The Villages Florida

The AlwaysNear TeleHealth Process enables seniors to “age-in-place”, vastly improving their quality-of-life, significantly reducing their “family caregiver’s” stress and helping bring under control the unsustainable costs of the current “reactive” approach to in-home senior healthcare. The AlwaysNear TeleHealth Process is positioned to become the standard for “proactive” in-home senior healthcare and the related substantial healthcare cost savings. According to a Medicare Study the AlwaysNear TeleHealth Process can increase a seniors longevity by 25% and reduce hospitalization by 40%. There is no known comparable process.
