Experience

President & CEO
GroGuru Inc
Jul 2018 – Present · 1 yr 11 mos
Greater San Diego Area

GroGuru is all about strategic irrigation management. We help farmers make more money by increasing crop yield while more efficiently using water and other scarce resources in a sustainable way. The GroGuru patented wireless underground system, WUGS, enables the permanent installation of soil sensors in annual field crops like corn and soybeans, eliminating the need for annual installation and removal of sensors. GroGuru then uses machine learning and other data in the cloud to give farmers recommendations about when and how much to irrigate. The GroGuru WUGS-enabled solution is a total game changer for annual field crop farmers. To learn more go to www.groguru.com   ...see mor
