We create men's luxury apparel and accessories while maximizing investor value

LEAD INVESTOR

Andrew S. Hirsch

I invested with Oxford Hounds as I feel this company is redefining how the male luxury customer shops for fashion apparel and accessories as they are an on line only company which means a far more efficient way to engage the customer and earn significant profits. Furthermore online will continue to dominate over the retail space and only continue to grow in the future. I highly recommend you research this company and it's founder and board.

A lifelong Dream come true.....

"I have dedicated my love for men's fashion and pursuit of excellence to create something that people are proud to wear"

My name is James Tulin and I am the Founder and CEO of Oxford Hounds.

I started Oxford Hounds from a vision I've had for decades. To create products that reflected my love for classic men's fashion while providing the absolute very best superior quality products that people would love and be proud to wear.

- Innovative and timeless designs that looks great, easy to wear and never goes out of style.
- Products that offer amazing value the consumer can easily recognize.
- Customer care and attention in the exact same manner as I would expect to receive.

After spending a lifetime in the men's fashion space I realized many fashion brands have sacrificed quality for profits. They rely on brand reputation as opposed to how they can provide the customer with a superior quality product without inflating prices

Oxford Hounds is a direct reflection of ME; my passion for men's fashion, relentless pursuit of excellence and a company built on the same moral values instilled in me since childhood.

A Cause Worth Fighting For

Aside from the love for our craft, we have another passion that we are compelled

to pursue.

There are more than 48M homeless dogs and cats in the US struggling to survive.

Below are four of the more fortunate ones; our superstars. They are the lucky ones as we rescued all four. 😊🐾

Most are not as fortunate as Daisy, Winston, Sidney and Chili as they rely on us as caring human beings to help them live a better life.

At Oxford Hounds, we are driven to help those in need by contributing 10% of our personal income to organizations that support homeless and sheltered animals. We have further plans to build support service facilities to fulfill our dream that one day all animals live happy and fruitful lives.

We Are Only As Good As The People By Our Side

Any successful organization relies on the strength and character of its people.

It takes talent, dedication, loyalty and teamwork to make any endeavor successful.

Our cast of talent is world class with exceptional skills and relentless

dedication.

The average tenure at our former company, Swank Inc, was 32.5 years! That was not accidental.

We built Oxford Hounds from the same blueprint that provided immeasurable success for our former company for 115 years.
