Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

## RISK FACTORS

**A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.**

**In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.**

**The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.**

**These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.**

8. Discuss the material factors that make an investment in the issuer speculative or risky:

The financial success of the Company may be sensitive to adverse changes in general economic conditions in the United States, such as recession, inflation, unemployment, pandemics, and interest rates. Management believes that the niche products and services they market will insulate the Company from excessive reduced demand, but Kingmakers has no control over these economic changes.

The Company's operating results may fluctuate significantly from period to period as a result of a variety of factors, including purchasing patterns of customers, competitive pricing, debt service and principal reduction payments, and general economic conditions. Consequently, the Company's revenues may vary by quarter, and the Company's operating results may experience fluctuations.

While the Company believes it can develop a customer base through the marketing and promotion of the Company's offerings, the inability of the Company to further develop such a customer base could have a material adverse effect on the Company. Although the Company believes that its offering mix offers advantages over competitive companies, no assurance can be given that KINGMAKERS products and services will attain a degree of market acceptance on a sustained basis or that it will generate revenues sufficient for sustained profitable operations.

While there does exist some current competition, Management believes that the KINGMAKERS product and services line is unique and the expertise of Management combined with the innovative nature of its products and services will set the Company apart from its competitors. There is the possibility that new

competitors could seize upon KINGMAKERS business ideas and produce competing products and services. Likewise, these new competitors could be better capitalized than KINGMAKERS which could give them a significant advantage. There is the possibility that the competitors could capture significant market share of KINGMAKERS intended market.

If the Company incurs indebtedness, a portion of its cash flow will have to be dedicated to the payment of principal and interest on such indebtedness. Typical loan agreements also might contain restrictive covenants which may impair the Company's operating flexibility. Such loan agreements would also provide for default under certain circumstances, such as failure to meet certain financial covenants. A default under a loan agreement could result in the loan becoming immediately due and payable and, if unpaid, a judgment in favor of such lender which would be senior to the rights of investors in the company. A judgment creditor would have the right to foreclose on any of the Company's assets resulting in a material adverse effect on the Company's business, operating results or financial condition.

The Company's business plans may change significantly. Many of the Company's potential business endeavors are capital intensive and may be subject to statutory or regulatory requirements. Management believes that the Company's chosen activities and strategies are achievable in light of current economic and legal conditions with the skills, background, and knowledge of the Company's principals and advisors. Management reserves the right to make significant modifications to the Company's stated strategies depending on future events.

The net proceeds from this Offering will be used for the purposes described under "Use of Proceeds." The Company reserves the right to use the funds obtained from this Offering for other similar purposes not presently contemplated which it deems to be in the best interests of the Company and its unitholders in order to address changed circumstances or opportunities. As a result of the foregoing, the success of the Company will be substantially dependent upon the discretion and judgment of Management with respect to application and allocation of the net proceeds of this Offering. Investors for the offering hereby will be entrusting their funds to the Company's Management, upon whose judgment and discretion the investors must depend.

As of April 14, 2020, the Company's officers and directors owned a majority of the equity in the business. Upon completion of this Offering, the Company's Management will continue to own a majority of the outstanding equity and will be able to continue to control Kingmakers. Investors will own non-voting equity and will not have the ability to control either a vote of the Company's Unitholders or Board of Directors.

In certain cases, the Company may rely on trade secrets to protect proprietary technology and processes which the Company has developed or may develop in the future. There can be no assurances that secrecy obligations will be honored or that others will not independently develop similar or superior technology. The protection of proprietary technology through claims of trade secret status has been the subject of increasing claims and litigation by various companies both in order to protect proprietary rights as well as for competitive reasons even where proprietary claims are unsubstantiated. The prosecution of proprietary claims or the defense of such claims is costly and uncertain given the uncertainty and rapid development of the principles of law pertaining to this area. The Company, in common with other firms, may also be subject to claims by other parties with regard to the use of technology information and data which may be deemed proprietary to others.

Purchasers of Units may experience dilution through additional Units issued by the Company at a later date.

An investment in the Company may be long term and illiquid. Prospective investors will be required to represent in writing that they are purchasing the securities for their own account for long-term investment and not with a view towards resale or distribution. Accordingly, purchasers of securities must be willing and able to bear the economic risk of their investment for an indefinite period of time. It is likely that investors will not be able to liquidate their investment in the event of an emergency.

There is no current market for the securities offered in this private Offering and no market is expected to develop in the near future.

The securities are being offered for sale in reliance upon certain exemptions from the registration requirements of the Securities Act, Investment Company Act, applicable Delaware Securities Laws, and other applicable state securities laws. If the sale of securities were to fail to qualify for these exemptions, purchasers may seek rescission of their purchases of Units.

The company being invested in is a subsidiary of Kingmakers Inc. This may limit the liquidity or exitability of the business. In addition, unitholders may have limited liquidity in the event of an exit or sale of the units of the parent company - Kingmakers Inc.

The company shares management, employees, expenses (marketing budget, software, contractors) with its parent company - KINGMAKERS INC. The allocation of costs of these resources across the parent and subsidiary will be based primarily on management judgement - and has the potential to be subjective.

The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

*INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.*

- Team has strong track record with 8 successful exits in the last 3 years
- Culture of delighting employees and customers is a superpower in this industry
- Each company in our portfolio has a mandate to give back to their community

#### **Historical Results of Operations**

Our company was organized in March 2020 and has limited operations upon which prospective investors may base an evaluation of its performance.

- *Revenues & Gross Margin.* For the period ended March 31, 2020, the Company had revenues of \$0.
- *Assets.* As of March 31, 2020, the Company had total assets of \$0, including \$0 in cash.
- *Net Income.* The Company has had net income of \$0 for 2020.
- *Liabilities.* The Company's liabilities totaled \$0 for 2020.

#### **Liquidity & Capital Resources**

To-date, the company has been financed with \$10,000 in debt.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 3 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 12 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

#### **Runway & Short/Mid Term Expenses**

Kingmakers Ops LLC cash in hand is \$10,000, as of April 2020. Over the last three months, revenues have averaged \$0/month, cost of goods sold has averaged \$0/month, and operational expenses have averaged \$10,000/month, for an average burn rate of \$10,000 per month. Our intent is to be profitable in 2 months.

Since April 2020, we have instituted an outbound marketing campaign to identify potential sellers. This is at a cost of ~\$1,000/mo. That is the only cost in the business apart from those associated with the financing itself (\$10k of legal

business apart from those associated with the financing itself (such as legal, marketing, administrative costs).

We are close to a letter of intent on 1-2 businesses and expect to close on at least 2 acquisitions within the next 6 months. Each business would generate ~\$120k-\$140k/mo in revenue and \$50k-75k/mo in ebitda per month. Either transaction would get the company to profitability.

We expect that our average down payment per deal will be \$200k. With the reg cf raise (\$1.07mm) we expect to be able to acquire 4-5 businesses. The other financing we would use would typically be seller/debt financing or bank financing. We hope (but cannot guarantee) to raise another round of capital via a Reg A+ campaign in 2021, for a maximum of \$10M.

*INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.*

The Company is using the services of XX as part of its offering. XX is comprised of XX Investments, LLC, XX Team LLC, and the Lead Investors who provide services on behalf of XX Team LLC. The services of XX are available to companies that offer securities through Wefunder Portal LLC and to investors who invest in such companies through Wefunder Portal, but XX is not affiliated with Wefunder Portal or its affiliates.

XX Investments is the Company's transfer agent and also acts as custodian, paying agent, and proxy agent on behalf of all investors that enter into the Custodial and Voting Agreement with XX Investments through the Wefunder Portal website ("Investors"). XX Investments holds legal title to the securities the Company issues through Wefunder Portal (which are uncertificated) on behalf of Investors. Investors, in turn, hold the beneficial interests in the Company's securities. XX Investments keeps track of each Investor's beneficial ownership interest and makes any distributions to the Investors (or other parties, as directed by the Investors).

In addition to the above services, at the direction of XX Team, XX Investments votes the securities and take any other actions in connection with such voting on behalf of the Investors. XX Investments acts at the direction of XX Team, because XX Team holds a power of attorney from each Investor that has entered into the Investor Agreement to make voting decisions on behalf of that Investor. XX Investments will not charge Investors for its services. XX Investments does charge the Company \$1,000/year for services; however, those fees may be paid by Wefunder Inc. on behalf of the Company.

As noted, XX Team holds a power of attorney from each Investor that has entered into the Investor Agreement to make voting decisions on behalf of that Investor. Pursuant to the power of attorney, XX Team will make voting decisions and then direct XX Investments to vote and take any other actions in connection with the voting on Investors' behalf. XX Team will act, with respect to the Company, through our Lead Investor, who is a representative of XX Team. As compensation for its voting services, each Investor authorizes XX Investments to distribute to XX Team 10% of any distributions the Investor would otherwise receive from the Company. XX Team will share its compensation with our Lead Investor. XX Team, through our Lead Investor, may also provide consulting services to the Company and may be compensated for these services by the Company; although, fees owed by the Company may be paid by Wefunder Inc. XX Team will share its consulting compensation with our Lead Investor.

The Lead Investor is an experienced investor that we choose to act in the role of Lead Investor, both on behalf of the Company and on behalf of Investors. As noted, the Lead Investor will be a representative of XX Team and will share in compensation that XX Team receives from the Company (or Wefunder Inc. on the Company behalf) or from Investors. The Lead Investor will be chosen by the Company and approved by Wefunder Inc., and the identity of the Lead Investor must be disclosed to Investors before Investors make a final investment decision to purchase the Company's securities. Investors will receive disclosure regarding all fees that may be received by the Lead Investor. In addition to the fees described above, the Lead Investor may receive compensation if, in the future, Wefunder Advisors LLC forms a special purpose vehicle ("SPV") for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such a circumstance, the Lead Investor may act as a portfolio manager for that SPV (and as a supervised person of Wefunder Advisors) and may be compensated through that role. Although the Lead Investor may act in multiple roles and be compensated from multiple parties, the Lead Investor's goal is to maximize the value of the Company and therefore maximize the value of the Company's securities. As a result, the Lead Investor's interests should always be aligned with

those of the Investors.

Investors that wish to purchase the Company's securities through Wefunder Portal must agree to (1) hire XX Investments to serve as custodian, paying agent, and proxy agent with respect to the Company's securities; (2) give a power of attorney to XX Team to make all voting decisions with respect to the Company's securities; and (3) direct XX Investments to share 10% of the Investor's distribution from the Company with XX Team. The Company may waive these requirements for certain investors with whom the Company has a pre-existing relationship.

The XX arrangement described above is intended to benefit the Company by allowing the Company to reflect one investor of its capitalization table (XX Investments) and by simplifying the voting process with respect to the Company's securities by having one entity (XX Team), through one person (the Lead Investor), make all voting decisions and having one entity (XX Investments) carry out XX Team's voting instruments and any take any related actions. The XX arrangement also is intended to benefit Investors by providing the services of an experienced Lead Investor (acting on behalf of XX Team) who is expected to make value-maximizing decisions regarding Investors' securities. XX Team (acting through the Lead Investor) may further benefit both the Company and Investors by providing consulting services to the Company that are intended to maximize both the value of the Company's business and also the value of its securities.
