New York, NY

Story is an early stage venture fund based in NYC. We invest in entrepreneurs with big visions that leverage technology and improved data processing capabilities to change the way people interact with the world. Sectors we target include cybersecurity, critical infrastructure (telecom, IT, finance), vertical AI/machine learning, and intelligent mobility, among others. The general approach is to invest across the data landscape from creation (e.g. sensors) to infrastructure (e.g. pipes/tubes of IT) to application (e.g. AI/ML).
