email, and is also available to download on the "My Investments" screen.
3. **Investor Transfer of Funds.** Upon receiving confirmation that an investment has been accepted, the Investor will be responsible for transferring funds from a source that is accepted by Wefunder Portal into an escrow account held with a third party bank on behalf of issuers offering securities through Wefunder Portal.
4. **Progress of the Offering.** The Investor will receive periodic email updates on the progress of the offering, including total amounts raised at any given time, and will be notified by email and through the "My Investments" screen when the target offering amount is met.
5. **Closing: Original Deadline.** Unless we meet the target offering amount early, Investor funds will be transferred from the escrow account to the Company on the deadline date identified in the Cover Page to this Form C and the Company's Wefunder Portal Profile.
6. **Early Closings.** If the target offering amount is met prior to the original deadline date, we may close the offering earlier, but no less than 21 days after the date on which information about the Company, including this Form C, is posted on our Wefunder Portal Profile. We will reschedule the offering deadline, and at least five days prior to the new deadline, investors will receive notice of it by email and through the "My Investments" screen. At the time of the new deadline, your funds will be transferred to the Company from the escrow account, provided that the target offering amount is still met after any cancellations.
7. **Book Entry.** Investments may be in book entry form. This means that the Investor may not receive a certificate representing his or her investment. Each investment will be recorded in our books and records and will be recorded in each Investor's "My Investments" screen. The Investor will also be emailed the Investment Agreement again. The Investment Agreement will also be available on the "My Investments" screen. At the option of the Company, you may receive an electronic certificate.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

An Investor's right to cancel. An Investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the investor about the offering and/or the Company, the investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the investor will receive, and refund the investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

In addition, we may cap at 450 the total number of investors who will be allowed to invest through the offering that are not "accredited investors," as defined in Rule 501(a) of Regulation D under the Securities Act of 1933. In the event that more than 450 non-accredited investors are initially accepted into an offering in

more than 450 non-accredited investors are initially accepted into an offering in step (2) described in Question 11, the Company may cancel investments based on the order in which payments by investors were received, or other criteria at the discretion of the Company, before the offering deadline.

Ownership and Capital Structure

THE OFFERING

13. Describe the terms of the securities being offered.

Convertible note with \$5,000,000.00 valuation cap; 20.000% discount; 5% interest.

See exact security attached as [Appendix B, Investor Contracts](#).

Type of Security: Convertible Promissory Notes ("Notes").

Amount to be Offered: The goal of the raise is \$50,000.00

Valuation Cap: \$5,000,000.00

Discount Rate: 80%

Maturity Date: 24 months from the Effective Date.

Investors: A "Major Investor" shall be an Investor that purchases a Note or Notes with an aggregate original principal balance of \$25,000.00 or more.

Interest Rate: Interest shall accrue on the unpaid principal amount at a rate equal to 5% per annum, compounded annually, from the actual date funds were received by the Company and shall payable at the Maturity Date (defined hereafter).

Early-Bird: Investors investing in the first \$250,000.00, will receive a valuation cap of \$4,000,000.

Conversion and Repayment

(a) **Conversion upon a Change of Control.** If the Company consummates a Change of Control (as defined below) while this Note remains outstanding, the Company shall convert the outstanding principal amount of this Note and any unpaid accrued interest into shares of Preferred Stock of the Company ("Preferred Shares") at a conversion price equal to the quotient resulting from dividing \$5,000,000 (or \$4,000,000 for investors in the first \$250,000) by the number of outstanding shares of equity securities of the Company immediately prior to the Change of Control (assuming conversion of all securities convertible into Common Stock and exercise of all outstanding options and warrants, but excluding the shares of equity securities of the Company issuable upon the conversion of Notes or other convertible securities issued for capital raising purposes (e.g., Simple Agreements for Future Equity)) (the "Equity Shares"). A "Change of Control" means: (1) a consolidation or merger of the Company with or into any other corporation or other entity or person, or any other reorganization, other than any such consolidation, merger or reorganization in which the stock of the Company immediately prior to such consolidation, merger or reorganization, continue to represent a majority of the voting power of the surviving entity immediately after such consolidation, merger or reorganization; (2) any transaction or series of related transactions to which the Company is a party in which in excess of 50% of the Company's voting power is transferred; (3) the sale or transfer of all or substantially all of the Company's assets, or the exclusive license of all or substantially all of the Company's material intellectual property; or (4) the closing of the Company's first firm commitment underwritten initial public offering of Common Stock pursuant to a registration statement filed under the Act; provided that a Change of Control shall not include any transaction or series of transactions principally for bona fide equity financing purposes in which cash is received by the Company or any successor, indebtedness of the Company is cancelled, or converted or a combination thereof. The Company shall give the Holder notice of a Change of Control not less than 10 days prior to the anticipated date of consummation of the Change of Control.

(b) **Conversion upon a Qualified Financing.** In the event that the Company issues and sells Equity Shares to investors (the "Investors") on or before the Maturity Date in an equity financing with total proceeds to the Company of not less than One Million dollars (\$1,000,000) (excluding the conversion of the Notes or other convertible securities issued for capital raising purposes (e.g., Simple Agreements for Future Equity)) (a "Qualified Financing"), then the outstanding principal amount of this Note and any unpaid accrued interest shall automatically convert in whole without any further action by the Holder into Preferred Shares at a conversion price equal to the lesser of (i) the cash price paid per share for Equity Shares by the Investors in the Qualified Financing multiplied by the Discount Rate, and (ii) the quotient resulting from dividing \$5,000,000 (or \$4,000,000 for investors in the first \$250,000) by the number of outstanding Equity Shares of the Company immediately prior to the Qualified Financing (assuming conversion of all securities convertible into Equity Shares and exercise of all outstanding options and warrants, but excluding the Equity Shares of the Company issuable upon the conversion of Notes or other convertible securities issued for capital raising purposes (e.g., Simple Agreements for Future Equity)). Notwithstanding this paragraph, if the conversion price of the Notes as determined pursuant to this paragraph (the "Conversion Price") is less than the price per share at which Equity Shares are issued in the Qualified Financing, the Company may, solely at its option, elect to convert this Note into shares of a newly created series of Preferred Stock having the identical or similar rights, privileges, preferences and restrictions as the Equity Shares issued in the Qualified Financing, and otherwise on the same terms and conditions, other than with respect to (if applicable): (i) the per share liquidation preference and the

conversion price for purposes of price-based anti-dilution protection, which will equal the Conversion Price; and (ii) the per share dividend, which will be the same percentage of the Conversion Price as applied to determine the per share dividends of the Investors in the Qualified Financing relative to the purchase price paid by the Investors.

(c) **Conversion At or After Maturity.** In the event that this Note remains outstanding on the Maturity Date, then the outstanding principal balance of this Note and any unpaid accrued interest shall, upon the election of the majority of Holders prior to the Maturity Date, either: (i) require the Company to pay the outstanding principal amount of the Note plus any unpaid accrued interest; or (ii) convert the Notes into Preferred Shares at a conversion price equal to the quotient resulting from dividing \$5,000,000 (or \$4,000,000 for investors in the first \$250,000) by the number of outstanding shares of Equity Shares of the Company as of the Maturity Date.

(c) Interest Accrual. If a Change of Control is consummated, all interest on this Note shall be deemed to have stopped accruing as of a date selected by the Company that is up to 10 days prior to the signing of the definitive agreement for the Change of Control.

Pro Rata Rights: Private Sales for Major Investors. Investors who invest at least \$25,000.00 and are "accredited investors" will receive the right to purchase a pro-rata share of privately placed securities occurring after an equity offering covered by the Notes.

Voting Rights. This Note does not by itself entitle Holder to any voting rights or other rights as a unitholder of the Company. In the absence of conversion of this Note, no provisions of this Note, and no enumeration herein of the rights or privileges of Holder, shall cause Holder to be a unitholder of the Company for any purpose.

Repurchase. If the Company determines, in its sole discretion, that it is likely that within six months the securities of the Company will be held of record by a number of persons that would require the Company to register a class of its equity securities under the Securities Exchange Act of 1934, as amended, as required by Section 12(g) thereof, the Company shall have the option to repurchase this instrument from the Investor for the greater of (i) the Purchase Amount and (ii) the fair market value of this instrument, as determined by an independent appraiser of securities chosen by the Company (such repurchase, the "Repurchase," and such greater value, the "Repurchase Value"); provided, however, that, in the event an Equity Financing occurs within three months after the Repurchase and the Repurchase Value is less than the Aggregate Value (as defined below) of the shares of Safe Preferred Stock the Investor would have received had the Repurchase not occurred (where such value is determined by multiplying the number of shares of Safe Preferred Stock by the Conversion Price and is referred to as the "Aggregate Value"), the Company shall pay to the Investor an amount equal to the difference between the Aggregate Value and the Repurchase Value promptly following the consummation of the Equity Financing. Such independent appraiser shall be regularly engaged in the valuation of securities. The foregoing repurchase option terminates upon a Change of Control or Dissolution Event.

14. Do the securities offered have voting rights?

- Yes
 No

15. Are there any limitations on any voting or other rights identified above?

- Yes: No Voting Rights
 No

16. How may the terms of the securities being offered be modified?

Any term of this Note may be amended or waived with the written consent of the Designated Lead Investor provided that all holders of the notice are given prompt written notice of such waivers and amendments.

RESTRICTIONS ON TRANSFER OF THE SECURITIES BEING OFFERED:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

1. to the issuer;
2. to an accredited investor;
3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

DESCRIPTION OF ISSUER'S SECURITIES

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Securities (or Amount) Authorized	Securities (or Amount) Outstanding	Voting Rights
-------------------	---	--	------------------

Common
Stock 10,000,000 9,000,000 Yes

Class of Security **Securities Reserved for Issuance upon Exercise or Conversion**

Warrants: 416,667

Options:

Describe any other rights:

At this time, none of our classes of securities have different liquidation preferences or special rights.

The company has not yet authorized preferred stock which, if converted, investors in the convertible note will receive. The preferred stock will not have voting rights but will have liquidation preferences over common stock.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

Because the Investor holds no voting rights, the holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering).

These changes could result in further limitations on the voting rights the Investor will have as an owner of equity in the Company, for example by diluting those rights or limiting them to certain types of events or consents.

To the extent applicable, in cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional equity, an Investor's interest will typically also be diluted.

Based on the risk that an Investor's rights could be limited, diluted or otherwise qualified, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

None

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, **the shareholders** may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, **the shareholders** may change the terms of the articles of incorporation for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. **The shareholders** may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

The shareholders have the right to redeem their securities at any time. **Shareholders** could decide to force the Company to redeem their securities at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability.

In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional stock, an Investor's interest will typically also be diluted.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

The initial amount invested in a Convertible Note is determined by the investor, and we do not guarantee that the Convertible Note will be converted into any particular number of shares.

As discussed in Question 13, when we engage in an offering of equity involving

Stock, Investors may receive a number of shares of Preferred Stock calculated as either the conversion price equal to the lesser of (i) 80% of the price paid per share for Equity Securities by the Investors in the Qualified Financing or (ii) the price equal to the quotient of the valuation cap of \$5,000,000.00 (or \$4,000,000 for investors in the first \$250,000) (the "Valuation Cap") divided by the aggregate number of outstanding shares of the Company's stock as of immediately prior to the initial closing of the Qualified Financing (assuming full conversion or exercise of all convertible and exercisable securities then outstanding, but excluding the shares of equity securities of the Company issuable upon the conversion of the Notes or any other debt).

Because there will likely be no public market for our securities prior to an initial public offering or similar liquidity event, the price of the Stock that Investors will receive, and/or the total value of the Company's capitalization, will be determined by our board of directors. Among the factors we may consider in determining the price of Stock are prevailing market conditions, our financial information, market valuations of other companies that we believe to be comparable to us, estimates of our business potential, the present state of our development and other factors deemed relevant.

In the future, we will perform valuations of our units that take into account, as applicable, factors such as the following:

- unrelated third party valuations;
- the price at which we sell other securities in light of the relative rights, preferences and privileges of those
- our results of operations, financial position and capital resources;
- current business conditions and projections;
- the marketability or lack thereof of the securities;
- the hiring of key personnel and the experience of our management;
- the introduction of new products;
- the risk inherent in the development and expansion of our products;
- our stage of development and material risks related to our business;
- the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the
- market conditions and the nature and history of our business;
- industry trends and competitive environment;
- trends in consumer spending, including consumer confidence;
- overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
- the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Board Of Directors, and the Investor will have no independent right to name or remove an officer or member of the Board Of Directors of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the Issuer or Assets of the Issuer. A sale of the Issuer or of the Company's

A sale of the issuer or assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company and the Board of Directors of the Company. If the Board Of Directors of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

We are changing the way the world connects with nature, the way scientists communicate, and the way content creators make a living by telling stories. Through our online content-sharing platform, anyone anywhere now has an equal opportunity to share stories in any media format, effectively monetize their content, and engage in real-time with their heroes and fans. We are Mammalz, and we're on a mission to advance the relationship between humans and the natural world in the most fun way possible.

In five years, we hope to have successfully fused the communication gap between content creators, scientists, and the public. We hope to have democratized the way creators, organizations, and innovators raise funds. Now what? With our community of millions of nature lovers and their content comes millions of vital data points we can use to help solve the natural world's greatest threats. From disrupting wildlife trafficking to inventing AR experiences in nature, we'll never stop innovating.

Given the Company's limited operating history, the Company cannot reliably estimate how much revenue it will receive in the future, if any.

Milestones

Mammalz, PBC was incorporated in the State of Delaware in May 2018.

Since then, we have:

- 1,000+ nature enthusiasts became active content creators during beta.
- 9x higher content Engagement Rate than our competitors.
- Over \$300,000 secured in prior investments.
- With a total addressable market of over 600 million nature enthusiasts, we have the potential to create an entirely new content economy.
- We are giving younger generations an innovative, highly interactive way to connect with nature.
- We are revolutionizing the way the world communicates about nature in a time when nature needs us most.
- We are enabling thousands of nature content creators to make a living doing what they love.

Historical Results of Operations

Our company was organized in May 2018 and has limited operations upon which prospective investors may base an evaluation of its performance.

Related Party Transaction

Refer to Question 26 of this Form C for disclosure of all related party transactions.

Liquidity & Capital Resources

To-date, the company has been financed with \$125,000 in equity and \$175,000 in convertibles.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 4 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 3 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

Mammalz, PBC cash in hand is \$28,438, as of November 2019. Over the last three months, revenues have averaged \$0/month, cost of goods sold has averaged \$13,674/month, and operational expenses have averaged \$25,853/month, for an average burn rate of \$39,527 per month. Our intent is to be profitable in 36 months.

Between February, the start of our MVP development, and September, the launch of our beta, we had very low operational expenses. The team consisted only of the Mammalz founders and the contracted development team at KiwiTech, so our only monthly expense was the technical development hours (\$13,000/month on average). In September, we hired three community growth and marketing team members, moved into a co-working space, and contracted a legal consultant to prepare for the launch of the Mammalz beta (\$25,000/month on average).

Because all MVP development costs have now been covered, we anticipate our burn rate through March of 2020 to drop to around \$15,000/month. As soon as we secure our Wefunder community round, we expect our burn rate to be in the \$50,000-\$100,000/month range for 3-4 months. The majority of this increase will be due to new feature development, increased backend costs, and community growth/marketing expenses. In the same time period we expect (but cannot guarantee) to be generating \$400,000 of revenue over the course of six months.

At this time, other than the personal funds of the founders, we do not have any revenue or other sources of capital on which to rely. We are aggressively seeking other forms of investment to complement the funds we secure on Wefunder.

Once we integrate the first of our monetization features, something we expect to achieve within the first month after the Wefunder round closes, we will begin generating revenue.

Past September of 2020, we will need to rely on securing a Series A round to continue accelerating growth, building the rest of our monetization features, expanding our team, and supporting the backend of the platform (data storage, delivery, etc.). We anticipate both our revenue and expenses to increase linearly with the size of our community.

INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect

liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.
