Offering Statement

Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

Investment in the film industry is highly speculative and inherently risky. There can be no assurance of the economic success of any motion picture since the revenues derived from the production and distribution of a motion picture primarily depend on its acceptance by the public, which cannot be predicted. The commercial success of a motion picture also depends on the quality and acceptance of other competing films released into the marketplace at or near the same time, general economic factors, and other tangible and intangible factors, all of which can change and cannot be predicted with certainty.

The Company itself is in the organizational stage and is subject to all the risks incident to the creation and development of a new business. In order to prosper, the success of the Company's film will depend partly upon the ability of management to produce a film of exceptional quality at a lower cost that can compete in appeal with high-budgeted films of the same genre. In order to minimize this risk, management plans to participate as much as possible throughout the process and will aim to mitigate financial risks where possible. Fulfilling this goal depends on the timing of investor financing, the ability to obtain distribution contacts with satisfactory terms, and the continued participation of the current management.

Recently Organized Company. The Company was recently organized. There can be no assurance that the Company's business plans will prove successful, and there is no assurance that the Company will be able to operate profitably.

Declaration and Payment of Distributions; Future Distributions are not guaranteed. Payment of future distributions and the amounts thereof will be dependent upon the Company' earnings, financial requirements, and other factors. No assurances can be given that the Company will operate profitably or declare and pay any future distributions. Any future return on investment to investors will depend upon successful operation of the Company.

Arbitrary Offering Price. Prior to the Offering made hereby, there has been no market for the Units. The offering price of the Units has been arbitrarily determined by the Company. Among the factors considered in determining such offering price were the Company's current financial conditions, the degree of control, which the current members desire to retain, and an evaluation of the financing required in order to complete production of the Film. The offering price set forth herein should not, therefore, be considered an indication of the actual value of the Units.

Desiree Staples is active in the entertainment industry. They may be involved in other projects including other films.

COVID 19 - The recent outbreak of COVID 19 across the globe has created additional challenges for independent filmmakers, production companies, and the entertainment industry as a whole, the final outcome of which is impossible to predict. Although the production company is staying optimistic and adaptable in their efforts to deliver a viable film to the market for their investors, the situation has created an additional risk that has never been seen before in the history of film. As the world continues to go through this change, it is only natural that the traditional infrastructure, markets, and revenue streams will continue to change.

additional infrastructure, markets, and revenue streams will continue to change with it, with no guarantee of success. The final result of COVID 19 on the entertainment industry and the world at large is completely outside of the production company's control, and a total loss of principle investment could be one such outcome. This risk needs be accepted and acknowledged by anyone looking to invest during this time.

All the members of the LLC are working in the entertainment industry and may be working on other films and projects at the same time.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **\$150,000**

Use of Proceeds: In reaching \$150,000 we would have the budget we would need to make the film in principal photography and post production. We would be able to lock such main categories including crew, cast, equipment and locations. The use of funds would divide at this budget at: 22.5% Crew, 15% Hero Cast, Supporting Roles, Background, 10% Camera, Lighting, Grip, and Sound Equipment, 10% Locations, Offices, Trucking, Production Supplies, 8% Production and Costume Design, 8% Covid-19 Compliance, 6% Crafty/Catering, 13% Post Production (editing, sound design, music, color correction), 7.5% WeFunder Fee.

If we raise: **\$290,000**

Use of Proceeds: With \$290,000 we will have the ability to cast more name talent in our leading roles. This would additionally aid us in the goal of securing a top-tier sales agent and PR agent to the project, maximizing the potential to work with our ideal distributor. Reaching the goal of \$290K would allow us to shoot Principal Photography for more days, and with additional high-production value film equipment (drones, dollies, rigs). We also could be able to implement the use of multiple cameras that would speed filming considerably. The use of funds would divide at this budget at:

22.5% Crew, 15% Hero Cast, Supporting Roles, Background, 10% Camera, Lighting, Grip, and Sound Equipment, 10% Locations, Offices, Trucking, Production Supplies, 8% Production and Costume Design, 8% Covid-19 Compliance, 6% Crafty/Catering, 13% Post Production (editing, sound design, music, color correction), 7.5% WeFunder Fee.

INSTRUCTION TO QUESTION 10: An issuer must provide a reasonably detailed description of any intended use of proceeds, such that investors are provided with an adequate amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each probable use and the factors the issuer may consider in allocating proceeds among the potential uses. If the issuer will accept proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating oversubscriptions, and intended use of the excess proceeds with similar specificity. Please include all potential uses of the proceeds of the offering, including any that may apply only in the case of oversubscriptions. If you do not do so, you may later be required to amend your Form C. Wefunder is not responsible for any failure by you to describe a potential use of offering proceeds.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

If we reach our target offering amount prior to the deadline, we may conduct an initial closing of the offering early if we provide notice about the new offering deadline at least five business days prior to the new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Wefunder will notify investors if we conduct an initial closing. Thereafter, we may conduct additional closings from time to time at our and Wefunder's discretion until the deadline date.

The following describes the process to invest in the Company, including how the Company will complete an Investor's transaction and deliver securities to the investor.

Investor Commitment. The Investor will submit, through Wefunder Portal, a requested investment amount. When doing so, the Investor will also execute an investment contract with the Company ("Investment Agreement"), using the Investor's electronic signature.

Acceptance of the Investment. If the Investor Agreement is complete, the Investor's commitment will typically be recorded within a few minutes. The commitment will also be available on the Investor's "My Investments" screen on the wefunder.com website. After the offering closes, the contract will be counter-signed by the Company. The executed investment contract will then be sent to the investor via email, and is also available to download on the "My Investments" screen.

Investor Transfer of Funds. Upon receiving confirmation that an investment has been accepted, the Investor will be responsible for transferring funds from a source that is accepted by Wefunder Portal into an escrow account held with a third party bank on behalf of issuers offering securities through Wefunder Portal.

Progress of the Offering. The Investor will receive periodic email updates on the progress of the offering, including total amounts raised at any given time, and will be notified by email and through the "My Investments" screen when the target offering amount is met.

Closing: Original Deadline. Unless we meet the target offering amount early, Investor funds will be transferred from the escrow account to the Company on the deadline date identified in the Cover Page to this Form C and the Company's Wefunder Portal Profile.

Early Closings. If the target offering amount is met prior to the original deadline date, we may close the offering earlier, but no less than 21 days after the date on which information about the Company, including this Form C, is posted on our Wefunder Portal Profile. We will reschedule the offering deadline, and at least five days prior to the new deadline, investors will receive notice of it by email and through the "My Investments" screen. At the time of the new deadline, your funds will be transferred to the Company from the escrow account, provided that the target offering amount is still met after any cancellations.

Book Entry. Investments may be in book entry form. This means that the investor may not receive a certificate representing his or her investment. Each investment will be recorded in our books and records and will be recorded in each investors' "My Investments" screen. The investor will also be emailed the Investment Agreement again. The Investment Agreement will also be available on the "My Investments" screen. At the option of the Company, you may receive an electronic certificate.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

An investor's right to cancel. An investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the investor about the offering and/or the Company, the investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the investor will receive, and refund the investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

In addition, we may cap at 450 the total number of investors who will be allowed to invest through the offering that are not "accredited investors," as defined in Rule 501(a) of Regulation D under the Securities Act of 1933. In the event that more than 450 non-accredited investors are initially accepted into an offering in step (2) described in Question 11, the Company may cancel investments based on the order in which payments by investors were received, or other criteria at the discretion of the Company, before the offering deadline.

Ownership and Capital Structure

THE OFFERING

13. Describe the terms of the securities being offered.

Revenue Participation Agreement

See exact security attached as Appendix B, Investor Contracts.

SHARE OF REVENUE. Subject to the terms and conditions hereof, Gross Proceeds (as defined in Section 4.0 in the attached contract) shall be allocated in the following manner and order of priority:

First, if necessary, Production Company shall have the right to repay any first priority indebtedness and advances incurred by Company provided that such debt is used by Production Company towards the production of the Picture.

Second, Funder shall receive its proportionate share of one hundred percent (100%) of the remaining amount of income from the exploitation of the Picture on a pro rata pari passu basis with other Funders, and any Additional Funders, if any, until Funder, all other Funders, and Additional Funders have recouped **one hundred and ten percent (110%)** of their investment. For purposes of this Agreement, "Additional Funders" is defined as persons or entities that provide any additional funds required to produce and market the Picture, including, without limitation, equity funding, loans, advances, bonds, and guarantees.

Third, Funder, other Funders, and Additional Funders, if any, whose contributions

make up a portion of the **first One Hundred Thousand (\$100,000) dollars** raised for production of the Picture shall receive, as an **“Early Bird Bonus”**, their proportionate share of one hundred percent (100%) of the remaining amount of income from exploitation of the Picture (after the payments made pursuant to Paragraphs 3.1 and 3.2 in the attached agreement), until they have recouped a total (inclusive of amounts recouped pursuant to Paragraph 3.2 in the attached agreement) of **one hundred and twenty percent (120%)** of their investment.

Third, Funder shall receive its proportionate share of **fifty percent (50%) of the “Net Profits”** of the Picture on a pro rata pari passu basis with other Funders and Additional Funders, if any. The definition of “Net Profits” applicable to Funder will be the same as that accorded to Company by all Funders and Additional Funders of the Picture and, in no event will the definition, calculation and accounting of “Net Profits” (including, without limitation, the frequency of accounting) applicable to Funder be less favorable than that accorded to any other participant therein.

GROSS PROCEEDS. As used herein, “Gross Proceeds” shall mean any and all amounts received by Production Company from the exploitation of the Picture and all elements thereof and all rights therein, in any and all manner and media, now known or hereafter devised, worldwide, in perpetuity, after deduction of the following:

- (a) third party sales agent fees;
- (b) actual, third party, out of pocket amounts incurred by or on behalf of Production Company in connection with the sale, marketing, licensing, delivery, distribution and/or exploitation of the Picture;
- (c) ongoing third party accounting costs and expenses actually incurred by or on behalf of Production Company in connection with the processing of payments to profit participants (including, without limitation, collection agent fees and expenses), and audit costs;
- (d) any deferred compensation and bonuses (including, without limitation, gross or net receipts participations, box office bonuses, award bonuses, and the like) payable to parties rendering services in connection with the Picture (to the extent not assumed by distributors of the Picture);
- (e) any reasonable reserve amounts, as determined by Production Company in its good faith business judgment, required to cover anticipated future costs or liabilities.

CREDIT. Funders investing a minimum of Forty Thousand (\$40,000) dollars shall receive an “Executive Producer” credit in the main titles of the Picture and Funders investing a minimum of One Thousand (\$1,000) dollars shall receive a “Special Thanks” or “Thank You” credit in the end titles of the Picture.

PREMIERE. Funders investing at least Ten Thousand (\$10,000) dollars will receive an invitation to attend the ‘cast and crew’ premiere, if any, of the Picture, or the US commercial premiere, if any, as selected by Production Company. Funder shall be solely responsible for any travel and other expenses related to such attendance.

14. Do the securities offered have voting rights?

- ☐ Yes
- ☒ No

15. Are there any limitations on any voting or other rights identified above?

- ☒ Yes: No Voting Rights
- ☐ No:

16. How may the terms of the securities being offered be modified?

This Agreement contains the entire understanding of the Parties relating to the subject matter herein, and supersedes all other agreements between the Parties whether written or oral relating thereto, and may not be modified or amended except by written instrument executed by both of the parties hereto.

RESTRICTIONS ON TRANSFER OF THE SECURITIES BEING OFFERED:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

- 1. to the issuer;
- 2. to an accredited investor;
- 3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
- 4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term “accredited investor” means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term “member of the family of the purchaser or the equivalent” includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term “spousal equivalent” means a cohabitant occupying a relationship generally equivalent to that of a spouse.

DESCRIPTION OF ISSUER'S SECURITIES

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Securities (or Amount)	Securities (or Amount)	Voting Rights
	Authorized	Outstanding	
	This is an LLC with no issued units.		

Class of Security	Securities Reserved for Issuance upon Exercise or Conversion	
	Warrants:	Options:

Describe any other rights:

The managing members have a split of voting interests, which entitles them to vote, and economic interests, which entitles them to share net profits and lost

losses of the company. Investors in this offering would not be receiving either voting interests or economic interests.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

Because the Investor holds no voting rights in the company, the holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering). These decisions could affect gross revenues and diminish payments made to Investors.

Based on the risk that the company may never realize revenues or face a Default Event, the Investor may never see any returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, the **unitholders** may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, the **unitholders** may change the terms of the operating agreement for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. The **unitholders** may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

The **unitholders** have the right to redeem their securities at any time. **Unitholders** could decide to force the Company to redeem their **securities** at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability.

In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional units, an Investor's interest will typically also be diluted.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

In the future, we will perform valuations of our common units that take into account factors such as the following:

- unrelated third party valuations of our common units;
- the price at which we sell other securities, such as convertible debt or preferred units, in light of the rights, preferences and privileges of our those securities relative to those of our common units;
- our results of operations, financial position and capital resources;
- current business conditions and projections;
- the lack of marketability of our common units;
- the hiring of key personnel and the experience of our management;
- the introduction of new products;
- the risk inherent in the development and expansion of our products;
- our stage of development and material risks related to our business;
- the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
- industry trends and competitive environment;
- trends in consumer spending, including consumer confidence;
- overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
- the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be

upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Management, and the Investor will have no independent right to name or remove an officer or member of the Management of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from unitholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company to manage the Company so as to maximize value for unitholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company. If the Management of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its unitholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

24. Describe the material terms of any indebtedness of the issuer:

26. Was or is the issuer or any entities controlled by or under common control with the issuer a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(6) of the Securities Act during the preceding 12- month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:

3. if the issuer was incorporated or organized within the past three years, any promoter of the issuer;
4. or (4) any immediate family member of any of the foregoing persons.

☐ Yes
☒ No

INSTRUCTIONS TO QUESTION 26: The term transaction includes, but is not limited to, any financial transaction, arrangement or relationship (including any indebtedness or guarantee of indebtedness) or any series of similar transactions, arrangements or relationships.

Beneficial ownership for purposes of paragraph (2) shall be determined as of a date that is no more than 120 days prior to the date of filing of this offering statement and using the same calculation described in Question 6 of this Question and Answer format.

The term "member of the family" includes any child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the person, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Compute the amount of a related party's interest in any transaction without regard to the amount of the profit or loss involved in the transaction. Where it is not practicable to state the approximate amount of the interest, disclose the approximate amount involved in the transaction.

Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

Our company produces female driven independent feature films and is committed to inclusivity and underrepresented artists in front and behind the camera. We produce these films on a indie budget, with fantastic recognizable name talent, and the goal of releasing the films nationally and worldwide. We are looking to shoot this film in the Spring of 2021, with the plan of MY DIVORCE PARTY having it's film festival premiere debut in 2022, after post-production is completed. During MY DIVORCE PARTY'S festival circuit we would also ideally pair with a sales agent for national, international, and worldwide distribution. These projections cannot be guaranteed. Given the Company's limited operating history, the Company cannot reliably estimate how much revenue it will receive in the future, if any.

Milestones

My Divorce Party LLC was incorporated in the State of California in August 2020.

Since then, we have:

- Our team has 40+ combined years of producing experience!
- Our producers' films have premiered at Sundance, SXSW, Tribeca, Aspen, Outfest, ITVFest, and more!
- Writer/Director Heidi Weitzer was a 2018 Stowe Story Labs Fellow and 2018 Final Draft Semi-Finalist.
- Desiree Staples and Sam Fox's "Circus Person" won the Nashville Film Fest Audience Award in 2020.
- Our cinematographer Diana Matos' work was featured in Golden Globe winning feature "The Farewell."
- Heidi Weitzer won the LA Comedy Fest Original Pilot Competition in 2018.
- This film is written by, directed by, produced by, and stars all women-identifying filmmakers.

Historical Results of Operations

Our company was organized in August 2020 and has limited operations upon which prospective investors may base an evaluation of its performance.

- *Revenues & Gross Margin.* For the period ended August 31, 2020, the Company had revenues of \$0.
- *Assets.* As of August 31, 2020, the Company had total assets of \$2,500, including \$0 in cash.
- *Net Loss.* The Company has had net loss of \$1,125 for 2020.
- *Liabilities.* The Company's liabilities totaled \$0 for 2020.

Liquidity & Capital Resources

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 6 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

My Divorce Party LLC cash on hand is \$10,000, as of December 2020. Over the last three months, revenues have averaged \$0/month, cost of goods sold has averaged \$0/month, and operational expenses have averaged \$3,000/month, for an average burn rate of \$3,000 per month. Our intent is to be profitable in 36 months.

The only material changes or trends in our finances/operations are that we have had monthly expenses for the past 3 months of \$3,000 including the graphic design, the poster art photo shoot, and legal fees. Everything else is the same from August 31st, 2020.

We do not project any revenue besides funds raised through WeFunder and additional outside investors. And any expenses will be related to fundraising efforts.

Currently at this time, we do not have any sources of capital on which to rely.

INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on

financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.
