Our Team

Nathan Kivi CEO & Founder of HotelierCo

With 17 years of experience in corporate finance, investment banking, asset management, fund management experience, Nathan has a track record in roles including Chief Investment Officer for SB&G and Chief Strategy Officer for Valor Hospitality.

My background is in hotel funds management with spending time working for a large brand (IHG) and a hotel management company (Valor). I had always wished I could have invested some of my own money into these hotels - but at the time no avenue existed to allow for this. With crowdfunding this is now possible, look out hospitality!

Scott Levine Head of Capital Markets & Founder of THE WAXHAW

Redefining hospitality investment

Our goal is to build a portfolio of boutique hotels that are developed with the support of a community that values exceptional, sustainable, and locally inspired hospitality experiences.

For our current hotels, each founder has a great vision. Together we amplify their story while allowing the community to become involved through crowdfunding.

The independent boutique market

Independent boutique hotels represent the authenticity of unique accommodation. With a built-in sense of discovery, these properties are design centric and found in a variety of forms including edgy, eclectic, luxurious and minimalistic hip.

Programming, connection with surroundings, food and beverage, and creative thought are essential to the success of this hotel type.

About us & our business model

- Investors are investing in our management company that has equity and 100% control of two properties with a third contracted to close in August.
- Despite being pre-rev, 15% of our post-money value (at maximum subscription) would be backed by physical hotel assets.
- We are on track to be revenue-generating by Sept 2023 with the purchase of our third property.

Management Fees
A percentage of the asset value – for our first three assets it will be 0.75%.

Investment Returns
Profit from our equity investment in our hotels.

Promote
Ard incentive payment for strong performance at a hotel. Our first assets have a preferred return hurdle then receive 30-35% of the performance above the hurdle.

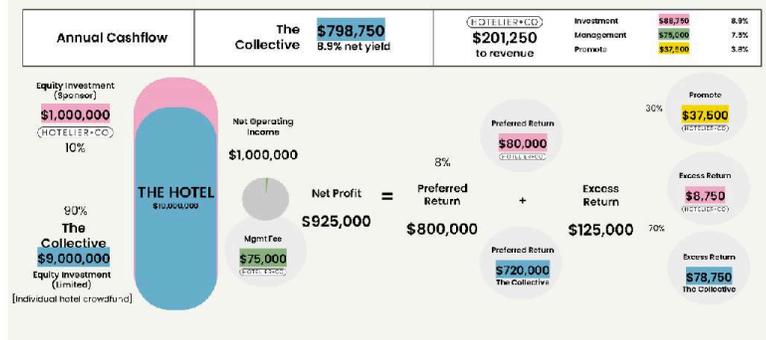

Development Fees
A payment for running hotel development projects (i.e. The Waxhaw and The Railroader).

Our goal is to have each individual hotel accessible to our investors, who we call “The Collective”.

Below is an example of what a typical flow of funds looks like for assets managed by HotelierCo, and how these funds are split between HotelierCo (*as revenue*) and to The Collective (*as a net investment return*).

Business model example: \$10 million hotel

We have two exciting hotel development projects underway. The first project takes place in Clifton Forge, Virginia, where we have acquired an existing commercial building. Drawing inspiration from the town’s rich heritage in rail transportation, we are curating an extraordinary upscale lifestyle hotel. Guests will be immersed in the charm of yesteryears, as the rooms will be thoughtfully themed on some of the earliest passenger cars.

Our second venture is set in the historic town of Waxhaw, North Carolina, renowned for its prestigious past and traditional allure. Embracing the town’s cultural significance, we are eager to involve the town in this exciting endeavor.

Our third project is already under contract and is on track to close in August 2023. More details on these:
