Boxabl

University of the Art London

### Experience

#### Founder

Boxabl

2017 – Present · 3 yrs

Las Vegas, Nevada

Boxabl's primary innovation is a patented building construction technology that allows for mass production of almost any size and style of residential and light commercial building in a factory

Individual rooms are built on an assembly line and packed down to the size of a shipping container, then shipped to site using standard transportation infrastructure. Once onsite they are unpacked and assembled into a finished building, with beautiful architectural styles, higher quality, spacious rooms, and nearly endless customizability.

#### Founder

500 Group Inc

1986 – Present · 34 yrs

Las Vegas, Nevada

500 Group Inc. is an award-winning intellectual property, investment and development company, covering a diverse mix of inventions including hardware, housewares, juvenile,
