**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

A summary of significant accounting policies of Groomit For Pets, LLC (the “Company”) consistently applied is presented to assist in understanding the financial statements. These accounting policies conform to accounting principles generally accepted in the United States of America.

*1. Nature of Business*

The Company was incorporated in the State of New York on January 28, 2016 and is in the business of in-home pet grooming through their mobile platform which connects pet owners and groomers. By connecting owners and groomers directly, the Company offers top quality services which are all conveniently performed in the comfort of pet owners’ homes.

*2. Concentration of Credit Risk*

The Company maintains its cash balances at a financial institution, which, at times may exceed federally insured limits. The Company is subject to credit risk to the extent any financial institution with which it conducts business is unable to fulfill contractual obligations on its behalf.

*3. Revenue Recognition*

The Company adopted Revenue from contracts with customers (Topic 606) on January 1, 2019. Revenue from grooming services is measured based on the consideration specified in a contract with a customer, and excludes any sales incentives and amounts collected on behalf of third parties. The Company recognizes revenue when it satisfies a performance obligation by delivering service to a customer. Taxes assessed by a governmental authority that are both imposed on and concurrent with a specific revenue-producing transaction, that are collected by the Company from a customer, are excluded from revenue. The Company's revenue is reported as the determinable transaction price, net of sales incentives and allowances, and any sales tax collected from a customer.

The majority of the Company's revenue originates from contracts with customers with a single performance obligation to provide pet grooming services to the customer. The Company's standard payments are processed through online card payment system at the time services are rendered.

The Company records a contract asset when it has a right to payment from a customer that is conditional on events other than the passage of time. The Company also records a contract liability when a customer prepays but the Company has not yet fulfilled its performance obligation. As at December 31, 2019, the Company recorded \$2,100 in customer advances where services were performed in subsequent months.

**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

*4. Web development costs*

In accordance with FASB ASC 350, Website Development Costs, website development is segregated into three stages or activities. During the initial, or planning stage, all related costs are expensed as incurred. The second phase is the development of the site, which include costs incurred for web application and infrastructure, as well as graphics development. Costs incurred during the second phase are capitalized and then amortized when the website is ready for its intended use. Stage three consists of costs incurred for post-implementation work, such as security, training and administration. Such costs incurred during this phase are expensed as incurred. Expenditures for additional upgrades and features once the website is launched are capitalized if the upgrades and enhancements furnish additional functionality; otherwise, such costs are expensed as incurred.

Website development costs which have been capitalized are being amortized, using the straight-line method, over an estimated useful life of five years.

*5. Income Taxes*

As a limited liability company, the Company is treated as a partnership for Federal and state income tax purposes. Accordingly, no provision has been made for income taxes in the accompanying financial statements, since all items of income or loss are required to be reported on the income tax returns of the members who are responsible for any taxes thereon.

The Company recognizes and measures its unrecognized tax benefits in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 740, Income Taxes. Under that guidance, management assesses the likelihood that tax positions will be sustained upon examination based on the facts, circumstances and information, including the technical merits of those positions, available at the end of each period. The measurement of unrecognized tax benefits is adjusted when new information is available or when an event occurs that requires a change.

Management has evaluated the Company's tax positions and has concluded that the Company has taken no uncertain tax positions that require any adjustments to the financial statements.

*6. Use of Estimates*

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

*7. Advertising costs*

Advertising costs are expensed as incurred and aggregated \$264,989 for the year ended December 31, 2019.

**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

*9. Recently Issued Accounting Pronouncements Not Yet Implemented*

In February 2016, FASB issued ASU No. 2016-02, Leases ("ASU 2016-02"). This update requires all leases with a term greater than 12 months to be recognized on the balance sheet through a right-of-use asset and a lease liability, and the disclosure of key information pertaining to leasing arrangements. This new guidance is effective for years beginning after December 15, 2020, with early adoption permitted. The Company is evaluating the effect that ASU 2016-02 will have on its financial statements and related disclosures, but has not yet determined the timing of adoption.

*10. Recently Implemented Accounting Pronouncements*

In May 2014, the FASB issued Accounting Standards Update ("ASU") No. 2014-09, Topic 606, with several clarifying updates issued subsequently. In conjunction with Topic 606, a new subtopic, ASC 340-40, Other Assets and Deferred Costs - Contracts with Customers, was also issued. The updated standard replaces most existing revenue recognition and certain cost guidance under GAAP. Collectively, we refer to Topic 606 and Subtopic 340-40 as "ASC 606." ASC 606 amends existing accounting standards for revenue recognition and establishes principles for recognizing revenue upon the transfer of promised goods or services to customers based on the expected consideration to be received in exchange for those goods and services. The Company adopted ASC 606 effective January 1, 2019 using the modified retrospective transition method. The adoption of ASU 2014-09 did not have an impact on the Company's financial statements but required enhanced footnote disclosures.
