Please review your Wefunder profile carefully to ensure it provides all material information, is not false or misleading, and does not omit any information that would cause the information included to be false or misleading.

RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration;

however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

Our ability to produce and ship products might be affected by the current outbreak of the coronavirus. As of early March 2020, we can confirm that we are able to manufacture and ship our new product Mevo Start from China. For Mevo Plus, we own more than 5,000 cameras in storage in California.

Our ability to produce products depends on our manufacturer partner Chicony, and their suppliers with manufacturing operations based in Mainland China.

Our ability to produce products depends on our system-on-chip partner Ambarella with manufacturing operations based in Taiwan.

Max Haot is a part-time officer. As such, it is likely that the company will not make the same progress as it would if he were a full-time officer.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

In the course of running our business, we may need to raise capital, certain forms of which may cause dilution to our investors. If our need is due to unforeseen circumstances or material expenditures or if our operating results are worse than expected, then we cannot be certain that we will be able to obtain additional financing on favorable terms, if at all, and these additional financings could cause further dilution to our investors. Debt financing, if available, may involve agreements that include equity conversion rights, covenants limiting or restricting our ability to take specific actions, such as incurring additional debt, expending capital, or declaring dividends, or that impose financial covenants on us that limit our ability to achieve our business objectives. Debt financings may contain provisions, which, if breached, may entitle lenders to accelerate repayment of loans, and there is no assurance that we would be able to repay such loans in such an event or prevent the foreclosure of security interests granted pursuant to such debt financing. If we need but cannot raise additional capital on acceptable terms, then we may not be able to meet our business objectives, the value of our securities may fall, and you may lose some or all of your investment.

Max Haot, a director, is the beneficial owner of more than 80% of the voting power of outstanding stock as of the date immediately before the initial sale of Series Seed-1 Preferred Stock. As a result, Mr. Haot, may be able to control our management and affairs and matters requiring stockholder approval, including the election of directors and approval of significant corporate transactions, such as mergers, consolidations or the sale of substantially all of our assets. Consequently, this concentration of ownership could limit your ability to influence corporate matters and may have the effect of delaying or preventing a change of control, including a merger, consolidation or other business combination involving us, or discouraging a potential acquirer from making a tender offer or otherwise attempting to obtain control, even if such a change of control would benefit our other stockholders. This significant concentration of share ownership may adversely affect the future trading price for our common stock because investors often perceive disadvantages in owning stock in companies with controlling stockholders.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **\$200,000**

Use of Proceeds: 92.5% to kick off the manufacturing of Mevo Start. All development costs and risks already funded/paid. 7.5% towards Wefunder intermediary fee.

If we raise: **\$750,000**

Use of Proceeds: 50% manufacturing first Mevo Start batch. 42.5% to fund team and operations expenses (admin expenses, legal fees, salaries, etc.) 7.5% towards Wefunder intermediary fee.

If we raise: **\$1,070,000**

Use of Proceeds: 50% manufacturing first Mevo Start batch. 42.5% to fund team and operations expenses (admin expenses, legal fees, salaries, etc.) 7.5% towards Wefunder intermediary fee.

INSTRUCTION TO QUESTION 10: An issuer must provide a reasonably detailed description of any intended use of proceeds, such that investors are provided with an adequate amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each probable use and the factors the issuer may consider in allocating proceeds among the potential uses. If the issuer will accept proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating oversubscriptions, and intended use of the excess proceeds with similar specificity. Please include all potential uses of the proceeds of the offering, including any that may apply only in the case of oversubscriptions. If you do not do so, you may later be required to amend your Form C. Wefunder is not responsible for any failure by you to describe a potential use of offering proceeds.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

If we reach our target offering amount prior to the deadline, we may conduct an initial closing of the offering early if we provide notice about the new offering deadline at least five business days prior to the new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Wefunder will notify investors if we conduct an initial closing. Thereafter, we may conduct additional closings from time to time at our and Wefunder's discretion until the deadline date.

The following describes the process to invest in the Company, including how the Company will complete an Investor's transaction and deliver securities to the investor.

1. Investor Commitment. The Investor will submit, through Wefunder Portal, a requested investment amount. When doing so, the Investor will also execute an investment contract with the Company ("Investment Agreement"), using the Investor's electronic signature.
2. Acceptance of the Investment. If the Investor Agreement is complete,

the Investor's commitment will typically be recorded within a few minutes. The commitment will also be available on the Investor's "My Investments" screen on the wefunder.com website. After the offering closes, the contract will be counter-signed by the Company. The executed investment contract will then be sent to the investor via email, and is also available to download on the "My Investments" screen.

3. Investor Transfer of Funds. Upon receiving confirmation that an investment has been accepted, the Investor will be responsible for transferring funds from a source that is accepted by Wefunder Portal into an escrow account held with a third party bank on behalf of issuers offering securities through Wefunder Portal.
4. Progress of the Offering. The Investor will receive periodic email updates on the progress of the offering, including total amounts raised at any given time, and will be notified by email and through the "My Investments" screen when the target offering amount is met.
5. Closing: Original Deadline. Unless we meet the target offering amount early, Investor funds will be transferred from the escrow account to the Company on the deadline date identified in the Cover Page to this Form C and the Company's Wefunder Portal Profile.
6. Early Closings. If the target offering amount is met prior to the original deadline date, we may close the offering earlier, but no less than 21 days after the date on which information about the Company, including this Form C, is posted on our Wefunder Portal Profile. We will reschedule the offering deadline, and at least five days prior to the new deadline, investors will receive notice of it by email and through the "My Investments" screen. At the time of the new deadline, your funds will be transferred to the Company from the escrow account, provided that the target offering amount is still met after any cancellations.
7. Book Entry. Investments may be in book entry form. This means that the Investor may not receive a certificate representing his or her investment. Each investment will be recorded in our books and records and will be recorded in each Investors' "My Investments" screen. The Investor will also be emailed the Investment Agreement again. The Investment Agreement will also be available on the "My Investments" screen. At the option of the Company, you may receive an electronic certificate.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

An Investor's right to cancel. An Investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the Investor about the offering and/or the Company, the Investor will be provided notice of the change and must reconfirm his or her investment commitment within five business days of receipt of the notice. If the Investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the Investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the

offering does not close, all of the Investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the Investor will receive, and refund the Investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

In addition, we may cap at 450 the total number of investors who will be allowed to invest through the offering that are not "accredited investors," as defined in Rule 501(a) of Regulation D under the Securities Act of 1933. In the event that more than 450 non-accredited investors are initially accepted into an offering in step (2) described in Question 11, the Company may cancel investments based on the order in which payments by Investors were received, or other criteria at the discretion of the Company, before the offering deadline.

The Proxy and Proxy

Powers, so long as the Holder is an individual, will survive the death, incompetency and disability of the Holder and, so long as the Holder is an entity, will survive the merger or reorganization of the Holder or any other entity holding Shares originally purchased through Wefunder.com. The President is an intended third-party beneficiary of this paragraph, and has the right, power and authority to enforce the provisions hereof as though he, she, or it was a party hereto.

Repurchase. If the Company determines, in its sole discretion, that it is likely that within six months the securities of the Company will be held of record by a number of persons that would require the Company to register a class of its equity securities under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as required by Section 12(g) or 15(d) thereof, the Company shall have the option to repurchase the Shares from the Subscriber for the greater of (i) the purchase price of the Shares and (ii) the fair market value of the Shares, as determined by an independent appraiser of securities chosen by the Company (such repurchase, the "Repurchase," and such greater value, the "Repurchase Value"). The foregoing repurchase option terminates upon a Change of Control or Dissolution Event (each, as defined in the Subscription Agreement).

14. Do the securities offered have voting rights?

- Yes
 No

15. Are there any limitations on any voting or other rights identified above?

- Yes: Irrevocable voting proxy granted to Company President

16. How may the terms of the securities being offered be modified?

This Agreement, the Form C, and the Offering Statement collectively constitute the entire agreement between the parties hereto with respect to the subject matter hereof and this Agreement may be amended only by a writing executed by all parties. The rights and obligations of the Series Seed-1 Preferred Stock may be modified by the consent of the holders of a majority of the Series Seed-1 Preferred Stock.

RESTRICTIONS ON TRANSFER OF THE SECURITIES BEING OFFERED:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

1. to the issuer;
2. to an accredited investor;
3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

DESCRIPTION OF ISSUER'S SECURITIES

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Securities of the issuer:

Class of Security	Securities (or Amount) Authorized	Securities (or Amount) Outstanding	Voting Rights
Series Seed Preferred Stock	5,250,000	5,250,000	Yes <input type="button" value="v"/>
Class B Common Stock	15,000,000	0	Yes <input type="button" value="v"/>
Class A Common Stock	4,500,000	4,500,000	Yes <input type="button" value="v"/>

**Securities Reserved for
Class of Security Issuance upon Exercise or Conversion**

Warrants: _____
Options: 5,250,000

Describe any other rights:

Each share of Class A Common Stock has five votes for stockholder consents. The Series Seed Preferred Stock receives up to 1x its original issue price on distributions to stockholders of the Company in a liquidation or dissolution event.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

Because the Investor will assign its right to vote its Shares by a proxy, the holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional equity offerings (including potentially a public offering or sale).

These changes could result in further limitations on the voting rights the Shares will have as an owner of equity in the Company, for example by diluting those rights or limiting them to certain types of events or consents.

To the extent applicable, in cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional equity, an Investor's interest will typically also be diluted.

Based on the risk that an Investor's rights could be limited, diluted or otherwise qualified, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being

offered and each other class of security of the issuer?

The preferred stock of the Company will be paid out of the proceeds of any liquidation or dissolution event of the Company prior to any distribution to holders of common stock of the Company. The preferred stock of the Company also certain protective provisions in the Company's certificate of incorporation that require the approval of the holders of preferred stock for certain significant actions proposed to be taken by the Company. Each share of Class A Common Stock of the Company receives five votes for any vote requiring stockholder approval.

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, **the shareholders** may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, **the shareholders** may change the terms of the certificate of incorporation for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. **The shareholders** may make changes that affect the tax treatment of the Company in ways that are unfavorable to you, but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional stock, an Investor's interest will typically also be diluted.

Based on the risks described above, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns or be able to liquidate its holdings in the Company.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined by the Company, based upon the judgment of the Board after evaluating several factors, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

In the future, we will perform valuations of our common stock that take into account factors such as the following:

- unrelated third party valuations of our common stock;
- the price at which we sell other securities, such as convertible debt or preferred stock, in light of the rights, preferences and privileges of our those securities relative to those of our common stock;
- our results of operations, financial position and capital resources;
- current business conditions and projections;
- the lack of marketability of our common stock;

- the hiring of key personnel and the experience of our management;
- the introduction of new products;
- the risk inherent in the development and expansion of our products;
- our stage of development and material risks related to our business;
- the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
- industry trends and competitive environment;
- trends in consumer spending, including consumer confidence;
- overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
- the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Board Of Directors, and the Investor will have no direct right to name or remove an officer or member of the Board Of Directors of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company and the Board of Directors of the Company. If the Board Of Directors of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

INSTRUCTIONS TO QUESTION 26: The term transaction includes, but is not limited to, any financial transaction, arrangement or relationship (including any indebtedness or guarantee of indebtedness) or any series of similar transactions, arrangements or relationships.

Beneficial ownership for purposes of paragraph (2) shall be determined as of a date that is no more than 120 days prior to the date of filing of this offering statement and using the same calculation described in Question 6 of this Question and Answer format.

The term "member of the family" includes any child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the person, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Compute the amount of a related party's interest in any transaction without regard to the amount of the profit or loss involved in the transaction. Where it is not practicable to state the approximate amount of the interest, disclose the approximate amount involved in the transaction.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

We design and manufacture what we believe is the world's best camera and software app for live streaming events. We have created Mevo Plus and plan to ship Mevo Start in April 2020. We empower people of all experience levels to take

storytelling to the next level with our easy-to-use, affordable, all-in-one cameras.

In five years, we hope (but cannot guarantee) to be selling more than half a million cameras per year and related app services. Additionally, we hope to be developing new cameras and features that meet our users' needs in this rapidly growing space.

Milestones

Mevo Inc. was incorporated in the State of Delaware in March 2019. Mevo, originally created in 2016 as a brand subsidiary of Livestream, became independent in 2019 and is now headquartered in Brooklyn, New York.

Mevo Ukraine, Inc. was incorporated on May 28, 2019 in Ukraine and provides software development for Mevo, Inc.

Some additional background on the Company:

- With recent travel restrictions, Mevo sales have recently increased fivefold. Help us avoid being out of stock by investing in Mevo.
- Established startup with \$5.9M revenue in 2019. 90,000+ Mevo Plus cameras sold on mevo.com, Best Buy, B&H, Adorama & Amazon
- 30,000+ Mevo owners streaming at least one event each month
- Respected partner and investor: Vimeo Inc.
- Proprietary software: Dedicated iOS and Android apps control your Mevo camera with live editing features like cutting, zooming, and pans
- Stream events to multiple platforms at once: YouTube, Facebook Live, Twitter, Periscope, Twitch, LinkedIn, Vimeo Livestream and more
- Founder / CEO has 24+ years in software and hardware with two exits. Founded Livestream.com, which was acquired by Vimeo in 2017
- New camera, Mevo Start is in production and will ship to pre-order customers in April. Lower price point (\$299) expands the available market.

Historical Results of Operations

Our company was organized in March 2019 and has limited operations upon which prospective investors may base an evaluation of its performance.

- *Revenues & Gross Margin.* For the period ended December 31, 2019, the Company had revenues of \$4,428,320. Our gross margin was 27.67%.
- *Assets.* As of December 31, 2019, the Company had total assets of \$5,518,184, including \$273,200 in cash.
- *Net Loss.* The Company has had net losses of \$3,135,066 for 2019.
- *Liabilities.* The Company's liabilities totaled \$1,266,819 for 2019.

Liquidity & Capital Resources

To-date, the company has been financed through \$125,000 in debt instruments and \$3,274,790 in equity.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 10 months before we need to raise further capital.

We plan to use the proceeds of this Offering as set forth in this Form C under "Use of Funds". We don't have any other predicted sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform additional operations over the lifetime of the Company. We plan to raise capital 6 months after this Offering. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from this Offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This

complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

Mevo Inc. cash in hand is \$318,357.86, as of March 2020. Over the last three months of 2019, revenues have averaged \$681,439.21/month, cost of goods sold has averaged \$528,930.35/month, and operational expenses have averaged \$387,585.68/month, for an average burn rate of \$235,076.82 per month. Our intent is to be profitable in 26 months after the Offering.

Note that Mevo product revenue for 2019 was \$5.9M but since the spin-out from Vimeo to Mevo Inc. occurred in April, the Mevo Inc. financials only cover 3 quarters in 2019 and are \$4.4M as they exclude Q1.

We intend to fund short-term operations from cash flow from accounts receivables from past sales (~\$450k today) and new expected receivables from selling existing Mevo cameras inventory (we own more than 5,000 Mevo Plus cameras and 4,000 Mevo Boost accessories - fully paid from past cashflows).

Outside of this raise, our main source of capital is revenue and cash from selling existing inventory assets of Mevo Plus and Mevo Boost as well as our Mevo Start pre-order on mevo.com.

In the six months following the launch of this campaign, we project (but cannot guarantee) the following:

Revenue ~\$3.25M

Cash expense to manufacture Mevo Plus and Boost inventory: \$0

Cash expense to manufacture Mevo Start inventory: ~\$1M

Cash expense for operations: ~\$2M

At a minimum, it is going to cost \$50k to complete our first production run for Mevo Start. 1,000 units production has started in March 2020. We paid 50% upfront and will need to pay \$50k in March / April 2020 before they leave the factory and ship to our warehouse. Our manufacturing partner has already sourced materials for the first 5,000 Mevo Start units.

INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.
