Offering Statement

Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

The Company can offer no guarantee that future results will conform to the projections. Our operations are subject to all risks inherent in an early stage business enterprise operating in a competitive market. Our financial projections represent our expectations of future performance based on assumptions, estimates and judgments; however, actual future Company performance may be significantly different and will depend on future conditions and events which cannot be reliably forecast. Accordingly, these projections should be

considered solely illustrative and should not be relied upon for the purpose of making investment decisions.

The likelihood of the success of the Company must be considered in light of the problems, expenses, difficulties, complications and delays frequently encountered in connection with an early stage business and the competitive environment in which we will operate.

A variety of factors may cause our operating results to fluctuate significantly. Many of these factors are outside of our control. They include: the effectiveness of our new product launch and sales and marketing campaign; market acceptance of our products; our ability to develop new products; the amount and timing of operating costs and capital expenditures; introduction by competitors of new or enhanced products; price competition; and fluctuations in general economic conditions as well as economic conditions specific to our industry. One or more of these factors could materially and adversely affect our operating results in future periods. These factors could have a material adverse impact on our ability to implement our business plan, achieve our financial projections or achieve profitability.

Although we believe that our business goals are achievable, there can be no assurance that our business model will be an accurate representation of future events or that the business goals will be achieved. If such goals are not achieved, we may suffer severe financial hardship.

The Company's summary financial projections have been developed by Management based on assumptions, estimates and judgments regarding future events. They represent our expectations of future Company performance based on such assumptions, estimates and judgments; however, actual future Company performance may be significantly different and will depend on future conditions and events which cannot be reliably forecast. Accordingly, these projections should be considered solely illustrative and should not be relied upon for the purpose of making investment decisions.

The Company was formed in 2012 and has never been profitable. Our operating history may not provide a meaningful basis on which to evaluate our business. There can be no assurance that we will reach or maintain profitability or generate sufficient funds from operations to meet our cash commitments. We anticipate that our operating expenses will increase as we grow. However, any significant failure to realize anticipated revenue growth could result in significant operating losses. We will continue to encounter risks and difficulties frequently experienced by companies at a similar stage of development, including our potential failure to:

- implement our business model and strategy and adapt and modify them as needed
- increase awareness of our brand, protect our reputation and develop customer loyalty
- anticipate with any degree of certainty the behavioral and operational changes of our customers that have a significant impact on its business from time to time as they respond to evolving social, environmental and economic changes
- manage expanding operations and product offerings
- develop international markets for our products
- obtain required regulatory approvals for our towel applicators effectively
- defend our patents from challenges and infringement

- maintain adequate control of expenses
- attract, retain and motivate qualified personnel
- maintain and develop new contractual arrangements with manufacturers, retailers, influencers and other important operational relationships
- anticipate and adapt to changing conditions in the markets in which we operate as well as the impact of any changes in applicable government regulations, actions taken by our competitors, technological developments and other significant competitive and market dynamics

If we are not successful in addressing any or all of these risks, our business may be materially and adversely affected. If we cannot generate sufficient revenues to operate profitably or we are unable to raise additional capital, we may enter into a business combination which may ultimately decrease value to our Members or cause us to cease operations.

The Company's development and sales were delayed and adversely impacted by the worldwide Corona-19 epidemic. We are unable to provide any assurances or estimates regarding the affect that the exacerbation of the pandemic will have on our business.

Although the Company believes that our business goals are achievable, there can be no assurance that our business model will be an accurate representation of future events or that the business goals will be achieved. If such goals are not achieved, we may suffer severe financial hardship.

The securities the Company is offering are highly speculative and involve a high degree of risk. There can be no guarantee that you will realize a substantial return on your investment, or any return at all, or that you will not lose your entire investment. For this reason, you should read all information provided carefully and should consult with you own legal counsel, accountant(s) or business advisor(s) prior to making any investment decision.

We believe that if we are successful in raising at least \$618,000 from this offering, the net proceeds will be sufficient to meet our current working capital needs for at least the next 12 months, and that thereafter we will have sufficient revenue from our operations to fund our working capital needs. However, there can be no assurance that we will be able to raise the full \$618,000, or that our operations will produce sufficient revenues to fund our working capital needs. Furthermore, there can be no assurance that we will not need additional capital to carry out our business plan and fund our operations or that such additional capital will be available to us, or be available on terms as beneficial as the terms of this offering. Such additional capital may result in dilution to our members. Our failure to secure adequate funding necessary to implement our business plan could have a material adverse effect on the Company.

The offering price for the shares the Company is offering was arbitrarily determined and bears no relationship to the Company's assets, book value, earnings or other established criteria of value. In determining the offering price such factors as our operating results to date, limited financial resources, the nature of our assets, estimates of our business potential, estimates of the value of our patents, the amount of equity and management control desired to be retained by our founders and the general condition of the market in which we intend to operate were considered.

Our business plan also includes the expansion of sales of our

products into international markets, primarily through distributors. There can be no assurance that we will be able to obtain required regulatory approvals for the sale of our products in international markets, that we will be able to contract with international distributors on favorable terms, or that our products will obtain acceptance in the international markets.

The Company, as a distributor of sun protection products, may be exposed to significant product liability claims by consumers, insurance carriers and other third parties. We believe that our liability insurance coverage is sufficient to protect our business against these risks. However, there can be no assurance that such insurance will be sufficient to cover all possible liabilities. In the event a successful suit is brought against the Company, insufficiency of insurance coverage could have a material adverse effect on us. Moreover, any adverse publicity arising from claims made against us, even if such claims are not successful, could adversely affect the reputation and sales of our products. Furthermore no assurance can be given that we will continue to be able to obtain adequate insurance coverage on terms that are at least as favorable as those currently available to us.

The Company plans to expand distribution through premium retail stores and on-line sales, with a goal of establishing nationwide distribution. There can be no assurance that we will be successful in our efforts to expand distribution through these channels or that any retail stores will provide sufficient business, sales and distribution support to us in the appropriate market for our products.

The Company's management will have broad discretion in the application of the net proceeds of this offering.

The Company's governing documents provide for indemnification of the directors and officers to the fullest extent permitted by the laws of the State of Delaware. In addition, under the governing documents, no director or officer will be personally liable to the Company or its stockholders for monetary damages for breach of fiduciary duty as a director or officer other than for liability resulting from (i) any breach of their duty of loyalty to the Company or its stockholders; (ii) acts or omissions not taken in good faith or which involve intentional misconduct or a knowing violation of law; or (iii) any transaction from which a director or officer derives an improper personal benefit. As a result of such provisions in the governing documents, stockholders may be unable to recover damages against the directors and officers of the Company for actions taken by them which constitute negligence, gross negligence or a violation of their fiduciary duties, which may reduce the likelihood of stockholders instituting derivative litigation against the directors and officers and may discourage or deter stockholders from suing the directors, officers, employees or agents of the Company for breaches of their duty of care, even though such an action, if successful, might otherwise benefit the Company or its stockholders.

This document contains various forward-looking statements that are based on the Company's beliefs, as well as assumptions made by and information currently available to us. When used in this Memorandum, the words "believe", "anticipate", "expect", "intend" and similar expressions are intended to identify forward-looking statements. The accuracy of forward-looking statements is subject to certain risks, uncertainties and assumptions, including those

identified in this document. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected. We caution you not to place undue reliance on any such forward-looking statements.

Purchasers of the shares the Company is offering must be aware of the potential long-term nature of their investment and be able to bear the economic risks of their investment for an indefinite period of time. The shares are being offered for investment purposes only and not with a view to resale. No trading market currently exists for any securities of the Company, and there can be no assurance that such market will develop after an investment in the Company. The shares offered hereby have not been registered under the Securities Act of 1933, as amended (the "Securities Act"), or the securities laws of any state. The shares are being offered and sold pursuant to exemptions from applicable federal and state registration requirements, allowing for transactions which do not involve a "public offering". We have no obligation to register the shares in the future. Any subsequent sales of the shares by investors may only be permissible if an exemption from the applicable federal and state registration provisions is available at the time of the proposed sale. We cannot guarantee that such an exemption will be available. We are not presently subject to the periodic reporting requirements of Section 13 or Section 15(d) of the Securities Exchange Act of 1934 and may or may not choose to make available to the public, in the foreseeable future, information with respect to our affairs sufficient to permit the use of Rule 144 under the Securities Act as a means of disposing of an investment in the Company. Consequently, you may not be able to liquidate your investment in the event of any emergency.

If the proceeds of this offering and/or the revenues generated by the Company from its operations are insufficient to implement our business plans, as they may be modified from time to time, it may be necessary for us to seek additional capital. We may also issue securities in connection with strategic transactions. Furthermore, as part of our business strategy, we may issue options or warrants to purchase shares to management, employees, consultants and business partners. Such future issuances may result in significant dilution to investors in this offering. In addition the terms of the securities issued in connection with any of the foregoing may provide for rights and privileges that are superior to those associated with the shares.

The Company has never paid a dividend to its stockholders and has no plans to do so until it has sufficient capital to do so while still meeting its working capital needs as determined by its Board of Directors.

Neither the Company, nor anyone on our behalf, has knowingly made any misleading or untrue statements of a material fact, or omitted statements of a material fact necessary to make the statements made not misleading. Notwithstanding the foregoing, this document does not purport to be a complete summary of all material information relevant to an investment decision and should not be relied upon by you without adequate due diligence (including requests for additional information if you feel it necessary in order to make an informed investment decision), and complete reading of all documents provided to you and full understanding of the contents.

Dr. Terry Zickerman, the CEO of the Company, controls a majority of the issued and outstanding shares and has the ability to elect the full Board of Directors and otherwise control the management of the Company.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

Brian M. Hand is a part-time officer. As such, it is likely that the company will not make the same progress as it would if that were not the case.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **\$50,000**

Use of Proceeds:

- Marketing 60%
- Public Relations 12%
- Patent and Trademark Filings 5%
- Legal Fees 5%
- Accounting Fees 5.5%
- Transactions Expenses/Fees 6%
- Wefunder Fees 6.5%

If we raise: **\$618,000**

Use of Proceeds:

- Marketing 50%
- Public Relations 5%
- Patent and Trademark Filings 5%
- Legal Fees 5%
- Accounting Fees 3.5%
- Transactions Expenses/Fees 5%
- Wefunder Fees 6.5%
- Principle Loan Payment 10%
- Salary 10%

INSTRUCTION TO QUESTION 10: An issuer must provide a reasonably detailed description of any intended use of proceeds, such that investors are provided with an adequate amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each probable use and the

...to provide the issuer with information that will be used to determine the factors the issuer may consider in allocating proceeds among the potential uses. If the issuer will accept proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating oversubscriptions, and intended use of the excess proceeds with similar specificity. Please include all potential uses of the proceeds of the offering, including any that may apply only in the case of oversubscriptions. If you do not do so, you may later be required to amend your Form C. Wefunder is not responsible for any failure by you to describe a potential use of offering proceeds.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

Book Entry and Investment in the Co-Issuer. Investors will make their investments by investing in interests issued by one or more co-issuers, each of which is a special purpose vehicle (“SPV”). The SPV will invest all amounts it receives from investors in securities issued by the Company. Interests issued to investors by the SPV will be in book entry form. This means that the investor will not receive a certificate representing his or her investment. Each investment will be recorded in the books and records of the SPV. In addition, investors’ interests in the investments will be recorded in each investor’s “Portfolio” page on the Wefunder platform. All references in this Form C to an Investor’s investment in the Company (or similar phrases) should be interpreted to include investments in a SPV.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor’s investment commitment will be cancelled and the committed funds will be returned.

An Investor’s right to cancel. An Investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the Investor about the offering and/or the Company, the Investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the Investor does not reconfirm, he or she will receive notifications

disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the Investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the Investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the Investor will receive, and refund the Investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

In addition, we may cap at 450 the total number of investors who will be allowed to invest through the offering that are not "accredited investors," as defined in Rule 501(a) of Regulation D under the Securities Act of 1933. In the event that more than 450 non-accredited investors are initially accepted into an offering in step (2) described in Question 11, the Company may cancel investments based on the order in which payments by Investors were received, or other criteria at the discretion of the Company, before the offering deadline.

Ownership and Capital Structure

THE OFFERING

13. Describe the terms of the securities being offered.

Priced Round: \$37,424,792.00 pre-money valuation

See exact security attached as [Appendix B, Investor Contracts](#)

Love Sun Body, Inc. is offering up to 671,739 shares of Series A Preferred Stock, at a price per share of \$1.15.

Investors in the first \$300,000 of the offering will receive stocks at a price per share of \$0.92, and a pre-money valuation of \$29,939,834. Wefunder VIP investors will be entitled to these terms for the entire duration of the offering, even if the threshold limit noted above is met.

The campaign maximum is \$618,000 and the campaign minimum is \$50,000.16.

VIP Bonus

Love Sun Body will offer a discount to the normal terms listed in this Form C for all investments that are committed by investors who are part of Wefunder, Inc's VIP program. This means eligible Wefunder investors will receive a discount for any securities they purchased in this offering. For more specific details on the company's discount, please review the description of the terms above.

The discount is only valid until the offering closes. Investors eligible for the bonus will also receive priority if they are on a waitlist to invest and the company exceeds its maximum funding goal. They will be given the first opportunity to invest if space in the offering becomes available due to the cancellation or failure of previous investments.

Securities Issued by the SPV

Instead of issuing its securities directly to investors, the Company has decided to issue its securities to the SPV, which will then issue interests in the SPV to investors. The SPV is formed concurrently with the filing of the Form C. Given this, the SPV does not have any financials to report. The SPV is managed by Wefunder Admin, LLC and is a co-issuer with the Company of the securities being offered in this offering. The Company's use of the SPV is intended to allow investors in the SPV to achieve the same economic exposure, voting power, and ability to assert State and Federal law rights, and receive the same disclosures, as if they had invested directly in the Company. The Company's use of the SPV will not result in any additional fees being charged to investors.

The SPV has been organized and will be operated for the sole purpose of directly acquiring, holding and disposing of the Company's securities, will not borrow money and will use all of the proceeds from the sale of its securities solely to purchase a single class of securities of the Company. As a result, an investor investing in the Company through the SPV will have the same relationship to the Company's securities, in terms of number, denomination, type and rights, as if the investor invested directly in the Company.

Voting Rights

If the securities offered by the Company and those offered by the SPV have voting rights, those voting rights may be exercised by the investor or his or her proxy. The applicable proxy is the Lead Investor, if the Proxy (described below) is in effect.

Proxy to the Lead Investor

The SPV securities have voting rights. With respect to those voting rights, the investor and his, her, or its transferees or assignees (collectively, the "Investor"), through a power of attorney granted by Investor in the Investor Agreement, has appointed or will appoint the Lead Investor as the Investor's true and lawful proxy and attorney (the "Proxy") with the power to act alone and with full power of substitution, on behalf of the Investor to: (i) vote all securities related to the Company purchased in an offering hosted by Wefunder Portal, and (ii) execute, in connection with such voting power,

any instrument or document that the Lead Investor determines is necessary and appropriate in the exercise of his or her authority. Such Proxy will be irrevocable by the Investor unless and until a successor lead investor (“Replacement Lead Investor”) takes the place of the Lead Investor. Upon notice that a Replacement Lead Investor has taken the place of the Lead Investor, the Investor will have five (5) calendar days to revoke the Proxy. If the Proxy is not revoked within the 5-day time period, it shall remain in effect.

Restriction on Transferability

The SPV securities are subject to restrictions on transfer, as set forth in the Subscription Agreement and the Limited Liability Company Agreement of Wefunder SPV, LLC, and may not be transferred without the prior approval of the Company, on behalf of the SPV.

14. Do the securities offered have voting rights?

- Yes
 No

15. Are there any limitations on any voting or other rights identified above?

See the above description of the Proxy to the Lead Investor.

16. How may the terms of the securities being offered be modified?

This Agreement constitutes the entire agreement between the parties hereto with respect to the subject matter hereof and may be amended only by a writing executed by all parties. Pursuant to authorization in the Investor Agreement between each Investor and Wefunder Portal, Wefunder Portal is authorized to take the following actions with respect to the investment contract between the Company and an investor:

- A. Wefunder Portal may amend the terms of an investment contract, provided that the amended terms are more favorable to the investor than the original terms; and
- B. Wefunder Portal may reduce the amount of an investor's investment if the reason for the reduction is that the Company's offering is oversubscribed.

RESTRICTIONS ON TRANSFER OF THE SECURITIES BEING OFFERED:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

1. to the issuer;
2. to an accredited investor;
3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term “accredited investor” means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term “member of the family of the purchaser or the equivalent” includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term “spousal equivalent” means a cohabitant occupying a relationship generally equivalent to that of a spouse.

DESCRIPTION OF ISSUER’S SECURITIES

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Securities (or Amount) Authorized	Securities (or Amount) Outstanding	Voting Rights
Common	40,000,000	28,543,298	Yes <input type="button" value="v"/>
Preferred	0	0	Yes <input type="button" value="v"/>

Class of Security	Securities Reserved for Issuance upon Exercise or Conversion
Warrants:	0
Options:	4,000,000

Describe any other rights:

Holders of the Series A Preferred Stock being sold in this offering will be entitled to a 1x liquidation preference upon the liquidation or dissolution of the Company.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

The holders of a majority-in-interest of voting rights in the Company could limit the Investor’s rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company’s operations or cause the Company to engage in additional offerings (including potentially a public offering).

These changes could result in further limitations on the voting rights the Investor will have as an owner of equity in the Company, for example by diluting those rights or limiting them to certain types of events or consents.

To the extent applicable, in cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor’s interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor’s securities will decrease, which could also diminish the Investor’s voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional equity, an Investor’s interest will typically also be diluted.

Based on the risk that an Investor’s rights could be limited, diluted or otherwise qualified, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

Additional risks related to the rights of other security holders are discussed below, in Risk Factor 22.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, **the shareholders** may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, **the shareholders** may change the terms of the Articles of Incorporation for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. **The shareholders** may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns. **The shareholders** have the right to redeem their securities at any time. **Shareholders** could decide to force the Company to redeem their **securities** at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability. In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional stock, an Investor's interest will typically also be diluted.

Based on the risks described above, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or

evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

In the future, we will perform valuations of our common stock that take into account factors such as the following:

1. unrelated third party valuations of our common stock;
2. the price at which we sell other securities, such as convertible debt or preferred Stock, in light of the rights, preferences and privileges of our those securities relative to those of our common stock;
3. our results of operations, financial position and capital resources;
4. current business conditions and projections;
5. the lack of marketability of our common stock;
6. the hiring of key personnel and the experience of our management;
7. the introduction of new products;
8. the risk inherent in the development and expansion of our products;
9. our stage of development and material risks related to our business;
10. the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
11. industry trends and competitive environment;
12. trends in consumer spending, including consumer confidence;
13. overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
14. the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Board Of Directors, and the Investor will have no independent right to name or remove an officer or member of the Board Of Directors of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment. or the lack of an

.....
opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company and the Board of Directors of the Company. If the Board Of Directors of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of

interest.

Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

Breakthrough Sunscreen & Application Technology
During a visit to the beach, it became apparent how difficult it was to find a natural sunscreen that was highly effective, didn't incorporate chemicals and wasn't thick or whitening. As a doctor who understood the research about sunscreen chemicals entering our bloodstream and posing health risks, I knew we needed a safer, healthier alternative.

Invent, manufacture and sell innovative natural sunscreen and skincare that is certified 100% natural origin to the Cosmos Natural standard. Cosmos Natural is one of the world's most rigorous certification processes for natural cosmetics. Amidst a confusing, unregulated natural beauty marketplace, our certification gives customers transparency about our product, ingredients and more - as well ensuring they can trust that our formula is safe for humans and non-toxic to the environment.

In next 5 years, our goal is to be a profitable business that is

one of the top 5 natural sunscreen brands in the U.S. and one of the top 10 skincare brands in the clean beauty space.

Related Party Transaction

Refer to Question 26 of this Form C for disclosure of all related party transactions.

Liquidity & Capital Resources

To-date, the company has been financed with \$300,000 in debt and \$2,227,953 in equity.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 2 - 3 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 12 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and

uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

Love Sun Body, Inc. cash in hand is \$65,371.32, as of December 2023. Over the last three months, revenues have averaged \$62,712/month, cost of goods sold has averaged \$5,517/month, and operational expenses have averaged \$15,641/month, for an average net margin of \$41,554 per month. Our intent is to be profitable in 12 months.

Since the date our financials cover, the prices of essential raw materials and packaging increased during the pandemic and post-pandemic, while carriage charges to foreign countries have also increased.

In addition to higher operation costs, our costs of goods has increased, which have been reflected in an increase in wholesale and retail pricing.

The forecast for the first 6 months in 2024 is total revenue of \$958,852 with expenses of \$387,970. The full-year 2024 forecast is total revenue of \$1,917,704 with expenses of \$775,940. We are not yet profitable. \$600,000 to \$1,000,000 funding is needed to reach a profitability point. We expect to reach profitability by year-end 2024.

Aside from the fund we will raise at Wefunder, Dr. Zickerman and his family have added capital and direct investment by new and existing shareholders through subscription agreements.

All projections in the above narrative are forward-looking and not guaranteed.

INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.

agency.

No matters are required to be disclosed with respect to events relating to any affiliated issuer that occurred before the affiliation arose if the affiliated entity is not (i) in control of the issuer or (ii) under common control with the issuer by a third party that was in control of the affiliated entity at the time of such events.

OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in this Form, include:

- (1) any other material information presented to investors; and
- (2) such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

The Lead Investor. As described above, each Investor that has entered into the Investor Agreement will grant a power of attorney to make voting decisions on behalf of that Investor to the Lead Investor (the "Proxy"). The Proxy is irrevocable unless and until a Successor Lead Investor takes the place of the Lead Investor, in which case, the Investor has a five (5) calendar day period to revoke the Proxy. Pursuant to the Proxy, the Lead Investor or his or her successor will make voting decisions and take any other actions in connection with the voting on Investors' behalf.

The Lead Investor is an experienced investor that is chosen to act in the role of Lead Investor on behalf of Investors that have a Proxy in effect. The Lead Investor will be chosen by the Company and approved by Wefunder Inc. and the identity of the initial Lead Investor will be disclosed to Investors before Investors make a final investment decision to purchase the securities related to the Company.

The Lead Investor can quit at any time or can be removed by Wefunder Inc. for cause or pursuant to a vote of investors as detailed in the Lead Investor Agreement. In the event the Lead Investor quits or is removed, the Company will choose a Successor Lead Investor who must be approved by Wefunder Inc. The identity of the Successor Lead Investor will be disclosed to Investors, and those that have a Proxy in effect can choose to either leave such Proxy in place or revoke such Proxy during a 5-day period beginning with notice of the replacement of the Lead Investor.

The Lead Investor will not receive any compensation for his or her services to the SPV. The Lead Investor may receive compensation if, in the future, Wefunder Advisors LLC forms a fund ("Fund") for accredited investors for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such as circumstance, the Lead Investor may act as a portfolio manager for that Fund (and as a supervised person of Wefunder Advisors) and may be compensated through that role.

Although the Lead Investor may act in multiple roles with respect to the Company's offerings and may potentially be compensated for some of its services, the Lead Investor's goal is to maximize the value of the Company and therefore

maximize the value of securities issued by or related to the Company. As a result, the Lead Investor's interests should always be aligned with those of Investors. It is, however, possible that in some limited circumstances the Lead Investor's interests could diverge from the interests of Investors, as discussed in section 8 above.

Investors that wish to purchase securities related to the Company through Wefunder Portal must agree to give the Proxy described above to the Lead Investor, provided that if the Lead Investor is replaced, the Investor will have a 5-day period during which he or she may revoke the Proxy. If the Proxy is not revoked during this 5-day period, it will remain in effect.

Tax Filings. In order to complete necessary tax filings, the SPV is required to include information about each investor who holds an interest in the SPV, including each investor's taxpayer identification number ("TIN") (e.g., social security number or employer identification number). To the extent they have not already done so, each investor will be required to provide their TIN within the earlier of (i) two (2) years of making their investment or (ii) twenty (20) days prior to the date of any distribution from the SPV. If an investor does not provide their TIN within this time, the SPV reserves the right to withhold from any proceeds otherwise payable to the Investor an amount necessary for the SPV to satisfy its tax withholding obligations as well as the SPV's reasonable estimation of any penalties that may be charged by the IRS or other relevant authority as a result of the investor's failure to provide their TIN. Investors should carefully review the terms of the SPV Subscription Agreement for additional information about tax filings.
