Please review your Wefunder profile carefully to ensure it provides all material information, is not false or misleading, and does not omit any information that would cause the information included to be false or misleading.

RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

The current PPE market is in flux with an unknown future. While research shows the mask market has grown from 4.35 Billion Units in 2018 to 81.19 Billion in 2020, and is expected to reach 166.64 Billion Units by 2026, there is no way to guarantee this growth.

Competition from China has already driven the price per mask to below pre-COVID numbers. While we continue to sell masks at 8x-10x Chinese prices there is no assurance that this will continue. We are betting on American's desire to purchase here in the United States.

Manufacturing has inherent risks such as mechanical and human error all of

which can effect outputs and delivery dates.

Raw material costs are outside of our control and can change our cost of goods sold. While we have estimated these costs high, it is still something that could adversely affect the business.

We have to store large quantities of raw materials and finished product at our warehouse outside Austin, TX. While we follow all applicable laws around safety and hold the proper amounts of insurance, these materials represent a risk of temporary loss to the business due to damage, fire, or theft.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **\$147,000**

Use of Proceeds: 92.5% to buying an automated surgical mask assembly line, 7.5% Wefunder fees

If we raise: **\$730,000**

Use of Proceeds: 19% buying automated mask assembly line; 10% for air freight and tariffs; 24% for installation, American design upgrades; 39.5% relevant share of factory's Meltblown, Spunbond, Cleanroom, and Packaging lines; and 7.5% to Wefunder

If we raise: **\$1,070,000**

Use of Proceeds: 13% buying automated mask assembly line; 7% for air freight and tariffs; 17% for installation and American design upgrades; 27% relevant share of factory's Meltblown, Spunbond, Cleanroom, and Packaging lines; 28.5% for additional automated assembly lines, and 7.5% to Wefunder

INSTRUCTION TO QUESTION 10: An issuer must provide a reasonably detailed description of any intended use of proceeds, such that investors are provided with an adequate amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each probable use and the factors the issuer may consider in allocating proceeds among the potential uses. If the issuer will accept proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating oversubscriptions, and intended use of the excess proceeds with similar specificity. Please include all potential uses of the proceeds of the offering, including any that may apply only in the case of oversubscriptions. If you do not do so, you may later be required to amend your Form C. Wefunder is not responsible for any failure by you to describe a potential use of offering proceeds.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

Book Entry and Use of XX Investments LLC as Transfer Agent and Custodian. Investments will be in book entry form. This means that the investor will not receive a certificate representing his or her investment. Each investment will be recorded in the books and records of our transfer agent, XX Investments LLC. XX Investments LLC will act as custodian and hold legal title to the investments for investors that enter into a Custodial and Voting Agreement with XX Investments LLC and will keep track of those investors' beneficial interests in the investments. In addition, investors' interests in the investments will be recorded in each investor's "My Investments" screen. The investor will also be emailed again the Investor Agreement and, if applicable, the Custodial and Voting Agreement. The Investor Agreement and, if applicable, the Custodial and Voting Agreement will also be available on the "My Investments" screen.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

An Investor's right to cancel. An Investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the Investor about the offering and/or the Company, the Investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the Investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the Investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the Investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the Investor will receive, and refund the Investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

In addition, we may cap at 450 the total number of investors who will be allowed to invest through the offering that are not "accredited investors," as defined in Rule 501(a) of Regulation D under the Securities Act of 1933. In the event that more than 450 non-accredited investors are initially accepted

into an offering in step (2) described in Question 11, the Company may cancel investments based on the order in which payments by Investors were received, or other criteria at the discretion of the Company, before the offering deadline.

Ownership and Capital Structure

THE OFFERING

13. Describe the terms of the securities being offered.

The Company is issuing Convertible Promissory Notes (the "Notes") and Royalty Participation Rights (the "Royalty Participation Rights" and, together with the Notes, the "Securities").

Interest rate: 2%

Maturity date: 48 months from the Effective Date.

Payment of Principal and Interest. Commencing with the calendar quarter in which Production Unit Profit is realized, the Company shall make payments on this Note within 20 calendar days of the end of each calendar quarter, until this Note, together with all accrued and unpaid interest, shall have been paid in full, in an amount equal the Holder's Pro Rata Share of **65%** of accrued Production Unit Profit for such calendar quarter. Notwithstanding the foregoing, the entire principal balance of this Note then unpaid, together with all accrued and unpaid interest, shall be due and payable in full on the Maturity Date. All payments on this Note shall be applied first to the payment of accrued but unpaid interest hereon and then to the payment of all or any portion of the principal balance outstanding hereunder.

Source, Amount and Timing of Royalty Payments. Commencing with the calendar quarter that ends immediately after the Note has been repaid in full, the Company shall pay to Investor within 20 calendar days of the end of each calendar quarter, royalty payments equal to the applicable percentage set forth on Exhibit B attached hereto (for the avoidance of doubt, such applicable percentage to be based on the cumulative Royalty Payments made to date) of accrued Production Unit Profit for such calendar quarter (the "Royalty Payments"). For the avoidance of doubt, any amounts paid pursuant to Section 2 of the Note shall be deducted from the Royalty Payments otherwise required to be paid for the quarter under this Agreement in which the Note has been repaid in full.

Financing Conversion. The entire outstanding principal amount of this Note, any accrued but unpaid interest and any other amounts payable under this Note may be converted, at the discretion of the Holder, into Qualified Financing Securities upon the closing of a Qualified Financing. In the event of such conversion, this Note shall be converted into that number of the applicable securities determined by dividing (i) the original principal amount of this Note by (ii) the Note Conversion Price.

Conversion or Payment upon Change of Control:

(a) Notwithstanding any other provision of this Note, if a Change of Control occurs where the consideration paid by an acquiring person (or persons) to the Company's stockholders or equity interest holders consists entirely of equity securities that are not publicly traded and listed on a national securities exchange, the then-outstanding principal amount of this Note and all accrued and unpaid interest on this Note shall automatically convert as of immediately prior to such Change of Control into a number of equity securities of the Company that represents a percentage ownership of the Company determined by dividing (expressed as a percentage) (i) the original principal amount of this Note by (ii) the Change of Control Value multiplied by 0.90.

(b) Notwithstanding any other provision of this Note, if a Change of Control occurs where the consideration paid by an acquiring person (or persons) to the Company's stockholders or equity interest holders does not consist entirely of equity securities that are not publicly traded and listed on a national securities exchange, the then-outstanding principal amount of this Note and all accrued and unpaid interest on this Note shall automatically convert as of immediately prior to such Change of Control into a number of equity securities of the Company that represents a

percentage ownership of the Company determined by dividing (expressed as a percentage) (i) the original principal amount of this Note by (ii) the lower of (x) the Change of Control Value multiplied by 0.80 and (y) \$25,000,000.

“Change of Control” means a change in ownership or control of the Company effected through any of the following transactions, in each case excluding a bona fide financing transaction effected primarily for capital raising purposes:

(a) a merger, consolidation or other reorganization approved by the Company’s stockholders, unless securities representing more than fifty percent (50%) of the total combined voting power of the voting securities of the successor corporation or its direct or indirect parent entity are immediately thereafter beneficially owned, directly or indirectly and in substantially the same proportion, by the persons who beneficially owned the Company’s outstanding voting securities immediately prior to such transaction;

(b) a stockholder-approved sale, transfer or other disposition of all or substantially all of the Company’s assets in liquidation or dissolution of the Company;

(c) the acquisition, directly or indirectly by any person or related group of persons (other than the Company or a person that directly or indirectly controls, is controlled by, or is under common control with, the Company), of beneficial ownership (within the meaning of Rule 13d-3 of the Securities Exchange Act of 1934, as amended) of securities possessing more than fifty percent (50%) of the total combined voting power of the Company’s outstanding securities pursuant to a stock purchase transaction or a tender or exchange offer made directly to the Company’s stockholders; or

(d) the exclusive licensing of all or substantially all of the Company’s intellectual property in a single transaction or series of related transactions.

“Note Conversion Price” means the lowest per share purchase price paid for the Qualified Financing Securities by the investors of new money in the Qualified Financing.

“Qualified Financing” means the next transaction (or series of related transactions) after the date of this Note and before Maturity in which the Company issues and sells shares of its equity securities in exchange for aggregate gross proceeds of at least \$5,000,000 (excluding amounts deemed received upon conversion of the Notes and any other indebtedness or similar convertible securities), with the principal purpose of raising capital.

Source, Amount and Timing of Royalty Payments. Commencing with the calendar quarter that ends immediately after the Note has been repaid in full, the Company shall pay to Investor within 20 calendar days of the end of each calendar quarter, royalty payments equal to the applicable percentage set forth on Exhibit B attached hereto (for the avoidance of doubt, such applicable percentage to be based on the cumulative Royalty Payments made to date) of accrued Production Unit Profit for such calendar quarter (the “Royalty Payments”). For the avoidance of doubt, any amounts paid pursuant to Section 2 of the Note shall be deducted from the Royalty Payments otherwise required to be paid for the quarter under this Agreement in which the Note has been repaid in full.

SAFE Conversion. At any time after (a) the Note has been repaid in full, and (b) the board of directors of the Company determines to change the strategic direction of the Company, the Company at its discretion and upon notice to the Investor, may convert this Right to an uncapped, undiscounted Simple Agreement for Future Equity (SAFE) substantially in the form as referenced in Exhibit A, with a principal amount equal to the Investment Unit Price.

Applicable Percentage of Production Unit Profit payable and Total Royalty Payment made:

- **20%: Until 1x** in cumulative Royalty Payments have been made- **15%: Until 2x** in cumulative Royalty Payments have been made
- **10%: Until 3x** in cumulative Royalty Payments have been made
- **5%: Until the Right is terminated or converted pursuant to its terms**

Irrevocable Proxv. The Investor and his, her, or its transferees or assignees

(collectively, the "Investor"), through a power of attorney granted by Investor in the Investor Agreement, will appoint XX Team LLC ("XX Team") as the Investor's true and lawful proxy and attorney (the "Proxy"), with the power to act alone and with full power of substitution, on behalf of the Investor to:

direct the voting of all securities purchased through wefunder.com, and to direct the exercise of all voting and other rights of Investor with respect to the Company's securities, and

direct, in connection with such voting power, the execution of any instrument or document that XX Team determines is necessary and appropriate in the exercise of its authority. Such Proxy will be irrevocable. If an investor has entered into the Custodial and Voting Agreement with XX Investments LLC ("XX Investments"), then XX Investments will be the entity that XX Team directs to vote and take any other actions in connection with such voting (including the execution of documents) on behalf of such investor.

Repurchase. If the Company determines, in its sole discretion, that it is likely that within six months the securities of the Company will be held of record by a number of persons that would require the Company to register a class of its equity securities under the Securities Exchange Act of 1934, as amended ("Exchange Act"), as required by Section 12(g) or 15(d) thereof, the Company shall have the option to repurchase the securities from each Investor for the greater of

the purchase price of the securities, and
the fair market value of the securities, as determined by an independent appraiser of securities chosen by the Company. The foregoing repurchase option will terminate upon a Change of Control or Dissolution Event (each as defined in the Company's Subscription Agreement).

See exact security attached as [Appendix B, Investor Contracts](#).

14. Do the securities offered have voting rights?

- Yes
 No

15. Are there any limitations on any voting or other rights identified above?

- Yes: No Voting Rights
 No: Irrevocable voting proxy granted to XX Team.

16. How may the terms of the securities being offered be modified?

This Agreement (including the schedules and exhibits hereto), the other Transaction Documents, and the documents and certificates delivered in connection with the Closings constitute the entire agreement among the parties relating to the subject matter hereof and thereof. No party shall be liable or bound to any other party in any manner by any warranties, representations, or covenants except as specifically set forth herein or therein.

RESTRICTIONS ON TRANSFER OF THE SECURITIES BEING OFFERED:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

1. to the issuer;
2. to an accredited investor;
3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child,

stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

DESCRIPTION OF ISSUER'S SECURITIES

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Securities (or Amount) Authorized	Securities (or Amount) Outstanding	Voting Rights
Class B Common	8,500,000	3,604,166	Yes <input type="button" value="v"/>
Class C Common	1,500,000	1,500,000	Yes <input type="button" value="v"/>

Class of Security	Securities Reserved for Issuance upon Exercise or Conversion
Warrants:	0
Options:	0

Describe any other rights:

No liquidation preferences but Class B has special protections over change of control.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

Because the Investor holds no voting rights in the company, the holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering). These decisions could affect gross revenues and diminish payments made to Investors.

Based on the risk that the company may never realize revenues or face a Default Event, the Investor may never see any returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, the shareholders may make decisions with which the Investor disagrees, or that negatively affect the gross revenues of the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, the shareholders may change the terms of the articles of incorporation for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. The shareholders may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or

disadvantage with respect to any decisions regarding the securities he or she owns.

The shareholders have the right to redeem their securities at any time. The shareholders could decide to force the Company to redeem their securities at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability.

In cases where the rights of holders of convertible debt, SAFEs, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be negatively affected.

Based on the risks described above, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

The value of the promissory notes will be determined by the Company's senior management in accordance with U.S. generally accepted accounting principles. For example, the notes may be valued based on principal plus anticipated interest payments over the course of the term of the note.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the promissory notes holds no position in the Company and will have no voting rights in the Company, and thus will be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its board of directors, and the Investor will have no independent right to name or remove an officer or member of the board of directors of the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value

for shareholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company and the Board of Directors of the Company. If the Board Of Directors of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Compute the amount of a related party's interest in any transaction without regard to the amount of the profit or loss involved in the transaction. Where it is not practicable to state the approximate amount of the interest, disclose the approximate amount involved in the transaction.

Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

We manufacture FDA-Registered Surgical and N95 Masks in our own custom-built 45,000 square foot factory--located just outside of Austin, TX.

In less than 5 months, we built an automated factory capable of producing millions of masks per day. In 5 years, we hope to be producing over 1,000 products--all that take advantage of huge macro trends happening today like Automation, Direct to Consumer, Environmentalism, low energy costs, USA Made, and a changing US Job Market that needs a manufacturing rebirth to survive.

Milestones

Armbrust Inc. was incorporated in the State of Delaware in October 2018.

Since then, we have:

- We are proven team with several previous exits, lead by a former Y Combinator founder who has raised over \$10M and built multiple companies with revenues in the tens of millions annually.
- We took less than five months to build the second-largest mask factory in the United States, making over \$6M in revenue with \$14M annual run rate.
- We received FDA-Registration and ASTM Level 2 certification to sell Surgical Masks faster than anyone has before, and we are 60 days away from N95 approval.
- In the three months since launching our website, we have processed more than 3.5M direct to consumer orders, and have direct deals with the State of Texas, the States of Illinois, and large hospital systems like Kaiser Permanente.

Historical Results of Operations

Our company was organized in October 2018 and has limited operations upon which prospective investors may base an evaluation of its performance.

- *Revenues & Gross Margin* For the period ended December 31, 2019, the

revenues & gross margin. For the period ended December 31, 2019, the Company had revenues of \$0 compared to the year ended December 31, 2018, when the Company had revenues of \$0.

- *Assets.* As of December 31, 2019, the Company had total assets of -\$12, including -\$12 in cash. As of December 31, 2018, the Company had \$90 in total assets, including \$90 in cash.
- *Net Loss.* The Company has had net losses of -\$202, and net income of -\$2,532 for the fiscal years ended December 31, 2019 and December 31, 2018, respectively.
- *Liabilities.* The Company's liabilities totaled \$2,581 for the fiscal year ended December 31, 2019 and \$2,581 for the fiscal year ended December 31, 2018.

Liquidity & Capital Resources

To-date, the company has been financed with \$4,542,297 in debt.

After the conclusion of this Offering, should we hit our minimum funding target, we expect to continue to be cashflow positive.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 24 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

Armbrust Inc. cash in hand is \$1,687,453.88, as of September 2020. Over the last three months, revenues have averaged \$1,883,457.64/month, cost of goods sold has averaged \$1,006,015.46/month, and operational expenses have averaged \$1,095,452.02/month, for an average burn rate of \$218,009.84 per month.

We started producing masks, selling direct to consumers and to governments and institutions. This has caused us to generate \$7.27mm in less than six months of operation.

We hope revenues will increase to over \$3mm per month breaking \$36mm annual run rate before Q1 2021. These projections cannot be guaranteed.

We primarily fund the business from sales direct from over 50,000 consumer accounts and hundreds of enterprise accounts. If existing consumer sales were to evaporate we could sustain the business on current capital and enterprise contracts for the next 24 months.

INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.

OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in this Form, include:

- (1) any other material information presented to investors; and
- (2) such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

The Company is using the services of XX as part of its offering. XX is comprised of XX Investments, LLC, XX Team LLC, and the Lead Investors who provide services on behalf of XX Team LLC. The services of XX are available to companies that offer securities through Wefunder Portal LLC and to investors who invest in such companies through Wefunder Portal, but XX is not affiliated with Wefunder Portal or its affiliates.

XX Investments is the Company's transfer agent and also acts as custodian, paying agent, and proxy agent on behalf of all investors that enter into the Custodial and Voting Agreement with XX Investments through the Wefunder Portal website ("Investors"). XX Investments holds legal title to the securities the Company issues through Wefunder Portal (which are uncertificated) on behalf of Investors. Investors, in turn, hold the beneficial interests in the Company's securities. XX Investments keeps track of each Investor's beneficial ownership interest and makes any distributions to the Investors (or other parties, as directed by the Investors).

In addition to the above services, at the direction of XX Team, XX

Investments votes the securities and take any other actions in connection with such voting on behalf of the Investors. XX Investments acts at the direction of XX Team, because XX Team holds a power of attorney from each Investor that has entered into the Investor Agreement to make voting decisions on behalf of that Investor. XX Investments will not charge Investors for its services. XX Investments does charge the Company \$1,000/year for services; however, those fees may be paid by Wefunder Inc. on behalf of the Company.

As noted, XX Team holds a power of attorney from each Investor that has entered into the Investor Agreement to make voting decisions on behalf of that Investor. Pursuant to the power of attorney, XX Team will make voting decisions and then direct XX Investments to vote and take any other actions in connection with the voting on Investors' behalf. XX Team will act, with respect to the Company, through our Lead Investor, who is a representative of XX Team. As compensation for its voting services, each Investor authorizes XX Investments to distribute to XX Team 10% of any distributions the Investor would otherwise receive from the Company. XX Team will share its compensation with our Lead Investor. XX Team, through our Lead Investor, may also provide consulting services to the Company and may be compensated for these services by the Company; although, fees owed by the Company may be paid by Wefunder Inc. XX Team will share its consulting compensation with our Lead Investor.

The Lead Investor is an experienced investor that we choose to act in the role of Lead Investor, both on behalf of the Company and on behalf of Investors. As noted, the Lead Investor will be a representative of XX Team and will share in compensation that XX Team receives from the Company (or Wefunder Inc. on the Company behalf) or from Investors. The Lead Investor will be chosen by the Company and approved by Wefunder Inc., and the identity of the Lead Investor must be disclosed to Investors before Investors make a final investment decision to purchase the Company's securities. Investors will receive disclosure regarding all fees that may be received by the Lead Investor. In addition to the fees described above, the Lead Investor may receive compensation if, in the future, Wefunder Advisors LLC forms a special purpose vehicle ("SPV") for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such a circumstance, the Lead Investor may act as a portfolio manager for that SPV (and as a supervised person of Wefunder Advisors) and may be compensated through that role. Although the Lead Investor may act in multiple roles and be compensated from multiple parties, the Lead Investor's goal is to maximize the value of the Company and therefore maximize the value of the Company's securities. As a result, the Lead Investor's interests should always be aligned with those of the Investors.

Investors that wish to purchase the Company's securities through Wefunder Portal must agree to (1) hire XX Investments to serve as custodian, paying agent, and proxy agent with respect to the Company's securities; (2) give a power of attorney to XX Team to make all voting decisions with respect to the Company's securities; and (3) direct XX Investments to share 10% of the Investor's distribution from the Company with XX Team. The Company may waive these requirements for certain investors with whom the Company has a pre-existing relationship.

The XX arrangement described above is intended to benefit the Company by allowing the Company to reflect one investor of its capitalization table (XX Investments) and by simplifying the voting process with respect to the Company's securities by having one entity (XX Team), through one person (the Lead Investor), make all voting decisions and having one entity (XX Investments) carry out XX Team's voting instruments and any take any related actions. The XX arrangement also is intended to benefit Investors by providing the services of an experienced Lead Investor (acting on behalf of XX Team) who is expected to make value-maximizing decisions regarding Investors' securities. XX Team (acting through the Lead Investor) may further benefit both the Company and Investors by providing consulting services to the Company that are intended to maximize both the value of the Company's business and also the value of its securities.

- (b) a description of the format in which such disclosure is presented; and*
- (c) in the case of disclosure in video, audio or other dynamic media or format, a transcript or description of such disclosure.*

33. Once posted, the annual report may be found on the issuer's website at:
